Note on Photographs	Scene Reports CRI 31 through 35	All 35mm film was given to Jefferson County Sheriff's Office for processing by their laboratory. JCSO gave each team one set of that team's photos. Those photos were numbered, placed in photo sleeves, and presented to JCSO as part of each team report. The CBI Denver case file has one set of contact sheets for two rolls of film taken by Griffin during the preliminary walk-through of the school prior to team processing. These have not been duplicated due to the presence of victims in the photos. Photocopies of "Polaroid" photos taken by Team 2 members for recording measurements are included with CRI 32.

Mr. Carl Whiteside
Colorado Bureau of Investigation
690 Kipling St., Suite 3000
Lakewood, CO 80215

ATTENTION: CBI LABORATORY

REFERENCE: HOMICIDE
CASE NO.: 99-7625
VICTIM: COLUMBINE H. S.
SUSPECT: HARRIS, ERIC & KLEIBOLD, DYLAN

Dear Mr. Whiteside,

On April 20, 1999 an incident occurred at Columbine high School involving two gunman, resulting in the death of thirteen victims and the possible suicide of the two suspects. CBI's Crime Scene processing teams were called in to process the scene, We are submitting the following evidence for analysis and processing. I have already spoken with the primary analyst, Tom Griffin, and we are leaving the type of processing needed open to your analysts.

We would like you to examine the following evidence for analysis.

1. JCSO Item #900, Shotgun savage pump action.
2. JCSO Item #901, 9mm Carbine.
3. JCSO Item #902, Dbl Barrel shotgun.
4. JCSO Item #903, Tec 9 Pistol.
5. JCSO Item #989, Sgl stack magazine.
6. JCSO Item #1066, OD Grn Ammo pouch from Body #12.
7. JCSO Item #1067, Grn Ammo pouch from body #12.
8. JCSO Item #1101, 14 00 Buck Live Shotgun Shell in ammo belt from body #11.
9. JCSO Item #1102, Biege Ammo pouch from Body #11.
10. JCSO Item #1273, Grn Pouch with shotgun Shells.
11. JCSO Item #1859, Magazine and Spring.
12. JCSO Item #1877, Empty Magazine
13. JCSO Item #1879, Empty Magazine
14. JCSO Item #1099, Grn Pouch with 10 OO Buck live rounds.
15. JCSO Item #1093, Rifle Magazine with ammo.
16. JCSO Item #1094, Shotgun Shell OO Buck from 900.

17. JCSO Item # 1095, Expended Shotgun Shell from 900.
18. JCSO Item # 1096, Live 9mm from chamber of 903.
19. JCSO Item # 1097, 9mm Mag with 8 rounds.

This evidence is being submitted in connection with an official investigation of a criminal nature. We request that you return all evidence in their original containers to this department upon completion of your examination. Please include written results of your findings. Inquiries in this case should be made to Chris Andrist at 271-5649 or page at 271-5368 577#. Thank you for your assistance and cooperation in this case.

Sincerely,
RONALD L. BECKHAM, SHERIFF

COLORADO BUREAU OF INVESTIGATION

LABORATORY REPORT

LAB CASE NUMBER:D99-1333 SECTION:DNA TESTING OCA:997625

AGENCY NAME: CO0300000 - JEFFERSON COUNTY SHERIFF - GOLDEN

OFFENSE: 0999 - HOMICIDE

INVESTIGATED BY: C. ANDRIST SUBMISSION DATE: 042999

* SUSPECT(S):	AKA:	R/S	D.O.B:
HARRIS,ERIC		W/M	
KLEBOLD,DYLAN		W/M	

* VICTIM(S):

Kathren M. Brown Dressel 5/28

EXAMINED BY/ KATHREN M. BROWN DRESSEL, LABORATORY AGENT/CRIMINALIST

DATE COMPLETED/MAY 27, 1999

ITEMS	DESCRIPTION
#20A-20F	BLOODSTAINS FROM SHOTGUN (SAVAGE PUMP ACTION).
#21A-21D	BLOODSTAINS FROM CARBINE.
#22A,22B	BLOODSTAINS FROM SHOTGUN (DOUBLE BARREL).
#23A-#23C	BLOODSTAINS FROM TEC 9 PISTOL.

RESULTS:

DEOXYRIBONUCLEIC ACID (DNA) WAS ANALYZED BY POLYMERASE CHAIN REACTION (PCR) TECHNOLOGY AT THE FOLLOWING LOCI: DQA1, LDLR, GYPA, HBGG, D7S8, GC AND D1S80.

THE DNA PROFILES DEVELOPED FROM ITEMS #20A-20F, 21A-21D AND 22A MATCHED EACH OTHER.

THE DNA PROFILES DEVELOPED FROM ITEMS #23A AND 23C MATCHED EACH OTHER.

THE DNA PROFILE FROM ITEM #23B REVEALED THE PRESENCE OF A MIXTURE. THE MAJOR COMPONENT OF THE DNA PROFILE FROM ITEM #23B MATCHED THE DNA PROFILES DEVELOPED FROM ITEMS #20A-20F, 21A-21D AND 22A. THE MINOR COMPONENT OF THE DNA PROFILE FROM ITEM #23B WAS CONSISTENT WITH THE DNA PROFILES FROM ITEMS #23A AND 23C.

AN INTERPRETABLE DNA PROFILE COULD NOT BE OBTAINED FROM ITEM #22B.

INTERPRETATION OF THE DNA RESULTS WILL BE PERFORMED WHEN AN EDTA BLOOD CONTROL AND SALIVA SWABS FROM THE SUSPECTS ARE SUBMITTED TO THE CBI LABORATORY.

THE ITEMS SUBMITTED FOR DNA ANALYSIS AND THE EXTRACTED DNA WILL BE PRESERVED FROZEN AT THE CBI LABORATORY FOR TWO YEARS FROM THE ORIGINAL SUBMITTAL DATE. KMD:EH 5/27/99
D99-1333

Lab.Case # D99-1532
DOS: 4/29/99

Section: DNA
Date Completed: 5/27/99
Examined By:

ITEM #	( )	DESCRIPTION
20A-20F		bloodstains from shotgun (Savage pump action)
A-21D		bloodstains from carbine
22A, 22B		bloodstains from shotgun (double barrel)
23A-23C		bloodstains from Tec 9 pistol

RESULTS:
DEOXYRIBONUCLEIC ACID (DNA) WAS ANALYZED BY POLYMERASE CHAIN REACTION (PCR) TECHNOLOGY AT THE FOLLOWING LOCI: DQA1, LDLR, GYPA, HBGG, D7S8, GC AND D1S80.

☒ The DNA profile~~(s)~~ developed from item~~(s)~~ #20A-20F, 21A-21D & 22A matched ~~the DNA profile from~~ each other. ~~The probability of selecting an unrelated individual at random from the population having a profile matching ______ is approximately 1 in ______ African Americans, 1 in ______ Caucasians and 1 in ______ Southwestern Hispanics.~~

☒ The DNA profile~~(s)~~ developed from item~~(s)~~ #23A & 23C matched ~~the DNA profile from~~ each other. ~~The probability of selecting an unrelated individual at random from the population having a profile matching ______ is approximately 1 in ______ African Americans, 1 in ______ Caucasians and 1 in ______ Southwestern Hispanics.~~

☑ The DNA profile from item # 23B revealed the presence of a mixture. The major component of the DNA profile from item #23B matched the DNA profiles developed from items #20A-20F, 21A-21D & 22A. The minor component of the DNA profile from item #23B was consistent with the DNA profiles from items #23A & 23C.

☐ The DNA profile from item #______ revealed the presence of a mixture.

☒ An interpretable DNA profile could not be obtained from item #22B

☒ Interpretation of the DNA results will be performed when an EDTA blood control and saliva swabs from the suspects are submitted to the CBI laboratory.

☐ Item(s) #______ consist of minimal samples that will be completely consumed during DNA analysis. They will be examined when written permission to do so is sent from the district attorney's office to the CBI laboratory.

☒ The items submitted for DNA analysis and the extracted DNA will be preserved frozen at the CBI laboratory for two years from the original submittal date.

Word:DNAFORM/REVISED 11/98

LABORATORY REPORT

LAB CASE NUMBER:D99-1333 SECTION:DNA TESTING OCA:997625

AGENCY NAME: CO0300000 - JEFFERSON COUNTY SHERIFF - GOLDEN

OFFENSE: 0999 - HOMICIDE

INVESTIGATED BY: CHRIS ANDRIST SUBMISSION DATE: 050799

* SUSPECT(S):	AKA:	R/S	D.O.B:
HARRIS,ERIC		W/M	
KLEBOLD,DYLAN		W/M	

* VICTIM(S):

Kathren M. Brown Dressel 05/19

EXAMINED BY/ KATHREN M. BROWN DRESSEL, LABORATORY AGENT/CRIMINALIST

DATE COMPLETED/MAY 14, 1999

ITEMS	DESCRIPTION
#525, 576, 577, 578, 619, 624	SWABBINGS OF BULLET FRAGMENTS

RESULTS:

DEOXYRIBONUCLEIC ACID (DNA) WAS ANALYZED BY POLYMERASE CHAIN REACTION (PCR) TECHNOLOGY AT THE FOLLOWING LOCI: DQA1, LDLR, GYPA, HBGG, D7S8, GC AND D1S80.

INTERPRETABLE DNA PROFILES COULD NOT BE OBTAINED FROM ITEMS #525, 576, 577, 578, 619 AND 624.

THE EXTRACTED DNA WILL BE PRESERVED FROZEN AT THE CBI LABORATORY FOR TWO YEARS FROM THE ORIGINAL SUBMITTAL DATE.

KMD:CT 051799

Lab Case #
DOS: 5/7/99

Section: DNA
Date Completed: 5/14/99
Examined By:

ITEM # ( )	DESCRIPTION
525, 576, 577, 578, 619, 624	swabbings of bullet fragments

RESULTS:
DEOXYRIBONUCLEIC ACID (DNA) WAS ANALYZED BY POLYMERASE CHAIN REACTION (PCR) TECHNOLOGY AT THE FOLLOWING LOCI: DQA1, LDLR, GYPA, HBGG, D7S8, GC AND D1S80.

☐ The DNA profile(s) developed from item(s) ______ matched the DNA profile from ______. The probability of selecting an unrelated individual at random from the population having a profile matching ______ is approximately 1 in ______ African Americans, 1 in ______ Caucasians and 1 in ______ Southwestern Hispanics.

☐ The DNA profile(s) developed from item(s) ______ matched the DNA profile from ______. The probability of selecting an unrelated individual at random from the population having a profile matching ______ is approximately 1 in ______ African Americans, 1 in ______ Caucasians and 1 in ______ Southwestern Hispanics.

☐ The DNA profile from item # ______ revealed the presence of a mixture. ______

☐ The DNA profile from item # ______ revealed the presence of a mixture. ______

☐ Interpretation of the DNA results will be performed when an EDTA blood control and saliva swabs from the ______ are submitted to the CBI laboratory.

] Interpretable DNA profiles could not be obtained from items #525, 576, 577, 578, 619 & 624

☐ Item(s) # ______ consist of minimal samples that will be completely consumed during DNA analysis. They will be examined when written permission to do so is sent from the district attorney's office to the CBI laboratory.

~~The items submitted for DNA analysis and~~ The extracted DNA will be preserved frozen at the CBI laboratory for two years from the original submittal date.

COLORADO BUREAU OF INVESTIGATION

LABORATORY REPORT

LAB CASE NUMBER:D99-1333 SECTION:DNA TESTING OCA:997625

AGENCY NAME: CO0300000 - JEFFERSON COUNTY SHERIFF - GOLDEN

OFFENSE: 0911 - HOMICIDE - WILLFUL KILL-GUN

INVESTIGATED BY: C. ANDRIST SUBMISSION DATE: 051899

* SUSPECT(S):	AKA:	R/S	D.O.B:
HARRIS,ERIC		W/M	
KLEBOLD,DYLAN		W/M	

* VICTIM(S):

Kathren M. Brown Dressel 7/27

EXAMINED BY/ KATHREN M. BROWN DRESSEL, LABORATORY AGENT/CRIMINALIST

DATE COMPLETED/JULY 08, 1999

ITEMS	DESCRIPTION
#966C	BLOODSTAIN STANDARD FROM HARRIS.
#1001C	BLOODSTAIN STANDARD FROM KLEBOLD.

RESULTS:

DEOXYRIBONUCLEIC ACID (DNA) WAS ANALYZED BY POLYMERASE CHAIN REACTION (PCR) TECHNOLOGY AT THE FOLLOWING LOCI: DQA1, LDLR, GYPA, HBGG, D7S8, GC AND D1S80.

THE DNA PROFILES DEVELOPED FROM ITEMS #20A THROUGH 20F (SAVAGE PUMP ACTION SHOTGUN), ITEMS #21A THROUGH 21D (CARBINE) AND ITEM #22A (DOUBLE BARREL SHOTGUN) MATCHED THE DNA PROFILE FROM HARRIS.

THE DNA PROFILES DEVELOPED FROM ITEMS #23A AND 23C (TEC 9 PISTOL) MATCHED THE DNA PROFILE FROM KLEBOLD.

THE DNA PROFILE FROM ITEM #23B (TEC 9 PISTOL) REVEALED THE PRESENCE OF A MIXTURE. THE MAJOR COMPONENT OF THE DNA PROFILE FROM THIS MIXTURE MATCHED THE DNA PROFILE FROM HARRIS. THE MINOR COMPONENT OF THE DNA PROFILE FROM THIS MIXTURE WAS CONSISTENT WITH ORIGINATING FROM KLEBOLD.

THE ITEMS SUBMITTED FOR DNA ANALYSIS AND THE EXTRACTED DNA WILL BE PRESERVED FROZEN AT THE CBI LABORATORY FOR TWO YEARS FROM THE ORIGINAL SUBMITTAL DATE.

KMD:MJ 070999

Lab Case # D99-1333

DOS: 5/18/99

Section: DNA

Date Completed: 7/8/99

Examined By: YM

ITEM #	( )	DESCRIPTION
966C		Bloodstain standard from Harris
1001C		" " " Klebold

RESULTS:

DEOXYRIBONUCLEIC ACID (DNA) WAS ANALYZED BY POLYMERASE CHAIN REACTION (PCR) TECHNOLOGY AT THE FOLLOWING LOCI: DQA1, LDLR, GYPA, HBGG, D7S8, GC AND D1S80.

☒ The DNA profile(s) developed from item(s) #20A through 20F, ~~21A through~~ (single pump action shotgun), 21A through 21D (carbine) & 22A (double barrel shotgun) matched the DNA profile from Harris. The probability of selecting an unrelated individual at random from the population having a profile matching ____ is approximately 1 in ____ African Americans, 1 in ____ Caucasians and 1 in ____ Southwestern Hispanics.

☒ The DNA profile(s) developed from item(s) #23A & 23C (Tec 9 pistol) matched the DNA profile from Klebold. The probability of selecting an unrelated individual at random from the population having a profile matching ____ is approximately 1 in ____ African Americans, 1 in ____ Caucasians and 1 in ____ Southwestern Hispanics.

☑ The DNA profile from item # 23B (Tec 9 pistol) revealed the presence of a mixture; ~~which was~~ The major component of the DNA profile from this mixture matched the DNA profile from Harris. The minor component of the DNA profile from this mixture was consistent with originating from Klebold.

☐ The DNA profile from item # ____ revealed the presence of a mixture.

☐ Interpretation of the DNA results will be performed when an EDTA blood control and saliva swabs from the ____ are submitted to the CBI laboratory.

☐ Item(s) # ____ consist of minimal samples that will be completely consumed during DNA analysis. They will be examined when written permission to do so is sent from the district attorney's office to the CBI laboratory.

☑ The items submitted for DNA analysis and the extracted DNA will be preserved frozen at the CBI laboratory for two years from the original submittal date.

#36	EXPENDED SHOTGUN SHELL.
#37	LIVE 9MM SHELL.
#38	9MM MAGAZINE, INCLUDES 8 SHELLS.

RESULTS:

EXAMINATIONS CONDUCTED ON ITEMS #20, 21, 22 AND 23 REVEALED THE PRESENCE OF HUMAN BLOOD. SAMPLES COLLECTED FROM THESE ITEMS HAVE BEEN FORWARDED TO THE DNA SECTION FOR FURTHER ANALYSES. THE RESULTS OF THOSE ANALYSES WILL FOLLOW UNDER SEPERATE COVER.

BLOOD WAS INDICATED ON ITEMS #25 AND 26. NO FURTHER ANALYSIS WILL BE PERFORMED ON THESE ITEMS AT THIS TIME.

NO BLOOD WAS INDICATED ON ITEMS #24, 27 THROUGH 38.

RACE EVIDENCE WAS COLLECTED FROM ITEM #20 (SHOTGUN).

SOME OF THE STAINS ANALYZED FROM THE STAINED ITEMS ARE BEING RETURNED WITH THE EVIDENCE.

April 29,1999
Mr. Carl Whiteside
Colorado Bureau of Investigation
690 Kipling St., Suite 3000
Lakewood, CO 80215

ATTENTION: CBI LABORATORY

REFERENCE: HOMICIDE
CASE NO.: 99-7625
VICTIM: COLUMBINE H. S.
SUSPECT: HARRIS, ERIC & KLEIBOLD, DYLAN

Dear Mr. Whiteside,

On April 20, 1999 an incident occurred at Columbine high School involving two gunman, resulting in the death of thirteen victims and the possible suicide of the two suspects. CBI's Crime Scene processing teams were called in to process the scene, We are submitting the following evidence for analysis and processing. I have already spoken with the primary analyst, Tom Griffin, and we are leaving the type of processing needed open to your analysts.

We would like you to examine the following evidence for analysis.

1. JCSO Item #900, Shotgun savage pump action.
2. JCSO Item #901, 9mm Carbine.
3. JCSO Item #902, Dbl Barrel shotgun.
4. JCSO Item #903, Tec 9 Pistol.
5. JCSO Item #989, Sgl stack magazine.
6. JCSO Item #1066, OD Grn Ammo pouch from Body #12.
7. JCSO Item #1067, Grn Ammo pouch from body #12.
8. JCSO Item #1101, 14 00 Buck Live Shotgun Shell in ammo belt from body #11.
9. JCSO Item #1102, Biege Ammo pouch from Body #11.
10. JCSO Item #1273, Grn Pouch with shotgun Shells.
11. JCSO Item #1859, Magazine and Spring.
12. JCSO Item #1877, Empty Magazine
13. JCSO Item #1879, Empty Magazine
14. JCSO Item #1099, Grn Pouch with 10 OO Buck live rounds.
15. JCSO Item #1093, Rifle Magazine with ammo.
16. JCSO Item #1094, Shotgun Shell OO Buck from 900.

17. JCSO Item #1095, Expended Shotgun Shell from 900.
18. JCSO Item #1096, Live 9mm from chamber of 903.
19. JCSO Item #1097, 9mm Mag with 8 rounds.

This evidence is being submitted in connection with an official investigation of a criminal nature. We request that you return all evidence in their original containers to this department upon completion of your examination. Please include written results of your findings. Inquiries in this case should be made to Chris Andrist at 271-5649 or page at 271-5368 577#. Thank you for your assistance and cooperation in this case.

Sincerely,
RONALD L. BECKHAM, SHERIFF

Chris G. Andrist, Crime Lab Supervisor
Investigations Division

Results

Examinations conducted on items # 20, 21, 22 & 23 revealed the presence of human blood. Samples collected from these items have been forwarded to the DNA section for further analyses. The results of those analyses will follow under seperate cover.

Blood was indicated ~~that~~ on items # 25 and 26. No further analysis will be performed on these items at this time.

No blood was indicated on items # 24, 27-38.

Trace evidence was collected from # 20 (shotgun).

Some of the samples analyzed from the stained items are being returned with the evidence.

#661	BLOOD ON BLUE CHAIR.

RESULTS:

HUMAN BLOOD WAS IDENTIFIED ON ITEM #288. BLOOD WAS INDICATED ON ALL OF THE FOLLOWING ITEMS: ITEMS #626 THROUGH 661.

SAMPLES COLLECTED FROM THE FOLLOWING ITEMS HAVE BEEN FORWARDED TO THE DNA SECTION FOR FURTHER ANALYSES: ITEMS #288, 628, 629, 633, 634, 647, 653, 654, 660 AND 661. THE RESULTS FROM THOSE ANALYSES WILL FOLLOW UNDER SEPARATE COVER.

SAMPLES COLLECTED FROM THE FOLLOWING ITEMS WERE GIVEN DIRECTLY TO THE DNA EXAMINER: ITEMS #525, 576, 577, 578, 617 AND 624. THE RESULT FROM THESE ANALYSES WILL ALSO FOLLOW UNDER SEPARATE COVER.

SAMPLES FROM SOME OF THE STAINED ITEMS ARE BEING RETURNED WITH THE EVIDENCE.

Results

Human blood was identified on item # 288. Blood was indicated on all of the following items: 626-661.

Samples collected from the following items have been forwarded to the DNA section for further analyses: 288, 628, 629, 633, 634, 647, 653, 654, 660, 661. The results from those analyses will follow under separate cover.

Samples collected from the following items were given directly to the DNA examiner: 525, 576, 577, 578, 617, 624. The results from those analyses will also follow under separate cover.

LABORATORY REPORT

LAB CASE NUMBER:D99-1333 SECTION:SEROLOGY OCA:997625

AGENCY NAME: CO0300000 - JEFFERSON COUNTY SHERIFF - GOLDEN

OFFENSE: 0911 - HOMICIDE - WILLFUL KILL-GUN

INVESTIGATED BY: C. ANDRIST SUBMISSION DATE: 052099

* SUSPECT(S):	AKA:	R/S	D.O.B:
HARRIS,ERIC		W/M	
KLEBOLD,DYLAN		W/M	

* VICTIM(S):

Joe R. Clayton, Jr. 9 July 99

EXAMINED BY/ JOE R. CLAYTON, JR., LABORATORY AGENT/CRIMINALIST

DATE COMPLETED/JUNE 21, 1999

ITEM	DESCRIPTION
#886	(A) STAINED CARPET AND (B) POSSIBLE TOOTH FRAGMENTS.
#887	(A) STAINED CARPET AND (B) POSSIBLE TOOTH FRAGMENTS.
#888	STAINED SECTION OF CARPET.
#889	TOOTH.
#890	STAINED PIECE OF WALL.
#891	TOOTH.
#892	SLEEVE OF SHIRT.
#893	EYEGLASSES.
#894	TAPING OF SUSPECTED BLOOD.
#895	TAPING OF SUSPECTED BLOOD.
#896	STAINED SWAB.
#897	TAPING OF SUSPECTED BLOOD.
#952	STAINED SWABS AND CONTROL (1) AND (1A).
#953	STAINED SWABS AND CONTROL (2) AND (2A).
#955	(A,B) BLOOD SAMPLES, TOWNSEND.
#956	(A,B) BLOOD SAMPLES, FLEMMING.
#957	(A,B) BLOOD SAMPLES, TOMLIN.
#958	(A,B) BLOOD SAMPLES, DEPOOTER.
#959	(A,B,C) BLOOD SAMPLES, MAUSER.
#960	(A,B) BLOOD SAMPLES, KECHTER.
#961	BLOOD SAMPLE, SHOELS.
#962	(A,B) BLOOD SAMPLES, CURNOW.
#963	(A,B) BLOOD SAMPLES, BERNAL.
#964	(A,B), BLOOD SAMPLES, VELASQUEZ.
#965	BLOOD SAMPLE, KLEBOLD.
#966	(A,B,C) BLOOD SAMPLES, HARRIS.
#967	(A,B) BLOOD SAMPLES, SANDERS.
#968	(A,B) BLOOD SAMPLES, SCOTT.
#969	(A,B,C) BLOOD SAMPLES, ROHRBOUGH.
#1001	(A,B,C) BLOOD SAMPLES, KLEBOLD.

RESULTS:

EXAMINATIONS CONDUCTED ON #890, 893, AND 952(1) REVEALED THE PRESENCE OF HUMAN BLOOD.

EXAMINATIONS CONDUCTED ON THE FOLLOWING ITEMS INDICATED THE PRESENCE OF

D: 886, 887, 888, 889, 891, 892, 894, 895, 896, 897, 953(2), HOWEVER, FURTHER TRADITIONAL SEROLOGICAL ANALYSES WILL BE PERFORMED ON THESE TAINS AT THIS TIME.

STAIN CARDS MADE FROM THE BLOOD SAMPLES FROM THE SUSPECTS (#966, 1001) HAVE BEEN FORWARDED TO THE DNA SECTION FOR FURTHER ANALYSES. THE RESULTS OF THOSE ANALYSES WILL FOLLOW UNDER SEPARATE COVER.

NO BLOOD WAS INDICATED ON #952(1A) AND 953(2A).

STAINS PREPARED FROM THE LIQUID BLOOD SAMPLES AND SAMPLES FROM THE STAINED ITEMS ARE BEING RETAINED FROZEN AT THE CBI LABORATORY FOR 2 YEARS FROM THE INITIAL SUBMITTAL DATE.

NOT ANALYZED: #955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969.

1001 (A,B,C) Blood Samples, Klebold

Results

Examinations conducted on #890, 893, and #952 (1) revealed the presence of human blood.

pg 3
D99-1333

Examinations conducted on the following items indicated the presence of blood: 886, 887, 888, 889, 891, 892, 894, 895, 896, 897, 953(2). However, no further traditional serological analyses will be performed on these stains at this time.

Stain cards made from the blood samples from the suspects (#966, 1001) have been forwarded to the DNA Section for further analyses. The results of those analyses will follow under separate cover.

S^1 No blood was indicated on # 952 (1A) ~~or~~ and 953 (2A).

(old S^1 ... retained frozen for 2 years-) ... ~~Not being retained @ CBI~~ ...

Not Analyzed: 955, 956, 957, 958, 959, 960, 961, 962, 963, 964, 965, 966, 967, 968, 969

AGENCY NAME: CO0300000 - JEFFERSON COUNTY SHERIFF - GOLDEN

OFFENSE: 0911 - HOMICIDE - WILLFUL KILL-GUN

INVESTIGATED BY: C. ANDRIST SUBMISSION DATE: 062199

* SUSPECT(S):	AKA:	R/S	D.O.B:
HARRIS,ERIC		W/M	
KLEBOLD,DYLAN		W/M	

* VICTIM(S):

14 Sept 99

EXAMINED BY/ JOE R. CLAYTON, JR., LABORATORY AGENT/CRIMINALIST

DATE COMPLETED/SEPTEMBER 03, 1999

ITEM	DESCRIPTION
#1037	SUSPECTED BLOOD SAMPLE.
#1038	SUSPECTED BLOOD SAMPLE.
#1039	GLASS SHARD.
#1040	SUSPECTED BLOOD SAMPLE.
#1041	SUSPECTED BLOOD SAMPLE.

RESULTS:

HUMAN BLOOD WAS IDENTIFIED ON ITEMS #1037, 1039, 1040 AND 1041. THESE STAINS HAVE BEEN PRESERVED. NO FURTHER TRADITIONAL SEROLOGICAL ANALYSIS WILL BE PERFORMED ON THESE ITEMS AT THIS TIME.

EXAMINATIONS CONDUCTED ON ITEM #1038 DID NOT INDICATE THE PRESENCE OF BLOOD.

SAMPLES FROM THE STAINED ITEMS ARE BEING RETURNED WITH THE EVIDENCE.

ATTENTION: CBI LABORATORY

REFERENCE: HOMICIDE
CASE NO.: 99-7625
VICTIM: COLUMBINE H. S.
SUSPECT: HARRIS, ERIC & KLEBOLD, DYLAN

Dear Mr. Cantwell,

On April 20, 1999 an incident occurred at Columbine High School involving two gunmen, resulting in the death of thirteen victims and the possible suicide of the two suspects.

In January 2002 the Jefferson County Sheriff's Office asked the El Paso Sheriff's Office to conduct an independent investigation into the events surrounding the death of Daniel Rohrbough. As part of their investigation, El Paso has asked for and received several items of evidence.

On February 20, 2002 the El Paso Sheriff's Office requested that we provide the blood of Daniel Rohrbough, which was obtained during his autopsy, to CBI. We are therefore, providing the following:

1. JCSO Item #10398, serology #961-969

Inquiries for this specific analysis should be made to your contact with the El Paso Sheriff's Office. Thank you for your assistance and cooperation in this case.

Sincerely,
JOHN P. STONE, SHERIFF

LABORATORY REPORT

LAB CASE NUMBER:D99-1333 SECTION:TRACE ANALYSIS OCA:997625

AGENCY NAME: CO0300000 - JEFFERSON COUNTY SHERIFF - GOLDEN

OFFENSE: 0999 - HOMICIDE

INVESTIGATED BY: C. ANDRIST SUBMISSION DATE: 042999

* SUSPECT(S):	AKA:	R/S	D.O.B:
HARRIS,ERIC		W/M	
KLEBOLD,DYLAN		W/M	

* VICTIM(S):

Tom J. Griffin 0607 6/10

EXAMINED BY/ TOM J. GRIFFIN, LABORATORY AGENT/CRIMINALIST

DATE COMPLETED/MAY 28, 1999

ITEM	DESCRIPTION
#20	SAVAGE ARMS SHOTGUN, SERIAL NUMBER A232432.
#21	HI POINT 9MM CARBINE, SERIAL NUMBER A59610.
#22	SAVAGE ARMS DOUBLE-BARREL SHOTGUN, SERIAL NUMBER A077513.
#23	INTRATEC 9MM TEC-DC9 PISTOL, SERIAL NUMBER D076305.

RESULTS:

EXAMINATIONS OF THE ITEMS FOR BLOODSTAIN PATTERN EVIDENCE REVEALED THE FOLLOWING:

#20 AREAS OF SMUDGES AND/OR POSSIBLE TRANSFERS ARE PRESENT ON THE GRAY DUCT TAPE AROUND THE WOODEN STOCK, PORTIONS OF THE RECEIVER NEXT TO THE TAPE, AND EXPOSED AREAS OF THE WOODEN STOCK. (SUCH STAINING COULD BE THE RESULT OF AN INDIVIDUAL HANDLING THE FIREARM WHILE HAVING BLOOD ON THE HANDS OR ANY FABRIC IN CONTACT WITH THE FIREARM. THIS IS TRUE FOR ALL OF THESE ITEMS.)

OTHER STAINS PRESENT RANGE IN SIZE BETWEEN 1 AND 2MM. THEIR APPEARANCES INCLUDE CIRCULAR, IRREGULARLY-SHAPED, AND ELONGATED. SURFACES WITH THESE STAINS INCLUDE THE TRIGGER GUARD, THE BOTTOM AND LEFT SIDE OF THE OPERATING HANDLE (FOREARM), THE FRONT OF THE MAGAZINE TUBE, THE RIGHT AND LEFT SIDES OF THE RECEIVER, THE FRONT OF THE BARREL AND THE MUZZLE. IRREGULARLY-SHAPED STAINS, 3-4MM IN SIZE, ARE ON THE LIFTER (LOADING GATE). NO BLOOD WAS VISIBLE IN THE BARREL. (STAINS IN THE RANGE OF LESS THAN 1MM TO 2MM ARE CHARACTERISTIC OF GUNSHOT WOUNDS AND CONSISENT WITH THE ITEM BEING IN THE VICINITY OF GUNSHOT WOUNDING EVENT. THIS IS TRUE FOR ALL OF THESE ITEMS.)

#21 AREAS OF SMUDGES AND/OR POSSIBLE TRANSFERS ARE PRESENT ON THE BOTTOM AND LEFT OF THE STOCK, ESPECIALLY NEAR THE PISTOL GRIP, AND THE LEFT SIDE OF THE (METAL) RECEIVER SHROUD. A

TJG

4/5

SMALL BLOOD POOL IS ON AND UNDER THE FRONT AND REAR OF THE SIGHT HOLDER ASSEMBLY (REAR SIGHT).

OTHER STAINS PRESENT RANGE IN SIZE FROM LESS THAN 1MM TO 3MM. THEIR APPEARANCES INCLUDE CIRCULAR, IRREGULARLY-SHAPED, AND ELONGATED. SURFACES ON THE RIGHT SIDE WITH THESE STAINS INCLUDE THE TOP AREA OF THE STOCK, THE PISTOL GRIP, THE OUTSIDE OF THE RECEIVER SHROUD, THE FRONT OF THE STOCK BETWEEN THE RECEIVER SHROUD (FOREARM PORTION) AND THE LASER SIGHTS. NO BLOOD WAS VISIBLE IN THE BARREL.

#22 STAINS PRESENT RANGE IN SIZE FROM LESS THAN 1MM TO 2MM. THEIR APPEARANCES INCLUDE CIRCULAR, IRREGULARLY-SHAPED, AND ELONGATED. SURFACES WITH THESE STAINS INCLUDE THE LEFT FRONT OF THE GRIP AREA OF THE STOCK, THE OUTSIDE OF THE CHAMBER AREA AT THE REAR OF THE BARREL, THE BOTTOM OF THE FRAME (RECEIVER), AND THE FRONT OF THE WOODEN FOREARM. NO BLOOD WAS SEEN IN THE BARREL.

#23 AREAS OF SMUDGES AND/OR POSSIBLE TRANSFERS ARE ON THE TOP, LEFT AND BOTTOM OF THE BARREL. THERE WAS A FLOW PATTERN EXTENDING INSIDE THE BARREL MUZZLE ABOUT 1 TO 1/2 INCHES. STAINS PRESENT RANGE IN SIZE FROM LESS THAN 1MM TO 3MM. THEIR APPEARANCES INCLUDE ONE CIRCULAR STAIN ON THE FORWARD PORTION OF THE UPPER RECEIVER; IRREGULARLY-SHAPED AND ELONGATED STAINS ON THE FRONT AND SIDES OF THE TRIGGER, THE EXTERIOR OF THE MAGAZINE WELL, AND THE RIGHT SIDE OF THE FRAME TO THE REAR OF THE UPPER RECEIVER.

TJG
5/5

Item #

20. Savage Arms shotgun, serial number A 232432
21. Hi Point 9mm carbine, serial number A 59610
22. Savage Arms double-barrel shotgun, serial number A 077513
23. Intratec 9mm TEC-DC9 pistol, serial number D 076305

Results:

Examinations of the items for bloodstain pattern evidence revealed the following:

#20. Areas of smudges and/or possible transfers are present on the gray duct tape around the wooden stock, portions of the receiver next to the tape, and exposed areas of the wooden stock. (Such staining could be the result of an individual handling the firearm while having blood on the hands or any fabric in contact with the firearm. This is true for all of these items.)

Other stains present range in size between 1 and 2mm. Their appearances include circular, irregularly shaped, and elongated. Surfaces with these stains include the trigger guard, the bottom and left side of the operating handle (forearm), the front of the magazine tube, the right and left sides of the receiver, the front of the barrel and the muzzle. Irregularly-shaped stains, 3-4mm in size, are on the lifter (loading gate). No blood was visible in the barrel. (Stains in the range of less than 1mm to 2mm are characteristic of gunshot wounds and consistent with the item being in the vicinity of gunshot wounding event. This is true for all of these items.)

#21. Areas of smudges and/or possible transfers are present of the bottom and left of the stock, especially near the pistol grip; and the left side of the (metal) receiver shroud. A small blood pool is on and under the front and rear of the sight holder assembly (rear sight).

Other stains present range in size from less than 1mm to 3mm. Their appearances include circular, irregularly-shaped, and elongated. Surfaces on the right side with these stains include the top area of the stock, the pistol grip, the outside of the receiver shroud, the front of the stock between the receiver shroud (forearm portion) and the laser sights. No blood was visible in the barrel.

#22. Stains present range in size from less than 1mm to 2 mm. Their appearances include circular, irregularly-shaped, and elongated. Surfaces with these stains include the left front of the grip area of the stock, the outside of the chamber area at the rear of the barrel, the bottom of the frame (receiver), and the front of the wooden forearm. No blood was seen in the barrel.

#23. Areas of smudges and/or possible transfers are on the top, left and bottom of the barrel. There was a flow pattern extending inside the barrel muzzle about 1 to 1/2 inches. Stains present range in size from less than 1mm to 3mm. Their appearances include one circular stain on the forward portion of the upper receiver; irregularly-shaped and elongated stains on the front and sides of the trigger, the exterior of the magazine well, and the right side of the frame to the rear of the upper receiver.

LABORATORY REPORT

LAB CASE NUMBER:D99-1333 SECTION:TRACE ANALYSIS OCA:997625

AGENCY NAME: CO0300000 - JEFFERSON COUNTY SHERIFF - GOLDEN

OFFENSE: 0911 - HOMICIDE - WILLFUL KILL-GUN

INVESTIGATED BY: C. ANDRIST SUBMISSION DATE: 052099

* SUSPECT(S):	AKA:	R/S	D.O.B:
HARRIS,ERIC		W/M	
KLEBOLD,DYLAN		W/M	

* VICTIM(S):

Thomas B. Netwal

EXAMINED BY/ THOMAS B. NETWAL, AGENT IN CHARGE

DATE COMPLETED/JUNE 28, 1999

ITEM	DESCRIPTION
#1016	CAN CONTAINING CHARRED PAPER.
#1017	CAN CONTAINING CHARRED NOTEBOOK.
#1018	CAN CONTAINING PAPER TOWELS.
#1019	CAN CONTAINING INDEX CARDS.
#1033	CAN CONTAINING CUTTINGS FROM PANTS.

RESULTS:

ANALYSES OF ITEMS #1016, 1017 AND 1019 REVEALED THE PRESENCE OF A FLAMMABLE/COMBUSTIBLE LIQUID FROM THE GASOLINE CLASS. EXAMPLES OF MATERIALS IN THIS CLASS ARE ALL BRANDS AND GRADES OF GASOLINE, INCLUDING GASOHOL, AS WELL AS SOME CAMP FUELS.

ANALYSIS OF ITEMS #1018 AND 1033 DID NOT REVEAL THE PRESENCE OF A FLAMMABLE/COMBUSTIBLE LIQUID. THIS DOES NOT PRECLUDE THE POSSIBILITY THAT THOSE TYPES OF LIQUIDS WERE PRESENT AT AN EARLIER DATE.

EXTRACTS OF THE EVIDENCE HAVE BEEN ATTACHED TO THEIR ORIGINAL CONTAINERS.

ITEM #:	Description:
1016	CAN CONT. CHARRED PAPER.
1017	" " " NOTEBOOK.
1018	" " PAPER TOWELS.
1019	" " INDEX CARDS.
1033	" " CUTTINGS FROM PANTS.

Results:

Analysis of Items 1016 1017 1019 revealed the presence of a flammable/combustible liquid from the GASOLINE class. Examples of materials in this class are ALL BRANDS AND GRADES OF GASOLINE, INCLUDING GASOHOL, AS WELL AS SOME CAMP FUELS.

Analysis of Items 1018 1033 did not reveal the presence of a flammable/combustible liquid. This does not preclude the possibility that those types of liquids were present at an earlier time.

No analysis was attempted on Items_______ due to improper packaging.

Not analyzed: _____________

Extracts of the evidence have been attached to their original containers.

LAB CASE NUMBER:D99-1333 SECTION:TRACE ANALYSIS OCA:997625

AGENCY NAME: CO0300000 - JEFFERSON COUNTY SHERIFF - GOLDEN

OFFENSE: 0911 - HOMICIDE - WILLFUL KILL-GUN

INVESTIGATED BY: C. ANDRIST SUBMISSION DATE: 052099

* SUSPECT(S):	AKA:	R/S	D.O.B:
HARRIS,ERIC		W/M	
KLEBOLD,DYLAN		W/M	

* VICTIM(S):

Tom J. Griffin 0909 09|23

EXAMINED BY/ TOM J. GRIFFIN, LABORATORY AGENT/CRIMINALIST

DATE COMPLETED/AUGUST 19, 1999

ITEM ====	DESCRIPTION ===========
#1020	BLACK, LEFT HAND, FINGERLESS LEATHER GLOVE.
#1021	BLACK, RIGHT HAND, FINGERLESS LEATHER GLOVE.
#1022	BLACK BALLCAP.

RESULTS:

#1020	EXAMINATION DISCLOSED THE PRESENCE OF SEVEN RED STAINS ON THE BACK OF THE GLOVE. TWO OF THESE STAINS ARE ELONGATED, BETWEEN 0.6 MM AND 1.1 MM WIDE, WITH A GENERAL DIRECTION OF TRAVEL FROM THE MIDDLE OF THE WRIST TOWARD THE LITTLE FINGER. THERE IS ALSO A GENERALLY CIRCULAR STAIN, ABOUT 0.5 MM WIDE, BELOW THE KNUCKLE AREA OF THE INDEX FINGER. THERE ARE THREE RED STAINS ON THE PALM/THUMB SIDE. ONE BY THE STITCHING AT THE WRIST BEHIND THE THUMB IS ELONGATED, ABOUT 0.2 MM WIDE, WITH A DIRECTION OF TRAVEL GENERALLY BACK TOWARD THE WRIST. THESE FOUR STAINS ARE THE RESULT OF PROJECTED (AIRBORNE) BLOOD DROPLETS. THE OTHER STAINS ON THIS GLOVE ARE EITHER SMEARS OR IRREGULARLY SHAPED STAINS.
#1021	EXAMINATION DISCLOSED A VARIETY OF STAINS (SMEARS, IRREGULARLY SHAPED, ELONGATED [WIDTHS LESS THAN 1 MM TO 8 M] OF VARIOUS DIRECTIONS OF TRAVEL, AND GENERALLY CIRCULAR [LESS THAN OR APPROXIMATELY 1 MM WIDE]). ANY NUMBER OF EVENTS COULD ACCOUNT FOR THE PRESENCE OF THESE STAINS, INCLUDING TRANSFER FROM A BLOODY OBJECT AND A GUNSHOT WOUND. SMEARING IS ALSO PRESENT ON THE WRIST LINING.
#1022	EXAMINATION DISCLOSED THE PRESENCE OF APPARENTLY BLOOD SOAKED AREAS TO THE TOP AND BOTTOM OF THE BILL AND THE INSIDE AND OUTSIDE OF THE FRONT OF THE CAP. NO APPARENT BULLET OR PROJECTILE HOLE IS OBSERVED.

Item.

#1020. Black, left hand, fingerless leather glove.

#1021. " right hand, " " "

#1022. " ballcap.

Res.

#1020. Examination disclosed the presence of seven red stains on the back of the glove. Two of these stains are elongated, between 0.6 mm & 1.1 mm wide, with a general direction of travel from the middle of the wrist towards the little finger. There is also a generally circular stain, about 0.5 mm wide, below the knuckle area of the index finger. There are three red stains on the palm / thumb side. One by the stitching at the wrist behind the thumb is elongated, about 0.2 mm wide, with a direction of travel generally back towards the wrist. These ~~three~~ four I stains are the result of projected (airborne) blood droplets. The Other stains on this glove are either smears or irregularly shaped stains.

#1021. Examination disclosed a variety of stains (smears, irregularly shaped, ~~st~~ I elongated ~~sta~~ I [widths less than 1 mm to 8 mm] of various directions of travel, & generally circular [less than or approximately 1 mm wide]). Any number of events could account for the presence of these stains, including transfer from a bloody object and a gunshot wound. Smearing is also present on the wrist lining.

#1022. Examination disclosed the presence of apparently blood soaked areas to the top & bottom of the bill & the inside & outside of the front of the cap. No apparent bullet or projectile hole ~~was~~ is I observed.

ATTENTION: CBI LABORATORY

REFERENCE: HOMICIDE
CASE NO.: 99-7625
VICTIM: COLUMBINE H. S.
SUSPECT: HARRIS, ERIC & KLEIBOLD, DYLAN

Dear Mr. Whiteside,

On April 20, 1999 an incident occurred at Columbine high School involving two gunman, resulting in the death of thirteen victims and the possible suicide of the two suspects. CBI's Crime Scene processing teams were called in to process the scene, We are submitting the following evidence for analysis and processing. I have already spoken with the primary analyst, Tom Griffin, and we are leaving the type of processing needed open to your analysts.

We would like you to examine the following evidence for analysis.

1. JCSO Item #900, Shotgun savage pump action.
2. JCSO Item #901, 9mm Carbine.
3. JCSO Item #902, Dbl Barrel shotgun.
4. JCSO Item #903, Tec 9 Pistol.
5. JCSO Item #989, Sgl stack magazine.
6. JCSO Item #1066, OD Grn Ammo pouch from Body #12.
7. JCSO Item #1067, Grn Ammo pouch from body #12.
8. JCSO Item #1101, 14 00 Buck Live Shotgun Shell in ammo belt from body #11.
9. JCSO Item #1102, Biege Ammo pouch from Body #11.
10. JCSO Item #1273, Grn Pouch with shotgun Shells.
11. JCSO Item #1859, Magazine and Spring.
12. JCSO Item #1877, Empty Magazine
13. JCSO Item #1879, Empty Magazine
14. JCSO Item #1099, Grn Pouch with 10 OO Buck live rounds.
15. JCSO Item #1093, Rifle Magazine with ammo.
16. JCSO Item #1094, Shotgun Shell OO Buck from 900.

17. JCSO Item #1095, Expended Shotgun Shell from 900.
18. JCSO Item #1096, Live 9mm from chamber of 903.
19. JCSO Item #1097, 9mm Mag with 8 rounds.

This evidence is being submitted in connection with an official investigation of a criminal nature. We request that you return all evidence in their original containers to this department upon completion of your examination. Please include written results of your findings. Inquiries in this case should be made to Chris Andrist at 271-5649 or page at 271-5368 577#. Thank you for your assistance and cooperation in this case.

Sincerely,
RONALD L. BECKHAM, SHERIFF

Results: CONTINUED PAGE #2

An examination of item(s) # 51 THROUGH #261

disclosed 1 latent fingerprint(~~s~~) marked # 84-06 ~~and~~ ~~latent palmprint(s) marked~~ suitable for comparison to known prints.

The latent print(~~s~~) was/~~were~~ compared to ITEMS #262, #263 AND #264 RESULTING IN ONE (1) IDENTIFICATION WITH ITEM #264 DAVID ERIC HARRIS; #84-06 RIGHT RING FINGER.
ITEMS #262 AND #263 ARE EXTREMELY POOR QUALITY PARTLY ROLLED 1ST DIGIT FINGERS ONLY. POST MORTEM PRINTS SHOULD ALWAYS BE ROLLED LEGIBLE MAJOR CASE PRINTS INCLUDING SIDES, TIPS, JOINTS AND PALMS.

D99-1333

#663 INKED PARTIAL RIGHT INDEX FINGER, DYLAN BENNET HARRIS, JEFFERSON COUNTY CORONER'S OFFICE.

RESULTS:

AN EXAMINATION OF ITEMS #265 THROUGH #348 DISCLOSED LATENT FINGERPRINTS MARKED #306-07 AND #288-08 SUITABLE FOR COMPARISON TO KNOWN PRINTS.

THE LATENT PRINTS WERE COMPARED TO ITEMS #262, #263, #264 RESULTING IN ONE (1) IDENTIFICATION WITH ITEM #262 DYLAN KLEBOLD:

#306-07 LEFT INDEX FINGER.

ITEMS #262, #263, #264 ARE OF INSUFFICIENT QUALITY AND DETAIL FOR A CONCLUSIVE COMPARISON TO LATENT #288-08.

ITEMS #662 AND #663 ARE TOTALLY USELESS FOR LATENT COMPARISON PURPOSES. POST MORTEM PRINTS SHOULD ALWAYS BE ROLLED, LEGIBLE, MAJOR CASE INKED PRINTS; INCLUDING SIDES, TIPS, JONTS AND PALMS. DAS:LK 051799

LAB CASE NUMBER:D99-1333 SECTION:FINGERPRINTS OCA:997625

AGENCY NAME: CO0300000 - JEFFERSON COUNTY SHERIFF - GOLDEN

OFFENSE: 0999 - HOMICIDE

INVESTIGATED BY: CHRIS ANDRIST SUBMISSION DATE: 052199

* SUSPECT(S):	AKA:	R/S	D.O.B:
HARRIS,ERIC		W/M	
KLEBOLD,DYLAN		W/M	

* VICTIM(S):

Donald A. Sollars

EXAMINED BY/ DONALD A. SOLLARS, LABORATORY AGENT/CRIMINALIST

DATE COMPLETED/MAY 21, 1999

ITEM	DESCRIPTION
#911	INKED FINGER, PALM PRINTS: ERIC DAVID HARRIS
#912	INKED FINGER, PALM PRINTS: DYLAN BENNET KLEBOLD

RESULTS:

ITEMS #911 AND 912 WERE COMPARED TO LATENTS #31-03, #32-04, #33-2-05 AND #288-08 RESULTING IN ONE (1) IDENTIFICATION ON ITEM #911 ERIC DAVID HARRIS: #33-2-05 RIGHT PALM. ITEMS #262, 263, 264, 662, 663, #911 AND #912 ARE OF INSUFFICIENT QUALITY AND DETAIL FOR A CONCLUSIVE COMPARISON TO THE REMAINING 3 UNIDENTIFIED LATENT PRINTS.

PLEASE OBTAIN AND SUBMIT CLEAR LEGIBLE, ROLLED INKED MAJOR CASE PRINTS (INCLUDING SIDES, TIPS AND JOINTS) OF SUSPECTS ERIC HARRIS AND DYLAN KLEBOLD OR REMOVE THE HANDS AND SUBMIT TO THE CBI LABORATORY FOR PROPER RIDGE RECORDING.

Results:

An examination of item(s) # 1023 THROUGH #1032

disclosed 3 latent fingerprint(s) marked # 1029-09, 10, 11 ~~and~~ ~~latent palmprint(s) marked~~ suitable for comparison to known prints.

The latent print(s) ~~was~~/were compared to ITEMS #262, #264, #911 AND #912 RESULTING IN THREE (3) IDENTIFICATIONS:

TWO (2) IDENTIFICATION #264, DAVID ERIC HARRIS

#1029-09 LEFT THUMB

#1029-10 RIGHT THUMB

ONE (1) IDENTIFICATION #262, DYLAN KLEBOLD

#1029-11 LEFT THUMB

REMARKS:

On April 20, 1999, crime scene personnel from various law enforcement agencies were assigned to assist with the processing of a crime scene at Columbine High School, located in Jefferson County, Colorado.

Upon arrival at the Command Post located on Pierce Street by Clement Park, crime scene personnel were informed that the bomb squads of various agencies were in the process of clearing the school and the parking lot of explosive devices. At approximately 11:30 p.m., all crime scene personnel were instructed that processing of the scene would not start until the bomb squads had completed their activities; therefore, all crime scene personnel would report back to the command post on Wednesday, April 21, 1999 at 8:00 a.m.

ACTION TAKEN:

At 11:45 a.m. on April 21, 1999, Chris Andrist of the Jefferson County Sheriff's Office conducted a briefing for crime scene personnel. A plan was presented to divide the crime scene into specific areas and assign a team of four or five crime scene personnel to each area. A team leader was designated for each team.

Team One personnel consisted of :
Barie Goetz, Colorado Bureau of Investigation
Ted Ritter, Colorado Bureau of Investigation
Tom Adair, Arapahoe County Sheriff's Office
Chris Loptien, Jefferson County Sheriff's Office
Donald Sollars, Colorado Bureau of Investigation

Team One was assigned the eastern half of the school library, which included victims numbered 1 through 5. In addition, Team One was later assigned the northwest library offices, hallway and the emergency exit door in that area.

At approximately 1:39 p.m., April 21, 1999, members of Team One were escorted through the crime scene portion of the school for orientation purposes. At approximately 2:05 p.m., team members initiated processing of the school library. The main emphasis of processing for the day was evidence documentation and collection to facilitate body recovery.

Duties assignments of Team One were:
Barie Goetz - bloodstain pattern interpretation, coordinator of the team.
Ted Ritter - photography, firearm evidence recognition
Tom Adair - measurements, crime scene sketching
Chris Loptien - evidence collection, evidence log
Donald Sollars - photography log
All team members were assigned the task of evidence recognition and the marking of its location with a green placard evidence marker. Numbers 600 through 899 were assigned to Team One for identifying evidence.

The main part of the school library consisted of an entryway on the northeast, staff counter and workspace on the north, student study areas with tables and chairs on the south, and computer tables on the northwest. Secondary areas of the library consisted of storage and staff rooms to the north of the main library and offices and hallway in the northwest area. The student study area was physically divided into three sections by the placement of bookshelves oriented north-to- south. Bookshelf Row 1 was attached to the east wall. Rows 2, 3, and 4 separated the east student section from the middle student section. Rows 5 and 6 separated the middle section from the southwest section. The east section of the student study area consisted of six tables, labeled Table 1 through Table 6 with accompanying chairs labeled 1A, 1B, etc. Three of the victims, #1, #2 and #3, were located in this section. The middle section of the student area consisted of eight tables, labeled Table 7 through Table 14, with accompanying chairs labeled 7A, 7B, etc. Two of the victims, #4 and #5, were located in this middle section. The west section was designated as part of the area processed by Team Two and its description is included in their report.

The Federal Bureau of Investigation Special Projects Team was present to prepare a detailed diagram of the entire school and surrounding areas. The Arapahoe County Sheriff's Office representatives on Teams One and Two have generated a detailed diagram of the library with the location of all physical features of the area and all items of evidence. Therefore, measurements concerning the location of evidence, bullet holes, tables, chairs, walls, windows, desks, etc. will not be included in the narrative of this report.

All items of evidence were assigned a number, photographed in place, measured for final location in sketch, and then collected in a suitable container and marked with the case number, item number, date, time, location, description, and the initials of the collector. The Jefferson County Sheriff's Office has generated a detailed list of evidence for the entire school and area; therefore, a detailed list of the evidence collected by Team One is not included in the narrative of this report.

Prior to collection of evidence, overall photographs were taken of the library entrance, main staff counter, student area, and bodies of the deceased.

Processing was initiated in the entryway. Evidence items consisting of spent cartridge cases and firearm projectiles were located and collected from this area. The entryway was then utilized as a staging area for equipment and personnel.

The area leading up to Table 2 in the east section of the student study area was processed for obvious items of evidence. Apparent bullet holes were present in the carpet under and surrounding Table 2.

Victim #1, later identified as LAUREN TOWNSEND, was found lying on her left side, bent at the waist, head to the north, feet to the east, under the northwest corner of the table. She was dressed in a blue top, denim pants and dark boots. Multiple bullet holes were noted in the back of the shirt. Bloodstains associated with the upper two holes were consistent with drainage of blood while the body was positioned as found. Minimal drainage was present around the two lower holes. Concentrated drainage of blood was present under the left arm. A linear blood drainage stain was present in the rectal area. Bullet holes were present in the right thigh area with surrounding blood drainage stains consistent with the position of the body as found. Transfer bloodstains were present on the lower legs and on the sides and bottom of the boots. These bloodstains were not associated with injuries to the victim. Bloodstains on the carpet indicated that the legs of the victim were moved to the east through wet bloodstains to their position as found. The position of Table 2 and the surrounding chairs were marked on the carpet and then moved to view the body. Additional bullet holes were noted in the front crotch area when the body was moved. Photographs were taken of the position of the body, the bloodstains present on the body, and the bloodstains on the carpet surrounding the victim. A bloodstained shirt was present under Table 2 to the south of victim #1. Medical treatment type packages and bandages were present in this area. Bloodstain patterns on the carpet and on the vertical supports of Table 2 along with the shirt and bandages indicated that multiple injured individuals were present at some time under the table and then moved from the scene.

Victim #2, later identified as KELLY FLEMING, was found lying on the floor in a prone position to the southeast of Table 2. She was dressed in a black shirt, denim pants and black/white tennis shoes. An entry wound consistent with a shotgun discharge was present in the lower left back of the body. The plastic shotgun cup/wad was present in the wound tract. Several associated pellet holes were present adjacent to the main entry wound. Drainage of blood from the wound was minimal and consistent with the position of the body as found. Drainage of blood from the nose/mouth area was consistent with the position of the body as found. No other bloodstains were present on the body. Photographs were taken of the position of the body, the bloodstains present on the body, and the bloodstains on the carpet surrounding the body.

Victim #3, later identified as JOHN TOMLIN, was found lying on the floor in a prone position to the southeast of Table 6. He was dressed in a dark T-shirt, denim pants, and white/black tennis shoes. Numerous wood fragments and pieces of foam padding were dispersed in the area of the body. Drainage of blood from the right side of the head was consistent with the position of the body as found. A large pool of blood was present on the carpet extending to the west of the victim's head area and under the victim's chest and right arm. The victim's eyeglasses were present under the lower portion of the face. No bloodstains were noted on the pants or shoes of the victim. No impact blood spatter was noted in the area. Photographs were taken of the position of the body, the bloodstains present on the body, and the bloodstains on the carpet surrounding the body.

Victim #4, later identified as COREY DEPOOTER, was found lying on the floor in a prone position to the west of Table 14. He was dressed in a gray shirt, denim pants, and brown leather boots. A large concentrated bloodstain consistent with drainage from the rear of the neck and the upper chest was found under the body. This pooling of blood continued onto the carpet to the west of the body. A large concentrated transfer bloodstain was present on the lower back area of the clothing and body. No wounds were present in this area of the body. The bloodstain originated on the exterior of the outer shirt, soaked through to the thermal undershirt and onto the skin of the victim. A strap from the victim's backpack was present under the left arm of the victim and the backpack was found to the west of the body. The bottom of the backpack was heavily blood soaked. No corresponding stain was present on the carpet under the position of the backpack as found. A pattern in the pooled blood to the west of the body was consistent with the size and shape of the backpack bottom. The bloodstain patterns were consistent with the backpack initially lying in the pool of blood from the victim; the backpack being moved to the small of the back of the victim; and then moved to the floor to the west of the body. Photographs were taken of the position of the body, the bloodstains present on the body, and the bloodstains on the carpet surrounding the body.

Victim #5, later identified as DANIEL MAUSER, was found lying on his right side under Table 9 in the middle section. He was dressed in a tan shirt, denim pants, and black/gray tennis shoes. His right arm extended to the south and the wrist area was positioned on top of the right rear stile of Chair 9E. The chair was found lying on its back to the south of the victim. An injury to the fingers of the right hand was present and a small pool of dripped blood was found under the position of the hand. A concentrated pool of blood was present under the head, neck and shoulder area of the victim. Eyeglasses were found under the head of the victim, partially on the upper face. Chair 9E had a bullet path through the chair, entry in the seat cushion and exit in the front upper wooden rail. Wood fragments were dispersed over the body. A number of wood fragments were embedded into the right forearm of the victim. An injury to the right ear was noted upon repositioning of the body prior to transport.

Photographs were taken of the position of the body, the position of the chair as found, the bloodstains present on the body, and the bloodstains on the carpet surrounding the body.

Removal of bodies by coroner investigators from various agencies commenced at approximately 5:30 p.m. and was completed by 9:06 p.m.

On Thursday, Friday, Monday, Tuesday and Wednesday, April 22, 23, 26, 27 and 28, 1999 respectively, members of Team One returned to the library to continue documenting and collecting evidence. On Wednesday, April 28, 1999, Dr. Bodelson, Jefferson County Coroner, and the five pathologists who conducted the autopsies, Dr. Michael Dobersen, Dr. Ben Galloway, Dr. Thomas Henry, Dr. John Meyer and Dr. Jim Wahe, briefed the members of Team One on the preliminary results of the autopsies. Their findings are included in the narrative part of this report as they pertain to each victim.

The students' backpacks were examined for items to demonstrate the ownership. Materials remaining on the tables were similarly examined. After verification of the owner by identification cards or a multiple of other items, the student's name was printed on a section of tape and affixed to the table in the approximate location as his/her belongings were found. Backpacks and other items identified as belonging to one of the deceased victims were collected as items of evidence. The film was removed from a camera (item #737) found on top of Table 3 and collected as evidence. A disposable type camera from the top of a table in the middle student study area was collected as evidence.

Table 1, the first table on the right as the east section is viewed from the entryway, contained materials belonging to Mark Kintgen on the southwest corner and Jen Doyle on the northeast corner. Reports listed Mark Kintgen as having gunshot injuries to the head and neck. A pool of blood and eyeglasses were located under the southwest corner of Table 1. Chair 1A was located across from the table position of Kintgen's belongings. It was found facing south and positioned almost all the way under the table. It contained a shotgun discharge hole in the backrest with the entry on the north side and exit on the south side; pellet holes were present in the seat portion. A blood transfer was found on the cross brace (stretcher) of the chair above the blood pool. The longitudinal cross brace under the table directly in front of Chair 1A contained shotgun pellet damage and one pellet was imbedded in this area. Chair 1E was located to the east of Kintgen's belongings and it contained a bullet strike in the southwest leg. Chair 1F was located to the south of Kintgen's belongings on Table 1 and it contained bullet strikes to the rear upper rail and the right rear leg. A blood transfer was present across the top of the backrest of Chair 1F. A bullet strike was found on the exterior surface of the north support of Table 3. No other projectile strike marks were found on Table 3. Trajectory of the shotgun blast to the backrest of Chair 1A aligned with the damage to the seat cushion, cross member of the table, bullet damage to opposing chairs and the eyeglasses and bloodstain under the table.

Preliminary autopsy results from Dr. Dobersen on LAUREN TOWNSEND indicated that both shotgun pellets and 9mm bullets were recovered. The numerous wounds and their locations indicated that the body had been shot in more than one position. Several rounds had exited the body.

Autopsy results from Dr. Dobersen on KELLY FLEMING indicated a single shotgun blast entered the lower left back, traveled straight upward, and the pellets were contained in the upper left back area. The acute angle of travel through the body indicated that the victim was in a prone or near prone position when shot.

Concentrated, congealed bloodstains were found projected onto the exterior vertical surface of the east support of Table 1. The stains range from 29" to 6" from the floor. Chair 1C also contained a concentrated, congealed, projected bloodstain on the left middle rail, 8.5" from the floor. The table support and left side of the chair were exposed to the area under Table 2.

The area under and surrounding Table 2 contained numerous bloodstain patterns. Concentrated pooling of blood was found on the carpet in the southeast area under the head of FLEMING. A large transfer bloodstain was found on the interior surface of the south table support. This stain covered an area 11" high by 12" wide. A concentrated bloodstain was found on the carpet directly below this stain. Concentrated pooling of blood was found on the carpet to the north of this area. Concentrated pooling, dripping, and transfer bloodstains were found on the carpet to the southwest of Table 2. A bloodstained shirt and emergency medical supplies were found to the north of this area. Concentrated pooling of blood with associated spatter was found on the carpet at the base of the north support of Table 3. No bloodstains were found on the remainder of Table 3. Concentrated pooling, dripping, and transfer bloodstains were found on the carpet to the northeast of the table. A drip pattern extended to the north of the table. The bloodstain patterns associated with Table 2 were in excess of what would be expected from the injuries to TOWNSEND and FLEMING. Patterns indicated that individuals were injured under Table 2 and then were transported or moved away from the area. Personal belongings of Jessica Lea Holliday, Lisa Michelle Kreutz, and Jeanna Park were found on the east side of the table. Personal belongings of Diwata Perez and LAUREN TOWNSEND were found on the west side. Personal belongings of Val Schnurr and possibly from a Susan Peters were present on a small table to the northeast of Table 2. Personal belongings of Heather Jackson and Patti Blair were found on Table 3.

Chairs 2A and 2B were found to the north of Table 2. Chair 2A was facing to the northwest; Chair 2B was facing to the southeast. 2A had two bullet entry holes in the seat cushion, one exited the bottom of the chair, and the other one exited the top rail on the right side. Bloodspatter was present on the chair; however, no corresponding patterns were present in the surrounding area. Wood splinters from the chair were found under Table 2. Chair 2B had blood smears on the lower front left leg and on the seat cushion; however, no corresponding patterns were present in the surrounding area. A bullet impact site was present on the rear right leg. The physical evidence found on the chairs indicated that they were originally positioned to the sides of Table 2 and then moved to the positions as found.

Pellet impact sites were present on the interior surface of the north support of Table 2. One pellet penetrated the veneer surface and projected a section of wood from the exterior surface onto the carpet north of the table. This pellet was imbedded in the wood. The trajectory of the pellets indicated that the pellets originated from the southeast and traveled under the table and struck the interior of the north support. Pellet wounds to TOWNSEND corresponded with this trajectory. Bullet impact sites in the carpet under and around the table were aligned both north-south and east-west. Examination of the exterior surface of the south support of Table 2 did not reveal any bullet strike marks or bloodstains.

Personal items identified as FLEMING's were found on and under the northeast corner of Table 4. The corresponding chair was moved back from the table. Examination of Table 4 and the six chairs associated with it did not reveal any bloodstains or bullet impact sites. No other person's belongings were found on Table 4.

The north end of Table 6 contained a bloodstain pattern consistent with expirated/aspirated blood. The origin of the bloodstains was determined to be approximately 51" above the surface of the floor, 43" from the east baseboard, and 19'6" from the south wall. The north side of Chair 6B also contained fine droplets of blood consistent with the source of bloodstains on Table 6. A linear pattern of small blood droplets was also found on the surface of Table 5 leading up to the position of a bloodstained multifunction tool. The tool was configured into the pliers position. No other bloodstains were found on Tables 5 and 6. Personal belongings of Nicole Nowlen were found on Table 5. Personal belongings of TOMLIN were found on Table 6.

The carpeted area to the southeast of Table 6 contained four bullet impact sites. The trajectories were parallel and were aligned in an east-west orientation consistent with an origin south of Table 5. A jacketed bullet was recovered from one of the carpet strike points. The lower left side of Chair 6D contained two bullet impact sites. The east bookshelf baseboard trim behind Chair 6D also contained a bullet strike. A dowel rod was inserted through the holes in the chair and aligned with the impact site on the baseboard. The convex mirror positioned on a support on the south wall contained a single bullet hole through the mirror and into the wall. A dowel rod was inserted through the mirror holes and into the wall hole to approximate the trajectory. The trajectories of the bullet paths through the mirror and the bullet hole through Chair 6D intersected at a location south of Table 5. Agent

Goetz held a dowel rod in each hand and approximated the intersection of the trajectories to demonstrate a possible common origin. This area was 9' from the south wall and 14' from the east baseboard. Photographs were taken of the damage to the mirror, baseboard, carpet, Chair 6D, and of the dowel rod trajectories.

Chair 5G contained a shotgun blast through the backrest portion. The entrance was to the rear of the seat back. Additional damage was noted on the upper portion of the front left leg. Debris from the chair was found under and to the east and south of Table 6. Pellets were found to the east of Table 6. Chairs 6A and 6E also contained impact sites. The evidence was consistent with Chair 5G being originally positioned along the west side of Table 6 when a shotgun blast originated from the area north of Table 5. A dowel rod was inserted through the hole to approximate the trajectory. Photographs were taken of the damage, indicated original position, and dowel rod trajectory. As reported above, TOMLIN was found on the floor to the east of Table 6. Preliminary autopsy results by Dr. Thomas Henry indicated three projectiles had entered the right side of the head/neck area and exited the left side. Additional injuries to the torso were consistent with shotgun pellets.

As reported above, MAUSER was found lying under Table 9 in the middle student section with Chair 9E lying to his south. Preliminary autopsy results from Dr. Galloway indicated three wounds. The right hand had two defects present. A bullet graze injury was present on the right ear, and the fatal injury was due to a single bullet that entered the nose and exited the back. Bloodstains on the carpet between Table 1 of the east section and the location of MAUSER indicated an individual with a bleeding injury or injuries traveled from the area of Table 1 toward the west and Table 9. Bloodstains on the rows of bookshelves in this area were found where a person with an injury to the right hand would have touched as he or she moved to the west. The arrangement of chairs to the south of Table 1 indicated an individual in addition to Mark Kington was seated on the south side of Table 1.

A dowel rod was used to demonstrate the trajectory of the bullet hole through Chair 9E. The chair was originally found lying on its back; however, the trajectory through the chair was not feasible with that position. With the chair upright on its legs and placed to the south of Table 9, the trajectory of the bullet and a bullet strike mark in the carpet indicated a common area of origin. Photographs were taken of Agent Goetz standing in various locations south of Table 9 holding a dowel rod to simulate a weapon.

As reported above, DEPOOTER was found under Table 14. Preliminary autopsy results from Dr. Jim Wahe indicated three injuries. A single bullet entered the left arm, continued through and entered the left chest, and exited the back of the neck. A second single bullet entered the upper back leaving an atypical entrance hole and lodged in the left chest. A third single bullet entered the back and lodged in the left chest. Three bullet strike marks were found in the carpet under Table 14. Two were aligned east-to-west and one was aligned south-to-north.

Bloodstains were collected from various areas for possible future comparison to injured or deceased individuals. A sample of the pooled bloodstain from under the east end of Table 1 was collected for comparison to the blood of Kington. A sample of the bloodspatter from the top of Table 6 and a sample of the droplets from the top of Table 5 were collected for comparison to the bloods of HARRIS and KLEBOLD. Samples of five different bloodstains from the carpet in the area of Table 2 and a sample of the blood from the side of Table 1 were collected for comparison to blood standards of TOWNSEND, FLEMING and the injured individuals who were shot while under Table 2. A sample of the blood from the carpet between bookshelf Rows 2 & 3 and a sample of the transfer stain on a vertical surface of bookshelf Row 4 were collected for comparison to the blood standard of MAUSER. Samples of the pooled blood from under the positions of victims TOWNSEND, FLEMING, TOMLIN, DEPOOTER, and MAUSER were collected as substitute standards of the victims' bloods.

Paper debris was present in the middle student section at the base of bookshelf Row 5. The color and texture of the paper pieces matched the large debris field found between Rows 5 and 6.

A bullet hole was found in the south wall above the third window from the east. A large caliber projectile was collected from this location. The apparent general trajectory was consistent with having originated from the window area of the west wall of the library.

An exit bullet hole through an art display on the east wall of the student section was determined to be a continuation of an entrance bullet hole in the west wall of the hallway outside the library. The bullet continued upward into the ceiling of the east section of the library where it ricocheted off of the concrete roof supports and came to rest on the upper surface of the ceiling tile above Table 14. The trajectory of the various paths through the wall and ceiling indicated an origin on the stairs landing leading to the cafeteria.

The center student study section contained eight tables numbered 7 through 14 as depicted on the crime scene diagram. Table 7, the first table on the left as viewed from the north, contained personal belongings of Aaron Welsh. Table 8, the first table on the right as viewed from the north, contained personal belongings of Aaron Cohn, Byron Kirkland, Joshua Lapp, Megan Coxey, Craig Scott, and Brittany Bollerud. A backpack belonging to MAUSER was found on the floor next to Table 9. Table 10 contained personal belongings of Sara Houy and Crystal Woodman. Table 11 contained belongings of John Savage. Table 12 contained personal belongings of Lindsay Elmore and Rebecca Parker. Table 13 contained belongings of Athena Lagos. Table 14 contained belongings of Peter Ball and DEPOOTER. A backpack with items labeled Austin Eubanks was found on a chair along the south wall.

On April 22, 1999 Team One was assigned to process and document the hallway, five offices, conference room, and emergency exit of the northwest corner of the library, as well as the staff service area at the north end of the main library. The area was documented through sketches. Placards were mounted to the walls outside each office designating the offices as “LMC-1”, “LMC-2”, “LMC-3”, “LMC-4”, and “LMC-5”. The rest of the area was comprised of a conference room, designated as Office #2 in photographs, and a hallway. The following observations were made in each room or hallway. See sketch for measurements of items and bullet holes. Bullet holes were given an alphanumeric designation (for example, BH-1). All entry doors were on the east side of each office.

LMC-1 was the southernmost office. The office door was closed and locked upon arrival on scene. The office had a long desk that ran the length of the south and west walls. Bookshelves took up much of the space on the north wall. There were windows on the south and west walls of the office. No evidence was located in office LMC-1.

LMC-2 was directly north of LMC-1 and had two windows along the west wall. The office door was closed and locked upon arrival on scene. A rectangular wooden table and four chairs were in the center of the room. A small computer table was against the east wall to the south of the office entry door. A small book cart on casters was against the north wall just west of the entry. There was no evidence located in LMC-2.

LMC-3 was directly north of LMC-2 and had one window along the west wall. The office door was closed and locked upon arrival on scene. A long worktable was attached to the south wall. A chair and a file cabinet were located in the southwest corner of the room. A row of staggered bookshelves was attached to the north wall west of the entry door. An apparent bullet impact defect was observed in the north wall above the door. A bullet fragment (item #763) was recovered from that location (corresponded to BH-6 in LMC-4).

LMC-4 was directly north of LMC-3 and had one window on the west wall. A small table with a television on it was located in the northwest corner of the office. There was a rectangular wooden conference table and six chairs in the center of the room. There was loose wallboard debris over the top of the table. The debris appeared to have come from three bullets that penetrated the north wall of the office, passed over the table, and entered the south wall of the office. The south wall of the office contained three bullet holes given the designations BH-4, BH-5, and BH-6. A bullet fragment (item #761) was recovered from the hole designated BH-4 (corresponded to BH-1 in LMC-4). Another bullet fragment (item #762) was recovered from the hole designated BH-5 (corresponded to BH-3 in LMC-4). The bullet fragment forming BH-6 was actually recovered from the north wall, adjoining LMC-3.

The north wall of the office also contained three apparent bullet holes designated BH-1, BH-2, and BH-3. There were no bullet fragments located in these holes.

LMC-5 was the northernmost office in the northwest library hallway. LMC-5 had one window on the west wall and one on the north wall. A small wooden table, black metal audio-visual cart, and chair were located against the south wall of the office. A green metal audio-visual cart was against the east wall directly south of the entrance.

There were seven apparent bullet holes in the south wall of LMC-5. The holes were labeled BH-6 (corresponded to BH-1 in LMC-4), BH-7, BH-8 (corresponded to BH-3 in LMC-4), BH-9 (corresponded to BH-2 in LMC-4), and BH-10. BH-7 contained the copper jacketing associated with lead fragment item #761. BH-10 contained two copper jackets (one associated with item #762) and one lead bullet fragment (item #767). There were also numerous secondary missile impact sites in the area of BH-10 consistent with small glass fragments projected towards the wall, with the bullet fragments, from the north window.

The window on the north wall had five bullet holes through it (three through the glass, two through the frame). No bullet fragments were located in these five holes. The holes were labeled BH-1 (corresponded to item #764), BH-2 (corresponded to BH-6 and BH-7), BH-3 (corresponded to BH-10), BH-4 (corresponded to BH-8 and BH-10), and BH-5 (corresponded to BH-9). It was determined through glass fracture analysis that the sequence for the bullet holes in the north window glass of LMC-5 was as follows:

1. BH-2
2. BH-3
3. BH-4

The following chart explains bullet hole correspondence for LMC-5 through LMC-3 going from north-to-south:

Ext. North	LMC-5 North	LMC-5 South	LMC-4 North	LMC-4 South	LMC-3 North
BH-1	BH-1	ON FLOOR (#764)			
BH-2	BH-2	BH-6/BH-7	BH-1	BH-4	IN WALL (#761)
BH-3	BH-3	BH-10			
BH-4	BH-4	BH-8/BH-10	BH-3	BH-5	IN WALL (#762)
BH-5	BH-5	BH-9	BH-2	BH-6	IN WALL (#763)

The five bullet holes in the north window and frame of LMC-5 were also documented from the exterior north library wall. In addition, two bullet impact sites were located in the north wall between the north window of LMC-5 and the emergency exit door at the north end of the library hallway.

There were several bullet impact sites in the hallway at the northwest corner of the library. All of the bullet trajectories were traveling south. A wooden twenty-drawer map storage cabinet, located against the east hallway wall, had three bullet impact holes on the north side of the cabinet. Two of the bullets (BH-1 and BH-3) were recovered inside the cabinet. One bullet (item #757) was embedded in the wood of the south edge of drawer #10 from the top and was facing south. One bullet (item #755) traveled through the map cabinet (BH-2 to BH-4), exited the map cabinet then entered the rear of the television cabinet to the south of the map cabinet. Upon making contact with the front frame of the television on the west side, the bullet made a dramatic turn to the east and exited between the plastic face and glass screen of the television set. The bullet then traveled east and struck the east wall. The bullet was recovered from the floor beneath the television cart. Wallboard material was observed on the nose of the bullet at the time of collection.

At the south end of the hallway, on the east wall separating the hallway from the conference room, there were several bullet impact sites. One bullet impacted the upper northern frame of a chair (CH1) along the east wall. The bullet impact (designated impact #1) sent smaller pieces of metal across the wall and through a picture frame on the east wall at the south end. A second bullet impact (designated impact #2) struck the wallboard to the south of CH1 and impacted below the computer table. Team Two recovered that bullet. The third bullet impact (designated impact #3) struck the wood corner molding at the south end of the east wall. The projectile then traveled south and hit a Macintosh computer monitor on the computer table. All three impact sites were tested with sodium rhodizinate with positive results for lead. A fourth projectile also passed through the lower back (south) partition under the computer table and was designated projectile hole #1A by Team Two. A minimum of 15 projectiles was determined to have been fired from the north end of the library, down through the northwest hallway and offices towards the south.

The conference room was located on the southeast end of the hallway and directly west of the library magazine storage room. The conference room consisted of a large wood top conference table, surrounded by six padded chairs, in the center of the room. A small table was to the west of the entrance along the north wall of the conference room. A large paper writing pad on an easel was located in the southeast corner of the room. There was a bullet hole in the north wall of the conference room on the west edge of the doorframe. The trajectory of the bullet was traveling south into the conference room. As the bullet passed through the wall it fragmented. Several copper and lead fragments were found on the floor, tabletop, chairs (Chairs "A" and "D") and the south wall. A bullet hole was located in the floor molding of the south wall. The largest of the lead fragments (item #752) was located in the south wall under the easel. An apparent bullet wipe was found on the conference room floor in the southeast quadrant of the room. The wipe was in line with the bullet hole impact area on the floor molding. The area tested positive for lead with sodium rhodizinate.

The magazine storage room was located directly east of the library conference room. Entry into the room could be gained by either the conference room or the staff service area. The room was comprised of two rows of magazine stacks as well as shelving on the south and west walls. No evidence was located in this room. Both doors were open and unlocked upon arrival.

The staff service area was located at the northern end of the main library. The area was comprised of a large wood countertop work area. There were two computer terminals centered in the service counter, which faced south. Inspection of the area revealed that an under-the-counter telephone (presumably for staff use) was off the hook with the receiver on the floor behind the counter. One of the blue cushioned bar stool style chairs from the computer terminal area had apparent bullet hole damage to it. The chair was found on top of the counter to the east of the easternmost computer terminal. The computer monitor was off center of the CPU to the west and had scuffs on the front of it indicating that the chair had been thrown onto the counter striking the computer monitor.

A small rectangular wooden printer stand cabinet was located at the northwest end of the staff service counter. The cabinet was open to the east and 100 sheet packs of white (8 1/2"x11") printer paper were stored under the counter on the staff (east) side. A computer printer (HP Laser Jet 5si/mx) was essentially centered on top of the cabinet. There were at least 14 shotgun pellet impact sites on the wood frame of the cabinet, some caused by ricocheted pellets. At least three pellets also struck the east side of the upper northwest paper bundle (item #735). No on-site examination or extraction of pellets was performed. One pellet (item #699) was recovered from the lower paper tray of the HP printer east side. Five other pellet impact sites were located on the west side wall of the westernmost staff seating area (access panel location) directly south of the printer cabinet. Additional items of evidence were recovered from the floor and countertop areas of the staff service section (see evidence report).

8	**#802** midrange
9	**#802** close-up

Roll #19

1 Card
2 **#803** midrange of videotape
3 **#803** midrange, turned over showing defect
4 **#803** close-up showing copper coated pellet in video cassette
5 **#804** close-up of copper bullet jacket in Office 2, no flash

6 **#804** close-up of copper bullet jacket in Office 2
7 Overall of impact #1, Office 2 with Sodium Rhodizinate test
8 Close-up - overall of impact #1, Office 2 with Sodium Rhodizinate test
9 Overall of outside North wall with BH-1 through BH-7
10 Overall of outside North wall (North window)

11 Overall of outside North wall from side showing trajectory rods (North window)
12 Overall of window showing arrows – side lighting
13 Closer shot of window showing arrows – side lighting
14 Closer shot of window showing arrows – side lighting
15 Closer shot of window showing arrows – top lighting, flash

16 Closer shot of window showing arrows – from West side
17 Closer shot of window showing arrows – from West side
18 LMC-5 room, overall, showing trajectory rods in metal frame of window
19 Overall LMC-5 room showing three trajectory rods in South wall, LMC-5
20 Overall LMC-5 room showing three trajectory rods in South wall, LMC-5, no flash

21 Overall LMC-5 room showing three trajectory rods in South wall, LMC-5
22 Overall of window LMC-5
23 Overall of trajectory rods in South wall, LMC-5, no flash
24 Overall of trajectory rods in South wall, LMC-5, no flash
25 Overall of trajectory rods in South wall, LMC-5, no flash

Roll #20

1	Card
2	Three trajectory rods in North wall of LMC-4
3	Three trajectory rods in North wall of LMC-4
4	Overall of BH-7 hallway from outside
5	Overall of BH-7 hallway in Office 2
6	Impact #3 hallway – string to computer (pink line)
7	Impact #2 – (yellow line) – string wall to computer desk
8	Overall with holes in computer desk and rod and string
9	Computer table, no flash
10	Overall of hallway, with rod and strings
11	Overall with holes in computer desk with both trajectory rods and strings
12	Close-up view of holes in computer desk with both trajectory rods and strings
13	Midrange of string and trajectory rods
14	Overall of string and trajectory rods down hall wall from open door
15	Overall of string and trajectory rods down hall wall from open door
16	From LMC-4 hallway with string
17	Hallway TV, divot mark outside West face, close-up
18	Hallway TV, divot mark outside West face, close-up
19	Inside bullet wipe mark on front of TV frame, midrange
20	Close-up, bullet wipe mark on front of TV frame
21	Close-up, bullet wipe mark on front of TV frame, oblique flash from below
22	Close-up, bullet wipe mark on front of TV frame, diffused flash
23	Corrected placard for **#763**
24	Corrected placard for **#761**

Roll #1A

1	Card
2	BH-4 and BH-5, medium range
3	BH-7 hallway
4	BH-7 with scale
5	BH-8 hallway
6	BH-8 hallway
7	BH-8 hallway with scale
8	BH-9 in frame of picture
9	BH-9 mark in poster
10	BH-9 mark in poster with scale
11	Impact in South side of poster frame
12	Impact in South side of poster frame with scale
13	Impact in South side of poster frame with scale

NAME: Peggy ROWLETT FROM:

DATE: 0201 TIME: 1045/1100 PHONE:

I called Peggy. She doesn't have notes of any sort to enable her to elaborate Jamies draft, as well as not feeling comfortable making changes on someone's ~~else~~ else's report. She's okay signing report in ~~that~~ what is included is factual. She's gone = 2 Feb to 11 Feb

INITIALS G

NAME: Diane CLOYD FROM:

DATE: 0201 00 TIME: 1140 PHONE: 795-4774

I left msg. asking when will master copy of report be back here?

INITIALS G

020200 // 0615 Diane called bk & left msg. She has other report suggestions on T 3. I called & left msg @ ≈1330 leaving Jamie's phone # & fax #. Then I sent Jamie e-mail msg. advising him of Diane's concerns.

COLORADO BUREAU OF INVESTIGATION CASE # D99-1333 6-15

CORRESPONDENCE FORM

NAME: Steve ADAMS FROM: Arvada
DATE: 020700 TIME: 1640 PHONE: (303) 431-3062

Left msg asking report status & if could be ready Thurs.

INITIALS GRIF

NAME: Tony GALLARDO FROM: Arapahoe
DATE: 020900 (heard) TIME: PHONE: 795-4912

He left msg 0208 @ 1150 about Team 4 report. He had some ques on diagrams. Steve Adams had contacted him to sign report

I ret. Tony's call 0209 // ≈1200 & left msg. Will he be at Jeffco tomorrow?

INITIALS G

NAME: Jamie CRIPPIN FROM:
DATE: 0209 (heard) TIME: PHONE:

He left msg 0208 @ 1440. He's rec'd fax from Diane (CLOYD) w/ changes. He'll have final report routed to me (done Tues) & size will be the same so signature page still same #.

Also have e-mail msg. rec'd final report 020900

INITIALS G

NAME: Steve ADAMS FROM:
DATE: 0209 TIME: ≈ 1215 PHONE: 431-3062

He has proposed final draft. I was looking @ e-mail w/ report attached. He & I met here @ CBI @ 1330 & discussed. He'll make changes & try to ~~review~~ compare photos & photologs.
Told him of some changes
I called him shortly after ~~that~~ w/ more changes.

INITIALS G

NAME: Wendy "ZOBA" FROM: a "Christian Magazine"
DATE: 021500 TIME: 0945 PHONE:

She called me asking for info on wounds to victims; referred to video w/ HARRIS talking abt Christians. Told her Jeffco SO or Coroner are only ones who can discuss case. Suggested she call Jeffco PIO. She has talked w/ him & some families. No case info given

INITIALS G

Peggy ROWLETT
021600 // 1150 left msg signature page ready

≈ 0228 - talked w/ Jamie He'll have same date (signature sheet) on all T3 narrative sheets & send up.

COLORADO BUREAU OF INVESTIGATION CASE #
D99-1333 (G-16)

CORRESPONDENCE FORM

NAME: Chris Andrist FROM:
DATE: 0302 Th & 0306 Mon TIME: PHONE:

We did "phone tag". He'll come by 7 March for T4 report (photos & narrative)

On 7th I advised him Jamie would be correcting T3 header dates & I'd been waiting a week. Jamie would be told to direct copy to Jeffco & copy to me.

Report Date May 21, 1999	Colorado Bureau of Investigation Report of Investigation	Case No. D99-1333
Type of Report Crime Scene	Report By Agent Tom J. Griffin Team Leader	Area Jefferson County
Nature of Case Homicide		

CRIME SCENE REPORT FOR TEAM TWO

REQUESTING AGENCY: Jefferson County Sheriff's Office

INVESTIGATING OFFICER: Lab Supervisor Chris Andrist

DATE OF REQUEST: April 20, 1999

DATE OF OFFENSE: April 20, 1999

AGENCY CASE NUMBER: 99-7625

LOCATION OF SCENE: Columbine High School, 6201 South Pierce Street,
Jefferson County

VICTIMS: (DECEASED)	Cassie Bernall	DOB: (110681)
	Steven Curnow	DOB: (082884)
	Matt Kechter	DOB: (021983)
	Isaiah Shoels	DOB: (080480)
	Kyle Velasquez	DOB: (050582)
SUSPECTS:	Eric Harris	DOB: (040981)
	Dylan Klebold	DOB: (091181)

WEATHER: Variable

EVIDENCE SEIZED BY: James Jennings, Tom Acierno, Steve Stalter all Jefferson County Sheriff's Office representatives

EVIDENCE IN CUSTODY OF: Same as above

REMARKS: The following is a group report for the members of Team Two, assigned to the west side of the library media center of Columbine High School. In addition to Griffin, the reporting team leader, other members and their agencies were

Tom Acierno (Jefferson County Sheriff's Office)
Laura A. DeLong (Arapahoe County Sheriff's Office)
Alan Hammond (CBI Denver)
James R. Jennings (JCSO)
Peggy Rowlett (Wheat Ridge Police Department)
Jennifer Savage (JCSO)
Richard Swanson (CBI Pueblo)
Steve Stalter (JCSO).

The composition of this team varied during the time of the processing.

On Tuesday April 20, 1999, various team members responded at different times to the area of Columbine High School in Jefferson County to assist the Jefferson County Sheriff's Office in the investigation of multiple deaths, gunshots, and explosions. No processing teams were allowed to enter the building on April 20th due to the safety concerns with the presence of unexploded devices.

ACTION TAKEN: On the morning of Wednesday, April 21st, various team members were involved with either recording information and checking vehicles in the school parking lots for possible explosive devices or participating in searching the grounds and Pierce Street for possible evidence. After an assessment of the scenes by members of the Jefferson County Sheriff's Office (JCSO) and Jefferson County Coroner's Office (JCCO), Chris Andrist conducted a preliminary walk through for, and overall documentation by, Tom Adair (Arapahoe County SO) and Bob Lloyd (Thornton PD) for videotaping and Chris Loptien (JCSO) and Griffin (CBI) for photography. These individuals entered the school at approximately 10 a.m. and began the documentation at approximately 10:50 a.m. completing it at approximately 12 p.m. Andrist identified the team assignments outside of the school and team members then met to ensure a standard approach to all of the scenes. Each of the teams was led through the various scenes in the school to help in the assessment of evidence.

Team Two entered the building at approximately 1:54 p.m. The processing of the scene continued until Thursday April 29th. The approximate scene activity times were as follows:

Wednesday April 21st, 2 p.m. to 11:00 p.m.
Thursday April 22nd, 8 a.m. to 5 p.m.
Friday April 23rd, 8 a.m. to 7 p.m.
Monday April 26th, 9 a.m. to 8:30 p.m.
Tuesday April 27th, 9 a.m. to 7 p.m.
Wednesday April 28th, 7:30 a.m. to 6 p.m.
Thursday April 29th, 8 a.m. to 6:30 p.m.

The library media center was on the southwest end of the high school on the upper floor, level with the main entrance. It was above part of the cafeteria. For processing purposes, the library was divided into east-west sections at the pillars to the east of the fifth row of bookshelves. Team One handled the east section and some of the rooms to the north of the library and the hallway on the northwest leading to an emergency exit. Team Two worked the west section. The west, curved wall was comprised of ten columns of windows, each with double panes of glass. These were numbered sequentially from north to south, beginning with number 1 at the north wall. Each column of windows was arranged in three vertical sections (top to bottom) of glass separated by metal frames. The largest section was on the bottom.

The numbering sequences for bookshelves and tables were continued from labels assigned by Team One in the east side. Three rows of metal bookshelves, labeled Rows 5, 6 and 7, extended north to south. Row 8 was along the southwest wall below the windows. Six wooden tables labeled as Tables 15 through 20, each with wooden and cloth chairs in various positions relative to the tables, were in the south portion of the room. Two rows of tables (computer workstations) and chairs, running east-to-west, were in the north portion. Walls were painted white; the suspended ceiling tiles were white; and the gray carpet, with green border on some portions next to the walls, was glued to a concrete floor.

The scene processing included measurements and diagrams (primarily handled by DeLong), photography (Swanson and Jennings), identification of evidence and some package preparation (Hammond and Griffin) and collection, sealing and log entry of evidence (Jennings, Savage, Acierno, Stalter, and Rowlett), projectile entrances, exits and trajectories (Hammond and Griffin), and bloodstain pattern evaluation (Griffin). This team had been assigned evidence numbers 900 through 1199. All item numbers in this report are those assigned by JCSO.

One primary focus on the 21st was to document the positions of the victims and suspects with photography and measurements, and collect any evidence near the bodies that might be disturbed in the process of removing the bodies. The other primary focus was to obtain firearm data for the Bureau of Alcohol, Tobacco and Firearms (ATF). In addition, pieces of window glass were occasionally falling out or coming loose when team members were working next to them. A west wind was also increasing and blowing some of the cardboard evidence placards. Since storm clouds were also moving in, this team requested that the broken or missing windows be boarded. As that activity could further dislodge the glass, priority was placed on examining and documenting the projectile holes in and around the windows.

Special Agent Gary Wurm (ATF) had requested information from the four firearms found on the floor by the bodies of HARRIS and KLEBOLD. A 12 gauge pump shotgun (Item #900) with a spent round in the chamber was found partially under HARRIS' right leg. (Refer to page 28 for a detailed description of the firearms.) A Hi Point 9mm carbine (Item #901), with empty chamber and no magazine, was on the floor to the west of HARRIS' left foot and to the north of KLEBOLD's right knee. An empty, single column magazine (Item #989) was on the floor between HARRIS' left boot heel and the butt of the carbine. A double-barrel shotgun (Item

#902) with a spent shell in each chamber was to the north and west of KLEBOLD's left toe.

A TEC-9 (Item #903) with a live round in the chamber was in the right hand and under the right leg of KLEBOLD. It was also attached with a strap to KLEBOLD's body. At 3:35 p.m. under the direction of Jefferson County Coroner's Office Chief Deputy Coroner Triena Harper, Hammond and Griffin cut the strap holding this firearm and removed it from KLEBOLD's right hand. At this time Harper also stated that all firearms related evidence and weapons from the bodies could be collected as evidence by Team Two working with coroner representatives later this day. The firearm information was copied by one of Wurm's agents for ATF use in record tracing. The firearms were collected and packaged the evening of the 21st. After each was secured in a separate cardboard box, a sheet of plastic was sealed across the opening of each box, so that each weapon could be viewed while keeping the evidence seals intact.

The deceased previously had been given numbers by JCSO; identifications were made at a later time. Victim #6, MATT KECHTER, a white male, was on his back under Table 16 against the north table leg or support. His right leg was extended to the west and his left leg under his right thigh. Possible burns were seen on his left hand, the center and right side of his gray, long-sleeve shirt, and two dark areas on his blue jeans. He was wearing white athletic shoes, white socks, and a ball cap with the letter "M". His head was towards the east. Blood was on his face and the left shoulder of his shirt. A hole was in the left front shoulder of the shirt. His right hand held some type of writing instrument.

Victim #7, ISAIAH SHOELS, a black male, was to the south of, and slightly under, KECHTER. He was generally facedown with the left side of his chest slightly above the floor. His legs were extended generally to the west. SHOELS was wearing a black, short sleeve shirt, green slacks, and white socks and white athletic shoes. A pool of blood was under and to the south of his head. SHOELS head was towards the east.

Victim #8, STEVEN CURNOW, a white male, was seated on the floor in the leg area of computer station number LMC 17. This station was at the west end of the south side of the south row of computer stations. His back was against the west panel with his right leg partially bent and under his left leg, which was also partially bent. His arms were crossed at the wrists and in his lap. He was wearing a short sleeve blue shirt, blue jeans, white socks and brown and black boots. A large wound was on the right side of his neck. His books (Item #1040) and backpack (Item #1020) were found near the center on the south side of the north row of computer stations.

Victim #9, CASSIE BERNALL, a white female, was found under Table 19. Her shoulders were against the west side of the table, her head tilted to the north, and her legs extended to the east. She was wearing a green, short sleeve shirt over a black shirt, light blue jeans, white socks and black boots. There was blood on the right side of her face, her right hand, and the right and center portions of her clothing. An apparent contact or near-contact wound was visible on the back of the right hand. Another wound was also visible on the right side of her head.

Victim #10, KYLE VELASQUEZ, a white or Hispanic male, was on the floor in front of the south side of the north bank of computers at station 7. He was on his right side, head facing southwest, with his left leg extended south and bent at the hip, and his right leg bent under the left. His left arm was under him and his right arm partially under his head. He was wearing a blue and green coat over a white shirt, black pants, and black athletic shoes. He had a wound to the top of his head.

Body #11, DYLAN KLEBOLD, a white male, was on his back with his head pointing east. His legs were bent at the hip with his knees towards the north and his lower legs pointing west. His left arm was across his stomach with a fingerless black glove on his left hand. His right arm was extended by his side and his right hand was around the grip of the TEC-9 pistol. Gray tape, holding two match strikers to the inside of the forearm, was around his right wrist . He was wearing a black T-shirt with the word "wrath" in red on the front, black cargo-type pants, black boots and white socks. A large knife was on the left side of his belt. His face was bloodstained and a pool of blood was on the carpet under his head. Ammunition on his body included 14 rounds of 2 3/4" Federal shotgun shells in an ammunition belt around his waist; in a bandoleer were 19 rounds of Federal 00 buck shells; numerous live shotgun shells in a pouch in a pants pocket.

Body #12, ERIC HARRIS, a white male, was to the north of KLEBOLD. The upper back was leaning against the bottom shelf of the west side of Row 6 with his head pointed south. His skull was open at the top and the shelves behind (to the east) of him and the ceiling above him and the carpet below his head were bloodstained. His arms were by his chest with his forearms and hands angled up towards his face. He had a fingerless black glove on his right hand, which was next to a green pouch with shot shells. His legs were somewhat extended to the west. He was wearing a white T-shirt, black pants with a green ammunition belt, black boots and a knife strapped to his right leg. He had an ammunition pouch in his left cargo pants pocket. That pouch contained 10 rounds of Winchester 12 gauge shotgun shells, each shell labeled as containing 15 pellets of 00 buck. Two single-column magazines with 9mm rounds were in a pants pocket. A black ball cap with the letter "B" was between HARRIS' left leg and KLEBOLD's head.

Representatives from other coroner's offices were working with Dr. Nancy Bodelson, Jefferson County Coroner, and her staff in removal of the bodies. This included Dr. Thomas Henry, Denver County Coroner and staff from his office and staff from the Douglas County Coroner's Office. Bodies were removed beginning with VELASQUEZ and CURNOW and ending with KLEBOLD and HARRIS. Per a previous discussion with Harper (JCCO), Investigator Mike Guerra (JCSO) was present and searched both HARRIS and KLEBOLD for explosive devices in the presence of representatives from one or more coroners' offices, including JCCO. Devices were found in KLEBOLD's pockets and Guerra collected these. Photographs were taken in conjunction with the work of the coroners' offices.

The Jefferson County Coroner's Office also collected skull pieces (#962 and #991) from two areas on the carpet; one to the west of KLEBOLD and the other to the south of HARRIS. When the body of HARRIS was being moved into the body bag, a mass of blood fell out of the open skull and landed on the carpet where KLEBOLD's body had been. That office also collected the student ID card (Item #923) of VELAZQUEZ which had been on top of computer monitor #10B when his body was removed.

The tops of the tables were coated with a white dust-like material and small pieces of glass were randomly present. Oblique lighting was used to examine the tabletops for any possible footwear impressions and none were observed. The bottoms of tables, computer work stations, and chairs were examined for possible evidence and explosive devices. No additional devices were found. The floor was carefully searched. Other observations included the presence of small (estimated 1-2mm) spheres present throughout the west section, including several shelves of the magazine racks at the north end of the library. Other metal fragments were also on these magazine shelves. These fragments and spheres were collected and numbered as one group (Item #1152).

Wooden matches, both burned and unburned, were found on the floor primarily in the south half of the west side of the library. A black trench coat (Item #929) was on the floor to the south of the south row of computer stations. The backpacks, bags, books and clothing found on scene were examined for possible evidence and identification. Anything determined to belong to a deceased victim was collected as an item of evidence. Personal items, excluding those with safety hazards, were identified for future return.

Pieces of gray duct tape were also present on the floor and on, or adhering to, other furnishings such as shelves. The books on the shelves of Rows 5, 6 and 7 were each removed and examined for evidence such as holes or blood. Those books with holes in them were opened and examined for any metal objects. Such objects were photographed and collected. The bottom shelves were also removed and the carpet below examined. The larger glass pieces on the floor below the west windows were examined and removed by hand. The smaller glass pieces and debris were examined and moved by hand or a small brush. Metal fragments found were documented and collected. The glass pieces were placed in a custodian waste barrel either by hand or by brushing. A custodian vacuum was used to remove the glass debris during the searching process.

All of the student computers were left as found for examination by computer specialists. Some of these systems were still on. Others were without power, as were some of the electrical outlets by the two computer tables. The table tops under the keyboards and computer units were examined.

No computer was at the station immediately east of LMC 17 where CURNOW was found. This station had bloodstains on the carpet and the surfaces under the table. No deceased was found at this site. On the carpet were pieces (Item # 1061) of jewelry-like components (such as from a bracelet or necklace). These pieces were silver-colored spheres, an estimated 1/8" in diameter, with a hole in the center; 1/4" diameter silver-colored disks; and 1/2" wooden tubes all in the blood pool on the carpet. A disk (Item # 1058), similar to these, and a blue rubber band (Item #1059) were found on the wet, partially snow-covered, concrete step outside the emergency door north of the library. Suspected blood was also noted on the push bar of the door, the carpet in the hall, and on the concrete step. This team collected Items # 1058 and 1059, but this hallway area was processed by Team One at a later time.

Griffin and Hammond examined the holes in the glass remaining in the windows to determine the direction of travel for the projectiles producing these holes. These determinations were made by either noting the beveling of the holes or the presence of damage on the west side of support posts when no projectile hole was discernible. A minimum of 24 incoming projectiles was determined. This number was a minimum as a large portion of Window 5 was missing. There was also one damaged area on the metal frame of Window 5 that was believed to be the result of a projectile traveling in an unknown direction. There were three holes caused by projectiles traveling out of the library windows. (Refer to trajectory section of report on page 14.)

The exposed (library) surfaces of the ceiling tiles, fluorescent light fixtures and grates for air vents were examined. Two large (estimated 1/4" or bigger) holes that perforated the tiles were seen. With one exception, all of the scrapes and small holes in the ceiling tiles aligned with the windows penetrated or shattered by incoming projectiles, including a direction of travel east from the windows when such a determination was made. The indentations in the metal reflective backing of the fluorescent lights were also consistent with an origin from or through the west windows. One gouge, approximately 1" wide and 2 1/2" long above or slightly south of Table 17, had a generally north-to-south orientation for its long axis. This would be consistent with a projectile (such as from an explosive device or a firearm) coming from either the south or north, including from the general area of the body of KLEBOLD or previous damage to the tile. A piece of white material consistent with ceiling panel was on Table 17.

A search of the tops (unexposed) of the tiles disclosed the presence of two metal fragments and isolated small (about 1-2mm diameter) gray metal spheres identical to those found on the floor, furniture and windowsill(s) of the library. The rails for the suspended ceiling tiles were attached to concrete beams. Sections of drywall on the south and west walls and window frames and sills on the west side were cut to follow projectile tracks and recover any evidence. Metal pellets, which had fallen down the hollow metal frame that extended from the library to the cafeteria below, were recovered from the floor behind the drywall of this lower room.

A nylon knife sheath with a double-edged knife and two metal spikes had been removed from the left boot of HARRIS. Swanson and Griffin examined the sheath and contents and performed the phenolphthalein presumptive test for blood. No positive reactions were obtained.

On Friday, April 23rd, Griffin was introduced to School Resource Officer Deputy Neal Gardner at 11:45 a.m.

Gardner described his gunfire sequence that occurred at the double doors on the west side of the hall north of the library. Since this would not account for the incoming projectiles through the north emergency exit of the library, Gardner would meet with the appropriate team for that area.

On Wednesday, April 28th, Teams One and Two met with Dr. Bodelson and the five pathologists who conducted the autopsies: Dr. Michael Dobersen (Arapahoe County Coroner) Dr. Ben Galloway (for Jefferson County Coroner), Dr. Thomas Henry (Denver County Coroner), Dr. John Meyer (Boulder County Coroner) and Dr. Jim Wahe (for Denver County Coroner). After being shown the overall building scene by Andrist, the group began an escorted review of the library with the teams.

The preliminary information for each deceased available at this time was as follows:

KECHTER (#6) [from Dr. Henry/Wahe] suffered a gunshot wound to the chest, with a left-to-right trajectory with possible wadding in the right lung. He had also suffered burning from an unknown incendiary (explosive or flammable) device.

SHOELS (#7) [from Dr. Meyer] suffered a gunshot wound perforating the left arm, entering the left chest, from left-to-right essentially straight across the chest, and exiting below the right armpit. Two pieces of wadding were found in the right arm of his shirt and a possible shotgun slug between his two shirts.

CURNOW (#8) [from Dr. Meyer] had a copper-colored fragment on the outside of his shirt, which was not necessarily related to his wounds. He suffered a tangential wound to his right shoulder and a perforating wound entering on the right side of the neck and exiting on the left. A metal fragment was recovered.

BERNALL (#9) [from Dr. Henry/Wahe] suffered a defensive wound to the right middle finger, a gunshot wound to the right side of her head, with the trajectory from right-to-left and a slight front-to-back. Seven copper-colored pellets were recovered. Two pellet exit holes were found and it is possible that another two or three pellets are visible on the x-ray. An intact shot cup was found in her hair.

VELASQUEZ (#10) [from Dr. Henry/Wahe] had three pellets enter his right shoulder and exit his lower back. He had a head wound with seven holes and a shot cup in his head. One shot cup was found in his clothing. A ball cap (Item # 908) believed to be worn by VELASQUEZ was found on the floor of the north side of the north computer table. This cap had damage to the back strap and front.

KLEBOLD (#11) [from Dr. Galloway] had a near contact wound to his left temple with a corresponding exit wound through his right temple. He also had aspirated blood. He could have been capable of some involuntary movement.

HARRIS (#12) [from Dr. Galloway] had a shotgun wound to his head with the muzzle in the mouth. Bleeding was observed through his nose. At this time skull fragments from HARRIS, some with circular holes through them, were collected. Dr. Henry also collected suspected brain material and both packages were given to Dr. Bodelson. She said she would x-ray the brain material for shot pellets and make the material available to Dr. Galloway for his examination. (During a phone conversation between Bodelson and Griffin on April 30th, she advised Dr. Galloway found only wadding material in the brain matter. No pellets were seen on the x-ray. The holes in the skull fragments were consistent with pellets exiting the skull with the muzzle in or near the mouth.) This mutual briefing ended at approximately 9:15 a.m.

Also on this date at approximately 1 p.m., both library teams met with three members (including Paula Ernst) of the FBI's Special Project Team and Denver FBI ERT leader Carl Schlaff. Laura DeLong (Team Two) and Tom Adair (Team One) would convert their respective sketches into computerized diagrams and provide these to the FBI.

At approximately 2 p.m. also on the 28th, Griffin recovered a pair of eyeglasses in a case from AMANDA STAIR's backpack for Andrist.

Hammond performed the sodium rhodizonate test at various locations in the west library area. Positive results for the presence of lead, were observed for the following:

> 1) the gray transfer on the edge of the television cable plate on the south wall under the television; 2) the gray longitudinal transfer on the bottom of the wall mount for the television on the south wall; 3) the tear in the seat cushion on the chair in book shelf Row 5 where books belonging to KATHY PARK were found; 4) the two gray transfers in the gouges on the top of Table 15; 5) gray transfer on the edge of the chemistry book on Table 15; 6) damaged areas of DAN STEEPLETON's backpack and papers inside (a shot shell plastic wad had previously been found in the damaged papers); several locations of heavy gray deposit in the holes in the glass windows; the scratches in the east wall of the exit hallway to the north of the library.

A strong reaction for lead was found at the indentation (item #1012 photograph only) on the top of the window frame at the north side of the library. A trace of gray transfer on the left arm of the blue chair associated with KATHY PARK was indicative for lead. No reactions for lead, barium or antimony were obtained for the gray-colored transfer on the rear of the backpack of HALL at Table 20; and the gray-color site on the bookshelf kickplate on the west wall below the window near the southwest column.

Areas sustaining damage consistent with an incendiary or explosive device were observed at the following: The southeast edge of bookshelf Row 7 had black debris and blackening was on the carpet (photograph 5-5) adjacent to this area. Small holes (approximately 1-2mm) were on the south wall and the blinds covering Window 11, and the window pane (photographs 13-15 and 13-16). These holes were consistent with the small diameter of the spheres found on the windowsill and elsewhere in the library. Pieces of gray duct tape (item #1063) were adhering to the side of a wicker basket with an artificial plant (photograph 27-12). This tape was about 9-11 inches above the floor. Item #987 was a piece of metal (photograph 13-11) consistent with an opened CO_2 cartridge. On the top of bookshelf Row 6 at marker #985 was duct tape with burnt wooden matches (photograph 27-14) consistent with causing the damage at marker #984. Black residue or burning was noted on a portion of the southwest carpet by item #1004 (photographs 23-2 and 23-3). The south, center portion of the top of Table 15 had a burned appearance, and the newspaper and a text on the tabletop were partially burned.

PRELIMINARY TRAJECTORY OBSERVATIONS

Scene examination determined a minimum of 24 incoming projectiles; more may have been possible due to the missing portions of glass in the windows of the library. The nature of these holes or impact sites were documented with photographs and located in the areas described. (Also refer to the four pages of window diagrams later in this report.) The numbers were assigned arbitrarily and was not meant to convey any sequencing. The letters "XI" were used on scene to note a hole or impact created by a projectile traveling from the exterior into the library. The exterior was either through the windows on the west or the hallway to the north. Yellow paper with the identifying number was placed by the holes or impacts for photographic documentation. The letters "A, B, C", etc. were used in describing three of the firearm discharges (1, 2 and 16) in the library to denote a sequence from a particular hole or impact site. Both Hammond and Griffin measured angles of elevation or declination and horizontal angles from perpendicular.

Three projectiles entered the library from the north hallway. Two of these, **#1** and **#2**, struck the north side of the north row of computer stations at the second station from the west end. These are shown in photographs in roll #42. Documentation for **#1** starts with picture 17 and for **#2** with picture 21. The trajectories were illustrated with dowels and string.

The projectile causing hole **#1A** continued south through the kickboard and exited at **#1B**. Damage to the side of a chair at this station was consistent with **#1C**. The trajectory represented by the dowel from **#1A** to **#1B** had a 1 degree angle of declination from horizontal and a 77 degree angle of impact out from the plane of the kickboard.

This team's projectile hole **#2A** corresponds with Team's One hallway impact identified as their #2. The projectile causing impact **#2A** at the table's edge, continued through the kickboard (entering at **#2B** and exiting at **#2C**), then was deflected by a perpendicular panel at **#2D**. The dowel representing the trajectory from **#2A** to **#2B** to **#2C** had a 5 degree angle of declination from horizontal and a 75 degree angle of impact to the kickboard. The cushion of a chair on the north side of the south computer table was damaged and a jacketed bullet (Item #1103) recovered from inside of the cushion. This impact was noted as either **#1D** or **#2E**.

Projectile **#3** was given to the screen of the computer monitor at the computer station above impacts **#1** and **#2**. This was the same number assigned by Team One to the projectile's impact in the hallway. The strings representing the trajectories for **#2** and **#3** appeared essentially parallel. The angle of impact to the screen was 72 degrees. A projectile (JCSO #909) was recovered from this monitor.

Projectiles **#4** and **#5** entered through the middle section of Window 2 (photographs 9 and 10 on roll 45). The lower hole, **#5**, had metal and/or glass strike the west side of the wall column.

Projectile **#6** entered through the bottom section of Window 3 (photograph 45-8).

The bottom section of Window 4 had holes from projectiles **#7-13** (photographs 45-6 and 45-7). The white shade (item #1074) for a floor lamp by this window had multiple, small impact holes consistent with fragments, glass and/or metal, striking the shade from the west. The shade's location was consistent with any single or combination of projectiles **#11-13**. The top section of Window 4 had a hole from projectile **#14**. This projectile struck a portion of the ceiling and was deflected. A dowel representing this trajectory was documented with photographs 45-2 through 45-5.

The majority of the glass from the bottom portion of Window 5 was missing. This was the one hole for which no determination could be made on scene as to interior or exterior origin due to the amount of damage. There were possible associated projectile strikes on the metal frame to the south, but there was still insufficient detail for origin determination. The hole for projectile **#15** was in the top portion, for **#17** by the north frame, and for **#16** and **#18** in the middle portion (photographs 45-12 through 45-16).

Projectiles **#19** and **#20** entered through the south end of he bottom section of Window 6 and struck the west side of the support pillar (photograph 45-17). This window also had most of its glass missing. The hole from projectile **#21** was in the middle section of Window 6 and the hole from projectile **#22** was in the top portion (photograph 45-16).

Projectile hole **#23** was in the middle portion of Window 7 (photograph 45-18).

Projectile hole **#24** was in the bottom portion of Window 8 near the north edge by the frame (photograph 45-19). The damage carried over to the south side of the bottom of Window 7.

The letters "IX" were used on scene to denote holes formed by projectiles traveling from the interior of the library out the windows on the west side. When applicable, the letter "I" was used to denote an impact with no perforation from an interior shot. Black numbers on white backgrounds were used to designate areas in the library where evidence indicated a firearm had been discharged. This was done for areas with damage such as holes (windows, walls, etc.), indentations (metal shelves, for example), and areas where a victim, alive or dead, had been shot. In the last case, the numbers were selected to coincide with the body number already assigned.

#1 was assigned to the hole in the bottom portion of Window 2 (photograph 45-9).

#2 was assigned to the hole and frame damage at the north end of Window 4 (photograph 43-21).

#3 was assigned to the shot pellet pattern in the frame at the north end of the bottom of Window 3. (Item #1104 recovered from this frame.)

Firearm discharge **#4** was directed south down the aisle between book shelves Rows 5 and 6. It was consistent with shotgun pellets with the first strikes being the blue chair in the middle of Row 5 (photograph 45-23). [Refer to the results of the sodium rhodizonate tests on the seat cushion and arm on page 13.] Pellets (such as item #1082) were recovered from the books on the bottom shelf of Row 5.

Firearm discharge **#5** was consistent with pellets from a shotgun south down the same aisle as discharge **#4**. Four of these pellets (item #1168 are two pieces recovered) perforated the south wall (photograph 45-24) with a fifth striking the bottom of the support plate for the wall-mounted television set.

Firearm discharge **#6** was the shotgun slug that killed KECHTER (photograph 45-21). No known holes or deformations existed for this event other than in the body.

Firearm discharge **#7** was the shotgun slug that killed SHOELS. No known holes or deformations existed for this event other than in the body.

Firearm discharge **#8** was the shotgun slug that killed CURNOW (photographs at the end of roll #43 and the start of roll #44). The hole in the panel to the north of CURNOW was approximately 23 inches high. There was an unfinished board behind this gray panel. The distance from the front of the gray panel to the front of the unfinished board was 1 1/4". Items labeled as #1143 (a plastic wad and piece of gray metal) were recovered on the ledge between the gray panel and the unpainted board. There were three gray streaks on the unfinished board. The horizontal center of the area with these three streaks was approximately 16 1/4" from the west end of the unfinished board. Their vertical center was approximately 1 1/8" above the top of the gray panel or approximately 25" above the floor.

The unpainted dowel in photographs 43-20, 43-22 to 44-3 marked the bottom of the hole in the gray panel. The east-to-west position of this dowel also generally bisected the area of suspected tissue on the underside of the tabletop. The short, pink dowel illustrated the trajectory formed by the bottom of the hole to the unpainted surface behind (north of) it. All of the physical evidence was consistent with the muzzle of the shotgun below a height of 24".

Firearm discharge **#9** was the shotgun discharge that killed BERNALL (photograph 45-20). No known holes or deformations existed for this event other than in the body.

Firearm discharges **#10A** and **10B** were the shotgun pellets that killed VELASQUEZ (photographs 43-5 to 43-19). The letter designations 10A through 10D were used to note the actions of 4 separate shotgun pellets. These letters were consistent with those used in the diagram by DeLong. 10A and 10B were on the west panel; 10A was higher and farther south than 10B. 10A was an indentation while 10B was a perforating hole. The trajectory resulting from the placement of a dowel through 10B and the indentation in the north panel to the west of this station (photographs 43-5 and 43-6) aligned with a nick at the bottom of the faceplate for this station (photograph 43-8). The resulting trajectory was measured at 37 degrees out from the table with a 15 degree angle of elevation. 10C and 10D were in the north panel; 10C was lower and farther west than 10D. 10C was an indentation while 10D was a perforating hole. Two copper-colored pellets (item #1142) recovered from this floor area were consistent with the two indentations. The third copper-colored pellet (item #1147) was recovered from behind the kickboard area with hole 10D.

A chair to the south of this station by the left foot of VELASQUEZ had a plastic shot cup (item #1144) recovered from the rear of the back cushion, and four holes on the upper right side of the frame. The two holes on the front were perforating; one copper and gray-colored pellet (item #1145) was recovered from one of the holes in the back of the chair. It was this chair that was the source of the piece of the wooden frame (item #1080) found on the floor by Table 17 as shown in photographs 30-18 and 31-12. A minimum of 6 pellets, and a maximum of 8, was accounted for by the holes in the chair and leg area wall panels.

VELASQUEZ had three perforating pellet wounds in his shoulder and back. Most of the projectiles recovered from the head of VELASQUEZ were consistent with individual 00 buck pellets, with the exception of gray fragments (item #8662). Three of these pellets (items #8660, #8661, and item #8664) were copper-colored and five were gray-colored (item #8665). The Federal 12 gauge shot shells each had 9 copper-gilded pellets. Given that the three back wounds could be related to any or all of the holes in the chair and/or panels, the physical evidence was consistent with two shotgun discharges. The two discharges were also supported by the other shotgun evidence (items #922, 1144 and 8663).

The right (north) edge for these shot patterns was the nick and trajectory of 10B and the left (south) edge being the chair frame back. The dowel representing the trajectory for 10D could also line up with one of the two perforating holes in the chair frame. This reconstruction resulted in a left-to-right spread of approximately 10". The holes in the chair frame were 27-30" above the floor. The trajectory of the dowel at the right edge was continued with string back towards the southeast (photographs 43-10 to 43-19).

Hammond, who is approximately 6' tall, sighted along this string backing to the southeast until he reached a position to the north of the island in the front center of the library. At this position, the string, at a height of 5' 9" was consistent with the barrel of a shotgun at the shoulder of a shooter when the shooter was sighting down the barrel. A tripod was placed at this spot to note the maximum distance (183" or 15' 3") from the chair to the shooter. The horizontal distance from 10B to the center of the tripod was 245" (20' 5").

Firearm discharge **#11** was the 9mm projectile that killed KLEBOLD. No known holes or deformations solely existed for this event other than in the body. (The evidence recovered from discharges 13 and 14 may be the same as this event.)

Firearm discharge **#12** was the shotgun pellets that killed HARRIS (photographs 46-2 to 46-4). Pieces of skull recovered from the shelves had holes consistent with shot pellets (item #1158, for example, was in this area) exiting and also consistent with the autopsy findings of the muzzle being in his mouth. At least two indentations were found on the underside of the metal shelves above and slightly north of the position of HARRIS hips and legs. The physical evidence was consistent with HARRIS' torso generally facing west with his buttocks on or near the floor and his back near or resting against the west end of bookshelf Row 6.

Firearm discharge **#13** was the 9mm round (item #1166) that perforated the drywall below the frame between Windows 5 and 6 (photographs 44-16 and 44-24) and recovered under Window 5. The measured declination for this trajectory was 3 degrees and 37 degrees out from the west wall. Its apparent trajectory (photograph 44-22) traced back to the southeast being into or just above a chair on the west side of Table 20. If it was above this chair back, this continued trajectory was to the north of the bodies of KLEBOLD and HARRIS.

Firearm discharge **#14** was the 9mm round (item #1124) that perforated the frame at the bottom of Window 6 (photographs 44-16 to 44-24). In addition to gray and copper-colored metal fragments, the curved piece of window frame (all as item #1124A) were recovered from inside the windowsill. The measured trajectory for this projectile was 31 degrees out from the windowsill in an essentially horizontal path. When traced back to the southeast, this trajectory intersected the west side of bookshelf Row 6 at a point 45 3/4" above the floor and 52" north of the south end of the bookshelf. This trajectory also passed over the area where KLEBOLD's body was located at a height of approximately 36" (photograph 44-23). Of all the projectile holes/impacts in this area, discharge #14 was the most consistent (though not exclusively) with being the same as discharge #11 through KLEBOLD. (Note: DNA analysis on pellets and fragments recovered in this area did not have any evidentiary value.)

Firearm discharge **#15** was given to the bloodstain patterns associated with a victim positioned in the leg area of the empty computer station to the east of where CURNOW was found. Preliminary reports have placed KACEY RUEGSEGGER at this site. No known holes or deformations existed for this event other than in the body (photographs 44-4 to 44-8).

Firearm discharge **#16** was the pellets from a shotgun directed to the south first striking the chair to the north of Table 15 and the north side of the table itself (photographs 44-9 to 44-14). There were two impacts to the chair, one to the seat cushion from which a gray metal fragment (item #1140) was recovered and one into the front of the seat frame. There were four impacts in the support under the table top, two in the edge of the table (item # 1132) but one of these aligned with a hole in the support board, and two gouges in the top for a minimum of nine pellets between the chair and table. Any one of the perforating pellets, or an unobstructed pellet, may have caused the damage to the chair on the south side of Table 15. The trajectory of the pellet causing the east gouge on the table top continued to an indentation on the north face of the south side of book shelf Row 7. This indentation is marked with a yellow paper on the fourth row up in photographs 44-13 and 44-14. The trajectory illustrated by the string in photograph 44-12 to 44-15 began at the west gouge on the tabletop and traveled south to a hole in Window 11.

Firearm discharge **#17** was the nine holes in the artificial plant that was on the floor in front of Window 6 (photograph 44-16). The plant, which was on its side on the carpet when this team arrived, was repositioned as best as possible using the initial scene photographs and videotape (showing a circular void in the glass on the floor) and the resulting trajectories. The nine holes/tears were individually numbered and were located above the number "17" in photograph 44-16. Three holes in the tree trunk were consistent with this grouping. Impact sites and one hole (item # 1126) were in the north frame of Window 6. At least some of the indentations and possibly the hole could be associated with discharge #17 after the projectiles passed through the leaves, so that area was labeled as 17'/19'.

Firearm discharge **#18** was assigned to a single hole in the bottom portion of Window 6 (photograph 44-17). Since the position of the tree was estimated, the hole noted as **#18** could be from a separate event or from one of the deflected pellets of discharge **#17**.

Firearm discharge **#19** was assigned to two holes/tears in he repositioned plant. This damage was at the same height as the hole in the frame mentioned above in the area 17'/19'. The measured trajectory for 19 to 17'/19' (hole) was 40 degrees out from the west wall with a 1 degree angle of declination.

No trajectory was determined for the indentation on the north interior window frame (photographs 16-2 to 16-4). There were two tears noted in the carpet on the west side. One was by KLEBOLD's body and the other between Table 16 and bookshelf Row 6. The carpet in each of these areas was cut and pulled back and no fragments were found. The carpet tear east of Table 16 and a damaged rung (projectile entrance and exit on opposite sides) in a chair at the southeast corner of Table 16 formed a trajectory heading back north to northwest depending on the position of the chair (photographs 47-32 to 47-36). This hole and trajectory were consistent with a single projectile and could be considered as an interior firearm discharge (**#20**).

BLOODSTAIN PATTERN EXAMINATION

The preliminary interpretation of bloodstain pattern examination is as follows:

KECHTER (#6) and SHOELS (#7) were under Table 16. No projected bloodstains were found on the underside of that tabletop or the inside of the table legs. Blood flows were visible out of KECHTER's nostrils and mouth and then down the sides of his face. A ball cap he was wearing and the left side of his head were pressed against the inside of the north table leg. Pools on the carpet by the table leg and under the cap were consistent with flows along the table leg and cap. There was a hole in the upper left chest area of his shirt.

The left shoulder area and back of his shirt were blood-soaked. Bloodstains were on the top left thigh of his jeans extending from the knee to the waist. Suspected transfer patterns were on the lower right leg and cuff.

SHOELS (#7) had a pool of blood under his head and chest. Suspected bloodstains were also on the back of his black shirt, the back of his green pants, and the soles of his athletic shoes.

The bloodstains on the shoes of SHOELS and the lower leg of KETCHER appeared to be part of a pattern beginning by Table 15, extending north along bookshelf Row 6, under Table 16, between Tables 18 and 19 with a transfer pattern from a left palm (the center of photograph 35-11 and roll #47) on the floor, to the blue chair by Window 5 and ending on the ledge and glass at Window 5. This trail was consistent with being left by IRELAND as he worked his way to Window 5.

There was blood and tissue on the underside of the tabletop and on the horizontal surfaces to the north of the leg area of computer station (LMC 17) where CURNOW (#8) was found. A half dozen blood flow patterns were also present on the north kickboard by and below the point where his head was resting. The front of his shirt and jeans were soaked with blood. These stains were consistent with CURNOW having no movement after being shot with the possible exception of a continuation of momentum of his head and upper body towards the west side of the leg area.

As previously mentioned, the leg area and floor of the space for a computer to the east of CURNOW's position was bloodstained. There was pooling on the carpet at the southeast end of the leg area. Transfer patterns and projected blood and some tissue were present on the east wallboard and northeast corner of the leg area. Some tissue-like material was on the underside of the tabletop. The chair nearest to this area had transfer patterns on the wooden horizontal board under the seat cushion and on the seat cushion. Projected blood was found on the east (or right as one sits in the chair) leg. This is the same chair that had a nick on the left (as one sits) back brace referred to in the trajectory section. This area of staining was consistent with bleeding from a victim not present during the scene processing.

Blood flow patterns were present on the right side of BERNALL's outer shirt and the right hip area of her jeans. There were small areas of blood pooling to the south of her body and a flow pattern on the inside (east side) of the west table leg. The flows and a swipe pattern were about 14" above the floor. The clothing stains and the corresponding stains on the carpet and table were consistent with BERNALL being in a somewhat upright or sitting position at one time. Bloodstains on the inside of the west table leg (the swipe) and the underside of the top of Table 19 were consistent with BERNALL's body moving from this upright position to her left, coming to rest on her left side and remaining as found.

The body of VELASQUEZ (#10) was found on the floor in front of computer station 7, while his student ID was on top of the monitor of station 6 immediately east of station 7. Bloodstains and tissue found in the area by VELASQUEZ included the ceiling to the northeast; the top of the table; CURNOW's books on this table to the west of this computer station; and some of the computer stations to the north and northwest, which included some hair-like material. (Note: Although the number 7 was at this station, the monitor bore #9B and the CPU bore #9A.) The greatest accumulation of blood and hair and possible tissue exhibiting a general conical appearance was on the face (or south side) of the horizontal plate running beneath the tabletop edge at a height of about 26". This was consistent with VELASQUEZ receiving a head wound while the affected area of his head was generally at the same height (approximately 26") as this plate. No hair, tissue or blood was observed on the underside of the tabletop.

A pool of blood on the carpet was to the north, east and south of KLEBOLD's (#11) head, as well as to the west under his left shoulder. There was a bloodstain area on the back of his left arm above the elbow that was not consistent with being formed with the arm in the position found. In addition, some of the blood flows on the face were also formed with the head in a position other than as found. These flows were consistent with KLEBOLD's head resting on the right side of the face to allow the blood flow on the left side out of the wound. There were bloodstains on his right bicep and left center portion of his neck. The underside of the bill of the ball cap to the north of KLEBOLD appeared to be blood-soaked. This cap was in close proximity to the bloodstained area of the left knee of the pants worn by HARRIS.

There was a pool of blood to the east, south and west of HARRIS' head. The heaviest areas of bloodstaining on the bookshelves to his east (which his body was resting against) were in line with his waist and legs and above his body. The right side of his face and right arm were bloodstained. The left knee area of his pants was blood-soaked and a piece of skull was found to the north of his left calf. The stains on the ceiling and shelves were consistent with HARRIS receiving the gunshot wound to his head while he was in a seated position. His head and upper torso moved to the south or his left.

The team left the scene in the custody of the JCSO on Thursday, April 29th at approximately 6:30 p.m.

Upon the completion of the scene processing, the team had recovered in excess of 143 metal fragments, projectiles, or shotgun pellets; 10 spent 9mm cartridge cases; 29 shot shells; 20 shotgun wad-components, or pieces; the four firearms previously described; backpacks belonging to the deceased victims; unidentified clothing; matches and pieces of gray duct tape, numerous small, gray metal spheres; and evidence from the suspected incendiary devices. All evidence collected is noted on the included evidence log sheets from JCSO.

The photographers exposed 50 rolls of color film; two by Griffin on the initial walk through and 46 by Jennings and Swanson during the processing, and two by Rowlett. The photographs and corresponding photologs are also included with this report. The scaled scene diagrams are on separate sheets of large paper, with the exception of scaled diagrams for the west windows of the library, which are included. The evidence logs provided by JCSO will also be a separate attachment.

Firearms Description

#900 Savage Springfield 12 gauge pump shotgun, model 67H, 3" chamber S/N A232432 , one spent round in chamber, one round in magazine

#901 Hi Point 9mm carbine, 9 x 19 luger, model 995, made by Beemiller, empty S/N A59610

#902 Savage Stevens 12 gauge double-barrel shotgun, model 311D, 2 3/4" chamber, S/N A077513, two spent shells in chamber, action open

#903 Intra-tec 9mm model TEC-DC9, semiautomatic pistol, S/N D076305, one round in chamber, live rounds in magazine

Report Date December 14, 1999	Colorado Bureau of Investigation Report of Investigation	Case No. D99-1333
Type of Report Crime Scene	Summary Report By Agent Tom J. Griffin	Area Jefferson County
Nature of Case Homicide		

REQUESTING AGENCY: Jefferson County Sheriff's Office, 200 Jefferson County Parkway, Golden, Colorado 80401

INVESTIGATING OFFICER: Lab Supervisor Chris Andrist

DATE OF REQUEST: April 20, 1999

DATE OF OFFENSE: April 20, 1999

AGENCY CASE NUMBER: 99-7625

LOCATION OF SCENE: Columbine High School, 6201 South Pierce Street, Jefferson County, Colorado

VICTIMS: (DECEASED)	Cassie Bernall	DOB: (110681)
	Steven Curnow	DOB: (082884)
	Corey Depooter	DOB: (030382)
	Kelly Fleming	DOB: (010683)
	Matt Kechter	DOB (021983)
	Daniel Mauser	DOB: (062583)
	David Sanders	DOB: (102251)
	Isaiah Shoels	DOB: (080480)
	John Tomlin	DOB: (090182)
	Lauren Townsend	DOB: (011781)
	Kyle Velasquez	DOB: (050582)
SUSPECTS:	Eric Harris	DOB: (040981)
	Dylan Klebold	DOB: (091181)

WEATHER: Variable

EVIDENCE SEIZED BY: Representatives from Jefferson County Sheriff's Office

EVIDENCE IN CUSTODY OF: Jefferson County Sheriff's Office

REMARKS: The following reports are those for the teams designated as Team One through Team Five for processing the scene and vehicles associated with Columbine High School. Other teams also involved were team Six, the Federal Bureau of Investigation, who handled the two deceased victims on the grounds, the cafeteria, and the area around the building; Team Seven, the Denver Police Department, who processed the administrative offices and attended all autopsies; and Team Eight, the Bureau of Alcohol, Tobacco and Firearms, who handled the explosive evidence and the school parking lot on the southwest.

The reports for Teams One thorough Five represent the combined efforts of over thirty professionals from eight law enforcement agencies. Those agencies assisting the Jefferson County Sheriff's Office included the Colorado Bureau of Investigation (Denver, Pueblo and Montrose Offices); the Arapahoe County Sheriff's Office, the Wheat Ridge Police Department; the Arvada Police Department; the Greenwood Village Police Department; the Thornton Police Department, and the Littleton Police Department. All team leaders reported to Jefferson County Sheriff's Office Laboratory Supervisor Chris Andrist. Scene processing began after the school interior was deemed safe to enter according to explosive experts. The processing began Wednesday, April 21, 1999 and essentially concluded Thursday evening, April 29, 1999.

Teams One through Five worked with representatives from and for the Jefferson County Coroner's Office for the recovery of the bodies of eleven victims in the school and the bodies of Harris and Klebold. Team members also exchanged information directly with the five forensic pathologists who performed all of the autopsies. Summary data for these five teams is given on the chart on page 4.

The enclosed five narratives and photologs for Teams One through Five detail the activities of each team. Each photograph sleeve is numbered to denote the team, the roll of film and the exposure. A set of scaled diagrams for the library (processed by

Teams One and Two) will be a separate submission (Arapahoe County Sheriff's Office), as will any evidence logs (Jefferson County Sheriff's Office). All evidence was kept in the custody of either the Jefferson County Sheriff's Office or the Jefferson County Coroner's Office. These five reports are intended to be read in conjunction with their respective evidence logs and team diagrams.

ARAPAHOE COUNTY SHERIFF'S OFFICE

CRIME LAB PROGRESS REPORT ACSO CR # 99-16215
ASSIST TO OUTSIDE AGENCY - JEFFERSON COUNTY SO JCSD 99-7625
HOMICIDE - 6201 S. PIERCE, COLUMBINE HIGH SCHOOL
SENIOR LAB TECH LAURA A. DELONG #9719 DATE OF REPORT: 6/30/99

On 4/20/99 at about 1445 hours I arrived at Littleton Porter Hospital to photograph victims from the shooting at Columbine High School. I was met by ACSO Investigators James Rasmussen, Kevin Heaton, Bruce Isaacson and Paul Goodman, and Detectives Michael Greenwell and George McGlynn of Lakewood PD.

I first photographed **Stephanie Munson, W/F, DOB 052682**, who had a bullet wound through and through at the top of her left ankle.

At about 1450 hours I photographed **Stephen "Austin" Eubanks, W/M, DOB 100781**, with wounds on the left knee, right little finger, and stitched right index finger.

At 1455 hours I photographed **Adam Kyler, W/M, DOB 062482**, who was in a neck brace. He stated he was hit by some object and not any bullets. There were no specific wounds to be photographed.

At 1520 hours I returned to the ACSO Lab to process the victim photographs.

At 1630 hours I was assigned to assist in processing the scene at Columbine High School at 6201 S. Pierce. I reported to Sgt. Beatty at the Command Post about 1500 hours. He informed me there would be a briefing at 1800 hours.

At about 1815 hours Chris Andrist of Jefferson County Sheriff's Office advised us that any pink flags found in the building were put there by bomb squad personnel. The pink flags were to indicate where bomb parts were or explosive devices had been and taken away to make safe.

At 1947 hours, Sgt. Randy West of JCSD gave another briefing to announce that SWAT and bomb personnel were still working on making devices safe, and making another sweep of the building. Nancy Bodelson, the Jefferson County Coroner would be in charge of identifying the bodies and we were not to touch the bodies.

At about 2100 hours, another briefing was held and we were told that more devices had been found in the school and in some cars so we would not be needed until the next day. I cleared the scene at about 2124 hours and then got paged to return at 2142 hours. I returned and was sent home again at 2305 hours.

On 04/21/99 at 0600 hours I returned to the Command Post parked near the school. Teams were assigned at about 0800 hours. I was assigned to Team Two which would be processing the west side of the library. Team Two was initially comprised of the following personnel:

- Tom J. Griffin, Agent - CBI Denver (team leader)
- Alan S. Hammond, Agent - CBI Denver
- Richard Swanson, Agent - CBI Denver
- James R. Jennings, Forensic Photographer - Jefferson County Sheriff's Department
- Jennifer Savage, Deputy - JCSD
- and myself, Laura A. DeLong, Senior Lab Technician - Arapahoe County Sheriff's Office

The following persons were later added to the team:

- Tom Acierno, Deputy - JCSD
- Steve Stalter, Deputy - JCSD
- Peggy Rowlett, Detective - Wheat Ridge Police Department

Homicide - 6201 South Pierce Street
Senior Lab Tech Laura A. DeLong #9719

ACSO CR # 99-16215
JCSD # 99-7625
Date of Report: 6/30/99

JHS

The school and grounds were still being cleared of explosive devices at this time. Some ammunition was found on Pierce Street in front of the school so I joined a search line at about 0845 hours to see if any other potential evidence could be found. I did not find anything related to the crime.

At 1100 hours I assisted in getting evidence packaging materials ready at the inflated hazmat structure located just outside the main entrance of the school.

I was finally cleared for entry in the school building and was given a tour of the whole scene at 1350 hours on 4/21/99. I brought my equipment into the building at about 1423 hours to commence processing the scene.

I worked in tandem with Senior Lab Technician Tom Adair, who was part of Team One and sketching the diagram for the east side of the library. We agreed to label the west windows from 1 through 10 starting from the north and continuing southward, with "W 1" being in the northwest corner and "W 10" being in the southwest corner. The south windows were labeled 11 through 17 starting from the west and continuing to the east, with "W 11" being in the southwest corner and "W 17" being in the southeast corner.

The tables were also numbered. Tables 1 through 6 were in the eastern third of the library. Tables 7 through 14 were in the center third of the library. Tables 15 through 20 were in the western third of the library.

The rows of book cases running north/south were numbered, starting with "Row 1" along the east wall of the library. Rows 2, 3, and 4 were located to the west of tables #1-6. Rows 5, 6, and 7 were located to the west of tables #7-14. I designated the south sections of the book cases as Rows 5A and 6A. I designated the north sections of the book cases as Rows 5B and 6B. Row 8 was along the west wall below windows #7-10. There was also a book case for magazines along the north wall of the library (Team Two side) and a built-in book case behind the check-out desk (Team One side), but these were not numbered.

The basis for measuring were several base-lines. The main east/west baseline was set at the south side of the center island, which also lined up with the south side of the trophy case. This was arbitrarily chosen since it was one of the few unobstructed sight lines in the library. The main "EW Base" was located 47'10" away from the south wall. Two other east/west base-lines were laid out with tape measures taped to the carpet at two 10-foot intervals to the north of the main east/west base-line. The base referred to as "EW+10" runs between the two computer tables and just in front of the pillar at the southwest corner of the check-out desk (also referred to as the staff service counter) and was located 57'10" from the south wall. The base referred to as "EW+20" runs between the north wall and the northern computer table, and was located 67'10" from the south wall.

The north/south base-lines were also arbitrarily chosen based on the least obstructed sight-lines. The base-line referred to as "18-2 Base" was 18'2" east of the windows on the main E/W base. This ran roughly from the center of the southern computer table, past the southwest corner of Table #16, under Table #15, and about the center of the pillar at the southwest corner of the library. The base-line referred to as "31-Ft" was located 31 feet east of the windows on the main E/W base. This line runs between book case Rows 5 and 6, and between the east edge of the computer tables and the check-out desk. The other base-line in Team One's area is along the west edge of book case Row 4.

Assist to Outside Agency - Jefferson County Sheriff's Office
Homicide - 6201 South Pierce Street
Senior Lab Tech Laura A. DeLong #9719

ACSO CR # 99-16215
JCSD # 99-7625
Date of Report: 6/30/99

The bodies were numbered 1 through 12. Bodies 1 through 5 were in the east side of the library. Bodies 6 through 12 were in the west side of the library.
B 6--Matt Kechter
B 7--Isaiah Shoels
B 8--Steve Curnow
B 9--Cassie Bernall
B10--Kyle Velasquez
B11--Dylan Klebold
B12--Eric Harris

My assignment was to diagram and record the location of evidence in the west side of the library. The area encompassed: the windows; six tables placed at random; two computer tables placed east/west at the north end; four rows of book cases placed north/south; two microfiche viewers on tables, a magazine book case, and a typewriter table along the north wall. Two pillars immediately to the east of Row 5 provided the dividing line between Team One and Team Two.

The windows on the west side of the library sustained damage due to gun fire. Since the cracked areas of glass were not stable, and a weather front was moving in, priority was given to documenting the window area along the west wall. At about 1520 hours, CBI Agent Tom Griffin and I documented the windows using measurements written on Polaroid photos.

At about 1600 hours I began recording furniture dimensions. At about 1647 hours, after laying out a rough sketch, I began recording body measurements and locating evidence immediately around the bodies. I recorded locations for bodies B8, and B10-12. Tom Griffin recorded the locations for bodies B6-7 and B9.

I then continued with measuring items of evidence. I was assisted in measuring by several different people during the time I was at the scene. These included Tom Griffin of CBI, Matt Murray of Denver PD, Jennifer Savage of JCSD, and Peggy Rowlett of Wheat Ridge PD.

Times on scene in the library are as follows:
Wednesday, 04/21/99, from 1350 to 2125 hours
Thursday, 04/22/99, from 0800 to 1700 hours
Friday, 04/23/99, from 0800 to 1900 hours
Monday, 04/26/99, from 0800 to 1730 hours
Tuesday, 04/27/99, from 0730 to 1700 hours
Wednesday, 04/28/99, from 0720 to 1730 hours
Friday, 04/30/99, from 1100 to 1300

I returned to the school to verify measurements and obtain additional measurements on the following dates.
5/4/99, from 0700 to 0900 hours
5/21/99, from 1100 to 1400 hours
06/01/99, from 0730 to 0930

Crime Lab Progress Report
Assist to Outside Agency - Jefferson County Sheriff's Office
Homicide - 6201 South Pierce Street
Senior Lab Tech Laura A. DeLong #9719

ACSO CR # 99-16215
JCSD # 99-7625

Date of Report: 6/30/99

I worked on preparing a diagram on Autocad and turned over a copy of the file on disk to the FBI's Visual Specialist Paula Ernst on 5/6/99. This basically included the layout of the room and position of furniture and bodies.

Between 04/28/99 and 06/25/99 I worked on adding the location of all the evidence.
On 5/12/99 and 6/3/99, I met with Tom Griffin at CBI to compare photos of the scene with notes to verify positions of different pieces of evidence.

On 6/29/99, from 0900 to 1730 hours, I returned to the school and met with others originally at the scene (Griffin, Adair, Loptein, Rowlett, Jennings, Andrist) and DA Russ Boatwright to discuss the correlation of evidence with witness statements. As a result of reviewing more photos from the scene to the diagram prepared, and against the scene itself, I found that I needed to shift some chair positions, rotate the right foot of Eric Harris, and add a few items of evidence in the Team One area on the east side of the library.

ARAPAHOE COUNTY SHERIFF'S OFFICE

CRIME LAB PROGRESS REPORT	**CR # 99-16215**
Assist to Outside Agency – Jefferson County Sheriff's Dept.	JCSD # 99-7625
Homicide – Columbine High School	
Sr. Lab Technician Laura A. DeLong #9719	Date of Report: 12/6/99

From November 15-17, 1999, I modified the diagram of the library to reflect corrections and additions as specified by Senior Lab Technician Tom Adair for Team 1 in the east side of the library. Adair told me the corrections and additions were based on review of scene photos and his original field notes. Adair provided additional notes and sketches to me at this time.

Items that were specifically measured are marked with an "X" according to their layer color for "floor", "elevated", or "ceiling". Those items that did not have specific measurements are now marked with an "O" according to their layer color to indicate an approximate location.

I added a baseline indicator from the north end of Row 1 (baseline) to the intersection of the Main baseline.

603 – move to W side trophy case (pos/neg mix-up in coordinates)

658 – remove duplicate by main entry

659 – remove duplicate by main entry

660- move - under table (mis-read Adair's notes)

677 - move by B3, corner of T6 (mis-read Adair's notes)

680 – change layer to "elevated"

683 – delete duplicate by T5 (should be by T3)

695 – move to positive (north) side of base line (pos/neg mix-up in coordinates) - (photo T1-11-7)

696 – move north of baseline (pos/neg mix-up)

697 – move north of baseline (pos/neg mix-up)

709 – by R3C ok, remove "?"

729 – change layer – backpack cut off victim

730 – move to floor point layer

735, 740 – add "O" for approximate location

738 – add number for stool, bullet impact site - on check out counter

751 – move (wrong chair) elevated in chair, next to 753

ARAPAHOE COUNTY SHERIFF'S OFFICE

CRIME LAB PROGRESS REPORT
Assist to Outside Agency – Jefferson County Sheriff's
Homicide – Columbine High School
Senior Lab Technician Laura A. DeLong #9719

CR # 99-16215
JCSD # 99-7625

DATE OF REPORT: 12/6/99

---

752 – duplicate of 804 – use both numbers per Adair

757 – move to south end of cabinet (originally just placed on the cabinet arbitrarily)

758 – move to south end of cabinet

761hole, 762 hole, 763 hole – added in wall bewteen LMC4/LMC5

762 – move closer to door with 763

763 – added – in wall between LMC3/LMC4 (east of doorknob pad)

765 – move - in SW corner, not NW corner

766 – move - in south wall of LMC 5 per Adair's elevation sketch

767 – move - in south wall LMC 5 per Adair's elevation sketch

768 – change to "elevated" layer

770 – added "O" to indicate approximate location

771 – added "O" to indicate approximate location

775 – add to area of Row 3 C (north section in row)

776 – (add) elevated, R2B, NW corner, blood

777 – (add) SGW on floor SE corner R3c (near 709)

779 – (add) W of R3c, north end (photo T1-15-10)

781 – (add) impact marks on center support of Table 1

784 – change to "elevated" layer, unspecified location of chair 9B

785 – (add) on chair, north end Row 1 - lead frag in unspecified location (photo T1-16-8)

786 - (add) R3A NE corner, "elevated" blood

788 – "X" added with exact location

789 – "X" added with exact location

790 - "X" added with exact location

791 – copper and lead fragments – 9'3" and 9'4" from south wall, but no distance from wall or R1 baseline

792 – "X" added with exact location

793 - "X" added with exact location

794 - "X" added with exact location

795 - "X" added with exact location (794 and 795 were in reverse bookshelf segments before)

796 – move around corner and take off "?" – elevated "O" on west panel (photo T1-17-7)

797 – (add) inside panel below 803 with "O" for approximate location

798 – (add) inside panel below 803 with "O" for approximate location

799 – (add) inside panel below 803 with "O" for approximate location

800 – (add) inside panel below 803 - into pillar, but below counter top level

801 – (add) elevated back built-in book case, east end – copper jacket fragment (per photo review)

803 – (add) video, elevated with "O" for approximate location

804 – (add) copper jacket embedded in wall (same as 752 location)

1058 – added "O" to indicate approximate position

1059 – added "O" to indicate approximate position

The chair at the north end of Row 1 was rotated slightly per the photographic view.

No "X"s or "O"s were added to the evidence in and around the bodies of Harris and Klebold due to space constraints. Refer to the evidence logs for these locations.

On 12/6/99, I copied the updated drawing file and mailed the copy to Paula Ernst of the FBI at the following address:

Re: Columbine High School Library
Littleton, CO

Dear Paula,

Enclosed is an updated disk for the evidence locations in Columbine Library.

Tom Adair specified the changes for the drawing after reviewing scene photos for Team One (1) at the Colorado Bureau of Investigation. I moved 15 items, deleted three duplicate numbers, changed the point layers on four items, added 20 item numbers, and added "X"s or "O"s on at least 10 items to locate the items better.

The items that needed to be moved were because of three reasons: 1) guestimated location pending further information from Adair, 2) transposed postive/negative on coordinates, and 3) mis-read information.

Most of the added item numbers were from elevation sketches not previously provided to me.

Attached is a copy of my report detailing the changes.

Respectfully submitted,

Laura A. DeLong

WHEAT RIDGE POLICE CRIME LAB
LABORATORY REPORT

CLASSIFICATION: Assist Jefferson County Sheriff's Department

SECTION: Scene Response

LOCATION OF OCCURRENCE: Columbine High School, 6201 S. Pierce Street

INVESTIGATED BY: Jefferson County Sheriff's Department

DATE OF OCCURRENCE: Tuesday, April 20th, 1999

TUESDAY, APRIL 20TH, 1999 1600 HOURS:

I received a request from the Jefferson County Sheriff's Department, via W.R.P.D. dispatch, to respond to Columbine High School, 6201 S. Pierce, to assist with forensic crime scene processing of the school subsequent to a shooting. I arrived at the incident staging area on Pierce Street at approximately 1630 hours. A scene briefing was conducted at 1730 hours by J.C.S.D. Lt. John Kickbush and Dir. Chris Andrist. We were briefed on the nature of the event and requested to stand by as the building was being secured and cleared by S.W.A.T. team and bomb squad personnel. The process of clearing the building continued throughout the night. I was released from the scene at 2245 hours to report back the next morning.

WEDNESDAY, APRIL 21, 1999 0600 HOURS:

I reported to the incident staging area and at 0700 hours, was assigned by J.C.S.D. Criminalist Chris Loptein to forensic Team # 3 as follows:

Team Leader: Agent James B. Crippin, C.B.I. Pueblo
Team Members: Agent Cordell Brown, C.B.I. Pueblo
Agent Scott Pratt, C.B.I. Denver
Diane Cloyd, A.C.S.O.
Det. Peggy Rowlett, W.R.P.D.
Dep. Ralph Gallegos, J.C.S.D

At 1145 hours, a briefing was conducted for all five forensic evidence teams. Teams were assigned to specific areas of the school for the purposes of videotaping, still photography, searching, diagraming , and the collection and preservation of evidence. At approximately 1330 hours, the individual teams were escorted through the primary crime scene areas within the school for the purpose of additional scene briefing prior to the initiation of forensic processing. At 1425 hours, the Team 3 briefing was concluded and the team responded to the hallway outside the library for staging.

The first assignment for Team 3 was the hallway directly east of, and leading into, the library. We were subsequently assigned the A/V offices on the north side of the library and just west of the hallway. My duties in this area included:

- **videotaping the area, before and after specific items/areas of evidentiary value were identified and marked**
- **searching the hallway and A/V offices for the purpose of locating and marking specific items/areas with evidentiary value**
- **assisting Agent Scott Pratt with the collection of hallway, A/V offices, and evidence measurements for subsequent diagraming**
- **assisting with the marking, preservation and collection of individual items of evidence**

Team 3 concluded processing of the hallway and A/V offices and cleared the scene for the day at 2115 hours.

THURSDAY, APRIL 22 0800 HOURS

I returned to Columbine High School and prepared for the morning briefing. At approximately 0900 hours, all forensic teams were evacuated from the building when two propane cannister bomb devices were located in the cafeteria. At 1030 hours, forensic teams were allowed back in to resume processing.

Team 3 was assigned to meet in the auditorium where we were paired with the F.B.I. Team and assigned to process the cafeteria. We began processing of the cafeteria at approximately 1100 hours. My duties in the cafeteria included:

- **preparation of photo log sheets for photographer Diane Cloyd**
- **search of the cafeteria for the purpose of locating specific items/areas with evidentiary value**
- **assisting with the marking, preservation and collection of individual items of evidence**

F.B.I. personnel videotaped the cafeteria and collected measurements for the preparation of a diagram. We concluded processing for the day at 1645 hours and received a debriefing in the auditorium from 1645 to 1700 hours. I cleared the scene at 1700 hours.

FRIDAY, APRIL 23rd 0800 HOURS

I returned to Columbine High School and at 0830 hours, resumed the previously described duties in the cafeteria, primarily focusing on the search, documentation, and collection of evidence from cafeteria areas designated #1 and #2 (main cafeteria and south snack bar areas respectively). The focus of the search in the cafeteria was to determine the location of specific individuals within the cafeteria when the event occurred based on the recovery locations of personal property, i.e. backpacks, notebooks. Additionally, we documented and recovered all incendiary devices, accelerants, bullets, fragments and bullet casings located in the cafeteria.

At approximately 1430 hours, I recovered evidence item 4549 (suspected .45 cal bullet) from the far north window frame on the west side of the cafeteria. Bullet penetration was into the bottom edge, north end, of the north window frame and originated from the exterior of the building. Penetration was partial and the bullet was recovered from inside the frame by removing the window seal.

The team concluded for the day at 1645 hours and attended a debriefing at 1700 hours, after which I cleared the scene.

MONDAY, APRIL 26th 0800 HOURS

I returned to Columbine High School and attended the 0800 briefing for all forensic teams. At 0900 hours, I was re-assigned from Team 3 to Team 2. Team #2 was assigned to the west half of the library. I reported to Team 2 leader, Agent Tom Griffin, and at 0920 hours, Agent Griffin briefed Team 2 on the days activities. After briefing, we resumed processing in the library, where my duties included:

- search of the west side of the library for the purpose of locating specific items/areas with evidentiary value
- assisting with the marking, preservation and collection of individual items of evidence
- assisting Agent Richard Swanson with the preparation of a photography log

I cleared the scene for the day at 1730 hours.

TUESDAY, APRIL 27TH 0800 HOURS

I returned to Columbine High School and attended the 0800 briefing of the forensic teams. I then responded to the west side of the library to resume the previously described (see April 26) forensic processing duties with Team #2.

At approximately 1145 hours, I cleared the scene to return to the Wheat Ridge Police Department for separate duties not related to the Columbine High School crime scene. As I was logging out of the crime scene, I was contacted by J.C.S.D. Crime Laboratory Dir. Chris Andrist, the forensic incident commander of the scene. Dir. Andrist advised that he had sufficient personnel to conclude processing of the scene, and that I was permanently released from any further crime scene duties.

WHEAT RIDGE POLICE CRIME LAB
LABORATORY REPORT

CLASSIFICATION: Assist Jefferson County Sheriff's Department **SECTION:** Crime Scene

LOCATION OF OCCURRENCE: Columbine High School, 6201 S. Pierce Street

INVESTIGATED BY: Jefferson County Sheriff's Department

JUNE 29, 1999 0900:

I responded to the Columbine High School library to meet with Team 2 leader Agent Tom Griffin and other forensic response members to assist with crime scene reconstruction efforts. During this process, I took two rolls of photographs (photo logs attached) of the following:

- Suspected bloodstains on the carpet north of Table #19
- Library windows # 3 and 4 reflecting firearm discharge locations # 2 and 3
- East side of Table # 16 depicting trajectory of a suspected firearm discharge through a chair frame, with a corresponding impact point in the carpet
- Chair #2a, located on the east side of the library, with firearms discharge damage to the seat and right side of the chair.

I gave custody of the film and original photo logs to Criminalist James Jennings of the Jefferson County Sheriff's Department for processing, and cleared the scene at approximately 1700 hours.

On 07-02-99, Criminalist Jennings provided me with photo contact sheets of the two rolls of film taken on 06-29-99. I booked the contact sheets into evidence.

JEFFERSON COUNTY DISTRICT ATTORNEY'S OFFICE

SUPPLEMENTAL REPORT ON INTERVIEW WITH DENVER POLICE DEPARTMENT SWAT SERGEANT DANIEL PATRICK O'SHEA ON APRIL 20, 1999

Reporting investigator, P.J. Doyle, is a commissioned peace officer employed by the District Attorney of the First Judicial District Attorney's Office serving Jefferson and Gilpin Counties.

On April 20, 1999 I was asked to respond to Leawood Elementary School as a member of the Jefferson County Critical Incident Team. I was assigned to interview Sergeant Daniel Patrick O'Shea, a supervisor of the night shift of the Metro SWAT, 550 E. Iliff, Denver. SWAT: 303 871-8888 Office: 303 698-4009.

I noticed that Sgt. O'Shea had blood on the stomach area of his t-shirt. He told me it was a victim's blood. Sgt. O'Shea was provided with beverages and he called his home.

Following is Sgt. O'Shea's law enforcement history:

Lafayette Police Department Patrol Jan. 1982-Nov. 1986
Denver Police Department Dist. 2 Patrol 1986-1990
Denver Police Department Gang Task Force 1990-1992
Denver Police Department Traffic Solo M/C 1992-1994
Denver Police Department Sergeant Dist. 6 1994-1997
Denver Police Department Sergeant Metro SWAT 1997-present

Sgt. O'Shea's duties include: Coordination and oversight of tactical operations, barricaded suspects, hostage situations, rescue and crowd control. His training includes 24 hour basic certification course in operation of MP5, quarterly qualifications with MP5, weekly dry fire and manipulation and weekly training on SWAT tactics.

Sgt. O'Shea worked the night before Aril 20th. He began his shift at 7:00 p.m., and ended at 3:00 a.m.. He generally works Monday through Friday. His last meal was a bowl of cereal at about 3:00 a.m.. He has had no alcohol within the last 24 hours. He has had no prescription or other drugs. He slept from about 3:00 a.m. until 11:00 a.m. on April 20th.

Sgt. O'Shea was driving to pick up his daughter from school when he was made aware of this incident and was not yet on shift. He had no traumas prior to this incident. He has no family problems and no work related problems. His eyesight is excellent. He had an RK about 4 years ago. He has no medical problems and no physical conditions that were affected by weather or other conditions at the time of the incident.

D 99-1333 22/29
I
NOTES

Sgt. O'Shea's duty weapon is a Heckler-Koch 9 mm sub machine gun (MP5), serial #62350336. It is department owned and the standard rounds issued for use are 9mm Luger Plus P, 124 Grain, GDHP. He has carried the same weapon for 2 years. His range scores are in the 100's and his lowest score was 96. He carries 3 magazines. Another 2 are in a "piggy back clip" in the case with his firearm. He carried 84 rounds into the building before discharge. He said that he reloaded 2 magazines and topped off with 5 or 6 more rounds. He said that he has found the weapon fires better when used with the magazines, (which are designed to hold 30 rounds) loaded with 28 rounds.

Sgt. O'Shea did not know the suspects and had no prior contact with them.

Sgt. O'Shea has had no prior shooting incidents. After the incident, he was told by Lt. Vessa of the Denver Police Department to come to Leawood Elementary School. He said that he met with other Denver SWAT officers in the school parking lot, but they did not discuss the incident. Al Shell, a trainee on Metro SWAT, carried the weapon while Sgt. O'Shea carried a wounded female out of the library at Columbine High School. That is the only other person who handled Sgt. O'Shea's weapon following the incident. This weapon is no secured in the truck of Sgt. O'Shea's car.

Sgt. O'Shea drew a diagram of the shooting scene. That diagram is attached to this report.

REGARDING THE INCIDENT:

Sgt. O'Shea told me the following:

He was on his way to pick his daughter up from school. He was driving his "personal use" police vehicle. He heard Division Chief calling for SWAT officers to respond to Columbine High School on a report of shots fired at the school. He went, with other SWAT members, and escorted about 100 people out back through already secured areas. The rescue operation took place about noon.

Sgt. O'Shea's unit later went to the library. He moved forward to render cover when they closed in on the library. One of the suspects threw an improvised explosive and Sgt. O'Shea fired his weapon. This happened at the door by the entry way. A suspect discharged at least 3 rounds in the direction of the SWAT officers. He said that he could see muzzle flash coming from the suspect, but could not see the shooter. He believes that he did not hit any suspect with his rounds.

Sgt. O'Shea said that during the performance of his duties he: directed cover fire to prevent hostiles from harming the rescue teams, exchanged fire with the suspects who fired.

(Please refer to the diagram by Sgt. O'Shea.) Sgt. O'Shea said that he shot 9 to 12 3 burst rounds.

Sgt. O'Shea said that doors were locked and the people inside were afraid to let them in because, although they identified themselves as police, the people inside were afraid to come out. Several doors were forced open to get to potential victims.

Sgt. O'Shea's weapon was left secured in his car.

No further information at this time.

J Doyle 4-22-99

On this date while driving to West Ridge Elem. School, Alamo west Kipling, in my Personal Use police vehicle from DPD Metro SWAT, I Heard Division chief Whitman call for SWAT ofcrs to respond to columbine High School on a report of shots fired inside the school. I responded to that call from Wadsworth & Belleview. Below is a schematic of my initial actions and engagements at the scene.

Enclosed is the disk for the library, both Teams #1 and #2. The few missing locations for evidence on Team #1 side (east side) will be added after I can consult with Tom Adair.

Rather than give you select pages of notes for elevated views I am giving you all my notes. I believe I re-drew all the small sketches of chairs and table holes that were scattered through the notes on the latter "sketch" pages. One exception is the chair that was by B11 (Klebold).

I added a few notations to the window elevations that you received previously.

I didn't use any symbols to designate different types of evidence. The only coding is by color so far.

Chairs are separated by "trajectory" and "non-essential", meaning no evidence or trajectory was associated with the chairs. The only chair plotted in the service desk or check-out counter area was the one thrown on the counter.

I have not included the wall mounted televisions that were found in the northwest corner and the southeast corner, or the one between windows 10 and 11. No evidence was associated with the TVs.

Any evidence item number that is not marked with an"X" was not precisely measured and is only indicated relative to some other object. This occurs primarily in the east half and the north hallway. The stacked evidence item numbers found in the east half of the library and the north hallway are also relative placements.

ARAPAHOE COUNTY SHERIFF'S OFFICE

Crime Lab Progress Report — ACSO # 99-16215
Assist to Outside Agency -- Jefferson County Sheriff's Department — JCSD # 99-7625
Homicide--Columbine High School, 6201 S. Pierce Street
Sr. Lab Technician Laura A. DeLong #9719 — Date of Report: 7/8/99

JAD

Between 6/30/99 and 7/2/99 I modified the diagram of the library at Columbine High School as indicated in the report dated 6/30/99. The diagram was printed to fit the 8.5" x 11" format paper and details were also printed by segments to allow readability and submit to Records.

Poster size versions were submitted periodically to Team #2 Leader Tom Griffin of CBI for review. Large poster sizes of the 7/2/99 version will also be submitted to Tom Griffin.

A copy of the Autocad file disk was submitted to Paula Ernst, Visual Information Specialist of the FBI on this date.

Attachments:

5 pages of overall plans:
- furniture only,
- furniture with bodies,
- shotgun related items of evidence only,
- non-shotgun ammunition items of evidence (includes mixed or undetermined ammunition)
- all items of evidence included

7 pages of detailed enlargements showing the furniture, bodies, and all evidence items
11 pages of evidence location notes
field notes

REPORT DATE November 5,1999	COLORADO BUREAU OF INVESTIGATION REPORT OF INVESTIGATION	FILE P99-0453 D99-1333
TYPE OF REPORT Crime Scene	REPORT BY Agent James Crippin, Team Leader	AREA Jefferson County, CO
NATURE OF CASE Homicide		

CRIME SCENE REPORT FOR TEAM THREE

REQUESTING AGENCY:	Jefferson County Sheriffs Office, 200 Jefferson County Parkway Golden, CO 80401, 303-271-5626
REQUESTING OFFICER:	Lab Supervisor Chris Andrist
INVESTIGATING OFFICER:	Lab Supervisor Chris Andrist
DATE OF REQUEST:	April 20, 1999
DATE OF OFFENSE:	April 20, 1999
AGENCY CASE NUMBER:	99-7625
LOCATION OF SCENE:	Columbine High School, 6201 S. Pierce Street Jefferson County, CO 80165
VICTIM ~~(DECEASED)~~:	
SUSPECTS:	Dylan Klebold (DOB: 091181) Eric Harris (DOB: 040981)
WEATHER CONDITIONS:	Varied
EVIDENCE SEIZED BY:	Deputies Ralph Gallegos and Doug Moore Jefferson County Sheriff's Office
EVIDENCE IN CUSTODY OF:	Jefferson County Sheriff's Office

REMARKS:

On April 20, 1999, crime scene personnel from various law enforcement agencies were assigned to assist with the processing of a crime scene at Columbine High School, located in Jefferson County, Colorado.

Upon arrival at the Command Post located on Pierce Street by Clement Park, crime scene personnel were informed that the bomb squads of various agencies were in the process of clearing the school and the parking lot of explosive devices. At approximately 11:30 p.m., all crime scene personnel were instructed that processing of the scene would not start until the bomb squads had completed their activities; therefore, all crime scene personnel would report back to the command post on Wednesday, April 21, 1999 at 8:00 a.m.

ACTION TAKEN:

At 11:45 a.m. on April 21, 1999, Chris Andrist of the Jefferson County Sheriff's Office conducted a briefing for crime scene personnel. A plan was presented to divide the crime scene into specific areas and assign a team of four or five crime scene personnel to each area. A team leader was designated for each team.

Team Three consisted of the following personnel:
James Crippin, Colorado Bureau of Investigation, Team Leader
Cordell Brown, Colorado Bureau of Investigation
Scott Pratt, Colorado Bureau of Investigation
Diane Cloyd, Arapahoe County Sheriff's Office
Peggy Rowlett, Wheat Ridge Police Department
Ralph Gallegos, Jefferson County Sheriff's Office
Doug Moore, Jefferson County Sheriff's Office.

Team Three had been assigned to process the hallway running north to south in front of the library. Agent Crippin made the following team assignments:

- Scott Pratt – Crime Scene Sketch
- Peggy Rowlett - Crime Scene Sketch & Video
- Diane Cloyd – Photographer
- Cordell Brown – Photo Log Recorder
- Deputies Ralph Gallegos and Doug Moore (previously assigned as the evidence collection personnel for Team Three by Chris Andrist, Jefferson County Sheriff's Office) Evidence Custodians

Team Three members made an initial walk-through of the area at approximately 1:30 p.m. The initial impression of the hallway was that there had been two explosive devices that had detonated in the area causing various areas of blast damage. Additionally, there was evidence of small arms being discharged in the area.

The processing of Team Three's area started at approximately 2:30 p.m. A closer inspection of the hallway was made and a plan of action developed. The hallway was divided into four sections and each section would be processed independently of the others. It was decided that overall photographs of the hallway would be taken and then the hallway would be video- taped. After these two things were done, the team personnel would walk the hallway and place evidence identification placards at items that would be collected as evidence. Team Three had been assigned #1200 through #1499 for evidence identification and collection. The hallway would then be sketched and measurements of any items to be collected as evidence would be noted. Team Three was later informed that a complete building sketch would be made by another agency and that they were not to reproduce this effort. The hallway would then be photographed and videotaped again with the evidence placards in place to show where the evidence to be collected was located. After this was done, the evidence would be collected.

After the hallway had been photographed and videotaped, the team members proceeded to identify possible items of evidence. Team Three identified 86 items of evidence that were to be collected. It was noted at this time that an explosive device had penetrated the wall into Team One's area. It was decided that Team Three would process two additional areas that had been originally assigned to Team One. Those areas were two rooms located off the north side of the main library room. Those rooms were processed after the hallway area was done.

Section #1 was the northernmost area while section #4 was the southernmost area. Sections #1, #2 and #3 measured 27 feet 5 inches in length and section #4 measured 28 feet in length. Sections #1, #2, #3 and #4 were separated by columns on the east side of the hallway that measured 30 inches wide by 21 inches deep. Opposite columns were noted separating #1 and #2 and #3 and #4 on the west side of the hallway. The column that would have been opposite the column separating section #2 and #3 was the main doorway into the library. Sections #1 and #4 each measured 16 feet 10 inches in width. Section #2 measured 16 feet 10 inches in width at the northern end and 23 feet 6 inches in width at the southern end. Section #3 measured 23 feet 6 inches in width at the northern end and 16 feet 10 inches in width at the southern end. The ceiling height in sections #1 through #4 was approximately 10 feet and the areas adjacent to the columns separating the individual sections was approximately 8 feet high.

Evidence from the floor areas in each section was removed first. Sections of the carpet where the devices had exploded were also removed. After the floor areas were cleared of evidence, attempts were made to collect any evidence that was located in the walls or ceilings.

- A section of wall above the lockers on the east side of section #1 approximately 55 inches from the column separating section #1 and #2 was removed in an attempt to recover possible shrapnel. A ceiling tile was also removed in this area in an attempt to recover possible shrapnel.
- Section #3 had an area of the carpet that showed blast damage. It was located 92 inches from the east wall, 201 inches from the west hallway wall and 11 1 inches from the corner of the elevator. This area was identified as item #1232 and a portion removed for analysis. Portions of the upper wall above the lockers on the east side of section #2 at the northernmost point, were removed in an attempt to locate pieces of possible shrapnel. Ceiling tiles were removed in the northernmost area of section #2 in an attempt to recover possible shrapnel that had passed through them. Several sections of the west wall were removed in an attempt to recover shrapnel. The initial walk-through had identified three separate areas of damage on the west wall of section #2 that had possibly been caused by shrapnel from the device that had detonated outside of the library entrance. Extensive damage was noted on this wall area. A section of wall was removed approximately 5 inches above the baseboard and 8 inches south of the left side of the elevator. A section of end cap (item #1226) was removed from the wall interior (Note – another section of the end cap had continued on through the opposite side of the wall causing damage in another room). A section of the west wall further south of the elevator had a partial explosive device (item #1240) imbedded in it. This appeared to be the device that had exploded in the area of the hallway in front of the library. The device had struck the wall approximately 6 inches above the baseboard. It had struck an inner structural support and did not penetrate the wall on the other side. Several casings were located the elevator.

Another section of wall on the west side of the hallway had shrapnel damage (item #1242) located 51 inches from the library entrance and 52 inches above the floor. The shrapnel penetrated the hallway wall, pierced an inner structural support and exited the back wall into a room just north of the main library area. There were several bullet holes on the north side of the column separating section #3 and section #4. There were two small holes approximately 1 to 1 ½ feet from the floor and 1 large hole near the ceiling. The small holes looked like they could be 9mm and the large a shotgun slug. None looked like shrapnel holes. The opposite side of the column showed two holes down low and two large holes up high. It is thought that the shotgun slug split and caused the two upper holes. The holes were in a north to south direction. 9mm bullets and shotgun slug pieces were later recovered from the far south wall of the hallway by another team that could be traced back to these holes.

- Section #4 had an area that showed blast damage. It was identified as item #1261 and located 105 inches from the west hallway wall and 109 inches from the south edge of the column separating sections #3 and #4. A section of pipe (item #1263) was found against the west hallway wall and 100 inches from the west wall column. The west hallway wall had what appeared to be shrapnel damage (item #1280) approximately 16 inches above the floor and 106 inches from the west hallway wall column. Additionally the west wall above the southernmost bookcase had a single bullet hole in it approximately 1 to 1 ½ feet below the edge of the ceiling. The hole showed a east to west direction of travel and what ever had caused the hole had exited into the library through a comforter that was hanging on the east wall of the library above a bookcase. A 9mm bullet was later recovered by Team #1 in the ceiling of the east side of the library that had a trajectory indicating that it was from this hole. The opposite side of the hallway in section #4 (east side) was a wall composed of individual 3 foot by 3 foot glass panels. A blue plastic pager (item #1265) was found 44 inches from the east wall and 97 inches from the east hallway wall column. A green canvas bag containing several shotgun shells (item #1273) was located 7 inches from the east wall and 58 inches from the southernmost edge of section #4. One of the glass wall panels on the east side had been broken. This panel was located 156 inches from the east hallway wall column.

Sections #1, #2, #3 and #4 all had numerous pieces of grey duct tape, bits of carpet and large numbers of nails and shot pellets scattered throughout the floor areas.

Team Three personnel proceeded to the two rooms located just to the north of the main library area. The east room measured approximately 17 feet by 20 feet. It had doors located on the south, the west and the north walls. The west room measured approximately 20 feet by 19 feet. It had doors on the east, south and north sides. Both rooms were photographed and videotaped prior to any evidence placards being put into place. After the evidence was identified and placards put into place, the rooms were again photographed and videotaped. The east wall of the easternmost room had two holes in it. Both holes had been caused by shrapnel penetrating them from the hallway wall on the other side. The southernmost hole corresponded with item #1242 and was further identified as item #1242A. It was located 55 inches above the floor and 12 inches from the south wall. A small piece of possible shrapnel was located on the opposite side of the room under a LCD projector. The northernmost hole corresponded with item #1226 and was further identified as item #1226A. It was located 7 inches above the floor and 18 inches from the north wall. A piece of pipe end cap (item #1226B) was located 59 inches from item #1226A. A spent shotgun shell (item #1285) was found 95 inches from item #1226A and 56 inches from the east wall. The west room had a TV set that had what appeared to be a bullet hole (item #1286) in the front of the picture tube. Fragments of a bullet were later recovered from inside of the television. The TV was located on a bench area in the approximate center of the room. An empty casing was found approximately 27 inches from the east wall and 33 inches from the north wall.

The processing of the library hallway and rooms north of the main library ended at approximately 8:45 p.m. on April 21, 1999.

Items collected from the hall included six spent 9mm cartridge cases, three spent Federal 12 gauge shot shells, two projectile fragments, three miscellaneous firearms-related items, and 49 pieces of explosive related evidence. In addition, two projectile fragments and one spent 9mm cartridge case were found in the AV room west of the hall.

REPORT DATE November 5, 1999	COLORADO BUREAU OF INVESTIGATION REPORT OF INVESTIGATION	FILE P99-0453 D99-1333
TYPE OF REPORT Crime Scene	REPORT BY Agent James Crippin, Team Leader	AREA Jefferson County, CO
NATURE OF CASE Homicide		

CRIME SCENE REPORT FOR TEAM THREE

REQUESTING AGENCY:	Jefferson County Sheriffs Office, 200 Jefferson County Parkway Golden, CO 80401, 303-271-5626
REQUESTING OFFICER:	Lab Supervisor Chris Andrist
INVESTIGATING OFFICER:	Lab Supervisor Chris Andrist
DATE OF REQUEST:	April 20, 1999
DATE OF OFFENSE:	April 20, 1999
AGENCY CASE NUMBER:	99-7625
LOCATION OF SCENE:	Columbine High School, 6201 S. Pierce Street Jefferson County, CO 80165
VICTIM (DECEASED):	
SUSPECTS:	Dylan Klebold (DOB: 091181) Eric Harris (DOB: 040981)
WEATHER CONDITIONS:	Varied
EVIDENCE SEIZED BY:	Deputies Ralph Gallegos and Doug Moore Jefferson County Sheriff's Office
EVIDENCE IN CUSTODY OF:	Jefferson County Sheriff's Office

REMARKS:

On April 20, 1999, crime scene personnel from various law enforcement agencies were assigned to assist with the processing of a crime scene at Columbine High School, located in Jefferson County, Colorado.

Upon arrival at the Command Post located on Pierce Street by Clement Park, crime scene personnel were informed that the bomb squads of various agencies were in the process of clearing the school and the parking lot of explosive devices. At approximately 11:30 p.m., all crime scene personnel were instructed that processing of the scene would not start until the bomb squads had completed their activities; therefore, all crime scene personnel would report back to the command post on Wednesday, April 21, 1999 at 8:00 a.m.

ACTION TAKEN:

At 11:45 a.m. on April 21, 1999, Chris Andrist of the Jefferson County Sheriff's Office conducted a briefing for crime scene personnel. A plan was presented to divide the crime scene into specific areas and assign a team of four or five crime scene personnel to each area. A team leader was designated for each team.

Team Three consisted of the following personnel:
James Crippin, Colorado Bureau of Investigation, Team Leader
Cordell Brown, Colorado Bureau of Investigation
Scott Pratt, Colorado Bureau of Investigation
Diane Cloyd, Arapahoe County Sheriff's Office
Peggy Rowlett, Wheat Ridge Police Department
Ralph Gallegos, Jefferson County Sheriff's Office
Doug Moore, Jefferson County Sheriff's Office.

Team Three had been assigned to process the hallway running north to south in front of the library. Agent Crippin made the following team assignments:

- Scott Pratt – Crime Scene Sketch
- Peggy Rowlett - Crime Scene Sketch & Video
- Diane Cloyd – Photographer
- Cordell Brown – Photo Log Recorder
- Deputies Ralph Gallegos and Doug Moore (previously assigned as the evidence collection personnel for Team Three by Chris Andrist, Jefferson County Sheriff's Office) Evidence Custodians

in width at the southern end. Section #3 measured 23 feet 6 inches in width at the northern end and 16 feet 10 inches in width at the southern end. The ceiling height in sections #1 through #4 was approximately 10 feet and the areas adjacent to the columns separating the individual sections was approximately 8 feet high.

Evidence from the floor areas in each section was removed first. Sections of the carpet where the devices had exploded were also removed. After the floor areas were cleared of evidence, attempts were made to collect any evidence that was located in the walls or ceilings.

- A section of wall above the lockers on the east side of section #1 approximately 55 inches from the column separating section #1 and #2 was removed in an attempt to recover possible shrapnel. A ceiling tile was also removed in this area in an attempt to recover possible shrapnel.
- Section #3 had an area of the carpet that showed blast damage. It was located 92 inches from the east wall, 201 inches from the west hallway wall and 111 inches from the corner of the elevator. This area was identified as item #1232 and a portion removed for analysis. Portions of the upper wall above the lockers on the east side of section #2 at the northernmost point, were removed in an attempt to locate pieces of possible shrapnel. Ceiling tiles were removed in the northernmost area of section #2 in an attempt to recover possible shrapnel that had passed through them. Several sections of the west wall were removed in an attempt to recover shrapnel. The initial walk-through had identified three separate areas of damage on the west wall of section #2 that had possibly been caused by shrapnel from the device that had detonated outside of the library entrance. Extensive damage was noted on this wall area. A section of wall was removed approximately 5 inches above the baseboard and 8 inches south of the left side of the elevator. A section of end cap (item #1226) was removed from the wall interior (Note – another section of the end cap had continued on through the opposite side of the wall causing damage in another room). A section of the west wall further south of the elevator had a partial explosive device (item #1240) imbedded in it. This appeared to be the device that had exploded in the area of the hallway in front of the library. The device had struck the wall approximately 6 inches above the baseboard. It had struck an inner structural support and did not penetrate the wall on the other side. Several casings were located the elevator.

NEAR or BY ?

and #3 was the main doorway into the library. Sections #1 and #4 each measured 16 feet 10 inches in width. Section #2 measured 16 feet 10 inches in width at the northern end and 23 feet 6 inches in width at the southern end. Section #3 measured 23 feet 6 inches in width at the northern end and 16 feet 10 inches in width at the southern end. The ceiling height in sections #1 through #4 was approximately 10 feet and the areas adjacent to the columns separating the individual sections was approximately 8 feet high.

Evidence from the floor areas in each section was removed first. Sections of the carpet where the devices had exploded were also removed. After the floor areas were cleared of evidence, attempts were made to collect any evidence that was located in the walls or ceilings.

- A section of wall above the lockers on the east side of section #1 approximately 55 inches from the column separating section #1 and #2 was removed in an attempt to recover possible shrapnel. A ceiling tile was also removed in this area in an attempt to recover possible shrapnel.
- Section #3 had an area of the carpet that showed blast damage. It was located 92 inches from the east wall, 201 inches from the west hallway wall and 111 inches from the corner of the elevator. This area was identified as item #1232 and a portion removed for analysis. Portions of the upper wall above the lockers on the east side of section #2 at the northernmost point, were removed in an attempt to locate pieces of possible shrapnel. Ceiling tiles were removed in the northernmost area of section #2 in an attempt to recover possible shrapnel that had passed through them. Several sections of the west wall were removed in an attempt to recover shrapnel. The initial walk-through had identified three separate areas of damage on the west wall of section #2 that had possibly been caused by shrapnel from the device that had detonated outside of the library entrance. Extensive damage was noted on this wall area. A section of wall was removed approximately 5 inches above the baseboard and 8 inches south of the left side of the elevator. A section of end cap (item #1226) was removed from the wall interior (Note – another section of the end cap had continued on through the opposite side of the wall causing damage in another room). A section of the west wall further south of the elevator had a partial explosive device (item #1240) imbedded in it. Th~~e~~s ~~device~~ appeared to be the device that

had exploded in the area of the hallway in front of the library. The device had struck the wall approximately 6 inches above the baseboard. It had struck an inner structural support and did not penetrate the wall on the other side. Another section of wall on the west side of the hallway had shrapnel damage (item #1242) located 51 inches from the library entrance and 52 inches (up from) above the floor. The shrapnel penetrated the hallway wall, pierced an inner structural support and exited the back wall into a room just north of the main library area. There were several bullets holes on the north side of the column separating section #3 and section #4. There were two small holes approximately 1 to 1 ½ feet from the floor and 1 large hole near the ceiling. The small holes looked like they could be 9mm and the large a shotgun slug. None looked like shrapnel holes. The opposite side of the column showed two holes down low and two large holes up high. It is thought that the shotgun slug split and caused ~~to~~ the two upper holes. The holes were in a north to south direction. 9mm bullets and shotgun slug pieces were later recovered from the far south wall of the hallway by another team that could be traced back to these holes. Several casings were located just outside the elevator.

(believe there were 5-6 casings near the elevator.)

- Section #4 had an area that showed blast damage. It was identified as item #1261 and located 105 inches from the west hallway wall and 109 inches from the south edge of the column separating sections #3 and #4. A section of pipe (item #1263) was found against the west hallway wall and 100 inches from the west wall column. The west hallway wall had what appeared to be shrapnel damage (item #1280) approximately 16 inches (up from) above the floor and 106 inches from the west hallway wall column. Additionally the west wall above the southernmost bookcase had a single bullet hole in it approximately 1 to 1 ½ feet (down from) below the edge of the ceiling. This hole showed a east to west direction of travel and what ever had caused the hole had exited into the library through a comforter that was hanging on the east wall of the library above a bookcase. A 9mm bullet was later recovered in/near the ceiling of the east side of the library that had a trajectory indicating that it was from this hole. The opposite side of the hallway in section #4 (east side) was a wall composed of individual 3 foot by 3 foot glass panels. A blue plastic pager (item #1265) was found 44 inches from the east wall and 97 inches from the east hallway wall column. A green canvas bag containing several shotgun shells (item #1273) was located 7 inches from the east wall and 58 inches from the southernmost edge of section #4.

Type of Report:	Agents:	Date:	File Number:	Page:
Crime Scene	James Crippin Team Leader	1/7/2000	P99-0453 D99-1333	6

One of the glass wall panels on the east side had been broken. ~~It~~ This panel was located 156 inches from the east hallway wall column.

Sections #1, #2, #3 and #4 all had numerous pieces of gray duct tape, bits of carpet and large numbers of nails scattered and shot pellets throughout the floor areas.

Team Three personnel proceeded to the two rooms located just to the north of the main library area. The east room measured approximately 17 feet by 20 feet. It had doors located on the south, the west and the north walls. The west room measured approximately 20 feet by 19 feet. It had doors on the east, south and north sides. Both rooms were photographed and videotaped prior to any evidence placards being put into place. After the evidence was identified and placards put into place, the rooms were again photographed and videotaped. The east wall of the easternmost room had two holes in it. Both holes had been caused by shrapnel penetrating them from the hallway wall on the other side. The southernmost hole corresponded with item #1242 and was further identified as item #1242A. It was located 55 inches above (up from the) floor and 12 inches from the south wall. A small piece of possible shrapnel was located on the opposite side of the room under a LCD projector. The northernmost hole corresponded with item #1226 and was further identified as item #1226A. It was located 7 inches above (up from) the floor and 18 inches from the north wall. A piece of pipe end cap (item #1226B) was located 59 inches from item #1226A. A spent shotgun shell (item #1285) was found 95 inches from item #1226A and 56 inches from the east wall. The west room had a TV set that had what appeared to be a bullet hole (item #1286) in the front of the picture tube. Bullet fragments were recovered from the interior of the TV. The TV was located on a bench area in the approximate center of the room. (A spent shotgun shell was found approximately 27 inches from the east wall and 33 inches from the north wall.)

The processing of the library hallway and rooms north of the main library ended at approximately 8:45 p.m. on April 21, 1999.

Jamie - I only remember 1 shotgun shell - from the east room. I also recall a casing on the floor in the west room, near the refrigerator, I believe.

FRAME #S	DESCRIPTION	LOCATION

Report Date May 11, 1999	Thornton Police Report of Investigation	Thornton Case Number 99-4919
Type of Report Crime Scene	Report submitted by Robert Lloyd	Jefferson County Sheriff Case Number 99-7625

NATURE OF CASE Homicide

CRIME SCENE REPORT FOR TEAM FOUR

REQUESTING AGENCY:	Jefferson County Sheriff's Office	
INVESTIGATING OFFICER:	Lab Supervisor Chris Andrist	
DATE OF REQUEST:	April 20, 1999	
DATE OF OFFENSE:	April 20, 1999	
AGENCY CASE NUMBER:	99-7625	
LOCATION OF SCENE:	Columbine High School, 6201 South Pierce Street, Jefferson County, Colorado	
VICTIM:	David Sanders	DOB: (102251)
SUSPECTS:	Eric Harris	DOB: (030981)
	Dylan Klebold	DOB: (091181)
WEATHER:	Variable	
EVIDENCE SEIZED BY:	Jefferson County Sheriff's Deputy Steve Stalter	

EVIDENCE IN CUSTODY OF: Same as above

REMARKS: This is report by Team Four, assigned to the science area that contained the body of David Sanders, at Columbine High School. The team was also assigned the south and central portion of the school. In addition to Lloyd, the reporting team leader, other members and their duties were:

Tony Gallardo, Arapahoe County Sheriff's Office
Sketching
Bruce Davis, Greenwood Village Police Department
Video, measurements and trajectory
Stephen Adams, Arvada Police Department
Photography, bullet trajectory
Steve Stalter, Jefferson County Sheriff's Office
Photo and evidence log, collection of evidence.

On Tuesday, April 20, 1999, Team Four members responded at various times to a staging area set up on Pierce Street, north of Columbine High School, to assist JCSO in the investigation of multiple deaths, shots fired and explosions. No teams entered on April 20 due to safety concerns with the presence of unexploded devices.

On Wednesday morning, April 21, 1999, a planning meeting was held. Team leader Robert Lloyd, along with Chris Andrist, JCSO, Tom Griffin, C.B.I., and Sergeant Randy West were appointed as co-crime scene coordinators. The purpose of the group was to establish procedures for documenting the scene and setting up crime scene teams.

After an assessment of the scenes by members of the Jefferson County Sheriff's Department, and Jefferson County Coroner's office, a preliminary walk through was conducted to establish assignments.

Agent Griffin documented the scenes with 35mm photographs and Robert Lloyd videotaped the bodies. Another back up 35mm and video team, consisting of Criminalist Tom Adair, Arapahoe County Sheriff's Department and Chris Loptien, JCSO, also videotaped and photographed the bodies. The documentation commenced at 10 a.m. and was completed at 12 noon.

On April 21, 1999, at approximately 12:30 p.m., Chris Andrist assigned crime scene personnel to various teams. This meeting was conducted to ensure a standardized approach to all of the scenes. Each team member was then escorted through the various scenes in the school for an assessment of evidence.

Photographs were taken to record the areas investigated by Team Four. Each photograph was documented in a photo log, which is a part of this report.

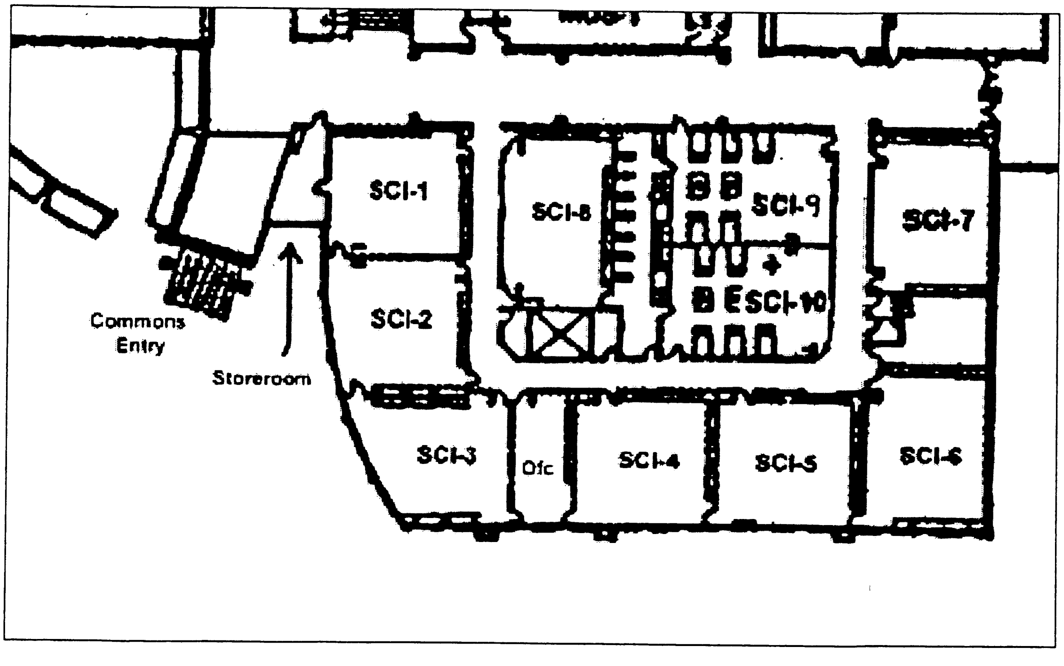
Team Four was issued evidence numbers 1500 through 1699. An evidence log was maintained to record the numbers used by Team Four. Measurements were taken on each item of evidence collected for inclusion in diagrams and will not be repeated here.

Columbine High School is located on the west side of Pierce Street at the intersection of Fair Drive. The main entry to the school faces east with parking lots on the south side of the school and on the northeast side. Various athletic fields are located on the west and northwest areas of the school grounds and Clement Park borders the north side. The school is a two-story structure with the main entrance being on the upper level. There is exterior access to the lower level on the south and west sides. The main or central hallway for the school runs east and west with the front doors being on the east side and the office area just to the north of the main entrance. The north side of the central hallway on the main level consists of the administrative offices, the gymnasium, the band room and specialty classrooms such as the wood shop, ceramic studio and photography. Numerous other smaller classrooms are also located north of the main hallway. South of the main hallway is the primary classroom area for Social Studies, Language Arts, Math and Science. It also contains the auditorium. The library is located in the west end of the main level with the cafeteria being on the lower level directly underneath the library.

There is a south entrance to the school on the lower level at the west end. This enters the southeast corner of the cafeteria. There is a stairway that goes from this location to the main level at an intersection of hallways at the southeast corner of the library area (see diagrams). The Science area is in the southwest side of the school on the main level. There are ten classrooms in this area labeled SCI-1 through SCI-10. There are two Science office rooms and a chemical storage area (see diagrams). There is a storeroom on the west side of SCI-1.

This science storeroom has a doorway on the east side into SCI-1 as well as a doorway on the north side onto to the hallway at the top of the stairs coming up from the cafeteria on the lower level. This hallway at the top of the stairs from the lower level runs east and west and is another main hallway south of the central hallway. This hallway intersects with a hallway that runs north and south in front of the library area. These two hallways intersect at the southwest corner of the school above the southwest entryway on the lower level. The west wall of this science storeroom is also the east wall of the southwest entryway to the school. One victim of the shooting was found in this science storeroom on the west side of SCI-1.

Science Area Diagram (For reference only-not to scale)



ACTION TAKEN: On April 21, 1999, Team Four entered the building at approximately 1:35 p.m. The processing of the scene continued until Tuesday, April 27. The approximate scene activity times were as follows:

Wednesday, April 21st, 1:35 p.m. to 6:00 p.m.
Thursday, April 22nd, 8 a.m. to 6 p.m.
Friday, April 23rd, 8 a.m. to 6:30 p.m.
Monday, April 26th, 8 a.m. to 7 p.m.
Tuesday, April 27th, 8 a.m. to 2:30 p.m.

Science Storage Room/ Body #13

In the science storage room was the body of a white male, which had been previously designated as body # 13, later identified as teacher DAVID SANDERS. The body was on the floor positioned on his back. His head was pointed north towards the hallway door in the room. His feet were pointed south and his arms were down along his sides. Mr. Sanders was bare chested. His blue and white dress shirt and T-shirt were cut and pulled down to the waist. He had gray slacks and brown shoes. Under the body was a flannel shirt and next to the head was a gray sweatshirt. These items appeared out of place with the clothing Sanders was wearing. It was noted that there was an absence of blood under the body. There did not appear to be any evidence in the room to indicate that this was where this victim had actually been shot.

Initially there were two wounds visible: one was in the upper mouth and he appeared to be missing two teeth; the other was an apparent bullet wound on the front of the right shoulder. Once the initial documentation was completed, the Coroner's Office was requested to respond to conduct their examination. Triena Harper of the Jefferson County Coroner's Office and a member of the Denver Coroner's Office responded and conducted an investigation on the victim (see also: Coroner's Report). The examination disclosed two additional bullet wounds in the victim's back, one on the upper right shoulder and one at the base of the lower left side of the neck. The bullet wound on the back of the right shoulder appeared to be related to the bullet wound on the front right shoulder. The bullet wound at the base of the neck appeared related to the wound in the victim's mouth.

The victim had a wallet, which tentatively identified him as William David Sanders, dob: 10/22/51, with an address of 9556 W. Lake Place, 80123, and described him as a white male, 6' tall, 190 lbs., brown hair, blue eyes and wearing corrective lenses. The driver's license was a Colorado driver's license #942973429 and showing a social security number of 315-54-0935.

The victim was placed in a body bag, which was sealed and carried to the Coroner's vehicle at the front entryway to the school. After the body was removed from the storeroom, additional photographs were taken to document the room without the body present.

Located in the hallway, just outside the storage room door, were two large pools of suspected blood on the carpet. In both pools of blood (items #1513-1514) were suspected bone fragments. Between the pools of blood and the north storage room wall, the team recovered a single tooth on the floor (#1517).

East of the large pools of blood the team observed additional bloodstains in the carpeting. The first one appeared to be a right hand, believed to be Sanders, due to the close proximity of the tooth and tooth fragments. This pattern had all fingers and thumb patterns in the carpet. A few inches further east the team observed a bloody outline consistent with knuckles of a hand, with voids where the back of the fingers would have pressed on the carpet. Further east along the blood trail was a second right hand impression, with fingers and thumb.

The staggered blood trail continued east then turned south toward Science Room 1 (SCI-1). On the door of SCI-1 there was blood on the door handle and several blood drops on the floor below the handle, as if someone had been standing there. The trail did not enter the room.

The blood trail continued south past the two doors for SCI-2. The blood trail did not enter this room. It continued to SCI-3 where it did enter the room. There was a large pool of blood in front of the black chalkboard, which is on the east wall. Several feet away were additional bloodstains along with several T-shirts, a fire blanket, and additional clothing on the floor covered with blood. There was a tooth fragment (#1537) on the floor. On the floor was a portion of a blue and white dress shirt (#1538), consistent with the shirt found on DAVID SANDERS in the science storage room. A pair of blood stained glasses (#1539) was located on a desk along the north wall.

On the floor in the southwest corner of SCI-3 was a hand-lettered sign (#1540), which read, "1 BLEEDING TO DEATH."

In SCI-2, eight tables were set up in a barricade like position across the back of the room. The bloodstains on the floor indicate Sanders was pulled from SCI-3, through SCI-2 (behind the table barricades), through SCI-1 and into the science storage room.

In summary, the investigation revealed that SANDERS was shot twice while in the hallway outside the science storeroom. He probably crawled east until reaching the next hallway junction where he turned south. He opened the door to SCI-1 but did not enter. He then continued south to the end of the hall and entered SCI-3. He was subsequently taken from there across the backs of SCI-2 and SCI-1 to the science storeroom.

Processing of the science storage room and victim was completed at about 6:00 p.m. This completed the work on April 21,1999.

On April 4, 1999, Team Four returned to the scene of Columbine High School and signed in at approximately 0800 hours. At this time the team began to measure the evidence that had been located and numbered on the previous day. Again photographs were taken to document each item of evidence with the number plaque in view. Where appropriate, the items were photographed with and without a scale. This included evidence item #1500 through item #1553. See the evidence recovery log for the details relating to the individual items.

A decision was made to mark all holes and impact points on walls and windows with numbers prefixed by the letter "BH" since it was sometimes difficult to determine whether the hole or impact was made by a bullet, shotgun round or bomb fragment. All holes and impact marks were measured to document their position (see diagrams). All penetrating impacts were searched to try and locate the projectile causing the hole. When found, they were photographed and measured for location. Where appropriate, probes were used to determine trajectories and relate specific evidence to the holes. Photographs were taken of these holes both with and without the probes in place.

Hallway South of Library
Examined and photographed were numerous bullet holes and defects in the south wall and windows at the west end of the southern east/west hallway. The windows overlook the entryway for the south entrance and to the lower level commons area. A total of 16 holes or impact points were noted. BH-1 was a hole through the lower portion of the wall close to the west edge of the wall with the Science storeroom. This projectile went through the south wall of the hallway and into the west wall of the storeroom and was recovered inside the wall just south of the sink and cabinet located in that room. The projectile recovered appeared to be a bullet fragment and was recovered as item #1548.

The hole designated as BH-2 located in the lower left hand area of that section of wall (as you look towards the south) was approximately one and one-half inch in diameter and may have been made by a piece of bomb fragment. This hole penetrated the wall and is associated with a hole gouged in the west wall of the Science storeroom. The projectile did not penetrate this wall and would have fallen to the floor in the entryway of the commons area. The size of the hole would be consistent with the end cap of one of the bomb devices.

BH-3 was a small hole in the molding at the base of the wall in line with a tear in the carpet south of that location which was designated as evidence item #1503. The projectile causing this hole penetrated the south wall of the hall and also penetrated into the west wall of the Science storeroom. The projectile recovered in the wall appeared to be a bullet fragment and was designated as evidence item #1553.

The hole BH-4 was caused by a projectile going through the south wall below the windows and impacting the window frame at the south end of the east wall of the commons entry area (subsequently recovered as evidence item #1618).

The hole BH-5 was on the lower edge of the window on the south wall. The projectile did not penetrate the metal window frame and is believed to be a bullet fragment which was found directly underneath that spot, that being item #1543.

The hole BH-6 was caused by a projectile that penetrated the vertical window frame for the center portion of the window of the south wall and the projectile was lodged inside the frame. This was a bullet subsequently recovered as evidence item #1616.

The holes BH-7, BH-8 and BH-9 are holes through the window glass of the window on the south wall. These may relate to impacts on the south wall of the entry to the commons area (BH-48, 49, and 50).

The impact point designated as BH-10 was a mark on the wall in the shape of the profile of a flathead screw. A screw of the same size and shape was recovered from the carpet south of that location and was evidence item #1502.

The hole BH-11 was in the wall on the west side of the windows. The projectile causing this hole penetrated the wall and pointed directly to a broken window above the south entry to the commons area. This projectile also penetrated that window and no evidence item was recovered that could positively be associated with that hole.

The hole BH-12 was the furthest west impact on the south side of that hallway wall. This is a low impact into the drywall behind which was a concrete pillar. Numerous lead fragments were recovered from this hole and designated as item #1550.

The hole BH-13 was located in the wall over the windows on the south wall with the projectile penetrating completely through the wall. No associated evidence item was recovered.

BH-14 was actually a metal fragment stuck in the wall above the windows. This was recovered as evidence item #1551.

The hole BH-15 was also above the windows but did not penetrate to the other side. The wall was opened up and a metal fragment was found lodged in the insulation between the inner and outer walls and collected as evidence item #1548.

The hole BH-16 was in the wall above the windows and penetrated through to the area above the entryway for the commons area. No item was recovered for this hole.

Science Room #8

Overall photographs were taken in SCI-8 where it was apparent that shots had been fired through the window of the northwest door, into the classroom in a southeasterly direction. A table, inside the room had been tipped up in front of the door. Two fired shotguns shells and three fired 9 mm casings were found outside the doorway to this room (see evidence item #1525 through #1529).

New Information Received

At approximately 1600 hours on April 22, 1999 the team was advised by Scott Mundine, an agent for the Colorado Bureau of Investigation, that interviews had indicated a student had a video camera in the music room that contained images of one of the suspects from the previous Monday. This room was found to be Music-1 and with the description given to Scott Mundine the associated evidence was found in that room. This was a backpack, a Sony video camera, a blue hat and a white t-shirt. These items were photographed and their location measured. They were not collected pending an examination by bomb squad personnel.

At approximately 1630 hours, the team was contacted by Chris Andrist who advised that other interviews indicated a student in one of the Math rooms also had videotape of at least one of the suspects. This was found to be Math room

#10 and was associated with a student Eric Veik. A backpack, plastic bag of videotapes and a video camera bag were found at this student's desk in Math #10. The photographic documentation of these items was deferred to the next day.

The photographs taken on April 22, 1999 included roll #7 through roll #12. The team cleared the scene at Columbine High School at approximately 1700 hours.

Math Room #10

On Friday, April 23, 1999, the team entered Columbine High School at approximately 0800 hours. Photographs were taken to document Math #10 and specifically the desk of Eric Veik. His desk was in the third row from the east and was the second desk from the south. A test paper on the top of the desk showed the name Eric Veik, also on the top of the desk was a pencil and a calculator. On the north side of the desk was a black backpack. On the south side of the desk was a black video camera case and a plastic Target bag containing six Sony VHS tapes. (See evidence items #1559 through #1562). It should be noted here that neither these items nor the backpack and other items in the music room had yet been searched by the bomb squad.

Science Room #8 (continued)

Team Four returned to SCI-8 to continue the photographing and documentation of the evidence in this room. (See evidence item #1563 through #1586.) This evidence consisted primarily of fired bullets, lead fragments and shotgun shell wads. As previously stated it appears the shots fired into the room came from the northwest door going southeast across the room towards the southeast door of the classroom. As done previously in the hallway, bullet or projectile impacts and holes were designated with a number preceded by the prefix "BH."

BH-16 was a hole in a plastic electrical conduit along the east wall of Science room #8. A bullet fragment was recovered from inside this conduit as evidence item #1582. (It was later noted that BH-16 was used previously, so there are now two references to this number).

BH-17 was an impact in the east wall, which penetrated the wall and exited into the chemical storage room on the east side of SCI-8. The projectile impacted two metal cabinets inside this room and was recovered on a shelf as evidence #1585.

BH-18 was an impact point on the east wall of SCI-8 and recovered was a small fragment imbedded in the wall as evidence item #1581.

BH-19 was an impact point on the east wall. No fragments were recovered.

BH-20 was an impact point on the east wall through a Wolf poster. The projectile went partially through the wall and was imbedded in the insulation between the walls. This was recovered as item #1584.

BH-21 was a hole in a lower cabinet door on the east side of the room, the cabinet being directly under the sink. The projectile was recovered from within the door as evidence item #1577.

BH- 22 was an impact point on the top drawer of a cabinet on the east wall underneath the sink. This was an impact point only. No evidence was recovered from this spot.

BH-23 was impact point on the east wall at the top of the Wolf poster. This is an impact point only.

BH-24 was a hole in a box sitting on the east counter just south of the sink area. The projectile went through this box and impacted a Safeway sack. The hole in the Safeway sack was marked as BH-25. The projectile continued though the Safeway sack and impacted the back splash on the back of the east counter and this was marked as BH-26.

BH-27 was an impact point on the south wall by the southeast door to SCI-8. There were two fragments imbedded in the wall at this location, which were recovered as item #1583.

BH-28 was also on the south wall by the southeast door and was an impact point only.

BH-29 and BH-30 appeared to be impact points on the ceiling tiles in the middle of the room but the projectile did not penetrate these tiles. The angle indicated by the gouge in the ceiling tile pointed back to the northwest door to SCI-8.

BH-31 and BH-32 are impact points in the upturned desk in front of the northwest door to SCI-8. BH-31 was an actual hole punched through the edge of the desk and BH-32 appeared to be an impact point only.

West Science Hallway

In the hallway south of SCI-8, by a mechanical room, two spent shotgun shells were found on the floor (items #1530 and 1531). Blood spatter was seen on the wall of the hallway across from Science office #1. This is at the junction with the south hallway running east and west. A sample was collected as Item #1532.

Science Office #1

Team Four next examined Science office #1, which is located on the south side of the building between SCI-3 and SCI-4. This office area has a door on the northwest corner of the room (opening onto the hallway); a door on the southeast corner (opening to SCI-4); and a door on the southwest corner (opening to SCI-3). Teachers' desks are along the west wall. There are two rows of equipment and bookshelves down the middle of the room and the sink along the east side.

It appears multiple shots were fired into this room through the hallway door window, including shotgun and 9 mm. An incendiary device was also ignited inside this room. A live 9mm cartridge was found outside the door to SCI-3 and three fired 9mm casings were found outside the door to the science office (items # 1533-1536).

The incendiary device consisted of a glass bottle with some type of flammable liquid. There was also a CO2 cartridge, matches, and lead fragments found in the debris (items #1587-1594). Burn deposits on the glass door to the Science office indicate that the device may have been stuck on the window of the door with the initiator (which would be the CO2 cartridge) filled with some type of flammable and/or explosive compound. Since a lid was found for the glass bottle but no wick or other fusing, it appears as though the CO2 cartridge may have been the intended initiator for this device. While there were burn deposits on the door window, it does not appear that the glass jar containing the flammable liquid actually broke until it hit the floor inside the room. This would suggest that perhaps the CO2 cartridge was attached to the device, which was attached to the window but the cartridge failed to explode and simply spewed burning debris from the top depositing it on the window. The window was subsequently broken with the device landing on the floor inside the room. It was noted that the CO2 cartridge was not ruptured. A small fire was apparently started but extinguished by someone using a dry chemical fire extinguisher.

The bookcases down the center of the office were impacted by projectiles with the path of the projectiles pointing back to the northwest door. This would put the projectiles on a southeast trajectory coming through the door of the office.

Team Four left the Science area at approximately 1700 hours and attended a briefing in the auditorium for all the crime scene investigation teams. At approximately 1800 hours, Team Four cleared from the school. Taken on 04/23/99 were photo rolls #13 through #20.

On Monday, April 26, 1999, Team Four returned to the scene at Columbine High School at approximately 0800 hours. There, the investigation of the scene inside Science office #1 was resumed. Photographs were taken to document the individual items of evidence collected and also more bullet holes and impact points inside the room. Evidence collected from the Science office #1 consisted of evidence items #1587 through #1614.

BH-33 was a large impact point on the west edge of the window frame for the door to Science office #1. This impact point would be consistent with a shotgun round.

BH-34 was an impact across the spine of the books on the second shelf unit to the south and the third shelf down from the top.

BH-35, BH-36 and BH-37 represent the path of the projectile traveling southeast from the northwest corner of the room. This is a large hole skipping across the spine of a Sigma catalog and through the south end of the second shelf unit to the south (BH-35). BH-36 is a hole in a blue 3 ring binder at the north edge of the third shelf unit to the south which is a through and through hole leading to BH-37 which enters another 3 ring binder just to the south of the first. Within this second 3 ring binder was recovered a large lead fragment and other smaller fragments were found when the 3 ring binder was moved. These were recovered as item #1607 and would be consistent with a shotgun slug. Item #1606 may be fragments relating to this item (#1607) as they were recovered on the same shelf beneath BH-35. It was also noted that a single shotgun wad in three pieces was recovered from inside the room. These were items #1597, #1608 and #1610.

BH-38 was an impact on the end of the second shelf unit to the south and recovered in that area were two small lead fragments marked as item #1611.

BH-39 was a hole through the end of the second shelf unit to the south which when a probe was placed through the hole lined up with BH-41. BH-40 was a second hole through the end of that same shelf unit which related to BH-42. BH-41 was in the divider between the east and west shelf units as was BH-42. The projectile going through BH-39 and BH-41 was recovered as item #1614 (a lead fragment located in a culture tube box on a shelf on the east side of the room). The projectile from BH-40 and BH-42 was recovered as item #1613, another fragment located inside a second culture tube box on the east shelf units. Item #1614 was in the box on the fourth shelf up from the floor and item #1613 was in the box on the fifth shelf up from the floor. Both of these were on the second unit to the south on the east side of the room.

South Science Hallway

The Science area has a U-shaped hallway with two north/south segments, which are on the west and east sides and the bottom of the U is the east/west hallway on the south end of the Science area. On the north side of the hallway at the intersection with the eastern northwest hallway was an impact point marked as BH-44. BH-44 is a gouge in the wood molding on the northwest corner of the intersection with the south Science and the east Science hall. This would locate it at the southeast side of SCI-10 and kitty-corner (northwest) across the hall from SCI-6. SCI-6 is located in the southeast corner of the Science area (see diagrams).

BH-45 is a hole in the hallway wall just to the north of the doorway for SCI-6. This is a through and through penetration into SCI-6. BH-46 is a hole in a speaker mounted on east wall of SCI-6. The projectile went through the speaker and into the wall behind the speaker. This is labeled as BH-47. The projectile was subsequently recovered as item #1615.

Entryway-South Commons Area
Team Four returned to the area of the entryway for the commons area located at the southwest corner of the school. In looking at the south wall over the entryway, additional impact points were noted that possibly relate to the initial impact points located on the second floor above the entryway (BH-7, BH-8 and BH-9).

The impact labeled BH-48 was in the window frame of the windows over the south entry to the commons. This is an impact point with no penetration.

BH-49 was a hole in the glass window over the south entryway over the east set of doors. This window is a set of double pane glass and the projectile penetrated the northernmost pane but did not penetrate the southern pane. A projectile was recovered between the glass as item #1619.

BH-50 was in the frame of the window at the southeast corner on the east wall of the entryway. A projectile was recovered relating to this as item #1618 from inside the window frame.

A nail (item #1620) was found on the ledge of a column on the southeast corner at the top of the stairway from the commons area to the second or main level of the school. A possible impact point was noted on the wall south of where the evidence was located and marked as BH- 51. Again photographs and measurements were taken on all of the above items and impact points.

The rolls of film taken on this date included roll #21 through roll #39. Team Four cleared from the scene at Columbine High School at approximately 1810 hours on April 26, 1999.

Outside the Commons Area

On Tuesday, April 27, 1999, Team Four entered the scene at Columbine High School at approximately 0800 hours. Team Four and the other investigators attended a briefing in which the remaining items of evidence needing to be collected were discussed. Team Four was assigned to collect a fragment of a bullet found outside the school. This was labeled as item #1622 and was found outside the south commons area in the lawn just to the southeast of the entry doors. This was photographed and measured for the diagrams.

Science Room #7

The team then went to SCI-7 where witness reports had indicated that several people had made notes relating to the bombing within the school as they sat in the room waiting for rescuers. Numerous papers were seen in this area strewn on the floor at the front of the classroom, which would be the west side of the room. These papers were photographed and collected as item #1623.

Tech Conference Room

Team Four was also requested to photograph the Tech conference room, which is located on the east side of the Tech Lab area. This had not previously been documented. It was noted that on one of the write-on boards on the north side of the classroom were the words "The skool sood bee blown u.p.s."

Team Four Summary

The following rooms contained evidence collected by Team Four:

Science 3 Science 6 Science 7 Science 8
Science Office #1 Chemical Storeroom Music 1
Math 10 Science Hallways Commons Entrance Area

The team cleared the following rooms with no evidence collected:
Science 1 Science2 Science 4 Science 5
Science 9 Science 10 Science 11 Science 12
Math 1 Math 2 Math 3 Math 4
Math 5 Math 6 Math 7 Math 8
Math 9 Math 11 Math Comp Math 13
Language rooms, LA-1 through LA-12
Social studies rooms, SS-1 through SS-10
Drafting Technical Lab
Southeast corner of auditorium

Evidence logs will be submitted by Jefferson County Sheriff's Office. Sketch information will be submitted separately. Photographic logs are included with this report.

The following is breakdown on the major evidence collected:
Fired bullets/fragments------------ 55
Fired 9mm casings------------------ 6
Fired shotgun casing--------------- 4
Shotgun wad components-------- 7
Live 9mm rounds-------------------- 5
Bomb/Incendiary-------------------- 1

This is the end of the narrative report. The photo log follows the signature page.

Team Four Photo Log

Roll # 1

1. Placard for roll #1
2. Overall door to science storage room, south side of hallway
3. Medium photograph of storage room door
4. Looking south through science storage room door
5. East/west hallway north of science storage room, looking west

6. Inside of storage room door
7. South from storage door doorway
8. Looking southwest in storage room, from NE corner
9. Looking south to north in science storage room
10. Looking northeast in science storage room

11. Looking east from west in science room
12. Looking west from south east in room
13. From classroom door into storage room, looking west
14. Sanders lower half
15. Sanders upper half, south to north

16. Overall of Sanders looking north
17. Sanders upper half facing east
18. Sanders right side
19. Sanders legs right side
20. Sanders bottom of shoes

21. Sanders, face
22. Sanders face close-up
23. Sanders mouth close-up
24. Wound to right side of Sanders

Roll # 2

1. Placard for roll # 2
2. Head and shoulders
3. Sanders mouth with scale
4. Mouth without scale
5. Sanders' front shoulder wound

Roll # 2, continued

6. Sanders' front shoulder wound with scale
7. Right shoe with scale
8. Left shoe with scale
9. Sanders, left side of head
10. Sanders, upper body left side

11. Door and one by two board
12. Midrange foot print on door
13. Door closing mechanism on door
14. Door closing mechanism on door frame
15. Both pieces of door closing mechanism

16. Shoe print on door
17. Shoe print on door with scale
18. Shoe print on door without flash
19. Shoe print on door with flash
20. Shoe print on door with flash and scale

21. Sanders, wound left rib area
22. Close-up left rib area of Sanders
23. Sanders, left hand
24. Sanders, right hand

Roll # 3

1. Placard for roll # 3
2. Overall of back of Sanders
3. Left rib area with scale
4. Upper left back shoulder of Sanders
5. Wound on base of left neck, with scale

6. Right shoulder wound, with scale
7. Sanders, wallet with identification: David Sanders, DOB: (102251)
8. Wallet, close-up
9. Hallway looking southeast
10. Hallway, outside storage room, blood stains on carpet

Roll # 3, continued

11. Blood stains with scale
12. North group of blood stains with scale
13. South group blood stains with scale
14. Blood trail looking east
15. Two pools of blood with scale

16. West pool with scale
17. East pool with scale
18. Tooth on floor east of science storage door
19. Tooth in relation to open science storage room door
20. Tooth in relation to open science storage room door with scale

21. Close-up of tooth with scale
22. Close-up of tooth without scale
23. Blood trail east of blood pools
24. Blood trail east of blood pools

Roll # 4

1. Placard for roll # 4
2. Right hand print in blood, hallway north of storeroom
3. Right hand print with scale
4. Right hand print without scale
5. Right hand print with scale, southeast impression

6. Right hand print without scale, southeast impression
7. Northeast handprint with scale
8. Northeast handprint without scale
9. Overall view of bloody handprints in hallway
10. Science hallway looking southeast

11. Science hallway looking southeast
12. Science hallway looking south
13. Science hallway to southwest
14. Door to science room # 1 (SCI-1)
15. Door knob with blood to SCI-1

16. Floor in front of SCI-1
17. North wall entry to SCI-1
18. Close-up blood spots in hallway outside SCI-1
19. Blood drops with scale, wall south of SCI-1 door
20. Blood on corner with scale, wall south of SCI-1 door

Roll # 4, continued

21. Overall door frame to SCI-1
22. Blood on door frame to SCI-1
23. Blood on door frame to SCI-1 with scale
24. West Science hallway looking south

Roll # 5

1. Placard for roll # 5
2. Door to science office 1
3. Hallway looking southeast toward science office
4. Fired shotgun shell outside mechanical room
5. Blood on hallway wall, intersection of hallways

6. Blood on wall with scale
7. Overall science room #3 (SCI-3)
8. Fired cartridge case outside SCI-3
9. Doorway to science office 1
10. Looking into science office 1

11. Fired 9mm casing, behind science office 1 door
12. Fired shell casing, east of science door 1
13. Looking south into SCI-3
14. Blood pool, east wall, SCI-3
15. Looking north, SCI-3

16. Looking west, SCI-3
17. Looking west, SCI-3
18. Close-up-portion of Sanders shirt on floor of SCI-3
19. Close-up-portion of Sanders shirt, close-up
20. Overall of tooth on floor, SCI-3

21. Overall of tooth in SCI-3, close-up
22. Close-up of tooth with scale
23. Eyeglasses on desk, north side of SCI-3
24. Close-up of eyeglasses

Roll # 6

1. Placard for roll # 6
2. West side of SCI-3 looking south
3. Sign, “1 BLEEDING TO DEATH”
4. Close-up of sign

Roll # 6, continued

5. Looking north, from SCI-3 to SCI-2

6. Looking north along west wall of SCI-1
7. Looking west, SCI-1
8. Looking north, doorway between SCI-2 and SCI-1
9. Looking north along west wall of SCI-1
10. Looking west into SCI-1

11. Looking west from SCI-1 to storeroom
12. Looking north in science storage room
13. Looking south in science storage room
14. Looking east, evidence number placards, north of science storage room
15. Looking south with placards west of storage room

16. Looking south, placards in west science hall
17. North end of west science hall, looking southwest
18. Science hall next to mechanical room
19. South end of west science hall, looking southeast
20. Science hall south of mechanical room

21. Hallway outside science office1, with evidence placards
22. Hallway outside SCI-3, with evidence placards
23. Looking west in SCI-3, with evidence placards
24. Desk on north wall SCI-3, with evidence placard

ROLL # 7

1. Placard for roll # 7
2. Sign in SCI-3, with placard
3. **# 1500**, bullet fragment, close-up
4. **# 1501**, metal nut, close-up
5. **# 1502**, screw, close-up

6. **# 1505**, paper clip/wire, close-up
7. **# 1503**, cut in carpet, close-up
8. **# 1504**, bullet fragment, close-up
9. **# 1506**, match stick, close-up
10. **# 1507**, match stick, close-up

11. **# 1508**, match stick, close-up
12. **# 1509**, plastic bag, close-up
13. **# 1510**, metal nut, close-up

Roll # 7, continued

14. **# 1511**, match stick, close-up
15. **# 1512**, match stick, close-up

16. **# 1513,** carpet with blood and fragments, close-up
17. **# 1514**, carpet with blood and fragments, close-up
18. **# 1515,** metal fragment, close-up
19. **# 1516,** carpet with blood, close-up
20. **# 1517,** tooth, close-up

21. **# 1518,** Advil pill, close-up
22. **# 1519,** nail, close-up
23. **# 1520,** live 9mm cartridge, close-up
24. **# 1521,** nail with duct tape, close-up

Roll # 8

1. Placard for roll # 8
2. **# 1522**, nail, close-up
3. **# 1523**, metal nut, close-up
4. **# 1524**, belt buckle, close-up
5. **# 1525**, fired shotgun shell, close-up

6. **# 1526**, fired 9mm casing, close-up
7. **# 1527**, fired shotgun shell, close-up
8. **# 1528**, fired 9mm casing, close-up
9. **# 1529**, fired 9mm casing, close-up
10. **# 1530**, fired shotgun shell, close-up

11. **# 1531**, fired shotgun shell, close-up
12. **# 1532**, blood (on wall), close-up
13. **# 1533**, live 9mm cartridge, close-up
14. **# 1534**, fired 9mm casing, close-up
15. **# 1535**, fired 9mm casing, close-up

16. **# 1536**, fired 9mm casing, close-up
17. **# 1537**, tooth, close-up
18. **# 1538**, partial shirt, close-up
19. **# 1539**, eyeglasses, close-up
20. **# 1540**, sign "1 BLEEDING TO DEATH", close-up

21. **# 1541**, nail, close-up

Roll # 8, continued

22. **# 1542**, nail, close-up
23. **# 1543**, bullet fragment, close-up
24. **# 1544**, bomb fragments, close-up

Roll # 9

1. Placard for roll # 9
2. Science storage room west wall with cabinet and sink
3. Science storage room west wall, behind cabinet
4. Science storage room west wall, close-up of hole
5. Science storage room west wall, close-up with scale

6. Science storage room, west wall hole with scale
7. **# 1545**, nail, close-up
8. **# 1546**, nail, close-up
9. **# 1547**, live 9mm cartridge, close-up
10. Overall, windows at south end of west hallway

11. Overall, west storage room wall, outside over entryway
12. Overall, west storage room wall, hole, other side of BH 2- 6
13. Overall, windows over entry to commons
14. Overall windows, south wall to west end of hall, looking from storage room
15. Overall, south side to west end of hall, with placards

16. East half, south window area
17. West half, south window area
18. Bullet holes (BH) 1 and 2
19. BH 1, with scale
20. BH 2, with scale

21. BH 3, 4, and 5
22. BH 3, with scale
23. BH 4, with scale

Roll # 10

1. Placard for roll # 10
2. BH 5, frame under poster
3. BH 5, with scale
4. BH 6 and 7

Roll # 10, continued

5. BH 6, with scale

6. BH 7, with scale
7. BH 8 and 9
8. BH 8, with scale
9. BH 9, with scale
10. BH 10, (nail strike)

11. BH 10, with scale
12. BH 11 and 12
13. BH 11, with scale
14. BH 12, with scale
15. BH 13 and 14, item **# 1548**, metal fragment

16. BH 13, with scale
17. BH 14, with sale
18. **# 1548,** metal fragment, with scale
19. BH 15
20. BH 15, with scale

21. South wall with bullet probes, looking southeast
22. South wall with bullet probes, looking southwest
23. Overall south wall with bullet probes
24. South wall looking from storage room

Roll # 11

1. Placard for roll # 11
2. South wall with probes looking up from commons area
3. West wall storage and south wall (up from cafeteria)
4. West wall of storage room from cafeteria
5. Hole west wall of storage room from inside room

6. Hole in west wall inside storage room
7. Hole in west wall showing bullet hole in stud
8. Hole in west wall showing bullet hole in stud
9. Bullet inside west wall of storage room
10. **# 1549,** bullet fragment, in wall

11. **# 1549**, bullet fragment, in wall
12. BH 12 with drywall removed (no flash)
13. BH 12 close-up

Roll # 11, continued

14. **#1550**, bullet fragment from BH 12
15. **#1550,** with scale

16. Bullet in insulation from BH 14 (no flash)
17. Bullet in insulation from BH 14 with scale
18. **# 1551**, bullet, with scale
19. **# 1552,** bullet fragment, south wall under window (overall)
20. **# 1552**, bullet fragment, close-up

21. **# 1552,** bullet fragment, with scale
22. Hole in drywall, west wall of storage room, behind shelves
23. Hole in drywall, (outside wall)
24. **# 1553**, bullet inside wall

Roll # 12

1. Placard for roll # 12
2. **# 1553**, bullet, in wall, science storage room
3. Door to SCI-8, looking SE, door open
4. Door to SCI-8, looking SE, door closed
5. Looking south into SCI-8 with bullet hole in table

6. Looking south into SCI-8, close-up of hole
7. Looking south into SCI-8, with scale and bullet hole
8. Looking south into SCI-8, with hole with scale
9. Looking southeast overall of science room 8
10. Looking southwest overall, science room 8

11. Looking northwest overall, science room 8
12. Looking northeast overall of science room 8
13. Music 1 door looking northeast
14. Music room 1 looking northwest overall
15. Looking northwest into music room 1

16. Looking southwest overall into music 1
17. Looking northwest overall into music 1
18. Medium shot of back packs and video camera, music room 1
19. Close-up shot of back packs and video camera, music room 1
20. Close-up shot of back packs and video camera, music room 1

21. **#1554-1557**, backpack, video camera, hat/shirt, notebook
22. Doorway to math 10

Roll # 12, continued

23. Looking northwest into math 10
24. Looking northeast into math 10

Roll # 13

1. Placard for roll # 13
2. Math 10, looking southeast
3. Math 10, looking southwest
4. Eric Veik's desk, looking SE
5. Eric Veik's desk, looking east

6. Eric Veik's desk, from top
7. Eric Veik's desk, from top
8. Eric Veik's desk, close-up
9. Eric Veik's desk, with camera bag close-up
10. Eric Veik's desk, Target bag

11. Eric Veik's desk
12. Looking northwest from Veik's desk, in math 10
13. **#1559-1562**, camera case, Target bag, backpack, paper and pencil
14. North doorway into SCI-8
15. Doorway looking south in SCI-8

16. Inside SCI-8, looking south
17. Inside SCI-8 looking east
18. From inside SCI-8 looking north
19. **# 1563**, bullet fragment
20. **# 1563,** with scale

21. **# 1564**, lead fragment
22. **# 1564,** with scale
23. **# 1565**, bullet fragment

18. BH 29, in ceiling
19. BH 29 with scale
20. BH 30, in ceiling

21. BH 30 with scale
22. BH 21 and **# 1577**, bullet fragment
23. **# 1577**, bullet fragment
24. **# 1577,** with scale

Roll # 17

1. Placard for roll # 17
2. BH 17 with probe looking east with no flash
3. BH 17 with probe looking east with flash
4. BH 17 with probe looking overhead
5. BH 20 with probe, looking east

6. BH 20 with probe from below
7. **# 1581**, bullet fragment
8. East wall, SCI-8, looking north with no flash
9. East wall of SCI-8 looking north with flash
10. **# 1582,** bullet fragment, looking south

11. **# 1582,** bullet fragment, looking south
12. **# 1582,** with scale
13. **# 1583**, lead fragment
14. **# 1584,** bullet fragment, in insulation
15. **# 1584,** with scale

16. Science office 3 chemical supply, looking north
17. Science office 3 chemical supply, looking northwest
18. Science office 3 chemical supply, looking south
19. Science office 3 chemical supply, looking east
20. Science office 3 BH 17 exit

21. Science office 3 BH 17 exit with scale
22. Science office 3 shelf area south of BH 17
23. Science office 3 shelf area west of bullet
24. **# 1585**, bullet, from BH 17

Roll # 18

1. Placard for roll # 18
2. **# 1585**, bullet from BH 17 with scale
3. Science office 3 with dent in cabinet
4. **# 1586**, lead fragment on top of towel dispenser, SCI-8
5. **# 1586,** with scale

6. Looking south at science office1
7. Looking south at science office 1 with door closed
8. Close-up of science office 1 door glass
9. BH 33
10. BH 33 with scale

Roll # 18, continued

11. Burnt deposit on science office 1 door exit
12. Science office 1 door looking east
13. From science office 1 door looking east
14. Looking north from south end, science office 1
15. Looking north from south end, east half of office

16. Looking north from north end, looking at east half
17. Burn pattern on floor looking west
18. Burn pattern on floor, looking north
19. Burn pattern on floor, from overhead
20. Looking east from doorway

21. North bookcase, west side
22. North bookcase, close-up of cloth vest hanging on shelves
23. North bookcase, holes in bookcase behind vest
24. South end, north bookcase

Roll # 19

1. Placard for roll # 19
2. North desk, science office 1
3. South desk, science office 1
4. East shelving unit, looking to west bullet holes
5. East shelving unit, looking to west, upper half

6. East shelving unit, looking west, lower portion
7. Science office 1, outside of door, number markers in hallway
8. Science office 1, number markers on floor
9. **# 1587**, match stick
10. **# 1587,** with scale

11. **# 1588**, 2 match sticks
12. **# 1588,** with scale
13. **# 1589,** lead fragment
14. **# 1589**, with scale
15. **# 1590,** bullet fragment

16. **# 1590,** with scale
17. Burn area with scale, showing **# 1589** - **# 1594**
18. **# 1592,** CO2 cartridge
19. **# 1592,** CO2 cartridge, with scale
20. **# 1593,** lead fragment

Roll # 19, continued

21. **# 1593,** lead fragment, with scale
22. **# 1595,** bullet fragment
23. **# 1595,** with scale
24. Overall photo of items, **# 1596**, **# 1597** and **# 1598**

Roll # 20

1. Placard for roll # 20
2. **# 1596**, lead fragments
3. **# 1596**, with scale
4. **# 1597**, shotgun wad fragment
5. **# 1597**, with scale

6. **# 1598**, lead fragment
7. **# 1598**, with scale
8. **# 1599**, lead fragment
9. **# 1599**, with scale
10. **# 1600**, bullet fragment (piece of copper jacket)

11. **# 1600**, with scale
12. **# 1601**, lead fragment
13. **# 1601**, with scale
14. **# 1602**, lead fragment
15. **# 1602**, with scale

16. **# 1603**, blue vest
17. **# 1603**, with scale
18. Front of box with bullet hole from **# 1604**, bullet fragment
19. Side of box with bullet hole from **# 1604**
20. **# 1604**, bullet fragment, from inside box

21. **# 1604**, with scale
22. **# 1605,** lead fragments, overall
23. **# 1605,** no scale, close-up
24. **# 1605,** with scale

Roll # 21

1. Placard for roll # 21
2. **# 1600**, piece of copper jacket, overall
3. **# 1600,** with scale
4. **# 1601,** lead fragment, overall
5. **# 1601**, with scale

6. **# 1602**, lead fragment, overall
7. **# 1602,** with scale
8. **# 1603**, blue vest
9. **# 1604,** bullet fragment from inside box
10. **# 1604**, with scale

11. **# 1605,** bullet fragment
12. **# 1605**, with scale
13. **# 1606**, lead fragments, on shelf
14. **# 1606**, with scale
15. Bullet holes from **# 1607,** in shelf unit
16. Bullet holes from **# 1607**, in notebooks
17. **# 1607**, piece of shotgun slug, inside book
18. **# 1607**, with scale inside book
19. **# 1607**, second piece of slug on shelf
20. **# 1607**, second piece of slug, with identification tag

21. **# 1607**, second piece of slug, with scale
22. **# 1608**, lead fragment on floor
23. **# 1608**, with scale
24. **# 1609**, shotgun wad fragment, overall

Roll # 22

1. Placard for roll # 22
2. **# 1609**, shotgun wad fragment, in tray
3. **# 1609**, with scale (tray moved for photo)
4. **# 1610**, shotgun wad fragment (behind window shade)
5. **# 1610**, overall with shades up

6. **# 1610,** with scale
7. BH 34, 35, 36 and 37 (from **# 1607**)
8. BH 35 exit
9. BH 35 entry with scale on shelving
10. Bullet holes in south end shelving unit

Roll # 22, continued

11. Bullet holes in south end shelving with markers (BH 38-40 and 43)
12. Bullet holes in divider between shelves (BH 41 and 42)
13. BH 38 with scale
14. BH 39 and 40 with scale
15. Exits for BH 39 and 40

16. Exits for BH 39 and 40, with scale
17. BH 34, 38, 39, 40 and 43, with probes, looking east
18. BH, 34, 38, 39, 40 and 43, looking from doorway
19. BH 34 and 35 with a probe
20. **# 1611**, lead fragments, overall

21. **# 1611**, lead fragments, close-up
22. **# 1611,** with scale
23. **# 1612**, bullet fragments, inside book
24. **# 1612**, with scale

Roll # 23

1. Placard for roll # 23
2. East side of second shelf, exit for BH 42
3. East side, second shelf, exit for BH 41
4. BH 42 exit with marker
5. BH 41 exit with marker

6. Inside (close-up) culture tube box (BH 42 continued)
7. **# 1613,** bullet fragment (from BH 42)
8. **# 1613,** with scale
9. Small culture tube box (BH 41 continued)
10. Inside (close-up) culture tube box

11. Dividers inside small culture tube box
12. **# 1614,** lead fragment (from BH 42)
13. **# 1614**, with scale (removed from box)
14. South science hall, looking east outside SCI-5
15. Corner of hall, west of SCI-10

16. Close-up BH 44
17. Close-up BH 44 with scale
18. Midrange of BH 44, 45, and 46
19. Midrange of BH 44, 45, and 46 with scale
20. BH 45 no scale

Roll # 23, continued

21. BH 45 with scale
22. Exit for BH 45, overall
23. Bullet 45 exit, mid range
24. BH 45, exit with scale

Roll # 24

1. Placard for roll # 24
2. SCI-6 looking southeast
3. SCI-6, looking southwest
4. SCI-6, looking northwest
5. SCI-6, looking northeast

6. BH 46, in speaker, overall looking east
7. BH 46, midrange
8. BH 46, close-up with scale
9. BH 46, and BH 47
10. Exit for BH 46

11. BH 47, midrange
12. BH 47 with scale
13. Overalls, east pillar, SCI-6
14. **# 1615**, bullet, inside wall, midrange (from BH 44-47)
15. **# 1615**, close-up

16. **# 1615**, with scale
17. **# 1616**, bullet fragment (from BH 6), overall, inside window frame
18. **# 1616**, bullet inside window frame
19. **# 1617**, live 9mm cartridge, overall looking east
20. **# 1617**, live 9mm cartridge, midrange looking east

21. **# 1617**, close-up without scale
22. **# 1617**, close-up with scale
23. Looking south at upper window with bullet hole, south of cafeteria
24. Looking south at upper window with bullet holes, south of cafeteria

Roll # 25

1. Placard for roll # 25
2. Broken window and impact on frame
3. Overall impacts on window south side of cafeteria (BH 48-49)
4. Photo of bullet, between glass, south of cafeteria (**#1619**)

Roll # 25, continued

5. Looking south, BH 48, 49, and 50 south of cafeteria

6. Hole in window frame, east side of south commons entry
7. **# 1618**, bullet fragment, from BH 50
8. **# 1618**, with marker
9. **# 1618**, with marker, out of wall
10. **# 1618**, with scale

11. **# 1619**, bullet fragments (from BH 49), with marker
12. **# 1619**, with label from second floor
13. **# 1619**, with scale, removed from window
14. BH 51 overall, looking south
15. BH 51 close-up

16. BH 51 with scale
17. **# 1620**, nail, overall looking north west
18. **# 1620**, close-up
19. **# 1620**, with scale
20. Entrance music store room

21. Interior of music room looking northwest
22. Interior of music room, looking northeast
23. Interior of music room, looking southeast
24. Interior of music room, looking southeast

Roll # 26

1. Placard for roll # 26
2. Storage room, next to vocal music 1
3. Interior of storage room, looking northwest
4. Interior of storage room, looking northeast
5. Interior of storage room, looking southeast

6. Interior of storage room, looking southwest
7. Auditorium hallway, looking north
8. Doorway to music 3
9. Interior of music 3, looking northwest
10. Interior of music 3, looking northeast

11. Interior of music 3, looking southeast
12. Interior of music 3, looking southwest
13. Exterior science mechanical, next to SCI-4

Roll # 26, continued

14. Interior of science mechanical, looking southeast
15. Interior of science mechanical, looking north

16. Exterior of science mechanical across from SCI-4
17. Interior of science mechanical from south side
18. Exterior of SCI-4, with door
19. Interior of SCI-4, looking southeast
20. Interior of SCI-4, looking northeast

21. Interior of SCI-4, looking northwest
22. Interior of SCI-4, looking southwest
23. Exterior of SCI-5
24. Interior of SCI-5, looking southeast

Roll # 27

1. Placard for roll # 27
2. Interior of SCI-5, looking northeast
3. Interior of SCI-5, looking northwest
4. Interior of SCI-5, looking southwest
5. Exterior of science office 2

6. Interior, science office 2, east looking west
7. Interior, science office 2, west end looking north
8. Interior, science office 2, east end
9. Interior, science office 3, north end
10. Exterior room adjacent to science office 2

11. Faculty lavatory, storage room adjacent to science office 2
12. Exterior SCI-7
13. Interior SCI-7 looking northeast
14. Interior SCI-7 looking northwest
15. Interior SCI-7 looking southwest

16. Interior SCI-7 looking southeast
17. Exterior north door, SCI-9
18. Interior SCI-9, looking southwest
19. Interior SCI-9, looking southeast
20. Interior SCI-9, looking northeast

21. Interior SCI-9, looking northwest
22. Exterior, SCI-10

Roll # 27, continued

23. Interior, SCI-10, looking northwest
24. Interior, SCI-10, looking southwest

Roll # 28

1. Placard for roll # 28
2. Interior, SCI-10, looking southeast
3. Interior, SCI-10, looking northeast
4. Exterior, SCI-11
5. Interior, SCI-11, looking northwest

6. Interior, SCI-11, looking southwest
7. Interior, SCI-11, looking southeast
8. Interior, SCI-11, looking northeast
9. Exterior, SCI-12
10. Interior, SCI-12, looking northeast

11. Interior, SCI-12, looking northwest
12. Interior, SCI-12, looking southwest
13. Interior, SCI-12, looking southeast
14. Officer adjacent to SCI-12
15. Interior of office, adjacent to SCI-12, looking west

16. Office interior looking east
17. Office interior looking west
18. Office interior looking north
19. Office interior looking south
20. Yearbook room exterior

21. Yearbook room looking southeast
22. Yearbook room looking northeast
23. Yearbook room looking northwest
24. Yearbook room looking southwest

Roll # 29

1. Placard for roll # 29
2. Yearbook Publishing office doorway
3. Yearbook Publishing office looking southwest
4. Yearbook Publishing office looking southeast
5. Yearbook Publishing office looking northwest

Roll # 29, continued

6. Corridor between science and math area looking southeast
7. Corridor between science and math area looking northeast
8. Corridor between science and math area looking northwest
9. Corridor between science and math area looking southwest
10. Math hallway looking east

11. West math hallway, looking south
12. West math hallway storage room
13. Book storage room
14. Book storage room looking southeast
15. Book storage room looking northeast

16. Book storage room looking northwest
17. Book storage room looking southwest
18. Exterior, math 11
19. Interior math 11, looking northwest
20. Interior math 11, looking southwest

21. Interior math 11, looking southeast
22. Interior math 11, looking northeast
23. Exterior, math 9
24. Interior, math 9, looking southwest

Roll # 30

1. Placard for roll # 30
2. Interior of math 9 looking southeast
3. Interior of math 9 looking northeast
4. Interior of math 9, looking northwest
5. Exterior math 8

6. Interior math 8 looking southwest
7. Interior math 8, looking southeast
8. Interior math 8, looking northeast
9. Interior math 8, looking northwest
10. South math hallway, looking east

11. Exterior, math 7
12. Interior of math 7 looking southwest
13. Interior of math 7, looking northwest
14. Interior of math 7, looking northeast
15. Interior of math 7, looking southeast

Roll # 30, continued

16. Exterior of math # 7
17. Interior of math 7, looking southeast
18. Interior of math 7, looking northeast
19. Interior of math 7, looking northwest
20. Interior of math 7, looking southwest

21. Exterior of math 5
22. Interior of math 5, looking southeast
23. Interior of math 5, looking northeast
24. Interior of math 5, looking northwest

Roll # 31

1. Placard for roll # 31
2. Interior of math 5 looking southwest
3. Exterior of math 4
4. Interior of math 4 looking southeast
5. Interior of math 4 looking northeast

6. Interior of math 4 looking northwest
7. Interior of math 4 looking southwest
8. Exterior of math 3
9. Interior of math 3, looking southeast
10. Interior of math 3, looking southwest

11. Interior of math 3, looking northwest
12. Interior of math 3, looking northeast
13. Exterior of math 2
14. Interior of math 2 looking southeast
15. Interior of math 2, looking southwest

16. Interior of math 2, looking northwest
17. Interior of math 2, looking northeast
18. Exterior of math 1
19. Interior of math 1, looking northeast
20. Interior of math 1, looking northwest

21. Interior of math 1, looking southwest
22. Interior of math 1, looking southeast
23. East math hallway, looking north
24. Bathroom for Faculty, math area

Roll # 32

1. Placard for roll # 32
2. Exterior, LA-13
3. Interior of LA-13, looking southwest
4. Interior of LA-13, looking southeast
5. Interior of LA-13, looking northeast

6. Interior of LA-13, looking northwest
7. Interior of office adjacent to LA-13, looking northeast

Team Four

REMARKS: This is report by team # 4, assigned to the science area that contained the body of David Sanders, at Columbine High School. The team was also assigned the south and central portion of the school. In addition to Lloyd, the reporting team leader, other members and their duties were:

Tony Gallardo, Arapahoe County Sheriff's Department
Sketching
Bruce Davis, Greenwood Village Police
Video, measurements and trajectory
Steve Adams, Arvada Police Department
Photography, bullet trajectory
Steve Stalter, Jefferson County Sheriff's Department
Photo and evidence log, collection of evidence.

On Tuesday, April 20, 1999, team 4 members responded at various times to a staging area set up on Pierce Street, north of Columbine High School, to assist JCSO in the investigation of multiple deaths, shots fired and explosions. Team 4 did not enter on April 20 due to safety concerns with the presence of unexploded devices.

no team [illegible]

On Wednesday morning, April 21, 1999, a planning meeting was held. Team leader Robert Lloyd, along with Chris Andrist, J.C.S.O., Tom Griffin, C.B.I., Sergeant Randy West were appointed as co-crime scene coordinators. The purpose of the group was to establish procedures for documenting the scene and setting up crime scene teams.

After an assessment of the scenes by members of the Jefferson County Sheriff's Department, and J.C.S.O. Coroners office, a preliminary walk through was conducted to establish assignments.

1st prelim. document [illegible]

It was determined, that Agent Tom Griffin and Robert Lloyd would be the first crime scene team to document the scenes involving the bodies. Agent Griffin documented the scenes with 35mm photographs and Lloyd video taped the bodies. A second back up 35mm and video team, consisting of Criminalist Tom Adair, Arapahoe County Sheriff's Department and Chris Loptin, J.C.S.O., also videotaped and photographed the bodies. The documentation commenced at 10 a.m. and was completed at 12 noon.

[illegible] 4/[illegible]

ensure

On April 21, 1999, at approximately 12:30 a.m., Chris Andrist assigned crime scene personnel to various teams. This meeting was conducted to ~~insure~~ a standardized approach to all of the scenes. Each team member then ~~walked~~ the various scenes in the school for an assessment of evidence. was. escorted through

ACTION TAKEN BY TEAM 4 ON APRIL 21, 1999:

Team 4 entered the building at approximately 1:35 p.m. Processing started with deceased teacher David Sanders, who was in the science storage room.

In the science storage room ~~is~~ was the body of a white male listed as # 13, later identified as teacher David Sanders. The body ~~is that of a white male~~ was on the floor positioned on his back. His head ~~is~~ was pointed north towards the hallway door in the room. His feet ~~are~~ were pointed south. The north door ~~leads~~ led to a east/west hallway, at the top of the stairs from the cafeteria. Mr. Sanders ~~is~~ was bare chested. His blue and white dress shirt and T-shirt ~~are~~ were cut and pulled down to the waist. He ~~has~~ had gray slacks and brown shoes.

Under the body ~~is~~ was a flannel shirt and next to the head is a gray sweatshirt. These items appeared out of place with the clothing Sanders was wearing. There were possibly two upper teeth missing. It was noted that there was an absence of blood under the body.

Checking the hallway, just outside the storage room door, were two large pools of blood were noted.
In both pools of blood were suspected bone fragments, ~~suspected~~ believed to be parts of Sanders' teeth. Between the pools of blood and the north storage room wall, the team recovered a single tooth on the floor. bloodstains consistent w/

Near the large pools of blood the team observed three bloody hand impressions in the carpeting. The first one was the right hand, believed to be Sanders, due to the close proximity of the tooth and tooth fragments. This impression had all fingers and thumb impressions in the carpet. A few inches east the team observed a bloody outline of victim's knuckles, with voids where the back of the fingers would have pressed on the carpet. Further, east along the blood tail was a second right hand impression, with fingers and thumb.

The staggered blood trail continued south to science room #1. On the door of science # 1 there is blood on the door handle and several blood drops on the floor below the handle, as someone was standing there; ~~however~~, The trail did not enter the room.

The blood trail continued south past the two doors for science room # 2. The blood trail did not enter science # 2. It continued to science # 3 and entered the room. There ~~is~~ was a large pool of blood in front of the black board.

Type of Report	Technician	Date	JCSO File	Page
Crime scene	Robert Lloyd	May 11, 1999	99-7625	4

Two feet away ~~is~~ was additional blood along with several T-shirts, a fire blanket, and additional clothing on the floor covered with blood. There ~~is~~ was a tooth fragment of the floor. On the floor ~~is~~ was a portion of a blue and white dress shirt, consistent with the shirt found on Instructor Sanders in the science storage room.

1 or 2 ? when

In this room, the ~~table are~~ tables were set up in a barricade position towards the hall door. T~~here are indications,~~ Sanders was pulled from science # 3, through science # 2, behind table barricades and into the science storage room.
The blood trails & blood stains on floor indicate

Processing of the science storage room and victim was completed at 1800 hours. The body was then turned over to the Jefferson County Coroners Office. The team cleared at 1800 hours. This completed the work on April 21, 99.

Team 4 continued to process our assigned area until April 29, 1999. The approximate scene activity dates and time were as follows:

Thursday, April 22nd, 8 a.m. to 6 p.m.

Friday, April 23rd, 8 a.m. to 6:30 p.m.

Monday, April 26th, 8 a.m. to 7 p.m.

On Tuesday, April 20, 1999, Team Four members responded at various times to a * staging area set up on Pierce Street, north of Columbine High School, to assist JCSO in the investigation of multiple deaths, shots fired and explosions. No teams entered on April 20 due to safety concerns with the presence of unexploded devices.

On Wednesday morning, April 21, 1999, a planning meeting was held. Team leader Robert Lloyd, along with Chris Andrist, J.C.S.O, Tom Griffin, C.B.I., Sergeant Randy West were appointed as co-crime scene coordinators. The purpose of the group was to establish procedures for documenting the scene and setting up crime scene teams.

After an assessment of the scenes by members of the Jefferson County Sheriff's Department, and J.C.S.O. Coroners office, a preliminary walk through was conducted to establish assignments. *

Agent Griffin documented the scenes with 35mm photographs and Robert Lloyd video - taped the bodies. Another ~~back up~~ team ~~35mm and video team~~, consisting of Criminalist Tom Adair, Arapahoe County Sheriff's ~~Department~~ Office and Chris Loptin Loptien J.C.S.O., also videotaped and photographed the bodies. The documentation commenced at 10 a.m. and was completed at 12 noon.

On April 21, 1999, at approximately 12:30 ~~a.m.~~ p.m., Chris Andrist assigned crime scene personnel to various teams. This meeting was conducted to ensure a standardized approach to all of the scenes. Each team member was then escorted through the various scenes in the school for an assessment of evidence.

ACTION TAKEN BY TEAM ~~4~~ FOUR ON APRIL 21, 1999:

Team 4 entered the building at approximately 1:35 p.m. Processing started with deceased teacher David Sanders, who was in the science storage room.

In the science storage room was the BAPS body of a white male listed as victim # 13, later identified as teacher David Sanders. The body was on the floor positioned on his back. His head was pointed north towards the hallway door in the room. His feet ~~are~~ were pointed south. The north door ~~leads~~ led to a east/west hallway, at the top of the stairs from the cafeteria. Mr. Sanders was bare chested. His blue and white dress shirt and T-shirt ? were cut and pulled down to the waist. He had gray slacks and brown shoes.

Under the body was a flannel shirt and next to the head ~~is~~ was a gray sweatshirt. These items appeared out of place with the clothing Sanders was wearing. There were possibly two upper teeth missing. It was noted that there was an absence of blood under the body.

Checking the hallway, just outside the storage room door, were two large pools of suspected blood. In both pools of blood were suspected bone fragments, suspected to ? be parts of Sanders teeth. Between the pools of blood and the north storage room wall, the team recovered a single tooth on the floor.

Near the large pools of blood the team observed bloodstains space in the carpeting. The first one was the right hand, believed to be Sanders, due to the close proximity of the tooth and tooth fragments. This ~~impression~~ pattern had all fingers and thumb impressions in the carpet. A few inches east the team observed a bloody outline consistent with the victim's knuckles, with voids where the back of the fingers would have pressed on the carpet. Further, east along the blood tail was a second right hand impression, with fingers and thumb.

?

The staggered blood trail continued south to Science Room #1. On the door of science room # 1 there ~~is~~ was blood on the door handle and several blood drops on the floor below the handle, as if someone ~~was~~ had been standing there. The trail did not enter the room.

SR # ?
or
S #

The blood trail continued south past the two doors for Science Room # 2. The blood trail did not enter science # 2. It continued to Science # 3 and entered the room. There was a large pool of blood in front of the black board.

chalk ?

Two feet away was additional blood along with several T-shirts, a fire blanket, and/or additional clothing on the floor covered with blood. There was a tooth fragment ~~of~~ the floor. On the floor was a portion of a blue and white dress shirt, consistent with the shirt found on I~~nstructo~~r Sanders in the science storage room.
caps

In this room, eight tables were set up in a barricade position towards the hall door. The blood stains on the floor indicate Sanders was pulled from Science # 3, through Science # 2, behind table barricades and into the science storage room.

6:00 p.m.
Processing of the science storage room and victim was completed at ~~1800 ho~~urs. The body was then turned over to the Jefferson County Coroner's Office. The team cleared at ~~1800~~ hours. This completed the work on April 21, 19 99.
6 p.m.

Team Four continued to process our assigned area until April 29, 1999. The approximate scene activity dates and time were as follows:

?

Thursday, April 22nd, 8 a.m. to 6 p.m.

Friday, April 23rd, 8 a.m. to 6:30 p.m.

Monday, April 26th, 8 a.m. to 7 p.m.

EVIDENCE IN CUSTODY OF: Jefferson County Sheriff's Office

REMARKS:

We'll all do as April 20th, etc. so it is consistent (as on your p 8)

common to Team all ? see Barrie's

On 4/20/99 Agent RAY was assigned to assist in processing a crime scene located in Littleton, Colorado at Columbine High School. Agent RAY departed the CBI-Pueblo office for Littleton, Colorado at approximately 4:00pm. Agent RAY arrived at the command center located on Pierce Street by Clement Park and reported to Inspector PETE MANG. The bomb squad was in the process of clearing the school. At approximately 11:30pm, Agent RAY was instructed by Inspector MANG to return to the command center at 8:00am on 4/21/99.

p.m.

On 4/21/99 Agent RAY reported to Inspector MANG at the command center. The bomb squad was still in the process of clearing the school. Agent RAY assisted Agent SCOTT MUNDINE of the CBI Denver Investigation section with recording the owners of the vehicles in the parking lot in Clement Park on Pierce Street side.

ACTION TAKEN:

let's spell out Team Five

At 11:45am, a briefing was held with CHRIS ANDRIST of the Jefferson County Sheriff's Department. The plans for processing the scene and team assignments were made. Agent RAY was assigned to Team 5. Team 5 was assigned the processing of the front foyer, lobby, hallway and rear foyer of the school. The team consisted of KEN VAN CLEAVE - CBI Pueblo, VAUGHN BALLARD - CBI Denver, TOM NETWAL - CBI Denver, BARBARA RAY – CBI Pueblo and JOSE ACEVES, Jefferson County Sheriff's Office. Duties assignments were:

evid #s
1899!!
to 1940+ ?

- KEN VAN CLEAVE, Team leader, sketching the scene and recording measurements
- VAUGHN BALLARD, photography
- TOM NETWAL, measurements
- BARBARA RAY, general notes and photography log
- JOSE ACEVES, collect, seal, label and submit evidence

All evidence was to be submitted to a central receiving area for the Jefferson County Sheriff's Office.

At 2:15pm, Team 5 was taken on a cursory walk-through of the scene. The walk-through was completed at 2:30pm and processing of the assigned area was begun. During the cursory walk-through, several bottles of water and an opened box of military ratios w~~as~~ere noted in the lobby of the building.

N ?

Team 5 was advised that these items had been used by the SWAT team and did not require processing per CHRIS ANDRIST.

Items of potential evidence located on the floor were marked by use of a placard near each item. Overall photographs were taken. Processing began in the front foyer of the building. Overall photographs and close-up photographs were taken. The east entrance to the school had two sets of double doors opening to the outside of the school. Another set of double doors was located connecting the foyer to the lobby of the school. A stain on the floor in front of the north interior door tested negative for the presence of blood. Items of evidence and bullet holes in the doors and ceiling were photographed and sketched. Team 5 assigned the bullet holes numbers. The number designation contained BH (bullet hole), a sequential number and a 5 in parenthesis (indicating Team number). Evidence collected from this area included live rounds, blood and bullet slugs. The bullet hole in the center of the front glass passed through the glass from the outside of the building. The remaining bullet holes were from bullets that had traveled from the west to the east.

projectiles
or
metal fragments

Team 5 proceeded to the lobby area and continued to process the scene by overall photographs, close-up photographs, recording measurements and collection of items of evidence. Two stains tested positive for the presence of blood. These stains were located by evidence placard number 1812 (an area near the artificial plant), evidence placard number 1816 (an area near the hanging trophy case) and evidence placard number 1820 (an area in the doorway marked "Social Studies/English"). One area tested located by evidence placard 1817 tested negative for the presence of blood. The stains located by evidence placard numbers 1812 and 1816 were more of transfer stains, while the stain located by evidence placard number was more concentrated. The stain located by evidence placard number 1816 had an impression similar to the bottom of a shoe in the blood. Evidence collected from this area included live rounds of ammunition and blood. The following overall observations were made:

2 of 3 stains?
3 stains are
described below

1+2?

3?

- BH-4 (5), BH-5 (5) and BH-6 (5) were located on the south interior door to the lobby. None of these penetrated through the door.
- BH-7 (5) was a large hole and did not penetrate though the

support

Did I miss
BH-1
2 ?
3 .

- BH-8 (5) and BH-9 (5) did not penetrate the door.
- BH-10 (5) contained a slug ← shotgun slug
- BH-11 (5) and BH-13 (5) were impact sites
- BH-12 (5) penetrated through to the other side
- BH-13 (5) was in the side glass

both #13 ?

14 ?

- BH-15 (5), BH-16 (5) and BH-17 (5) were in the center support on the interior foyer doors
- BH-18 (5) was in the glass on the interior of the foyer doors
- BH-19 (5), BH-20 (5) and BH-21 (5) were in ceiling tiles near the carpeted hallway

Team 5 proceeded to the carpeted section of the hallway. Overall photographs, close-up photographs, measurements were taken and items of evidence collected. At 6:40pm, LINDA HOLLOWAY of CBI Denver and STEVE JOHNSON of Littleton Police Department joined the team and helped to make measurements. At 7:05, JOAN SCHROER joined the team and helped to make measurements. Bullet holes numbered BH-22 (5) through BH-33 (5) were documented in the first and second sections of carpeted hallway. At 8:15pm, Team 5 suspended processing of the hallway. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy ACEVES.

On 4/22/98, Team 5 met at Columbine High School to continue with processing the hallway. Team members consisted of BARBARA RAY (Team Leader), KEN VAN CLEAVE, VAUGHN BALLARD, TOM NETWAL, JOAN SCHROER and STEVE JOHNSON. JOE CLAYTON – CBI Denver and TOM ACIERNO – Jefferson County Sheriff's Office joined Team 5. Team assignments were as follows:

Would it help in any way to say - same assign - as on p 2 with the exceptions of... ?

- KEN VAN CLEAVE, sketching the scene
- VAUGHN BALLARD, measurements
- TOM NETWAL, measurements
- JOAN SCROER, record measurements
- STEVE JOHNSON, measurements
- BARBARA RAY, general notes and photography log
- JOE CLAYTON - photography
- TOM ACIERNO, collect, seal, label and submit evidence

Evidence placard #1835 and #1847 were documented by photographs with no evidence associated with these numbers. Placard#1847 was a hole in the carpet. No bullet was revealed under the carpeting. Evidence placard#1846 consisted of numerous casings. These were collected as one item of evidence. Several pieces of tape were collected from the doorframe and from behind the doorway between the 2nd and 3rd sections of carpeting. This exhibit was marked as #1887-2. Evidence placard#1889 was a slug collected from BH-35 (5). Evidence placard#1890 was a slug collected from BH-64 (5). Evidence placard#1891 was a slug collected from BH-67 (5).

ck w/ Cork -
cartridge cases ?
spent shot shells ?

shotguns ? metal fragment ?

The rear foyer was divided into six quadrants. Bomb fragments were indicated by markers with red tape and bullet fragments were indicated by markers with blue tape. Bomb fragments from each quadrant were collected in one envelope. Bullet fragments from each quadrant were collected in one envelope. Numbers were assigned to items of evidence that were collected. Three stains in the rear foyer tested negative for the presence of blood. The mat in the rear foyer was rolled up. It was unrolled and found to be clean and free of debris. The bullet holes in the 3rd through 6th carpeted sections of hallway and from the rear foyer were all in a direction from west to east. Numerous bullet holes in the interior foyer rear doors were documented, photographed and measured. The processing was suspended at 4:45pm. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy ACIERNO. A brief meeting with all teams was conducted.

- projectile ?

On 4/23/98, Team 5 met at Columbine High School to continue with processing the hallway. Team members consisted of BARBARA RAY (Team Leader), KEN VAN CLEAVE, VAUGHN BALLARD, TOM NETWAL, JOAN SCHROER, JOE CLAYTON, and TOM ACIERNO. Team assignments were as follows:

- KEN VAN CLEAVE, sketching the scene
- VAUGHN BALLARD, measurements
- TOM NETWAL, measurements
- JOAN SCROER, record measurements
- BARBARA RAY, general notes and photography log
- JOE CLAYTON, photography
- TOM ACIERNO, collect, seal, label and submit evidence

ditto earlier
comment

Processing resumed with the rear foyer of the school.

COPY

explanation for skip from BH-67 (5) to BH-126 (5)

Numerous bullet holes were photographed and measured on the inside of the back doors. Several areas on the overhang in the rear foyer tested negative for the presence of blood. One number [BH-126 (5)] was given to all the fragments embedded in the southeast wall of the foyer. The south wall was photographed in several shots with markers BH-128-1 (5) to BH-128-4 (5). The north wall of the foyer was photographed in several shots with markers BH-129 (5) to BH-129-4 (5). Marker BH-129-1 (5) was not used.

The bullet holes in the ceiling were documented by designating an east and south coordinate to the ceiling tiles as they related to the section of carpet in which it was located. An attempt to recover all bullets from the ceiling tiles, lockers and walls was made. Recovered slugs were numbered and taken into evidence. Processing was suspended at 4:45 and a brief meeting with the other forensic teams was conducted. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy ACIERNO.

? What is it ?

On Monday, April 26, 1999, crime scene processing of Columbine High School continued. Following a briefing from approximately 8:00 am until 8:50 am at the school auditorium, Team 5 continued to process its assigned areas. On this date Team 5 consisted of CBI Agent KEN VAN CLEAVE-acting as team leader, CBI Agent JOE CLAYTON, CBI Agent VAUGHN BALLARD, Detective JOAN SCHROER-Littleton PD, and Deputy DOUGLAS MOORE- Jefferson County SO, who took custody of all evidence collected.

ditto

- KEN VAN CLEAVE, sketching the scene, general notes
- VAUGHN BALLARD, measurements
- JOAN SCROER, record measurements, photography log
- JOE CLAYTON - photography
- DOUGLAS MOORE, collect, seal, label and submit evidence

Processing on this date included collecting evidence from the "Social Studies/English" hallway immediately south of the main hallway; collecting evidence from the custodians' office at the west end of the main hallway; collecting bullets and bullet fragments from the doors in the east and west ends of the main hallway; and collecting bullets from locker 1748 in the main hallway.

At approximately 9:00 am processing of the "Social Studies/English" hallway began. After the overall area was photographed, the area was searched, and four (4) 9mm cartridges were found. Three cartridges were located just south of the doors into the main hallway and the fourth cartridge was found to the south at the intersection with the first east-west hallway. These items were given evidence numbers 1919-1922, and were photographed, measured and collected.

At approximately 10:45 am collection of the bullets and fragments from the doors at the east end of the main hallway began. Members of the Littleton Fire Department under the supervision of Agent VAN CLEAVE used their cutting equipment to help remove the items from the doors. Evidence items 1923-1926 were recovered.

The firefighters and other members of the team then moved to the west end of the main hallway to recover bullets and fragments from the doors. Bullets and fragments were recovered and given evidence numbers 1927 and 1932-1935.

Agent VAN CLEAVE then examined the previously numbered bullet holes in the west wall and doors of the main hallway to determine the direction of travel of the projectiles. The following information was obtained: (BH is bullet hole)

BH133	outside to inside
BH134	outside to inside
BH135	inside to outside
BH136	no conclusion

consistency BH-133(5) ←

At this time it was decided to examine and document the bullet holes on the outside of the west doors into the main hallway. This area had previously been examined by the FBI; however, it was unclear if the bullet holes had been documented. These holes were assigned numbers, photographed, and measured by Team 5. It was also determined that the previously numbered BH132(5) on the inside of the west doors was the impact point for BH178(5) on the outside of the west doors.

During the examination of the doors and west wall additional items of evidence were recovered in the area previously processed by the FBI. These included numerous pieces of

← You folks are subtle!?!

bomb debris and fragments from immediately outside the west doors, evidence item 1928, and three bullets from the area immediately west of the doors, evidence items 1929-1931. projectiles ? fragments ?

Additional bullet holes were examined by Agent VAN CLEAVE to attempt to determine direction of travel. The following was found:

BH-146(5)	BH145	no conclusion
	BH146	no conclusion
	BH147	outside to inside
	BH148	outside to inside

At approximately 2:45 pm processing of the custodians' office at the west end of the main hallway began. Examination revealed two bullets had been fired at the east wall of the room. The room was photographed and measured. Searching disclosed a fragment of bullet jacket on the floor near the desk. This item was given evidence number 1936, was measured and was collected. A bullet hole was found in the freezer door of the refrigerator on the east wall and was photographed and measured. Fragments of this bullet were recovered from inside the freezer and given evidence number 1937. A second bullet was removed from the east wall of the room. This bullet had passed through a table leg and was found behind the wallboard. After photographing and measuring this area, the bullet was removed from behind the wallboard and given evidence number 1938.

Agent VAN CLEAVE and the other members of Team 5 the responded to the main hallway to recover two (2) bullets from locker 1748. This locker had been examined and opened by bomb technicians to allow recovery of the evidence. One bullet was given evidence number 1939 and was the bullet which made the previously examined bullet hole BH48. The other bullet was given evidence number 1940 and was the bullet which made bullet hole BH49. BH-49(5)

consistent w/ ? opinion or fact ?

Team 5 then discussed what processing they had done since beginning on Wednesday, April 21, 1999. It was concluded that no additional processing would be done in our assigned area and we secured at approximately 4:00 pm. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy MOORE.

Recorded measurements, crime scene sketches, photograph logs and evidence logs contain more details pertaining to the location and listing of all of the evidence.

Evidence was collected and released to Jefferson County Sheriff's Department.

Evidence collected summary for Team - # cartridge cases, spent shot shells, minimum # of projectiles or projectile fragments, # of holes &/or # of shots determined or examined -

Items of potential evidence located on the floor were marked by use of a placard near each item. Overall photographs were taken. Processing began in the front foyer of the building. Overall photographs and close-up photographs were taken. The east entrance to the school had two sets of double doors opening to the outside of the school. Another set of double doors was located connecting the foyer to the lobby of the school. A stain on the floor in front of the north interior door tested negative for the presence of blood. Items of evidence and bullet holes in the doors and ceiling were photographed and sketched. Team Five assigned the bullet holes numbers. The number designation contained BH (bullet hole), a sequential number and a 5 in parenthesis (indicating Team number). Evidence collected from this area included live rounds, blood and projectiles. The bullet hole in the center of the front glass passed through the glass from the outside of the building. The remaining bullet holes were from bullets that had traveled from the west to the east.

Team Five proceeded to the lobby area and continued to process the scene by overall photographs, close-ups photographs, recording measurements and collection of items of evidence. Three stains tested positive for the presence of blood. These stains were located by evidence placard number 1812 (an area near the artificial plant), evidence placard number 1816 (an area near the hanging trophy case) and evidence placard number 1820 (an area in the doorway marked "Social Studies/English"). One area ~~tested~~ located by evidence ← ☆ placard 1817 tested negative for the presence of blood. The stains located by evidence placard numbers 1812 and 1816 were more of transfer stains, while the stain located by evidence placard number 1820 was more concentrated. The stain located by evidence placard number 1816 had an impression similar to the bottom of a shoe in the blood. Evidence collected from this area included live rounds of ammunition and blood. The following overall observations were made:

- BH-4 (5), BH-5 (5) and BH-6 (5) were located on the south interior door to the lobby. None of these penetrated through the door.
- BH-7 (5) was a large hole and did not penetrate though the support
- BH-8 (5) and BH-9 (5) did not penetrate the door.
- BH-10 (5) contained a projectiles ? ← ☆

Type of Report: Crime Scene	Agents: Barbara Ray	Date: 10/12/99	File Number: P99-453 D99-1333	Page: 4

COPY

As a reader of report; I ask myself what about BH-1
BH-2
BH-3
BH-14
BH-34
BH-36 through BH-63
BH-65
-66
BH-127
BH-130 & BH-131
etc. There are gaps in numbers (BH) reported.

- BH-11 (5) and BH-13 (5) were impact sites
- BH-12 (5) penetrated through to the other side of what (?)
- BH-15 (5), BH-16 (5) and BH-17 (5) were in the center support on the interior foyer doors
- BH-18 (5) was in the glass on the interior of the foyer doors
- BH-19 (5), BH-20 (5) and BH-21 (5) were in ceiling tiles near the carpeted hallway

Team Five proceeded to the carpeted section of the hallway. Overall photographs, close-up photographs, and measurements were taken and items of evidence collected. At 6:40 p.m., LINDA HOLLOWAY of CBI Denver and STEVE JOHNSON of Littleton Police Department joined the team and helped to make (take?) measurements. At 7:05 p.m., JOAN SCHROER joined the team and helped to make measurements. Bullet holes numbered BH-22 (5) through BH-33 (5) were documented in the first and second sections of carpeted hallway. At 8:15 p.m., Team Five suspended processing of the hallway. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy ACEVES.

On April 22, 1999, Team Five met at Columbine High School to continue with processing the hallway. Team members consisted of BARBARA RAY (Team Leader), KEN VAN CLEAVE, VAUGHN BALLARD, TOM NETWAL, JOAN SCHROER and STEVE JOHNSON. JOE CLAYTON – CBI Denver and TOM ACIERNO – Jefferson County Sheriff's Office joined Team Five. Team assignments were as follows:

- KEN VAN CLEAVE, sketching the scene
- VAUGHN BALLARD, measurements
- TOM NETWAL, measurements
- JOAN SCROER, record measurements
- STEVE JOHNSON, measurements
- BARBARA RAY, general notes and photography log
- JOE CLAYTON - photography
- TOM ACIERNO, collect, seal, label and submit evidence

Evidence placards #1835 and #1847 were documented by photographs with no evidence associated with these numbers. Placard #1847 was a hole in the carpet. No bullet was revealed under the carpeting. Evidence placard #1846 consisted of numerous cartridge cases. These were collected as one item of evidence. Several pieces of tape were collected from the near access door of theater/auditorium (?)

2 words ?

doorframe and from behind the doorway between the 2nd and 3rd sections of carpeting. This exhibit was marked as #1887-2. Evidence placard#1889 was a projectiles collected from BH-35 (5). Evidence placard#1890 was a projectiles collected from BH-64 (5). Evidence placard#1891 was a projectiles collected from BH-67 (5).

[illegible] [illegible] sections [illegible] [illegible] to [illegible] ?

space before #

singular or plural ?

sections (? By definition a quadrant is 1 of 4 parts.)

The rear foyer was divided into six ~~quadrants~~. Bomb fragments were indicated by markers with red tape and bullet fragments were indicated by markers with blue tape. Bomb fragments from each ~~quadrant~~ section? were collected in one envelope. Bullet fragments from each ~~quadrant~~ section? were collected in one envelope. Numbers were assigned to items of evidence that were collected. Three stains in the rear foyer tested negative for the presence of blood. The mat in the rear foyer was rolled up. It was unrolled and found to be clean and free of debris. The bullet holes in the 3rd through 6th carpeted sections of hallway and from the rear foyer were all in a direction from west to east. Numerous bullet holes in the interior foyer rear doors were documented, photographed and measured. The processing was suspended at 4:45 p.m.. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy ACIERNO. A brief meeting with all teams was conducted.

for all projectile holes
or [illegible] those which [illegible] [illegible] determined ?

On April 23, 1999, Team Five met at Columbine High School to continue with processing the hallway. Team members consisted of BARBARA RAY (Team Leader), KEN VAN CLEAVE, VAUGHN BALLARD, TOM NETWAL, JOAN SCHROER, JOE CLAYTON, and TOM ACIERNO. Team assignments were as follows:

- KEN VAN CLEAVE, sketching the scene
- VAUGHN BALLARD, measurements
- TOM NETWAL, measurements
- JOAN SCROER, record measurements
- BARBARA RAY, general notes and photography log
- JOE CLAYTON, photography
- TOM ACIERNO, collect, seal, label and submit evidence

Processing resumed with the rear foyer of the school. Numerous bullet holes were photographed and measured on the inside of the back doors. These holes were ~~photographed and~~ assigned numbers BH-67 (5) through BH-125 (5). Several areas on the overhang in the rear foyer tested negative for the presence of blood. One number [BH-126 (5)] was

given to all the fragments embedded in the southeast wall of the foyer. The south wall was photographed in several ~~shots~~ with markers BH-128-1 (5) to BH-128-4 (5). The north wall of the foyer was photographed in several ~~shots~~ with markers BH-129 (5) to BH-129-4 (5). Marker BH-129-1 (5) was not used.

sections? frames? [illegible]?

word other than "shot"

The bullet holes in the ceiling were documented by designating an east and south coordinate, to the ceiling tiles, as they related to the section of carpet over ~~in~~? which the holes in the tiles were located. An attempt to recover all bullets from the ceiling tiles, lockers and walls was made. Recovered projectiles were numbered and taken into evidence. Processing was suspended at 4:45 p.m. and a brief meeting with the other forensic teams was conducted. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy ACIERNO.

similar designation as hallway?

TBN - hallways were previously mentioned or not?

Attempts were made to recover all bullets from the ceiling tiles, lockers & walls.
[Any better sentence?]

On Monday, April 26, 1999, crime scene processing of Columbine High School continued. Following a briefing from approximately 8:00 a.m. until 8:50 a.m. at the school auditorium, Team Five continued to process its assigned areas. On this date Team Five consisted of CBI Agent KEN VAN CLEAVE-acting as team leader, CBI Agent JOE CLAYTON, CBI Agent VAUGHN BALLARD, Detective JOAN SCHROER-Littleton PD, and Deputy DOUGLAS MOORE-Jefferson County SO, who took custody of all evidence collected.

- KEN VAN CLEAVE, sketching the scene, general notes
- VAUGHN BALLARD, measurements
- JOAN SCROER, record measurements, photography log
- JOE CLAYTON - photography
- DOUGLAS MOORE, collect, seal, label and submit evidence

Processing on this date included collecting evidence from the "Social Studies/English" hallway immediately south of the main hallway; collecting evidence from the custodians' office at the west end of the main hallway; collecting bullets and bullet fragments from the doors in the east and west ends of the main hallway; and collecting bullets from locker 1748 in the main hallway.

At approximately 9:00 a.m. processing of the "Social Studies/English" hallway began. After the overall area was photographed, the area was searched, and four (4) 9mm

COPY

Type of Report: Crime Scene	Agents: Barbara Ray	Date: 10/12/9 9	File Number: P99-453 D99-1333	Page: 7

cartridges were found. Three cartridges were located just south of the doors into the main hallway and the fourth cartridge was found to the south at the intersection with the first east-west hallway. These items were given evidence numbers 1919-1922, and were photographed, measured and collected.

At approximately 10:45 a.m. collection of the bullets and fragments from the doors at the east end of the main hallway began. Members of the Littleton Fire Department under the supervision of Agent VAN CLEAVE used their cutting equipment to help remove the items from the doors. Evidence items 1923-1926 were recovered.

The firefighters and other members of the team then moved to the west end of the main hallway to recover bullets and fragments from the doors. Bullets and fragments were recovered and given evidence numbers 1927 and 1932-1935.

Agent VAN CLEAVE then examined the previously numbered bullet holes in the west wall and doors of the main hallway to determine the direction of travel of the projectiles. The following information was obtained: (BH is bullet hole)

add hyphen BH-133 etc.

BH133 (5)	outside to inside
BH134 (5)	outside to inside
BH135 (5)	inside to outside
BH136 (5)	no conclusion

At this time it was decided to examine and document the bullet holes on the outside of the west doors into the main hallway. This area had previously been examined by the FBI; however, it was unclear if the bullet holes had been documented. These holes were assigned numbers, photographed, and measured by Team Five. It was also determined that the previously numbered BH132 on the inside of the west doors was the impact point for BH178 on the outside of the west doors.

semi-colon

BH-132 (5) ?
BH-178 (5) ·

During the examination of the doors and west wall additional items of evidence were recovered in the area previously processed by the FBI. These included numerous pieces of bomb debris and fragments from immediately outside the west doors, evidence item 1928, and three bullets from the area immediately west of the doors, evidence items 1929-1931.

use of bullets or would "projectiles" be safer ?

Additional bullet holes were examined by Agent VAN CLEAVE to attempt to determine direction of travel. The following was found:

BH-145

BH145 (5)	no conclusion
BH146 (5)	no conclusion
BH147 (5)	outside to inside
BH148 (5)	outside to inside

add hyphen for consistency

At approximately 2:45 p.m. processing of the custodians' office at the west end of the main hallway began. Examination revealed two bullets had been fired at the east wall of the room. The room was photographed and measured. Searching disclosed a fragment of bullet jacket on the floor near the desk. This item was given evidence number 1936, was measured and was collected. A bullet hole was found in the freezer door of the refrigerator on the east wall and was photographed and measured. Fragments of this bullet were recovered from inside the freezer and given evidence number 1937. A second bullet was removed from the east wall of the room. This bullet had passed through a table leg and was found behind the wallboard. After photographing and measuring this area, the bullet was removed from behind the wallboard and given evidence number 1938.

Agent VAN CLEAVE and the other members of Team Five -then ? the responded to the main hallway to recover two (2) bullets from locker 1748. This locker had been examined and opened by bomb technicians to allow recovery of the evidence. One bullet was given evidence number 1939 and was consistent with originating from the bullet which made the previously examined bullet hole BH48. The other bullet was given evidence number 1940 and BH48 (5) ? was the bullet which made bullet hole BH49 (5).

BH-49 (5)

Team Five then discussed what processing they had done since beginning on Wednesday, April 21, 1999. It was concluded that no additional processing would be done in our assigned area and we secured ? at approximately 4:00 p.m. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy MOORE.

departed ?
left scene secured ?

Recorded measurements, crime scene sketches, photograph logs and evidence logs contain more details pertaining to the location and listing of all of the evidence.

Summary of evidence:

- thirty cartridge cases
- three shotgun shells

Type of Report:	Agents:	Date:	File Number:	Page:
Crime Scene	Barbara Ray	10/12/99	P99-453 D99-1333	9

- two shotgun waddings wads?
- twenty-four bullets
- forty projectile fragments plus numerous fragments recovered from the rear entry way
- fourteen live cartridge cases
- one pipe end cap
- one hundred forty-eight exit/entry holes resulting from projectiles

Evidence was collected and released to Jefferson County Sheriff's ~~Department~~ Off.

CRIME SCENE REPORT FOR TEAM FIVE

REQUESTING AGENCY:	Jefferson County Sheriff's Office 200 Jefferson County Parkway Golden, CO 80401 303-271-5600
REQUESTING OFFICER:	Lab Supervisor Chris Andrist
INVESTIGATING OFFICER:	Lab Supervisor Chris Andrist
DATE OF REQUEST:	April 20, 1999
DATE OF OFFENSE:	April 20, 1999
AGENCY CASE NUMBER:	99-7625
LOCATION OF SCENE:	Columbine High School 6201 South Pierce Street Jefferson County, CO 80165
VICTIM:	
SUSPECTS:	Dylan Klebold (DOB: 091181) Eric Harris (DOB: 040981)
WEATHER CONDITIONS:	Varied
EVIDENCE SEIZED BY:	Investigator Jose Aceves, Investigator Tom Acierno, Deputy Doug Moore
EVIDENCE IN CUSTODY OF:	Jefferson County Sheriff's Office

REMARKS: On April 20, 1999, crime scene personnel from various law enforcement agencies were assigned to assist with the processing of a crime scene at Columbine High School, located in Jefferson County, Colorado.

Upon arrival at the Command Post located on Pierce Street by Clement Park, crime scene personnel were informed that the bomb squads of various agencies were in the process of clearing the school and the parking lot of explosive devices. At approximately 11:30 p.m., all crime scene personnel were instructed that processing of the scene would not start until the bomb squads had completed their activities; therefore, all crime scene personnel would report back to the command post on Wednesday, April 21, 1999 at 8:00 a.m.

ACTION TAKEN: At 11:45 a.m. on April 21, 1999, a briefing was held with Chris Andrist of the Jefferson County Sheriff's Office. The plans for processing the scene and team assignments were made. Team Five was assigned the processing of the front foyer, lobby, hallway, and rear foyer of the school. The team consisted of Ken Van Cleave - CBI Pueblo, Vaughn Ballard - CBI Denver, Tom Netwal - CBI Denver, Barbara Ray – CBI Pueblo and Jose Aceves, Jefferson County Sheriff's Office. Duties assignments were:

- Ken Van Cleave, Team leader, sketching the scene and recording measurements
- Vaughn Ballard, photography
- Tom Netwal, measurements
- Barbara Ray, general notes and photography log
- Jose Aceves, collect, seal, label and submit evidence

All evidence was to be submitted to a central receiving area for the Jefferson County Sheriff's Office.

At 2:15 p.m., Team Five was taken on a cursory walk-through of the scene. Processing of the assigned area began at 2:30 p.m. During the cursory walk-through, several bottles of water and an opened box of military rations were noted in the lobby of the building. Team Five was advised that these items had been used by the SWAT team and did not require processing per Chris Andrist.

Items of potential evidence located on the floor were marked by use of a placard near each item. Processing began in the front foyer of the building. Overall photographs and close-up photographs were taken. The east entrance to the school had two sets of double doors opening to the outside of the school. Another set of double doors was located connecting the foyer to the lobby of the school. A stain on the floor in front of the north interior door tested negative for the presence of blood. Items of evidence and bullet holes in the doors and ceiling were photographed and sketched. Team Five assigned the bullet holes numbers. The number designation contained BH (bullet hole), a sequential number and a 5 in parenthesis (indicating team number). Evidence collected from this area included live rounds, blood and projectiles. The bullet hole in the center of the front glass passed through the glass from the outside of the building. The remaining bullet holes were from bullets that had traveled from the west to the east.

Team Five proceeded to the lobby area and continued to process the scene by taking overall and close-up photographs, recording measurements and collecting items of evidence. Three stains tested positive for the presence of blood. These stains were located by evidence placard number 1812 (an area near the artificial plant), evidence placard number 1816 (an area near the hanging trophy case) and evidence placard number 1820 (an area in the doorway marked "Social Studies/English"). One area located by evidence placard 1817 tested negative for the presence of blood. The stains located by evidence placard numbers 1812 and 1816 were transfer stains, while the stain located by evidence placard number 1820 was more concentrated. The stain located by evidence placard number 1816 had an impression in the bloodstain similar to the bottom of a shoe. Evidence collected from this area included live rounds of ammunition and blood. The following overall observations were made:

- BH-4 (5), BH-5 (5) and BH-6 (5) were located on the south interior door to the lobby. None of these penetrated through the door.
- BH-7 (5) was a large hole and did not penetrate though the support
- BH-8 (5) and BH-9 (5) did not penetrate the door.
- BH-10 (5) contained a projectile
- BH-11 (5) and BH-13 (5) were impact sites

- BH-12 (5) penetrated the west side of the door panel
- BH-15 (5), BH-16 (5) and BH-17 (5) were in the center support on the interior foyer doors
- BH-18 (5) was in the glass on the interior of the foyer doors
- BH-19 (5), BH-20 (5) and BH-21 (5) were in ceiling tiles near the carpeted hallway

In addition, bullet or projectile holes not specifically noted in this report were documented through photography and sketching.

Team Five proceeded to the carpeted section of the hallway. Overall photographs, close-up photographs, measurements were taken and items of evidence were collected. At 6:40 p.m., Linda Holloway of CBI Denver and Steve Johnson of the Littleton Police Department joined the team and helped to make measurements. At 7:05 p.m., Joan Schroer joined the team and helped to make measurements. The hallway west of the foyer entrance was carpeted. This hall was divided into six sections, starting with section one at the east end where the carpet began. Subsequent sections began at each arch or doorway as one proceeded west. Bullet holes numbered BH-22 (5) through BH-33 (5) were documented in the first and second sections of carpeted hallway. At 8:15 p.m., Team Five suspended processing of the hallway. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy Aceves.

On April 22, 1999, Team Five met at Columbine High School to continue with processing the hallway. Team members consisted of Barbara Ray (team leader), Ken Van Cleave, Vaughn Ballard, Tom Netwal, Joan Schroer and Steve Johnson. Joe Clayton – CBI Denver and Tom Acierno – Jefferson County Sheriff's Office joined Team Five. Team assignments were as follows:

- Ken Van Cleave, sketching the scene
- Vaughn Ballard, measurements
- Tom Netwal, measurements
- Joan Schroer, record measurements
- Steve Johnson, measurements
- Barbara Ray, general notes and photography log
- Joe Clayton - photography
- Tom Acierno, collect, seal, label and submit

evidence

Evidence placards #1835 and #1847 were documented by photography with no evidence associated with these numbers. Placard #1847 was a hole in the carpet. No bullet was revealed under the carpeting. Evidence placard #1846 consisted of nineteen cartridge cases near the access door to the mechanical area on the north side of the theater. These were collected as one item of evidence. Several pieces of tape were collected from the doorframe and from behind the doorway between the second and third sections of carpeting. This exhibit was marked as #1887-2. Evidence placard #1889 was a projectile collected from BH-35 (5). Evidence placard #1890 was a projectile collected from BH-64 (5). Evidence placard #1891 was a projectile collected from BH-67 (5). When a direction of travel could be determined, the bullet holes in the third through sixth carpeted sections of hallway and from the rear foyer were all in a direction from west to east.

The rear foyer was divided into six areas. Bomb fragments were indicated by markers with red tape and bullet fragments were indicated by markers with blue tape. Bomb fragments from each area were collected in one envelope. Bullet fragments from each area were collected in one envelope. Numbers were assigned to items of evidence that were collected. Three stains in the rear foyer tested negative for the presence of blood. The mat in the rear foyer was rolled up. It was unrolled and found to be clean and free of debris. Numerous bullet holes in the interior foyer rear doors were documented, photographed and measured. The processing was suspended at 4:45 p.m. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy Acierno. A brief meeting with all teams was conducted.

On April 23, 1999, Team Five met at Columbine High School to continue with processing the hallway. Team members consisted of Barbara Ray (team leader), Ken Van Cleave, Vaughn Ballard, Tom Netwal, Joan Schroer, Joe Clayton, and Tom Acierno. Team assignments were as follows:

- Ken Van Cleave, sketching the scene
- Vaughn Ballard, measurements
- Tom Netwal, measurements

- Joan Schroer, record measurements
- Barbara Ray, general notes and photography log
- Joe Clayton, photography
- Tom Acierno, collect, seal, label and submit evidence

Processing resumed with the rear foyer of the school. Numerous bullet holes were photographed and measured on the inside of the back doors. These holes were assigned numbers BH-67 (5) through BH-125 (5). Several areas on the overhang in the rear foyer tested negative for the presence of blood. One number [BH-126 (5)] was given to all the fragments embedded in the southeast wall of the foyer. The south wall was photographed in several portions with markers BH-128-1 (5) to BH-128-4 (5). The north wall of the foyer was photographed in several portions with markers BH-129 (5) to BH-129-4 (5). Marker BH-129-1 (5) was not used.

The bullet holes in the ceiling were documented by designating an east and south coordinate to the ceiling tiles as they related to the section of carpet over which the holes in the tiles were located. Attempts were made to recover all bullets from the ceiling tiles, lockers and walls. Recovered projectiles were numbered and taken into evidence. Processing was suspended at 4:45 p.m. and a brief meeting with the other forensic teams was conducted. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy Acierno.

On Monday, April 26, 1999, crime scene processing of Columbine High School continued. Following a briefing from approximately 8:00 a.m. until 8:50 a.m. at the school auditorium, Team Five continued to process its assigned areas. On this date Team Five consisted of CBI Agent Ken Van Cleave-acting as team leader, CBI Agent Joe Clayton, CBI Agent Vaughn Ballard, Detective Joan Schroer-Littleton PD, and Deputy Douglas Moore- Jefferson County SO, who took custody of all evidence collected.

- Ken Van Cleave, sketching the scene, general notes
- Vaughn Ballard, measurements
- Joan Schroer, record measurements, photography log
- Joe Clayton - photography

- Douglas Moore, collect, seal, label and submit evidence

Processing on this date included collecting evidence from the "Social Studies/English" hallway immediately south of the main hallway; collecting evidence from the custodians' office at the west end of the main hallway; collecting bullets and bullet fragments from the doors in the east and west ends of the main hallway; and collecting bullets from locker 1748 in the main hallway.

At approximately 9:00 a.m. processing of the "Social Studies/English" hallway began. After the overall area was photographed, the area was searched, and four (4) 9mm cartridges were found. Three cartridges were located just south of the doors into the main hallway and the fourth cartridge was found to the south at the intersection with the first east-west hallway. These items were given evidence numbers 1919-1922, and were photographed, measured and collected.

At approximately 10:45 a.m. collection of the bullets and fragments from the doors at the east end of the main hallway began. Members of the Littleton Fire Department under the supervision of Agent Van Cleave used their cutting equipment to help remove the items from the doors. Evidence items 1923-1926 were recovered.

The firefighters and other members of the team then moved to the west end of the main hallway to recover bullets and fragments from the doors. Bullets and fragments were recovered and given evidence numbers 1927 and 1932-1935.

Agent Van Cleave then examined the previously numbered bullet holes in the west wall and doors of the main hallway to determine the direction of travel of the projectiles. The following information was obtained:

BH-133 (5)	outside to inside
BH-134 (5)	outside to inside
BH-135 (5)	inside to outside
BH-136 (5)	no conclusion

At this time it was decided to examine and document the bullet holes on the outside of the west doors into the main hallway. This area had been examined previously by the FBI; however, it was unclear if the bullet holes had been documented. These holes were assigned numbers, photographed, and measured by Team Five. It was also determined that the previously numbered BH-132 (5) on the inside of the west doors was the impact point for BH-178 (5) on the outside of the west doors.

During the examination of the doors and west wall additional items of evidence were recovered in the area previously processed by the FBI. These included numerous pieces of bomb debris and fragments from immediately outside the west doors, evidence item 1928, and three metal pieces from the area immediately west of the doors, evidence items 1929-1931.

Additional bullet holes were examined by Agent Van Cleave to attempt to determine direction of travel. The following information was obtained:

BH-145 (5)	no conclusion
BH-146 (5)	no conclusion
BH-147 (5)	outside to inside
BH-148 (5)	outside to inside

At approximately 2:45 p.m. processing of the custodians' office at the west end of the main hallway began. Examination revealed two bullets had been fired at the east wall of the room. The room was photographed and measured. Searching disclosed a fragment of bullet jacket on the floor near the desk. This item was given evidence number 1936, measured and collected. A bullet hole was found in the freezer door of the refrigerator on the east wall and was photographed and measured. Fragments of this bullet were recovered from inside the freezer and given evidence number 1937. A second bullet was removed from the east wall of the room. This bullet had passed through a table leg and was found behind the wallboard. After photographing and measuring this area, the bullet was removed from behind the wallboard and given evidence number 1938.

Agent Van Cleave and the other members of Team Five then responded to the main hallway to recover two (2) bullets from locker 1748. This locker had been examined and opened by bomb technicians to allow recovery of the evidence. One bullet was given evidence number 1939 and was consistent with originating from the bullet which made the previously examined bullet hole BH-48 (5). The other bullet was given evidence number 1940 and was the bullet which made bullet hole BH-49 (5).

Team Five then discussed what processing they had done since beginning on Wednesday, April 21, 1999. It was concluded that no additional processing would be done in our assigned area and members of the team departed at approximately 4:00 p.m. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy Moore.

Recorded measurements, crime scene sketches, photograph logs and evidence logs contain more details pertaining to the location and listing of all of the evidence.

Summary of evidence:
- thirty cartridge cases
- three shotgun shells
- two shotgun wads
- twenty-four bullets
- forty projectile fragments plus numerous fragments recovered from the rear entry way
- fourteen live rounds
- one pipe end cap
- one hundred forty-eight exit/entry holes resulting from projectiles

Evidence was collected and released to Jefferson County Sheriff's Office.

REMARKS:

On 4/20/99 Agent RAY was assigned to assist in processing a crime scene located in Littleton, Colorado at Columbine High School. Agent RAY departed the CBI-Pueblo office for Littleton, Colorado at approximately 4:00pm. Agent RAY arrived at the command center located on Pierce Street by Clement Park and reported to Inspector PETE MANG. The bomb squad was in the process of clearing the school. At approximately 11:30pm, Agent RAY was instructed by Inspector MANG to return to the command center at 8:00am on 4/21/99.

On 4/21/99 Agent RAY reported to Inspector MANG at the command center. The bomb squad was still in the process of clearing the school. Agent RAY assisted Agent SCOTT MUNDINE of the CBI Denver Investigation section with recording the owners of the vehicles in the parking lot in Clement Park on Pierce Street side.

ACTION TAKEN:

At 11:45am, a briefing was held with CHRIS ANDRIST of the Jefferson County Sheriff's Department. The plans for processing the scene and team assignments were made. Agent RAY was assigned to Team 5. Team 5 was assigned the processing of the front foyer, lobby, hallway and rear foyer of the school. The team consisted of KEN VAN CLEAVE - CBI Pueblo, VAUGHN BALLARD - CBI Denver, TOM NETWAL - CBI Denver, BARBARA RAY – CBI Pueblo and JOSE ACEVES, Jefferson County Sheriff's Office. Duties assignments were:

- ♦ KEN VAN CLEAVE, Team leader, sketching the scene and recording measurements
- ♦ VAUGHN BALLARD, photography
- ♦ TOM NETWAL, measurements
- ♦ BARBARA RAY, general notes and photography log
- ♦ JOSE ACEVES, collect, seal, label and submit evidence

All evidence was to be submitted to a central receiving area for the Jefferson County Sheriff's Office.

At 2:15pm, Team 5 was taken on a cursory walk-through of the scene. The walk-through was completed at 2:30pm and processing of the assigned area was begun. During the cursory walk-through, several bottles of water and an opened box of military ratios was noted in the lobby of the building. Team 5 was advised that these items had been used by the SWAT team and did not require processing per CHRIS

ANDRIST.

COPY

Items of potential evidence located on the floor were marked by use of a placard near each item. Overall photographs were taken. Processing began in the front foyer of the building. Overall photographs and close-up photographs were taken. The east entrance to the school had two sets of double doors opening to the outside of the school. Another set of double doors was located connecting the foyer to the lobby of the school. A stain on the floor in front of the north interior door tested negative for the presence of blood. Items of evidence and bullet holes in the doors and ceiling were photographed and sketched. Team 5 assigned the bullet holes numbers. The number designation contained BH (bullet hole), a sequential number and a 5 in parenthesis (indicating Team number). Evidence collected from this area included live rounds, blood and bullet slugs. The bullet hole in the center of the front glass passed through the glass from the outside of the building. The remaining bullet holes were from bullets that had traveled from the west to the east.

Team 5 proceeded to the lobby area and continued to process the scene by overall photographs, close-ups photographs, recording measurements and collection of items of evidence. Two stains tested positive for the presence of blood. These stains were located by evidence placard number 1812 (an area near the artificial plant), evidence placard number 1816 (an area near the hanging trophy case) and evidence placard number 1820 (an area in the doorway marked "Social Studies/English"). One area tested located by evidence placard 1817 tested negative for the presence of blood. The stains located by evidence placard numbers 1812 and 1816 were more of transfer stains, while the stain located by evidence placard number was more concentrated. The stain located by evidence placard number 1816 had an impression similar to the bottom of a shoe in the blood. Evidence collected from this area included live rounds of ammunition and blood. The following overall observations were made:

- BH-4 (5), BH-5 (5) and BH-6 (5) were located on the south interior door to the lobby. None of these penetrated through the door.
- BH-7 (5) was a large hole and did not penetrate though the support
- BH-8 (5) and BH-9 (5) did not penetrate the door.

P99-0453

COPY

- BH-10 (5) contained a slug
- BH-11 (5) and BH-13 (5) were impact sites
- BH-12 (5) penetrated through to the other side
- BH-13 (5) was in the side glass
- BH-15 (5), BH-16 (5) and BH-17 (5) were in the center support on the interior foyer doors
- BH-18 (5) was in the glass on the interior of the foyer doors
- BH-19 (5), BH-20 (5) and BH-21 (5) were in ceiling tiles near the carpeted hallway

Team 5 proceeded to the carpeted section of the hallway. Overall photographs, close-ups photographs, measurements were taken and items of evidence collected. At 6:40pm, LINDA HOLLOWAY of CBI Denver and STEVE JOHNSON of Littleton Police Department joined the team and helped to make measurements. At 7:05, JOAN SCHROER joined the team and helped to make measurements. Bullet holes numbered BH-22 (5) through BH-33 (5) were documented in the first and second sections of carpeted hallway. At 8:15pm, Team 5 suspended processing of the hallway. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy ACEVES.

On 4/22/98, Team 5 met at Columbine High School to continue with processing the hallway. Team members consisted of BARBARA RAY (Team Leader), KEN VAN CLEAVE, VAUGHN BALLARD, TOM NETWAL, JOAN SCHROER and STEVE JOHNSON. JOE CLAYTON – CBI Denver and TOM ACIERNO – Jefferson County Sheriff's Office joined Team 5. Team assignments were as follows:

- KEN VAN CLEAVE, sketching the scene
- VAUGHN BALLARD, measurements
- TOM NETWAL, measurements
- JOAN SCROER, record measurements
- STEVE JOHNSON, measurements
- BARBARA RAY, general notes and photography log
- JOE CLAYTON - photography
- TOM ACIERNO, collect, seal, label and submit evidence

Evidence placard #1835 and #1847 were documented by photographs with no evidence associated with these numbers. Placard#1847 was a hole in the carpet. No bullet was revealed

COPY

was revealed under the carpeting. Evidence placard#1846 consisted of numerous casings. These were collected as one item of evidence. Several pieces of tape were collected from the doorframe and from behind the doorway between the 2nd and 3rd sections of carpeting. This exhibit was marked as #1887-2. Evidence placard#1889 was a slug collected from BH-35 (5). Evidence placard#1890 was a slug collected from BH-64 (5). Evidence placard#1891 was a slug collected from BH-67 (5).

The rear foyer was divided into six quadrants. Bomb fragments were indicated by markers with red tape and bullet fragments were indicated by markers with blue tape. Bomb fragments from each quadrant were collected in one envelope. Bullet fragments from each quadrant were collected in one envelope. Numbers were assigned to items of evidence that were collected. Three stains in the rear foyer tested negative for the presence of blood. The mat in the rear foyer was rolled up. It was unrolled and found to be clean and free of debris. The bullet holes in the 3rd through 6th carpeted sections of hallway and from the rear foyer were all in a direction from west to east. Numerous bullet holes in the interior foyer rear doors were documented, photographed and measured. The processing was suspended at 4:45pm. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy ACIERNO. A brief meeting with all teams was conducted.

On 4/23/98, Team 5 met at Columbine High School to continue with processing the hallway. Team members consisted of BARBARA RAY (Team Leader), KEN VAN CLEAVE, VAUGHN BALLARD, TOM NETWAL, JOAN SCHROER, JOE CLAYTON, and TOM ACIERNO. Team assignments were as follows:

- KEN VAN CLEAVE, sketching the scene
- VAUGHN BALLARD, measurements
- TOM NETWAL, measurements
- JOAN SCROER, record measurements
- BARBARA RAY, general notes and photography log
- JOE CLAYTON, photography
- TOM ACIERNO, collect, seal, label and submit evidence

Processing resumed with the rear foyer of the school. Numerous bullet holes were photographed and measured on

P99-6453

COPY

the rear foyer tested negative for the presence of blood. One number [BH-126 (5)] was given to all the fragments embedded in the southeast wall of the foyer. The south wall was photographed in several shots with markers BH-128-1 (5) to BH-128-4 (5). The north wall of the foyer was photographed in several shots with markers BH-129 (5) to BH-129-4 (5). Marker BH-129-1 (5) was not used.

The bullet holes in the ceiling were documented by designating an east and south co-ordinate to the ceiling tiles as they related to the section of carpet in which it was located. An attempt to recover all bullets from the ceiling tiles, lockers and walls was made. Recovered slugs were numbered and taken into evidence. Processing was suspended at 4:45 and a brief meeting with the other forensic teams was conducted. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy ACIERNO.

On Monday, April 26, 1999, crime scene processing of Columbine High School continued. Following a briefing from approximately 8:00 am until 8:50 am at the school auditorium, Team 5 continued to process its assigned areas. On this date Team 5 consisted of CBI Agent KEN VAN CLEAVE-acting as team leader, CBI Agent JOE CLAYTON, CBI Agent VAUGHN BALLARD, Detective JOAN SCHROER-Littleton PD, and Deputy DOUGLAS MOORE- Jefferson County SO, who took custody of all evidence collected.

- KEN VAN CLEAVE, sketching the scene, general notes
- VAUGHN BALLARD, measurements
- JOAN SCROER, record measurements, photography log
- JOE CLAYTON - photography
- DOUGLAS MOORE, collect, seal, label and submit evidence

Processing on this date included collecting evidence from the "Social Studies/English" hallway immediately south of the main hallway; collecting evidence from the custodians' office at the west end of the main hallway; collecting bullets and bullet fragments from the doors in the east and west ends of the main hallway; and collecting bullets from locker 1748 in the main hallway.

At approximately 9:00 am processing of the "Social Studies/English" hallway began. After the overall area was

COPY

Studies/English" hallway began. After the overall area was photographed, the area was searched, and four (4) 9mm cartridges were found. Three cartridges were located just south of the doors into the main hallway and the fourth cartridge was found to the south at the intersection with the first east-west hallway. These items were given evidence numbers 1919-1922, and were photographed, measured and collected.

At approximately 10:45 collection of the bullets and fragments from the doors at the east end of the main hallway began. Members of the Littleton Fire Department under the supervision of Agent VAN CLEAVE used their cutting equipment to help remove the items from the doors. Evidence items 1923-1926 were recovered.

The firefighters and other members of the team then moved to the west end of the main hallway to recover bullets and fragments from the doors. Bullets and fragments were recovered and given evidence numbers 1927 and 1932-1935.

Agent VAN CLEAVE then examined the previously numbered bullet holes in the west wall and doors of the main hallway to determine the direction of travel of the projectiles. The following information was obtained: (BH is bullet hole)

BH133	outside to inside
BH134	outside to inside
BH135	inside to outside
BH136	no conclusion

At this time it was decided to examine and document the bullet holes on the outside of the west doors into the main hallway. This area had previously been examined by the FBI, however it was unclear if the bullet holes had been documented. These holes were assigned numbers, photographed, and measured by Team 5. It was also determined that the previously numbered BH132 on the inside of the west doors was the impact point for BH178 on the outside of the west doors.

During the examination of the doors and west wall additional items of evidence were recovered in the area previously processed by the FBI. These included numerous pieces of bomb debris and fragments from immediately outside the west

P99-0453

COPY

doors, evidence item 1928, and three bullets from the area immediately west of the doors, evidence items 1929-1931.

Additional bullet holes were examined by Agent VAN CLEAVE to attempt to determine direction of travel. The following was found:

BH145	no conclusion
BH146	no conclusion
BH147	outside to inside
BH148	outside to inside

At approximately 2:45 pm processing of the custodians' office at the west end of the main hallway began. Examination revealed two bullets had been fired at the east wall of the room. The room was photographed and measured. Searching disclosed a fragment of bullet jacket on the floor near the desk. This item was given evidence number 1936, was measured and was collected. A bullet hole was found in the freezer door of the refrigerator on the east wall and was photographed and measured. Fragments of this bullet were recovered from inside the freezer and given evidence number 1937. A second bullet was removed from the east wall of the room. This bullet had passed through a table leg and was found behind the wallboard. After photographing and measuring this area, the bullet was removed from behind the wallboard and given evidence number 1938.

Agent VAN CLEAVE and the other members of Team 5 the responded to the main hallway to recover two (2) bullets from locker 1748. This locker had been examined and opened by bomb technicians to allow recovery of the evidence. One bullet was given evidence number 1939 and was the bullet which made the previously examined bullet hole BH48. The other bullet was given evidence number 1940 and was the bullet which made bullet hole BH49.

Team 5 then discussed what processing they had done since beginning on Wednesday, April 21, 1999. It was concluded that no additional processing would be done in our assigned area and we secured at approximately 4:00 pm. All items of evidence collected on this date and all film and photograph logs were given to Jefferson County Deputy MOORE.

Recorded measurements, crime scene sketches, photograph

REMARKS:

ACTION TAKEN:

On Monday, April 26, 1999, crime scene processing of Columbine High School continued. Following a briefing from approximately 8:00 am until 8:50 am at the school auditorium, Team 5 continued to process its assigned areas. On this date Team 5 consisted of CBI Agent KEN VAN CLEAVE-acting as team leader, CBI Agent JOE CLAYTON, CBI Agent VAUGHN BALLARD, Det. JOAN SCHROER-Littleton PD, and Deputy DOUGLAS MOORE- Jefferson County SO, who took custody of all evidence collected. Processing on this date included collecting evidence from the "Social Studies/English" hallway immediately south of the main hallway; collecting evidence from the custodians' office at the west end of the main hallway; collecting bullets and bullet fragments from the doors in the east and west ends of the main hallway; and collecting bullets from locker 1748 in the main hallway.

At approximately 9:00 am processing of the "Social Studies/English" hallway began. After the overall area was photographed, the area was searched, and four(4) 9mm cartridges were found. Three cartridges were located just south of the doors into the main hallway and the fourth cartridge was found to the south at the intersection with the first east-west hallway. These items were given evidence numbers 1919-1922, and were photographed, measured and collected. For additional details see the crime scene sketch and evidence log.

At approximately 10:45 collection of the bullets and fragments from the doors at the east end of the main hallway began. Members of the Littleton Fire Department under the supervision of Agent VAN CLEAVE used their cutting equipment to help remove the items from the doors. Evidence items 1923-1926 were recovered. For additional details see the crime scene sketch and evidence log.

The firefighters and other members of the team then moved to the west end of the main hallway to recover bullets and fragments from the doors. Bullets and fragments were recovered and given evidence numbers 1927 and 1932-1935. For additional details see the crime scene sketch and the evidence log.

P99-0453

Agent VAN CLEAVE then examined the previously numbered bullet holes in the west wall and doors of the main hallway to determine the direction of travel of the projectiles. The following information was obtained: (BH is bullet hole)

BH133	outside to inside
BH134	outside to inside
BH135	inside to outside
BH136	no conclusion

At this time it was decided to examine and document the bullet holes on the outside of the west doors into the main hallway. This area had previously been examined by the FBI, however it was unclear if the bullet holes had been documented. These holes were assigned numbers, photographed, and measured by Team 5. For additional details see the crime scene sketch and evidence log. It was also determined that the previously numbered BH132 on the inside of the west doors was the impact point for BH178 on the outside of the west doors.

During the examination of the doors and west wall additional items of evidence were recovered in the area previously processed by the FBI. These included numerous pieces of bomb debris and fragments from immediately outside the west doors, evidence item 1928, and three bullets from the area immediately west of the doors, evidence items 1929-1931. For additional details see the crime scene sketch and evidence log.

Additional bullet holes were examined by Agent VAN CLEAVE to attempt to determine direction of travel. The following was found:

BH145	no conclusion
BH146	no conclusion
BH147	outside to inside
BH148	outside to inside

At approximately 2:45 pm processing of the custodians' office at the west end of the main hallway began. Examination revealed two bullets had been fired at the east wall of the room. The room was photographed and measured. Searching disclosed a fragment of bullet jacket on the floor near the desk. This item was given evidence number 1936, was measured and was collected. A bullet hole was found in the freezer door of the refrigerator on the east wall and was photographed and measured. Fragments of this bullet were recovered from inside the freezer and given evidence number 1937. A second bullet was removed from the east wall of the room. This bullet had passed through a table leg and was found behind the wallboard. After photographing and measuring this area, the bullet was removed from behind the wallboard and given evidence number 1938.

Report Date April 29, 1999	Colorado Bureau of Investigation Report of Investigation	Case No. D99-1333
Type of Report Crime Scene	Report By Scott L. Pratt SLPratt	Area Jeff. County S.O.
Nature of Case Homicide		

REQUESTING AGENCY: Jefferson County Sheriff's Office

INVESTIGATING OFFICER: Chris Andrist

DATE OF REQUEST: April 26, 1999

DATE OF OFFENSE: April 20, 1999

AGENCY CASE NUMBER: 99-7625

LOCATION OF SCENE: Jefferson County Sheriff's Office, 200 Jefferson County Parkway, Evidence Vehicle Bay.

VICTIMS: Various DOB:

SUSPECTS: Klebold, Dylan DOB:
Harris, Eric

WEATHER: N/A

EVIDENCE SEIZED BY: David Swavely, Jefferson County Sheriff's Office

EVIDENCE IN CUSTODY OF: Jefferson County Sheriff's Office

REMARKS: Those in attendance were:

Agent Scott Pratt, Colorado Bureau of Investigation
Lara Egan, Federal Bureau of Investigation
Special Agent Joel Nishida, Federal Bureau of Investigation
John Culler, Jefferson County Sheriff's Office
David Swavely, Jefferson County Sheriff's Office
Tory Wells, Jefferson County Sheriff's Office

ACTION TAKEN:

Per a request from Chris Andrist of the Jefferson County Sheriff's Office, a seized vehicle (described as follows) was processed for evidence/items at 1440 hours through 1940 hours on April 26, 1999. The vehicle was a 1982 BMW, registered to: Klebold, Thomas E. and Klebold, Susan Y, with Colorado license #GBZ2636, expires 02/00; vin WBAAG3303C8057552. Photography and charting of the vehicle was performed by the attending FBI personnel. The film was turned over to David Swavely, Jefferson County Sheriff's Office.

The following notable items were removed from the above vehicle:

- black sheet
- ~~9mm cartridges~~
- clock parts
- nails
- collapsible baton
- magazine with cartridges
- Tec-DC9 plastic box
- paper with notes/diagram of preparation for wearing weapons and items
- essay of crime, Dylan Klebold
- keys to vehicle/home type

9 volt battery with wires
green fuse cord
two bottle rockets
other miscellaneous items.

All items were collected by David Swavely, Jefferson County Sheriff's Office.

Stickers on the trunk area of the vehicle were "Hate This Town", "The Chemical Brothers Dig Your Own Hole", "DJ Spooky That Subliminal Kid Riddim Warfare".

Drawings of the vehicle were maintained by Lara Egan of the FBI.

DENVER POST
SUNDAY, APRIL 25, 1999

THE INJURED

Still at Swedish Medical Center:

- **Richard Castaldo**, 17, five gunshot wounds to chest, back and arm. Condition: fair.
- **Sean Graves**, 15, one gunshot wound to back, three to abdomen. Condition: fair.
- **Anne Marie Hochhalter**, 17, single gunshot wound to chest. Condition: serious.
- **Valeen Schnurr**, 18, shrapnel and bullet wounds to chest, arm and abdomen. Condition: fair.

Still at Denver Health Medical Center:

- **Lisa Kreutz**, 18, multiple gunshot wounds to body. Condition: serious.
- **Lance Kirklin**, 16, multiple gunshot wounds to face, chest and legs. Condition: critical, underwent more surgery Saturday.
- **Jeanna Park**, 18, gunshot wounds to legs and shoulder. Condition: fair.

Still at Centura St. Anthony Central Hospital:

- **Kasey Ruegsegger**, 17, gunshot wound. Condition: serious.
- **Unidentified male**, 15, gunshot wound. Condition: serious.
- **Patrick Ireland**, 17, gunshot wound. Condition: serious.

Still at University Hospital:

- **Mark Taylor**, 16, gunshot wounds in arm, body and legs. Condition: fair and stable.

Hospitalized and released since Wednesday:

Jennifer Doyle, Makai Hall, Mark Kintgen, Nicole Nowlen, Danny Steepleton.

Treated and released on Tuesday

, Brian Anderson, Stephen Austin Eubanks, Nicholas Foss, Joyce Jankowski, Adam Kyler, Stephanie Munson, Patricia Nielsen.

MEETING TIMES FOR STUDENTS

Students from Columbine are asked to report to Chatfield High School, 7227 S. Simms St., on Thursday and Friday so they can meet with administrators and teachers. Details regarding the time to report will be announced later. Classes for Columbine students will resume at Chatfield Monday, May 3.

Where to donate

- The Columbine High School Alumni have established a relief fund and are challenging alumni to donate dollars matching their year of graduation (for example, Class of '82 members donate $82) to: Columbine Alumni Relief Fund, c/o The Jefferson Foundation, 809 Quail St., Lakewood 80215.
- The Jefferson County School District has asked that any donations to assist Columbine High School students and their families be sent to the Jefferson Foundation, attention Columbine Fund, c/o: 809 Quail Street, Building 1, Lakewood 80215. The Jefferson Foundation is a nonprofit organization formed to help support the district's schools.
- Mile High United Way has collaborated with other Denver-area foundations to be the primary receiver of online donations for victims of the massacre and for agencies providing youth violence-prevention programs. Secure donations can be made to the Mile High Healing Fund at:

  www.donornet.com or
  www.unitedwaydenver.com
- The Denver Post, WB2, KOSI, HAWK and KEZW Charities will match 50 cents for every $1 donated, and The McCormick Tribune Foundation will match 50 percent of all contributions up to the first $1 million. Contributions can be sent to: The Healing Fund, P.O. Box 46531, Denver 80201.

Also, one can make donations at any Colorado branch of Vectra Bank Colorado, BankOne, FirstBank, Key Bank, Norwest Bank or U.S. Bank.

For additional information, contact Danielle Corriveau of the United Way at 303-561-2252.

- Columbine Commercial Federal Bank has started a relief fund to assist those who have suffered as a result of the tragedy. Donations may be made at any Commercial Federal Bank in Colorado.
- King Soopers has established a support fund for the Columbine High School community. The grocery-store chain will process donations to a dedicated account at the Sooper Credit Union through all 77 store locations. Pre-addressed envelopes are available at the stores. Checks or money orders should be made payable to: Columbine High School Fund, Sooper Credit Union, 5590 W. Evans Ave., Denver 80227.
- The South Metro Chamber of Commerce has established a fund to support Columbine students, their families and the school: Columbine Support Fund, c/o Colorado Business Bank, 101 W. Mineral Ave., Littleton 80120.

EXAMINER: Joe R. Clayton, Jr

DOC: 022002

Items

#2 Sweater

Results:

Examinations conducted on item~~s~~ # 2 indicated the presence of human blood.

The majority of the blood on the sweater appears to be deposited on the interior of the sweater.

Serological examination identified biological material for DNA testing. A DNA packet has been created which contains this biological material. No further analysis will be performed on this biological material until the blood standard from D. Rohrbough {CBI case ~~3~~ # D99-1333, item # 969(C)} has been submitted to the CBI Laboratory.

RE: El Paso County Sheriff's Office case report number 02-357

The El Paso County Sheriff's Office is currently conducting an Assist Outside Agency investigation. Sheriff John Stone of the Jefferson County Sheriff's Office requested the El Paso County Sheriff's Office to re-investigate a portion of the Columbine shooting (Jefferson County Sheriff's Office case report number 99-7625 titled First Degree Murder.) Specifically, our agency is investigating allegations that one of the victims, Daniel Rohrbough, was accidentally shot by a responding police officer.

The following items are being submitted for analysis:

1. Item WHB 1 A Gunshot Residue Kit collected at the autopsy of Daniel Rohrbough.
2. Item WHB 2 A sweater

We request the GSR kit be processed to ascertain if Daniel Rohrbough has any gunshot residue on his hands. We also request the sweater be examined for the presence of any gunshot residue or latent blood. If any latent blood is located, please process for DNA and compare to the DNA profile of Daniel Rohrbough. Mr. Rohrbough's DNA sample should be on file with the original CBI reports.

We request these tests be conducted as soon as possible.

Thank you in advance for your assistance. If you have any questions, please feel free to call me at (719) 520-7246.

Sincerely,

William Burns

ITEM	(JSCO)	DESCRIPTION
#1	(8745)	ONE GUNSHOT RESIDUE KIT TAKEN FROM DANIEL ROHRBOUGH
#2	(2124)	TAN SWEATER

RESULTS:

ANALYSIS OF ITEM #1, TAKEN FROM ROHRBOUGH, DISCLOSED THE PRESENCE OF PARTICLES CHARACTERISTIC OF GUNSHOT RESIDUE. THIS RESULT INDICATES THIS INDIVIDUAL MAY HAVE DISCHARGED A FIREARM, BEEN IN THE VICINITY OF A FIREARM WHEN IT WAS DISCHARGED, OR CAME IN CONTACT WITH AN ITEM WITH GUNSHOT RESIDUE ON IT.

ANALYSIS OF ITEM #2, THE TAN SWEATER, DISCLOSED THE PRESENCE OF PARTICLES CHARACTERISTIC OF GUNSHOT RESIDUE. ELEMENTAL ANALYSIS OF THE SMEAR ON THE BACK OF THE SWEATER DISCLOSED THE PRESENCE OF PREDOMINANTLY LEAD PARTICLES AND COPPER PARTICLES.

ANALYSIS OF THE SMEAR ALSO DISCLOSED THE PRESENCE OF A LEAD/ANTIMONY PARTICLE. THIS PARTICLE IS CONSISTENT WITH BUT NOT UNIQUE TO GUNSHOT RESIDUE.

April 29,1999
Mr. Carl Whiteside
Colorado Bureau of Investigation
690 Kipling St., Suite 3000
Lakewood, CO 80215

ATTENTION: CBI LABORATORY

REFERENCE: HOMICIDE
CASE NO.: 99-7625
VICTIM: COLUMBINE H. S.
SUSPECT: HARRIS, ERIC & KLEIBOLD, DYLAN

Dear Mr. Whiteside,

On April 20, 1999 an incident occurred at Columbine high School involving two gunman, resulting in the death of thirteen victims and the possible suicide of the two suspects. CBI's Crime Scene processing teams were called in to process the scene, We are submitting the following evidence for analysis and processing. I have already spoken with the primary analyst, Tom Griffin, and we are leaving the type of processing needed open to your analysts.

We would like you to examine the following evidence for analysis.

1. JCSO Item #900, Shotgun savage pump action.
2. JCSO Item #901, 9mm Carbine.
3. JCSO Item #902, Dbl Barrel shotgun.
4. JCSO Item #903, Tec 9 Pistol.
5. JCSO Item #989, Sgl stack magazine.
6. JCSO Item #1066, OD Grn Ammo pouch from Body #12.
7. JCSO Item #1067, Grn Ammo pouch from body #12.
8. JCSO Item #1101, 14 00 Buck Live Shotgun Shell in ammo belt from body #11.
9. JCSO Item #1102, Biege Ammo pouch from Body #11.
10. JCSO Item #1273, Grn Pouch with shotgun Shells.
11. JCSO Item #1859, Magazine and Spring.
12. JCSO Item #1877, Empty Magazine
13. JCSO Item #1879, Empty Magazine
14. JCSO Item #1099, Grn Pouch with 10 OO Buck live rounds.
15. JCSO Item #1093, Rifle Magazine with ammo.
16. JCSO Item #1094, Shotgun Shell OO Buck from 900.

17. JCSO Item #1095, Expended Shotgun Shell from 900.
18. JCSO Item #1096, Live 9mm from chamber of 903.
19. JCSO Item #1097, 9mm Mag with 8 rounds.

This evidence is being submitted in connection with an official investigation of a criminal nature. We request that you return all evidence in their original containers to this department upon completion of your examination. Please include written results of your findings. Inquiries in this case should be made to Chris Andrist at 271-5649 or page at 271-5368 577#. Thank you for your assistance and cooperation in this case.

Sincerely,
RONALD L. BECKHAM, SHERIFF

Chris G. Andrist, Crime Lab Supervisor

ADDITIONAL CASE INFORMATION:

D99-1333

#904- Test fires from Colt AR-1
S.N. LGC010987

#905 - Test fires from Colt AR-15
S.N. LGC008584

#906 - Test-fires from Steyr-Mannliche
S.N. 132130

#907-Test fires from H+K MP5
S.N. 325873

908-Test fires from H+K MP5
S.N. 62350336

909- Test fires from Glock Mod 21
S.N. APC 868

910-Test fires from S+W Mod 4567
S.N. TFN9037

ATTENTION: CBI LABORATORY

REFERENCE: HOMICIDE
CASE NO.: 99-7625
VICTIM: COLUMBINE H. S.
SUSPECT: HARRIS, ERIC & KLEIBOLD, DYLAN

Dear Mr. Whiteside,

On April 20, 1999 an incident occurred at Columbine high School involving two gunman, resulting in the death of thirteen victims and the possible suicide of the two suspects. CBI's Crime Scene processing teams were called in to process the scene, We are submitting the following evidence for analysis and processing. I have already spoken with the primary analyst, Tom Griffin, and we are leaving the type of processing needed open to your analysts.

We would like you to examine the following evidence for analysis.

1. JCSO Item #900, Shotgun savage pump action.
2. JCSO Item #901, 9mm Carbine.
3. JCSO Item #902, Dbl Barrel shotgun.
4. JCSO Item #903, Tec 9 Pistol.
5. JCSO Item #989, Sgl stack magazine.
6. JCSO Item #1066, OD Grn Ammo pouch from Body #12.
7. JCSO Item #1067, Grn Ammo pouch from body #12.
8. JCSO Item #1101, 14 00 Buck Live Shotgun Shell in ammo belt from body #11.
9. JCSO Item #1102, Biege Ammo pouch from Body #11.
10. JCSO Item #1273, Grn Pouch with shotgun Shells.
11. JCSO Item #1859, Magazine and Spring.
12. JCSO Item #1877, Empty Magazine
13. JCSO Item #1879, Empty Magazine
14. JCSO Item #1099, Grn Pouch with 10 OO Buck live rounds.
15. JCSO Item #1093, Rifle Magazine with ammo.
16. JCSO Item #1094, Shotgun Shell OO Buck from 900.

17. JCSO Item #1095, Expended Shotgun Shell from 900.
18. JCSO Item #1096, Live 9mm from chamber of 903.
19. JCSO Item #1097, 9mm Mag with 8 rounds.

This evidence is being submitted in connection with an official investigation of a criminal nature. We request that you return all evidence in their original containers to this department upon completion of your examination. Please include written results of your findings. Inquiries in this case should be made to Chris Andrist at 271-5649 or page at 271-5368 577#. Thank you for your assistance and cooperation in this case.

Sincerely,
RONALD L. BECKHAM, SHERIFF

Chris G. Andrist, Crime Lab Supervisor
Investigations Division

REPORT DATE July 2, 1999	COLORADO BUREAU OF INVESTIGATION REPORT OF INVESTIGATION	FILE 99D-0146
TYPE OF REPORT Fire Investigation	REPORT BY Agent Jerry W. Means	AREA CHS-Littleton, Colo.
NATURE OF CASE Arson/CHS Library, Table 15		

DATE OF CRIME: April 20, 1999

PLACE OF CRIME: Columbine High School, Littleton, Colorado.

SUSPECTS: DYLAN KLEYBOLD (deceased), ERIC HARRIS (deceased)

ACTION TAKEN: On June 22, 1999 Detective Kate BATTAN, of the Jefferson County Sheriff Department contacted the Reporting Agent. Kate BATTAN is the lead investigator on the Columbine High School shooting. Detective BATTAN requested the Reporting Agent conduct and origin and cause investigation on a fire that occurred in the school library at or near table #15 on April 20, 1999. The laboratory team assigned to the area had photographed, collected evidence, and taken a sample of the suspected accelerant used to fuel the fire. Detective BATTAN requested additional documentation to determine the pre-fire placement of the device. The Colorado Bureau of Investigation case number for the enclosed fire investigation is #99D-0146.

The Reporting Agent originally observed the scene of the fire on April 21, 1999, while working in the library on a different assignment. The area of fire damage was centered on the south edge of table #15, and a thin layer of liquid was present on the table surface. Several small pieces of glass were observed on the table top and surrounding floor. A flat circular disc consistent with a Mason type lid was observed on the floor near the base of table #16.

The Reporting Agent met with Agent in Charge Tom NETWAL, of the Colorado Bureau of Investigation on June 23, 1999. AIC NETWAL stated samples were taken of the suspected accelerant on table #15 when the library was processed and is currently being analyzed in the laboratory.

The Reporting Agent met with Kate BATTAN and Chris ANDRIST, of the Jefferson County Sheriff Department on June 24, 1999, at the library. Chris ANDRIST provided a brief synopsis of the evidence collection process in the west portion of the library. The library remained under the control of the Jefferson

County Sheriff Department and was still considered a crime scene area. Although the physical evidence throughout the library had been documented and collected, table #15 was in its original location from the time the fire occurred. This was evident because the area around all 4 corners of the table had been traced onto the carpeting, and were still in the original scene examination position.

The west area of the library was examined from the least amount of fire damage to the most. No fire or smoke damage was observed on the east, center, and north office area of the library.

The west side of the library was examined. Several of the west side windows were broken out and had been covered with plywood after the incident. There was no evidence of fire ventilation patterns through the openings in the windows, and they appeared to have been damaged by gunfire. The remains to several wooden matches were observed on the floor and furniture throughout the west side of the library. Several of the matches were broken, and some had pieces of duct tape on them where they had been fastened to the end of various explosive devices, to be used as igniters. There were several areas of blood soaked carpeting under the computer station and wooden library tables in the west side.

Table #16 was examined. Previous scene examination on April 21, 1999 indicated that shooting victims, Isaiah SHOELS and Matt KECHTER were located under the north side of table #16 when they were shot. Matt KECHTER had fire damage on his left hand, right lower corner of his shirt, and right thigh area of his blue jeans. An ink pen was located in his right hand. The fire damage consisted of surface damage to the blue jeans; partial consumption of the shirt material and third degree burns to the ends of several fingers on the left hand. Preliminary coroner reports indicate the fire damage to Matt KECHTER hand and clothing was post-mortum and not the cause of death. No evidence of an ignition source was found on or under the bodies of SHOELS or KECHTER. A partially straightened paperclip was on the floor under the body of KECHTER. The paperclip was examined and no evidence was found to contribute it to the fire damage on KECHTER'S body or the device used on the surface of table #15. The remains to a charred wooden match was found partially under the southwest corner of table #16. The top of the table was examined and a dark semi-circular scuff-mark was observed on the surface above KECHTER'S body. The mark is somewhat consistent with a wooden match strike; however, a wooden match typically does not leave a heavy carbon deposit on the striking surface. A carbon deposit may be left if the match or striking surface is contaminated with a secondary fuel. Burning duct tape or a fuel soaked material would be a reasonable secondary fuel. The underside of table #16 had no evidence of fire damage. The floor and chairs around table #16 were examined and no evidence of fire damage was observed. A directional pattern of glass was observed on the floor between table #16 and table #15. The glass radiated out from the south side of table #15 towards the southeast corner of table #16. The glass was curved and the thickness was inconsistent with that observed in the west windows of the library.

The bottom of a jar was found on the floor near the southeast corner of table #15. The construction of the bottom portion of the glass jar is consistent with the curved glass observed on the floor between table #15 and #16. Several of the pieces were threaded and had smoke deposit patterns from continuous exposure to fire.

The area south of table #15 was examined and the floor had several areas of blood soaked carpeting. This is the area where both suspects were found. The Reporting Agent observed no areas of fire damage on the suspect's bodies before they were removed from the area. The carpeting, books and ceiling were examined and there was no evidence of fire damage. The bookshelf east of HARRIS'S location was covered with body tissue in an upward pattern from near floor level. A circular pattern of the same type of body tissue was observed on the ceiling directly above this area. Body tissue was also observed on the surrounding furnishings including the top of table #15.

The top of table #15 was photographed and then layer searched. The remains to a note about Race was observed on the west edge of the table. The note was handwritten on an index card and stated:

Race- a group of people who share common physical characteristics perceived as a distinct group. Ethnicity- set of cultural characteristics that distinguishes one group from another. Minority Group- a group that demonstrates similar cultural/physical characteristics, and are denied equal treatment because of it. Discrimination- Denial of equal treatment of individuals based on group membership. Prejudice- unsupported generalization about a category of people. Racism - Belief that ones own race or group is naturally superior. Slavery- Ownership of one group by another. De Jure Segregation- segregation based on laws. De Facto Segregation- Segregation based on informal norms. Active Bigot-

A prejudice person who actually discriminates. Timid Bigot- A prejudice person who does not discriminate. Fair Weather Liberal- A non-prejudice person who does not discriminate. Legal Discrimination- upheld by law. Institutionalized discrimination- Outgrowth of structure of society.

The note could not be contributed to the fire on the top of table #15. The note did however relate in topic to the unburned schoolbook located on the top of the table and was consistent with a homework assignment.

The top center portion of the table was covered with an oily amber colored liquid pattern. An analysis of the pattern revealed it originated approximately 8 inches inward from the south edge of the table. Splash patterns extended from this area towards the north side. A blistered area of the tabletop was located on the south edge of the charred schoolbook. The only secondary fuel in the area of the blister was ordinary combustible. This blistered area was caused by a smoldering paper fueled fire that exposed the top of the table to heat for an extended period of time.

The piece of body tissue on the top of table #15 was located in the edge of the liquid pattern. The tissue measured approximately 2 inches by 2 inches. The top surface of the tissue had a shiny surface consistent with that coating left by the oily liquid observed across the table top. The tissue was adhered to the tabletop surface and was removed with a metal scraper. The area of table surface under the tissue had no smoke staining or evidence of the oily liquid. The tissue would not have adhered to a pre-oiled surface. The lack of smoke deposits and liquid residue under the material also indicated the tissue was on the table before the device containing the oily liquid released its contents. An examination of the surrounding area indicated the tissue was included in a directional pattern extending away from the area where the suspects bodies were found.

A thin line-shaped burn pattern was observed on the south edge of the table #15 top surface. The pattern extended over the south edge of the table and radiated approximately 8 inches towards the center. The burn pattern had a protected area in the center creating a shadow pattern consistent with a fuse or wick type device.

The floor under table #15 had several areas of blood soaked carpeting. The carpet directly under the south edge of the table had an oily residue stain consistent with the liquid from the top of the table spilling over the edge. No fire damage was observed to the floor. The bottom side of the table was examined and also lacked any type of fire damage. The west end of the center support to the table had several bullet type holes in it. The holes were directional from the north to the south. Several small pieces of wooden match remains were found on the floor near the south side of the table.

The following five items were taken from the fire damaged area on table #15:

- ☐ Item #1016, a sample of charred paper.
- ☐ Item #1017, a charred notebook.
- ☐ Item #1018, paper towels.
- ☐ Item #1019, index cards.
- ☐ Item #1033, cutting from pants

The samples were collected immediately after the shooting, by lab personnel that processed the scene. Agent in Charge, Tom NETWAL, of the Colorado Bureau of Investigation analyzed the samples. The samples were processed under CBI Laboratory number, D99-1333. The following is a synopsis of the laboratory testing results:

☐ Item #1016, revealed the presence of a gasoline class liquid.
☐ Item#1017, revealed the presence of a gasoline class liquid.
☐ Item #1018, did not reveal the presence of a combustible or flammable liquid.
☐ Item#1019, revealed the presence of a gasoline class liquid.
☐ Item #1033, did not reveal the presence of a combustible or flammable liquid.

Witness statements and information obtained from a warrant executed on the suspect's homes indicated they had accessed research materials on homemade Napalm. Homemade Napalm is generically gasoline that has been thickened to a gel like consistency by the use of a variety of thickeners. Common gelling agents are mild soaps, motor oil, animal fats, and Styrofoam peanuts. The gel like substance is designed to stick to items it is thrown on once the transportation device has fractured. The large surface area created when the liquid is dispersed allows it to vaporize at a faster rate thus creating a rapid spread fire. The fuse/wick on a Molotov cocktail type device is not designed to penetrate the container and ignite the contents. It is designed to ignite the product in its vapor form once dispersed. A container simply placed in a stationary location may not ignite at all due to the fuse burning itself out. It is reasonable for the fuse device to apply enough heat to the exterior of the container and cause it to fracture in that location. This condition is consistent with the fuel pattern and lack of heavy fire damage observed on the top of the table #15. Threaded pieces of the top of the glass bottle used to contain the fuel were found on the tabletop. The threaded pieces of glass were heavily charred indicating a pro-longed exposure to fire. The fuel pattern on the table was consistent with the determined bottle location, near the south edge. The glass and fuel directional patterns were inconsistent with a high-pressure content release, and no evidence that the bottle was thrown against the table was found.

SUMMARY: The Reporting Agent initially observed the fire damage in the CHS library on April 21, 1999. On June 22, 1999, Lead Investigator Kate BATTAN requested the Reporting Agent to conduct an origin and cause investigation on fire that occurred inside the library of the school on April 20, 1999. The assigned laboratory personnel had already processed the scene and collected evidence, including samples of a suspected accelerant liquid and glass remains of a container found near table #15.

The area of origin was determined to be at or near the top of the south edge of Table #15. This determination was made after analyzing post fire movement and intensity patterns, liquid pour patterns, glass debris fragments, and layer searching.

The cause of the fire was determined to be intentionally set. This determination was made after ruling out all other possible fire causes in or near the area of origin. The directional liquid and glass patterns indicated a glass container with a wick was placed upright on the south edge of table #15. A fuse type device was lit and the device was left to burn in that position. Body tissue in a pattern consistent with the suspects wound patterns was adhered to the surface of the table. The liquid spill pattern and surface soot from the fire were observed on the outer layer of tissue. This observation indicated the body tissue was on the top of the table before the liquid was released from the container.

Fire damage was observed on the left hand, shirt, and upper right pants of shooting victim Matt KECHTER. KECHTER was found under the north side of table #16. The area on and around KECHTER was searched. A single charred wooden match was found partially under the southwest corner of table #16. The top of table #16 had a 6-8 inch scratch across the surface. The scratch curved and appeared to be partially made up of a black carbon deposit. The matches used to ignite some of the devices used in the school on April 20, 1999 were duct taped in place to be used as a fixed igniter. Burning duct tape will increase the release of carbon and may have contributed to the soot residue left on a striking surface. The area between table #15 and #16 and the fabric seat cushions were examined and no evidence of fire damage was observed. No communication was found between the fire damage to KECHTERS body and clothing and the fire that occurred on top of table #15.

Request Instructions

CBI was requested to assist in the investigation involving 13 homicides within Columbine High School in Jefferson County.

Action Taken

CBI was on scene as of 04/20/99 in both laboratory and field investigations. CBI is continuing to work in both arenas of the investigation and will remain involved as need exists.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 05/06/99

Benjamin Wade SMITH was interviewed at his residence, 9742 W. Brandt Place, Littleton, Colorado, phone (303) 932-1265 on April 30, 1999 at approximately 1:40 PM. He was advised of the personal and professional identity of the writer, and the purpose of the interview.

SMITH confirmed that he was present in the cafeteria on April 20, 1999, prior to the incident which ultimately occurred there, and that he had left his black Jansport backpack in the cafeteria. SMITH viewed a map of the cafeteria, and indicated that he believed he had been sitting at what is identified as table "Y". SMITH believed that five other students had been sitting with him. He identified these as being Joey LNU, Matt ZAGO, Brad BOOTSMA, Kevin LNU and Chad SHARPLEY.

SMITH advised that he had entered the cafeteria at just after 1110 AM and obtained his food from the cafeteria serving line. He estimated that he was in line for approximately three minutes before getting his food and sitting at the table. While walking through the cafeteria and to his table he did not observe any unusual objects or duffel bags.

SMITH stated that he was seated facing in a southwesterly direction, toward the windows on the west side of the cafeteria. He suddenly heard the sound of a number of chairs moving, and thought that a fight may have broken out. SMITH then observed Mr. Sanders and a janitor telling everyone to get under the tables. A short time later, Mr. Sanders told everyone to get out of the cafeteria.

SMITH fled the cafeteria and went into a classroom on the lower level, which he believed was room FL-3. SMITH hid under a desk in the classroom, and estimated that approximately 25 to 30 others also hid in the room. He recalled seeing two female adults in the room who he believed were teachers, but did not know either of them. After approximately two to three minutes he ran outside through a door on the south side, and through the student parking lot on the south side of the school. SMITH stated that he continued to run until he came to a Mormon seminary house in the area of Polk Street.

Investigation on 04/30/99 at Littleton, Colorado

File # 174A-DN-57419 / 99-7625 (Jeffco) Date dictated 05/06/99

by Agent Frank R. Vanecek, CBI

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency;

SMITH stated that while he was hiding in the classroom he had heard two loud explosions. He indicated that he felt that the sound had come from upstairs, possibly the area of the library.

SMITH stated that he did not see either of the suspects or any shooting. He was not acquainted with either, although had seen Dylan KLEBOLD around school and knew who he was. He had seen individuals on campus wearing black trench coats and had heard the name "Trench Coat Mafia", but did not know anything about the group.

Date of transcription 5/25/99

David Michael MESCH, DOB 7/24/83 was interviewed at his residence, 6970 S. Lee Way, Littleton, Colorado on May 11, 1999 at approximately 8:30 AM. MESCH was advised of the personal and professional identity of the writer and the purpose for the interview. David's parents Darlene and Michael MESCH were present during the interview.

MESCH advised that he is a sophomore at Columbine High School, and has "A" lunch period. On April 20, 1999, MESCH recalled entering the cafeteria at approximately 11:10 AM. He waited in line to buy his lunch for approximately 1 ½ minutes, and then took a seat at a table in the cafeteria. MESCH viewed a diagram of the cafeteria, and indicated that he believed the table that he sat at was "MM". He sat facing toward the west and the windows on that side of the cafeteria. MESCH stated that there were approximately ten other students seated at the table, but he could only recall one, Zach RAUZI.

MESCH stated that he finished eating his lunch and got back into the service line to buy a cookie. While waiting in the line MESCH saw a student running by, and heard what sounded like fireworks exploding. MESCH ducked down in the line briefly, then ran into the kitchen area. He spent approximately 30 seconds in the kitchen, then ran out and eastbound through the cafeteria. He entered the auditorium through the back doors, ran through the auditorium and down the main hall. MESCH stated that Sarah BROWN and Renee PAAUILAINEN ran with him. He then turned north into the hall by the counseling offices and out the north side of the building. He ran through the smoking pit, jumped the fence and ran north into Clement Park, to a parking lot usually used by sophomores. MESCH then got into Zach RAUZI's car with him, and they drove to MESCH's house.

MESCH stated that he never saw the gunmen, or any duffel bags or other unusual objects in the cafeteria. He stated that he had been wearing a green short sleeve "T" shirt and khaki-colored shorts.

MESCH advised that he did not know Eric HARRIS or Dylan KLEBOLD, or any other members of the Trench Coat Mafia. He stated that he had seen the group around, occasionally wearing

dark trench coats. He had heard the name Trench Coat Mafia used before, but did not have any specific information about the group or its members.

MESCH stated that he did not recall hearing or seeing any announcements at the school on that date.

During the interview of David MESCH, the writer was informed by his mother, Darlene MESCH, that she is an employee of Columbine High School and was present at the school at the time of the shooting. Darlene MESCH's statement is contained on a separate FD-302.

FD-302 (Rev. 10-6-95)

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 04/27/99

Timothy Earl KASTLE, DOB: 07/04/81, was contacted at his residence, 8973 Brandt Place, Littleton, Colorado on April 24, 1999 at approximately 4:30 PM. He was advised of the personal and professional identities of the writer and Agent Jerry Means of the Colorado Bureau of Investigation. KASTLE's parents, Earl and Kim KASTLE, were present during the interview.

KASTLE advised that he is a senior at Columbine High School. He advised that on April 20, 1999 he was in the cafeteria talking to a friend, Adam SANDS, who was seated by the west window of the cafeteria. KASTLE said that he was not planning to have lunch in the cafeteria, but just stopped by to see friends.

KASTLE stated that he suddenly heard two loud bangs, and then heard a teacher, Mr. SANDERS, shout at everyone to get down. KASTLE stated that he first went into the kitchen, and then into the teacher's lounge. He overheard someone saying that someone had been shot.

KASTLE went into the bathroom, where he was joined by students Nick FOSS and Sean NOSSAMAN, and teachers Sue CARRUTHERS, Joyce JANKOWSKI and a female teacher whom he did not know.

KASTLE stated that when he went into the faculty lounge, he could see two bodies laying outside the window on the west side of the cafeteria. One of these subjects appeared to have had his face shot.

They locked the bathroom door, and heard numerous noises including loud bangs, screaming and the sound of people running. KASTLE stated that the sounds seemed to be coming from right outside the door.

Concerned that someone might come in to get them, they began to discuss climbing up in the ceiling to hide or escape. KASTLE climbed up into the ceiling, then assisted Joyce JANKOWSKI in getting up into the suspended ceiling area. JANKOWSKI moved to the west to an area just beyond the bathroom wall, over the area of the faculty lounge. JANKOWSKI then fell through the

by Agent Frank R. Vanecek, CBI

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency;

ceiling, and into the lounge. She then scrambled back into the bathroom.

KASTLE stated that he crawled on top of a metal heating duct, and moved toward the kitchen, looking for a place to hide. As he did so, he knocked several ceiling tiles off in the area of a small bathroom which services the kitchen, and which is adjacent to the bathroom they had been hiding in.

KASTLE then began moving west, following the metal ductwork and then moving along a metal pipe held up by some wires. As KASTLE reached the area of the west wall, he looked back to the area over the bathroom in the kitchen area. As he did, he observed a subject in that area, whose head was just above the ceiling area. KASTLE said that the subject was pointing what he believed was a shotgun at him. He advised that he based this on the manner in which the subject pointed the gun at him. KASTLE stated that it was dark, and he could not see the subject well. He described the subject as having shoulder-length dark hair. KASTLE stated that he believed that the subject was Dylan KLEBOLD. He said he based this on the fact that the subject had not shot him, as KASTLE advised he is a friend of KLEBOLD's. KASTLE stated that the hair he described did not fit KLEBOLD, and nothing about what he observed of the subject led him to his conclusion that the subject could be KLEBOLD.

KASTLE kicked the ceiling tiles down where he was, and dropped through the ceiling. He landed in the faculty lounge next to the window through which he and others had earlier seen the bodies. KASTLE stated that at that time the window was intact. He then escaped the building via the door located just within the cafeteria area and ran to a marked police unit on the west side. He glanced toward the cafeteria area as he ran out, and did not see anyone inside. KASTLE stated that approximately one or two minutes later he saw Sean NOSSAMAN, Nick FOSS, and two of the teachers run out. FOSS later told him that he too had gone up into the ceiling area.

KASTLE recalled that at some point while they were in the bathroom area, Nick FOSS said that one of the shooter's was "the kid in the next class that wore glasses - Dylan". KASTLE also recalled a conversation with Nate DYKEMAN in which DYKEMAN commented that Eric HARRIS and Dylan KLEBOLD were not at school.

DYKEMAN told KASTLE that they had to be up to something, as they were never gone together in the past.

KASTLE described himself as being a friend of Dylan KLEBOLD's. He stated that he had talked to him the previous evening and were talking about some trades involving their fantasy baseball teams. He recalled that KLEBOLD talked about working a trade with Adam SANDS for player Roger Clemons. KASTLE characterized the conversation as being very normal, as was KLEBOLD's mood and demeanor.

KASTLE stated that he has known Dylan KLEBOLD for approximately three years, through school and their joint interest in fantasy baseball. KASTLE stated that he has had KLEBOLD in at least one class each semester since his second semester at Columbine High School.

KASTLE advised that there is a group of individuals who participate in the fantasy baseball league, and utilize a website belonging to Chad LAUGHLIN. KASTLE advised that the Internet address for the website is HTTP://members.AOL.com/orgasmo007. KASTLE stated that he only recently got an E-mail account, and has never received any E-mail on it. He advised that his screen name is "saltysquirts99", and his password is "wackit".

KASTLE stated that the "team owners" of the fantasy baseball teams included himself, Dylan KLEBOLD, Adam SANDS, Chad LAUGHLIN, Cliff ANDREWS, Ben HANSON, Dan PALMENTER, Jason SANDS, Jason FRASIER, Justin PALMENTER, Chris HOWELL, and Dan HALSEY.

KASTLE stated that he talked to KLEBOLD on a daily basis and currently had a class with him in fourth hour. They are both involved in video production. KASTLE stated that he has heard media accounts about videos that KLEBOLD allegedly made which depicted events similar to what occurred at CHS on 04/20/99. KASTLE stated that he never saw any such video.

KASTLE stated that he is not a member of the group which has come to be known as the "Trenchcoat Mafia", but has another friend who is named Nate DYKEMAN. KASTLE stated that DYKEMAN worked with Eric HARRIS and KLEBOLD at Blackjack Pizza, and that DYKEMAN was KLEBOLD's best friend until DYKEMAN became involved with Kristi EPPLING.

KASTLE stated that he had Eric HARRIS in his fifth hour class, and also spoke with him almost every morning. KASTLE advised that HARRIS kept to himself, and recalled HARRIS being upset about not having a prom date.

KASTLE was asked about KLEBOLD's hobbies and interests. He stated that KLEBOLD was into hard-punk music like Marilyn MANSON, and the German rock band KMFDM. KLEBOLD was also a Red SOX fan and a Roger Clemons fan. KASTLE stated that KLEBOLD was a good guy, and that what took place was definitely out of character for him.

KASTLE stated that he has never been to KLEBOLD's residence. He has never heard him discuss anything about guns, bombs, or mentioned things like the Anarchist Cookbook.

KASTLE recalled Nate DYKEMAN telling him that HARRIS and KLEBOLD never made it to their bowling class on the morning of the shooting. Chad LAUGHLIN also told him that as he was leaving campus and KLEBOLD was arriving, LAUGHLIN "flipped off" KLEBOLD in the parking lot.

KASTLE stated that he was interviewed on 20/20 at his residence. He said that while the crew was there, he overheard a female crew member saying that Chris MORRIS had brought a duffel bag to the school. He did not know who the female crew member was.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 05/07/99

Ryan Benjamin HASTEN, date of birth: 03/20/84, was interviewed at his residence, 7842 S. Lamar Street, Littleton, Colorado on April 27, 1999. He was advised of the personal and professional identity of the writer and the purpose of the interview. HASTEN's mother, Terry HASTEN, was present for the interview.

HASTEN advised that he is a freshman at Columbine High School, and did in fact leave his blue Nike backpack in the cafeteria at the high school on April 20, 1999, following the incident there. HASTEN stated that he is on "A" lunch schedule, and had entered the cafeteria at approximately 11:25 AM. HASTEN bought lunch in the cafeteria, and took a seat in the main cafeteria area. HASTEN was shown a map of the cafeteria by the writer, and advised that he believed he had been sitting at table QQ on that map.

HASTEN stated that he was sitting with Kyle MICHELSON, Chris CARLSTEDT and John STOCKING, fellow freshman. HASTEN pointed out what he recalled to be their seating location on that date.

HASTEN stated that he had just sat down to eat when he heard a noise outside, which he described as a bang which sounded similar to a firecracker going off. HASTEN saw teacher Dave SANDERS exit out the west door by the faculty lounge to the area outside the cafeteria. HASTEN stated that as he was going out, he heard SANDERS telling everyone to get under their tables.

Within ten to fifteen seconds Mr. SANDERS came back into the cafeteria through the same door, and was yelling for everyone to run. HASTEN did not think that Mr. SANDERS appeared to be injured at that time.

HASTEN stated that he ran up the stairs on the east side of the cafeteria and into the hallway above. An unknown teacher was telling people to go into the auditorium, and HASTEN went inside. Not feeling comfortable there, HASTEN continued to run through the cafeteria, down the main hallway past the administrative offices and out into the faculty parking lot on the south side of the school. He then began running north toward

Clement Park. He saw a marked police unit driving south through the park toward the high school, and as he approached it the deputy driving it told him to keep running.

HASTEN advised that as he ran out the main entry doors, he saw that several of the doors and windows were broken out. He also stated that he heard several bangs while running through the building, which were not too loud. He did not know if the bangs were coming from within or outside of the building.

HASTEN stated that he did not see the suspects at any time during the incident. He also did not see any duffel bags or other suspicious objects while in the cafeteria.

HASTEN stated that he did not know Eric HARRIS or Dylan KLEBOLD. He saw their pictures in the newspaper, and did not think he had ever met either of them. HASTEN stated that he had seen some individuals in the past wearing dark trench coats on campus, and had heard that they were known as the Trench Coat Mafia. HASTEN did not know anything else about the group, and was not acquainted with anyone who belonged to it.

HASTEN stated that he had been wearing a white and green plaid button-up shirt and green shorts on that date.

A copy of the cafeteria map depicting HASTEN's seating location is attached to this FD-302.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 05/07/99

On May 03, 1999, the writer left a phone message at the GREGORY residence requesting that someone call the CBI office to arrange for a brief interview. Having not received a return call, the writer telephoned on several additional occasions but did not leave additional messages.

On May 06, 1999, the writer called the GREGORY number, (303) 933-6897, and spoke with Scott. Scott GREGORY acknowledged that he was a student at Columbine High School, but stated that he had not seen anything on April 20 and saw no point in being interviewed.

The writer advised that the interview would be brief and needed to be done in person so that GREGORY could view a map of the cafeteria to identify where he was sitting. GREGORY stated that he had not been sitting in the cafeteria, and was outside during his lunch period, which is "A" lunch. GREGORY stated that he was eating his lunch outside on a grass area between the math and science rooms.

GREGORY stated that he entered the cafeteria around 11:10 AM, and purchased lunch inside the cafeteria. He then went outside and sat with Scott BEAVER. GREGORY stated that other students ran by them saying that someone was shooting, and the two then ran east across Pierce Street to Leawood Park. GREGORY stated that he heard two or three "pop" sounds before they began running, but never saw anything unusual.

GREGORY stated that he had seen KLEBOLD and HARRIS around but did not know them personally. He also advised that he was not into computers or electronic-mail.

The writer has attempted to contact GREGORY's parents, without success at the time of this report.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 04/26/99

Joyce JANKOWSKI, DOB: 01/10/54, was interviewed at her residence, 10842 Trailrider Pass, Littleton, Colorado on April 24, 1999 at approximately 1:47 PM. She was advised of the personal and professional identities of the writer and Agent Jerry Means of the Colorado Bureau of Investigation.

JANKOWSKI had been briefly interviewed on April 20, 1999 by Agent Means, in the back of a Sheridan Fire Department ambulance parked in the area of Columbine High School in Littleton shortly following the shooting.

JANKOWSKI was still upset over the events of that day, and was interviewed with her husband, Leo JANKOWSKI present. JANKOWSKI was asked to discuss the details of her observations while at Columbine High School on the day of the shooting. At the request of crime scene investigation personnel, special attention was paid to information regarding individuals with JANKOWSKI who had climbed into the suspended ceiling area in the cafeteria.

JANKOWSKI stated that at approximately 11:20 AM, she entered the cafeteria to get her lunch. JANKOWSKI pointed out that faculty members enter the kitchen/food preparation area, where faculty members line up to get their food without having to wait in line with students. JANKOWSKI obtained her food and proceeded into the faculty lounge, just west of the kitchen. JANKOWSKI put her food tray on a table, and noticed that there were two teachers present in the faculty lounge. JANKOWSKI believed that these were Judy GRECKO and Amy BURNETT.

JANKOWSKI saw the two teachers suddenly walk to the west-facing windows in the lounge, and as she looked out the windows in that direction she observed two bodies laying outside the back area on the west side of the cafeteria. Judy GRECO picked up a phone on a table within the lounge and attempted to call the main office, however the phone was apparently dead.

JANKOWSKI then heard what she believed to be several shots. She and Amy BURNETT ran into the small one-person bathroom attached to the faculty lounge. At that time cafeteria employee Karen LNU (Last Name Unknown), teacher Sue CARRUTHERS,

Investigation on 04/24/99 at Littleton, Colorado

File # 174A-DN-57419 / 99-7625 Date dictated 04/26/99

by Agent Frank R. Vanecek, CBI

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

and students Tim KASTLE, Nick FOSS, and Sean NOSSAMAN also ran into the bathroom. As they entered the bathroom, JANKOWSKI heard Nick FOSS state, "Oh my God, I saw some kid's face got shot off, and I got hit." JANKOWSKI stated that FOSS took off his shirt but did not recall seeing any injuries.

JANKOWSKI stated that teacher Judy GRECO, who had been it the faculty lounge earlier, was not in the bathroom. She called out to her, but did not see her nor get a response.

JANKOWSKI advised that she did not see any of the events which occurred in the cafeteria. She did hear loud voices, and a number of loud "bangs". JANKOWSKI stated that the noises sounded like they were coming from right outside their door, but may have been a distance away. Nick FOSS told them that the assailants had shotguns.

Approximately ten minutes later, they heard four quieter shots, which the group speculated were pistol shots. Nick FOSS said that he thought that was probably the police shooting at the suspects. JANKOWSKI also heard what she described as a "whoosh" sound, and what sounded like gas escaping. She stated that she also smelled an odor which she felt smelled like natural gas.

As the group remained huddled in the bathroom, they began to discuss concerns that the assailants would come in to get them. They opened the door, and JANKOWSKI observed the two downed subjects through the window. JANKOWSKI discussed running, but Karen LNU told her that she did not think that was a good idea.

Tim KASTLE suggested that they could go up into the suspended ceiling. KASTLE got on FOSS' shoulders and climbed up into the ceiling area. JANKOWSKI then climbed up on FOSS' shoulders and head, and climbed into the ceiling area as well. She observed a piece of material toward the west, in the direction she knew was the exterior wall. JANKOWSKI stated that the material looked like a piece of carpet padding, and she thought it might cover a vent leading to outside the building. She began to move in that direction, but almost immediately fell through the ceiling. She landed astraddle a cable, below the ceiling level, then dropped to the floor. She then knocked on the door, and was admitted back into the bathroom. Shortly after that, JANKOWSKI heard a loud explosion, which sounded close and caused everything in the room to shake.

Sue CARRUTHERS told JANKOWSKI to get her cell phone and try to call out. JANKOWSKI opened the bathroom door and looked out. She entered the faculty lounge and looked around, but could not find her purse. She then went back into the bathroom. She heard the second bell ring, and then another. Based on the bells, she estimated that 40 minutes had passed since they first went into the bathroom.

They then heard what JANKOWSKI described as intense voices which sounded as though they were right outside their door. JANKOWSKI heard two rather calm male voices outside the door, and the sound of some metal objects being moved.

JANKOWSKI waited a short period of time, and then opened the bathroom door. She noticed that the window she had looked at earlier was now broken out, and that the Venetian blind over the window was now down. They discussed whether they should run out, realizing that in order to get out they would have to briefly enter the cafeteria before exiting a door in the northwest corner of the cafeteria.

As they were doing this, a student-aged subject's head appeared in the open area in the ceiling above them. The subject told them that they should run off now. JANKOWSKI did not recognize the subject, but noted that he was wearing a red bandana, pulled over his hair. JANKOWSKI stated that she was later present at a faculty-student meeting held at a local church and heard that a special education student had crawled into the ceiling and had try to worn others to run out. JANKOWSKI did not hear the name of the student, but advised that the special education teacher is Chris RIDMIERSKI.

JANKOWSKI and the others then ran out of the building, through the cafeteria and out the northwest door. As JANKOWSKI reached a nearby marked police unit, she noted that Tim KASTLE was already waiting there. JANKOWSKI heard KASTLE tell the officer present that the only two people that he knew with black trench coats were Dylan KLEBOLD and FNU HARRIS (she did not hear the first name KASTLE mentioned).

JANKOWSKI was asked regarding her familiarity with the known suspects in this investigation. JANKOWSKI stated that she believed she had Dylan KLEBOLD in a class approximately two years earlier. Her recollection was that he was quiet, grade-conscious and creative.

JANKOWSKI advised that she had received an E-mail message from former student Charles PHILLIPS on April 21, 1999, indicating he had heard about the incident and asking if JANKOWSKI was all right. JANKOWSKI responded on April 22, and received another E-mail from PHILLIPS on that date. In that E-mail, PHILLIPS stated, " . . . I'm sure that you've seen the pictures in the news, and I'm in them. I'm more worried about Chris MORRIS, seeing that his pic and full name has been released. But so far nothing big has happened. He's at his brother's house now, and doing all right . . ." PHILLIP's screen name is noted to be "Da psyKo1". A copy of the E-mails is attached to this FD-302. A copy was also provided to SA Matt Helman of the FBI by the writer.

JANKOWSKI stated that PHILLIPS was a since-graduated former student who was "not part of the in-crowd, but a nice guy".

JANKOWSKI also expressed concern regarding a number of voice mail messages on her non-published home phone. The writer listened to these messages and noted that they included calls from an SA Keith Aken, FBI Sacramento (CA) and ATF SA Jack Keating, Washington D.C. The writer confirmed that SA Aken is assigned to the Sacramento office, but was unable to speak with him directly prior to the preparation of this FD 302. It appears that JANKOWSKI's phone number was somehow inadvertently noted as the command post number for operations in this investigation. JANKOWSKI was directed to notify the writer should any additional calls of this nature be received.

Darlene Rae MESCH, DOB 9/30/57 was interviewed at her residence, 6970 S. Lee Way, Littleton, Colorado on May 11, 1999. She was advised of the personal and professional identity of the writer. The writer was present at the residence interviewing her son David MESCH, a student at Columbine High School and was informed that Mrs. MESCH was also present at the school on April 20, 1999. Mrs. MESCH advised that she is employed as a Financial Aide at Columbine High School, and was working in the finance office at the school, which is located in the administration area in the northeast portion of the school.

MESCH stated that she was in the Financial Aid office standing by a safe counting money with the blinds to the office drawn when she heard approximately five pops. She shut the safe and spun the combination dial, and ran into the adjacent business office. She continued past the Principal's office to the Art Department, where she looked out a window which faces east toward the faculty parking lot. MESCH advised that she did not see anyone in the lot, which did not seem right to her. She then ran to the band room, out the hallway and out the north doors which lead to the area of the tennis courts.

MESCH saw a lot of students standing by the fence line near the tennis courts. She heard a man's voice shouting that someone was shooting outside of the building, and the students began jumping the fence and running north into Clement Park. MESCH stated that she remained in the area of the park, and was picked up there by her husband approximately 1 ½ hours later.

MESCH advised that she never saw the gunmen, or anything else unusual during the time period described. She stated that she had some contact with Eric HARRIS and Dylan KLEBOLD in the finance office in the past, but never had problems with either student.

MESCH stated that she had heard that someone had seen four subjects carrying bags on their backs on the day of the shooting. MESCH heard this from her supervisor, Mona MADDEN, who stated that the party who supposedly made this observation was student Matt KATZEMEYER.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 5/20/99

Michelle Ann BOUDREAU, DOB 03/07/80, was interviewed at her residence 6843 S. Zephyr Street, Littleton, Colorado on May 6, 1999 at approximately 1140 AM. She was advised of the personal and professional identity of the writer. Michelle BOUDREAU is the sister of Columbine High School student Nicole BOUDREAU, and was present at the residence while the writer interviewed Nicole BOUDREAU. During that interview, which took place on the same date, Michelle BOUDREAU advised the writer that she had previously dated Trench Coat Mafia member Chris MORRIS.

Michelle BOUDREAU advised that she was a former student of Columbine High School and became acquainted with Chris MORRIS shortly prior to the 1997 Homecoming in the fall of 1997. MORRIS occasionally hung out at the table she sat at during lunch. MORRIS was a sophomore while BOUDREAU was a junior.

BOUDREAU and MORRIS began to date, but after about a month she felt he was obsessive and very possessive. He would follow her around, and show up outside the door to her classroom frequently. He frequently walked her home, even though he lived in the opposite direction. BOUDREAU stated that MORRIS began to talk about hunting a lot, which caused her to further lose interest in him as she does not like hunting.

BOUDREAU stated that on the day she broke up with MORRIS, he pulled a knife on Eric DUTROW. BOUDREAU was not present, but heard that the police had been called, and that MORRIS had told the police that BOUDREAU had told him to pull the knife on DUTROW.

BOUDREAU advised that the following school year MORRIS and other Trench Coat Mafia members hung out in the area of the table she sat at in the cafeteria, and in the area outside the choir room door. She overheard them on occasion talking about Nazi history, the incident at Waco, Texas and cults. BOUDREAU stated that they all seemed to have knowledge about guns, particularly Charles PHILLIPS. He was apparently an avid hunter, and occasionally brought gun catalogs to school.

BOUDREAU also heard Chris MORRIS and Charles PHILLIPS talking about the Anarchist Cookbook, and occasionally brought a

copy of it to school. She never saw any pipe bombs or other devices, and did not know if they had made any.

BOUDREAU stated that she had seen a news segment on Channel 7 about a video made at the school which ended with a scene where the school was blown up. BOUDREAU stated that she was involved in the production of that video, which she described as being a parody of the movie "Independence Day". BOUDREAU advised that others involved with the production were Scott FUSELLIER, John WEIRS, Karl BROMAN, and Sean LNU.

BOUDREAU stated that the video included scenes involving armed individuals wearing trench coats, carrying guns similar to those described as being subsequently used in the shootings at Columbine High School. One scene in the video involved a shootout in the parking lot of the school.

BOUDREAU advised that she did not have a copy of the video, but heard that Brooks BROWN had provided a copy to the producers of Inside Edition.

BOUDREAU stated that she had some contact with Dylan KLEBOLD during the 1998 school year, when he ran sound for a talent show. BOUDREAU also worked sound, and had some conversations with KLEBOLD. She stated that these were all regarding their tasks, and that she had not unusual conversations with him.

BOUDREAU advised that she is currently a student at University of Northern Colorado at Greeley where she is living in a dorm, but would soon be returning home and could best be reached at the residence in Littleton, Colorado.

Date of transcription 05/10/99

Quinn Allison BOORTZ, date of birth 12/18/83, was interviewed at her residence, 6139 S. Fenton Ct., Littleton, Colorado on May 04, 1999 at approximately 7:30 PM. BOORTZ' mother was present for the interview. They were advised of the personal and professional identity of the writer, and the purpose of the interview.

BOORTZ advised that she is a freshman at Columbine High School and was present in the cafeteria on April 20, 1999, during the shooting which occurred at the high school. BOORTZ stated that she has "A" lunch, and entered the cafeteria at approximately 11:15 AM. She bought lunch at the Rebel Corner, which is the student store. She sat at a table in the area adjacent to the cafeteria just outside of the Rebel Store. BOORTZ stated that she sat with Megan MULVANEY, Kate REBROVIC, Laura FARBER and Travis JONES.

BOORTZ stated that she began eating her lunch when people began running by their table. BOORTZ overheard someone saying something about someone getting shot. She went out the south doors and began moving in a northwesterly direction along the cafeteria windows. As she did so, she observed two bodies down on the ground, so she turned around and went back into the cafeteria through the door she had exited through.

When BOORTZ entered the cafeteria, some janitors were telling people to get under the tables. She got under a nearby table, where she stayed for approximately 30 to 40 seconds. She noticed that everyone was running out, and she then ran back out the south door once again. She ran across the south parking lot, then south on Pierce Street to Polk Avenue. She stopped at a house on the corner and knocked on the door but did not receive a response. She and several other students then knocked on a door four houses down, where they were allowed to enter. BOORTZ recalled that some of the students in the house with her included Brooke ALLISON, B.J. SECORD, Megan MULVANEY, Laura FARBER, Amy STALEY, Mike FOSTER and Colleen SCHWARZOTT.

BOORTZ stated that she did not see any duffel bags or anything else unusual while in the cafeteria. She advised that

she had been wearing a blue short sleeve shirt with a white collar and blue jeans.

BOORTZ advised that she had Eric HARRIS in gym class last semester, and thought he seemed like a "wannabe jock". She had only seen him once in a trench coat. She did not know any other members or associates of the Trench Coat Mafia.

While at the BOORTZ' residence, Quinn's father Gary BOORTZ advised the writer that his daughter Erin's white 1992 Chevrolet Blazer, Colorado license HJP050, had sustained several bullet holes while parked in the school lot. Gary BOORTZ stated that the vehicle was released to him on Friday, April 30 by a trooper from the Colorado State Patrol. BOORTZ pointed out the bullet holes and damage to the trooper. The trooper told BOORTZ that the vehicle had probably been processed, but took photographs. BOORTZ stated that he entered the vehicle and found a relatively intact bullet inside, which he provided to the trooper.

BOORTZ stated that after returning home he began to clean up the interior vehicle, which contained a lot of broken glass. While doing so, BOORTZ found a small piece of what he believed might be a bullet. The writer examined the object, which does appear to be a piece of copper-jacketing from a bullet. BOORTZ advised that he recovered the bullet material from the floor area below the steering wheel. BOORTZ stated that he was told that Sgt. Chris Tomford of the Jefferson County Sheriff's Department would be calling him to pick the object up, but had not received a call.

The writer agreed to take possession of the bullet material and provide it to the Jefferson County Sheriff's Department. The writer contacted Sgt. Tomford, who advised that she had not been told about the bullet. The writer will be booking the bullet into Jefferson County Sheriff's evidence.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 05/11/99

Nicole Marie BOUDREAU, date of birth 07/02/83, was interviewed at her residence, 6843 S. Zephyr St., Littleton, Colorado, on May 06, 1999 at approximately 1100 hours. Her mother was present during the interview, and her sister Michelle was present during a portion of the interview. They were advised of the personal and professional identity of the reporting agent and the purpose for the interview.

BOUDREAU advised that she is a freshman at Columbine High School and has "A" lunch. On April 20, 1999, she entered the cafeteria at approximately 11:20 AM. She had first stopped off at her locker, and checked for a friend in the library who was not there.

BOUDREAU stated that she had brought her lunch, and took a seat at what she believed was table "O" on the map shown to her by the writer. Seated with her at the table were Katherine CARLSTON, Candace HEYWOOD, Elena SCHULTZ, Lacey ILONE, Jennifer BARNES and Michelle LNU.

BOUDREAU heard someone shouting for everyone to get down, and thought that someone was playing a senior prank. She saw others getting under tables, and was then pushed under her table by someone.

Other students in the cafeteria then began to run east towards the stairs, and BOUDREAU did the same. She ran up the stairs and toward the math and science building, exiting the east door which faces towards Pierce Street. She then ran across Pierce Street to Leawood Park, and ultimately into a nearby house. She stated that the house belonged to the parents of Eric and Christine LONG, fellow student's at Columbine High School. BOUDREAU advised that there were a large number of students present at the house. She could not estimate how many but later heard that there were approximately 100 to 150.

BOUDREAU stated that she did not see any unusual bags or objects within the cafeteria area. While still in the cafeteria, BOUDREAU heard several low "boom" sounds, and a lot of screaming. She could not tell where the sounds came from. She did not see the suspects at any time.

Investigation on 05/06/99 at Littleton, Colorado

it and its contents are not to be distributed outside your agency.

4-DN-57419 / 99-7625 (Jeffco)

BOUDREAU advised that she had spoken to Dylan KLEBOLD before, having worked together on the production of the school play of Frankenstein. KLEBOLD worked sound while BOUDREAU was responsible for pyrotechnics. She advised that they engaged in small talk on less than five occasions, never discussing anything relevant or which would provide insight with regard to this investigation. BOUDREAU stated that the pyrotechnics used were flashpots, which were carefully controlled and kept at her home, with her parent's knowledge (her mother acknowledged this to the writer). BOUDREAU stated that she and KLEBOLD never had any discussions about pyrotechnics.

BOUDREAU advised that she knew a number of the "Trench Coat Mafia" members, primarily from the previous school year. She stated that she had little contact with them this year. She identified the subjects she knew as Alex MARSH (a female), Thaddeus "Tad" BOLES, Charles "Chuckie" PHILLIPS, Pauline LNU and Chris CORDOVA. BOUDREAU stated that she knew several of these individuals from classes, and knew Pauline and Alex from Art Club. BOUDREAU stated that she never heard any of these individuals talk about violence, guns, or pipe bombs.

BOUDREAU advised that she has access to the Internet through America Online. Her screen name is WOMBAT5899. She was not aware of the Eric Harris Website and did not access it at any time.

BOUDREAU did not hear or see any school announcements on the date of the shootings. She later heard that the thought of the day was, "You don't want to be here today".

Sarah Jean CAIN, DOB 12/17/82 was interviewed at her residence, 6253 W. Caley Ave., Littleton, Colorado, on May 11, 1999 ata approximately 10:00 AM. She was advised of the personal and professional identity of the writer and the purpose of the interview. CAIN advised that she had spoken with her parents at the writer's request regarding the interview, but that they were not at the residence and would be arriving shortly. CAIN advised that it was all right with her parents if the interview was begun before they were present.

CAIN stated that she is a sophomore at Columbine High School and has "A" lunch period. On April 20, 1999, she entered the cafeteria after coming from science class. She brought her lunch on that day and sat at a table in the cafeteria. CAIN was shown a copy of the cafeteria diagram, and identified the table she sat at as being "LL" on the diagram. She advised that there were approximately five other students sitting at the table with her. She specifically recalled the following being present: Sarah HOLTON, AnnMarie PATRICCA, Christina ROWER, and Laura VANDERHAM.

CAIN stated that a short time after she sat down she saw a number of students suddenly stand up. CAIN initially thought a fight was breaking out, but then saw that a number of students started climbing under their tables.

CAIN looked in the direction of the windows on the west side of the cafeteria, and observed what appeared to be a white puff of smoke. At the same time she heard someone shouting for people to run, and something about someone having a gun. CAIN thought that the voice sounded like that of a male faculty member, and speculated that it might have been Mr. Sanders. She also saw custodians running back and forth.

CAIN heard several popping sounds which she described as sounding like firecrackers exploding. CAIN ran from the cafeteria up the stairs to the upper level and then east down the hallway adjacent to the math wing. She exitted the building via the east door by the math wing, and ran across Pierce Street to Leawood Park.

Investigation on 5/11/99 at Littleton, Colorado

File # 174A-DN-57419 / 99-7625 (Jeffco) Date dictated 5/26/99

by Agent Frank R. Vanecek, CBI FRV

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

CAIN stated that a female faculty member she was not familiar with was at the park, and told everyone to hide behind trees. CAIN stated that she was at Leawood Park for about 5 to 10 minutes before she went home.

CAIN stated that she never saw the gunman, nor any other unusual objects while in the cafeteria or running through the school. She did not recall hearing any announcements at the school that morning.

CAIN advised that she did not know Eric HARRIS or Dylan KLEBOLD. She had seen individuals wearing dark trench coats on campus in the past, but had not heard the name "Trench Coat Mafia" until after the shooting at CHS.

CAIN's parents did not return prior to completion of the brief interview. CAIN's mother called and spoke with Sarah CAIN, who advised her that the interview had been completed. The writer requested that Sarah CAIN ask her if she had any questions for the writer. CAIN asked her mother and advised that she did not.

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 04/23/99

Bryan William KENNEDY, Date of Birth: September 02, 1982 was contacted by the interviewing agents on April 23, 1999, at the Juvenile Assessment Center, 1200 Johnson Rd., Golden, Colorado. He was advised of the personal and professional identities of the writer and Investigator Thomas Wilson of the Aurora Police Department.

KENNEDY was being detained at the request of the staff at Dakota Ridge High School for interfering with educators, and was being interviewed by Juvenile Assessment Specialist Dave Bell upon the arrival of the investigators. During this time, the writer and Investigator Wilson spoke with Bryan's father, Kevin KENNEDY, who had responded to pick up his son at the center.

Investigators advised the senior KENNEDY of the desire to speak with Bryan regarding statements attributed to him, which evidently led to his detention at the school. Mr. KENNEDY advised that he had no objections to his son being interviewed. Mr. KENNEDY advised that he did not have any knowledge of Bryan bringing a pipebomb to school, but stated that Brian had extensive knowledge about bombs and electronics. Mr. KENNEDY stated that Bryan got his information from the Internet. He stated that Bryan would never hurt anybody, and refused to hunt because he did not want to hurt animals.

Bryan KENNEDY was released from the Juvenile Assessment Center by Dave Bell at approximately 1:50 PM. Bryan agreed to be interviewed by the investigators, and an interview room at the assessment center was made available for that purpose. Bryan was advised that he was not in custody, and was free to leave at any time. Bryan's father was present for the interview.

Bryan currently resides at 6180 S. Quail Way, Littleton, Colorado, phone (303) 932-9860.

Bryan advised investigators that he understood that he had originally been brought to the center based on some statements he had originally made. Bryan stated that apparently two or more students were upset by statements he made at Dakota Ridge High School, where he is a sophomore. Bryan stated that he heard that the statements attributed to him were things like,

Investigation on 04/23/99 at Golden, Colorado

File # 4-DN-57405 Date dictated 04/23/99

by Agent Frank R. Vanecek, CBI

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency;

"This isn't over yet" (referring to the Columbine High School event) and statements suggesting that Bryan was contemplating doing the same thing at Dakota Ridge. Bryan denied making any such statements. He stated that everyone on campus was talking about the Columbine incident, and he engaged in several conversations with others on the subject. Bryan stated that he believed that someone may have overheard one of these conversations and misconstrued what he said. He acknowledged that he did say something to the effect that this was not over yet, but based this on a conversation with a fellow student and neighbor who's father is a SWAT team member.

The preliminary information provided to investigators prior to the interview suggested that Bryan had been seen with a pipe bomb on campus a week earlier. When asked about this, Bryan stated that he had not brought a pipe bomb to school, and had never been contacted by authorities in reference to having one during that time period. Bryan mentioned that he was involved in working on computer hardware, and often brought various parts to school. He stated that someone may have seen one of these on thought it was some type of explosive device. Bryan stated that he recalled several occasions in the past when someone would jokingly ask him if what he had was a bomb, and believes he probably answered "yes" on at least one occasion.

Bryan advised that he had made pipe bombs in the past, and had downloaded copies of the Anarchist Cookbook from the Internet. Bryan stated that he printed the cookbook up, and made some changes on it on things he felt were incorrect. Bryan stated that other projects he attempted from the cookbook were something called RDX, an explosive substance reported to be ten times as powerful as C-4. Bryan also attempted to make napalm, using gasoline and soap. Bryan stated that he never blew up any object with the devices, and always blew them off in sandy areas away from flammable substances.

Bryan stated that the only pipe bombs he made were made using copper pipe, which would not have "hard frags" when they blew up. He advised that he obtained the powder for the device from fireworks he had obtained, including "artillery cannonballs".

Bryan stated that his family recently signed up on America On Line (AOL), but that he had only used it once. Bryan was asked his screen name, and stated that he had forgotten it the last time he attempted to log on. The writer reminded him that the screen name usually comes up on the screen during log on, while the password is hidden. Bryan then remembered that his screen name was Mothra1492. He stated that Mothra was a fictional character in the Japanese Godzilla films. He stated that there was no significance to the "1492" number sequence at the end of the screen name.

Bryan advised that he often used the computer at school, and at a neighbor's across the street to access the Internet. He advised that the neighbor's name was Chris ALVARADO. He stated that he did not have a web page, but that his friend, Will RICE, was building him one.

Bryan stated that he attended a summer school session at Columbine High School last summer, but did not know anyone from CHS currently. He advised that he was not familiar with any of the victims or suspects identified in the media regarding the CHS event. He stated that he was not acquainted with any members of the "Trenchcoat Mafia", and was not a member of any group on campus. He did advise that he has some friends who are "Goths".

Bryan stated that he has few friends, and named classmate Will RICE as his closest friend. Investigators noted that some of the statements from students mentioned Bryan and a subject named "Clint", and Bryan was asked if he had a friend by that name. Bryan stated that he did have a friend named Clint CRISWELL.

Bryan advised that during the previous school year he had been contacted by a federal agent from an unknown agency and asked about his knowledge and involvement with explosives, which he stated he discussed in detail with the agent.

Bryan told investigators that he had heard other parties discussing the fact that Columbine High School was the third one on "the list", and that Chatfield was first and Dakota Ridge the second. Bryan stated that he thought this information was obtained from the Internet. Bryan stated that he heard this around from several people. When pushed for a name, he stated

4-DN-57405

that he thought it was someone named "Cory" whose last name he did not know.

FD-302 (Rev. 10-6-95)

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 04/24/99

Kevin David KENNEDY was contacted at his residence, 6180 S. Quail Way, Littleton, Colorado, on April 23, 1999, at approximately 8:10 PM. He was advised of the personal and professional identities of the writer and Investigator Thomas Wilson of the Aurora Police Department. The investigators had met with KENNEDY and his son Bryan earlier at the Juvenile Assessment Center in Golden, Colorado. That interview was prompted by statements Bryan had allegedly made at his school, Dakota Ridge High School. The results of that interview are covered in a separate FD-302, this case number.

At the request of Sergeant Kenneth Ester of the Jefferson County Sheriff's Department, the writer and Investigator Wilson responded to the residence in order to request permission to search the residence for any potential explosive devices or weapons.

KENNEDY advised that he had just found out that Bryan had been picked up by Jefferson County Sheriff's Deputies and was apparently transported to Littleton Porter Hospital for a mental health evaluation.

KENNEDY and his wife, Susan, were advised of the purpose of the investigator's visit, and the desire to make sure that Brian was not currently in possession of any explosive devices or weapons. The KENNEDY's offered to allow investigators to conduct a search of areas used by Bryan. Both signed a consent to search form, and then led investigators to several areas within the residence. Investigators searched an upstairs room with a computer, an adjoining bedroom, the garage, and basement workshop of the residence. No contraband was observed. Investigators did note the sparseness of Bryan's personal possessions and very neat condition of the rooms. The KENNEDY's advised that they kept on Bryan to keep the rooms neat, and said that he spent a lot of time at friend's homes.

The consent to search form was retained by Investigator Thomas Wilson of the Aurora Police Department.

Investigation on 04/23/99 at Littleton, Colorado

File # 4-DN-57405 Date dictated 04/24/99

FD-302 (Rev. 10-6-95)

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 04/26/99

Joyce JANKOWSKI, DOB: 01/10/54, was interviewed at her residence, 10842 Trailrider Pass, Littleton, Colorado on April 24, 1999 at approximately 1:47 PM. She was advised of the personal and professional identities of the writer and Agent Jerry Means of the Colorado Bureau of Investigation.

JANKOWSKI had been briefly interviewed on April 20, 1999 by Agent Means, in the back of a Sheridan Fire Department ambulance parked in the area of Columbine High School in Littleton shortly following the shooting.

JANKOWSKI was still upset over the events of that day, and was interviewed with her husband, Leo JANKOWSKI present. JANKOWSKI was asked to discuss the details of her observations while at Columbine High School on the day of the shooting. At the request of crime scene investigation personnel, special attention was paid to information regarding individuals with JANKOWSKI who had climbed into the suspended ceiling area in the cafeteria.

JANKOWSKI stated that at approximately 11:20 AM, she entered the cafeteria to get her lunch. JANKOWSKI pointed out that faculty members enter the kitchen/food preparation area, where faculty members line up to get their food without having to wait in line with students. JANKOWSKI obtained her food and proceeded into the faculty lounge, just west of the kitchen. JANKOWSKI put her food tray on a table, and noticed that there were two teachers present in the faculty lounge. JANKOWSKI believed that these were Judy GRECKO and Amy BURNETT.

JANKOWSKI saw the two teachers suddenly walk to the west-facing windows in the lounge, and as she looked out the windows in that direction she observed two bodies laying outside the back area on the west side of the cafeteria. Judy GRECO picked up a phone on a table within the lounge and attempted to call the main office, however the phone was apparently dead.

JANKOWSKI then heard what she believed to be several shots. She and Amy BURNETT ran into the small one-person bathroom attached to the faculty lounge. At that time cafeteria employee Karen LNU (Last Name Unknown), teacher Sue CARRUTHERS,

Investigation on 04/24/99 at Littleton, Colorado

File # 174A-DN-57419 / 99-7625 Date dictated 04/26/99

by Agent Frank R. Vanecek, CBI

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency;

and students Tim KASTLE, Nick FOSS, and Sean NOSSAMAN also ran into the bathroom. As they entered the bathroom, JANKOWSKI heard Nick FOSS state, "Oh my God, I saw some kid's face got shot off, and I got hit." JANKOWSKI stated that FOSS took off his shirt but did not recall seeing any injuries.

JANKOWSKI stated that teacher Judy GRECO, who had been it the faculty lounge earlier, was not in the bathroom. She called out to her, but did not see her nor get a response.

JANKOWSKI advised that she did not see any of the events which occurred in the cafeteria. She did hear loud voices, and a number of loud "bangs". JANKOWSKI stated that the noises sounded like they were coming from right outside their door, but may have been a distance away. Nick FOSS told them that the assailants had shotguns.

Approximately ten minutes later, they heard four quieter shots, which the group speculated were pistol shots. Nick FOSS said that he thought that was probably the police shooting at the suspects. JANKOWSKI also heard what she described as a "whoosh" sound, and what sounded like gas escaping. She stated that she also smelled an odor which she felt smelled like natural gas.

As the group remained huddled in the bathroom, they began to discuss concerns that the assailants would come in to get them. They opened the door, and JANKOWSKI observed the two downed subjects through the window. JANKOWSKI discussed running, but Karen LNU told her that she did not think that was a good idea.

Tim KASTLE suggested that they could go up into the suspended ceiling. KASTLE got on FOSS' shoulders and climbed up into the ceiling area. JANKOWSKI then climbed up on FOSS' shoulders and head, and climbed into the ceiling area as well. She observed a piece of material toward the west, in the direction she knew was the exterior wall. JANKOWSKI stated that the material looked like a piece of carpet padding, and she thought it might cover a vent leading to outside the building. She began to move in that direction, but almost immediately fell through the ceiling. She landed astraddle a cable, below the ceiling level, then dropped to the floor. She then knocked on the door, and was admitted back into the bathroom. Shortly after that, JANKOWSKI heard a loud explosion, which sounded close and caused everything in the room to shake.

Sue CARRUTHERS told JANKOWSKI to get her cell phone and try to call out. JANKOWSKI opened the bathroom door and looked out. She entered the faculty lounge and looked around, but could not find her purse. She then went back into the bathroom. She heard the second bell ring, and then another. Based on the bells, she estimated that 40 minutes had passed since they first went into the bathroom.

They then heard what JANKOWSKI described as intense voices which sounded as though they were right outside their door. JANKOWSKI heard two rather calm male voices outside the door, and the sound of some metal objects being moved.

JANKOWSKI waited a short period of time, and then opened the bathroom door. She noticed that the window she had looked at earlier was now broken out, and that the Venetian blind over the window was now down. They discussed whether they should run out, realizing that in order to get out they would have to briefly enter the cafeteria before exiting a door in the northwest corner of the cafeteria.

As they were doing this, a student-aged subject's head appeared in the open area in the ceiling above them. The subject told them that they should run off now. JANKOWSKI did not recognize the subject, but noted that he was wearing a red bandana, pulled over his hair. JANKOWSKI stated that she was later present at a faculty-student meeting held at a local church and heard that a special education student had crawled into the ceiling and had try to worn others to run out. JANKOWSKI did not hear the name of the student, but advised that the special education teacher is Chris RIDMIERSKI.

JANKOWSKI and the others then ran out of the building, through the cafeteria and out the northwest door. As JANKOWSKI reached a nearby marked police unit, she noted that Tim KASTLE was already waiting there. JANKOWSKI heard KASTLE tell the officer present that the only two people that he knew with black trench coats were Dylan KLEBOLD and FNU HARRIS (she did not hear the first name KASTLE mentioned).

JANKOWSKI was asked regarding her familiarity with the known suspects in this investigation. JANKOWSKI stated that she believed she had Dylan KLEBOLD in a class approximately two years earlier. Her recollection was that he was quiet, grade-conscious and creative.

JANKOWSKI advised that she had received an E-mail message from former student Charles PHILLIPS on April 21, 1999, indicating he had heard about the incident and asking if JANKOWSKI was all right. JANKOWSKI responded on April 22, and received another E-mail from PHILLIPS on that date. In that E-mail, PHILLIPS stated, " . . . I'm sure that you've seen the pictures in the news, and I'm in them. I'm more worried about Chris MORRIS, seeing that his pic and full name has been released. But so far nothing big has happened. He's at his brother's house now, and doing all right . . ." PHILLIP's screen name is noted to be "Da psyKo1". A copy of the E-mails is attached to this FD-302. A copy was also provided to SA Matt Helman of the FBI by the writer.

JANKOWSKI stated that PHILLIPS was a since-graduated former student who was "not part of the in-crowd, but a nice guy".

JANKOWSKI also expressed concern regarding a number of voice mail messages on her non-published home phone. The writer listened to these messages and noted that they included calls from an SA Keith Aken, FBI Sacramento (CA) and ATF SA Jack Keating, Washington D.C. The writer confirmed that SA Aken is assigned to the Sacramento office, but was unable to speak with him directly prior to the preparation of this FD 302. It appears that JANKOWSKI's phone number was somehow inadvertently noted as the command post number for operations in this investigation. JANKOWSKI was directed to notify the writer should any additional calls of this nature be received.

FD-302 (Rev. 10-6-95)

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 04/27/99

Timothy Earl KASTLE, DOB: 07/04/81, was contacted at his residence, 8973 Brandt Place, Littleton, Colorado on April 24, 1999 at approximately 4:30 PM. He was advised of the personal and professional identities of the writer and Agent Jerry Means of the Colorado Bureau of Investigation. KASTLE's parents, Earl and Kim KASTLE, were present during the interview.

KASTLE advised that he is a senior at Columbine High School. He advised that on April 20, 1999 he was in the cafeteria talking to a friend, Adam SANDS, who was seated by the west window of the cafeteria. KASTLE said that he was not planning to have lunch in the cafeteria, but just stopped by to see friends.

KASTLE stated that he suddenly heard two loud bangs, and then heard a teacher, Mr. SANDERS, shout at everyone to get down. KASTLE stated that he first went into the kitchen, and then into the teacher's lounge. He overheard someone saying that someone had been shot.

KASTLE went into the bathroom, where he was joined by students Nick FOSS and Sean NOSSAMAN, and teachers Sue CARRUTHERS, Joyce JANKOWSKI and a female teacher whom he did not know.

KASTLE stated that when he went into the faculty lounge, he could see two bodies laying outside the window on the west side of the cafeteria. One of these subjects appeared to have had his face shot.

They locked the bathroom door, and heard numerous noises including loud bangs, screaming and the sound of people running. KASTLE stated that the sounds seemed to be coming from right outside the door.

Concerned that someone might come in to get them, they began to discuss climbing up in the ceiling to hide or escape. KASTLE climbed up into the ceiling, then assisted Joyce JANKOWSKI in getting up into the suspended ceiling area. JANKOWSKI moved to the west to an area just beyond the bathroom wall, over the area of the faculty lounge. JANKOWSKI then fell through the

Investigation on 04/24/99 at Littleton, Colorado

File # 174A-DN-57419 / 99-7625 (Jeffco) Date dictated 04/27/99

by Agent Frank R. Vanecek, CBI

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency;

ceiling, and into the lounge. She then scrambled back into the bathroom.

KASTLE stated that he crawled on top of a metal heating duct, and moved toward the kitchen, looking for a place to hide. As he did so, he knocked several ceiling tiles off in the area of a small bathroom which services the kitchen, and which is adjacent to the bathroom they had been hiding in.

KASTLE then began moving west, following the metal ductwork and then moving along a metal pipe held up by some wires. As KASTLE reached the area of the west wall, he looked back to the area over the bathroom in the kitchen area. As he did, he observed a subject in that area, whose head was just above the ceiling area. KASTLE said that the subject was pointing what he believed was a shotgun at him. He advised that he based this on the manner in which the subject pointed the gun at him. KASTLE stated that it was dark, and he could not see the subject well. He described the subject as having shoulder-length dark hair. KASTLE stated that he believed that the subject was Dylan KLEBOLD. He said he based this on the fact that the subject had not shot him, as KASTLE advised he is a friend of KLEBOLD's. KASTLE stated that the hair he described did not fit KLEBOLD, and nothing about what he observed of the subject led him to his conclusion that the subject could be KLEBOLD.

KASTLE kicked the ceiling tiles down where he was, and dropped through the ceiling. He landed in the faculty lounge next to the window through which he and others had earlier seen the bodies. KASTLE stated that at that time the window was intact. He then escaped the building via the door located just within the cafeteria area and ran to a marked police unit on the west side. He glanced toward the cafeteria area as he ran out, and did not see anyone inside. KASTLE stated that approximately one or two minutes later he saw Sean NOSSAMAN, Nick FOSS, and two of the teachers run out. FOSS later told him that he too had gone up into the ceiling area.

KASTLE recalled that at some point while they were in the bathroom area, Nick FOSS said that one of the shooter's was "the kid in the next class that wore glasses - Dylan". KASTLE also recalled a conversation with Nate DYKEMAN in which DYKEMAN commented that Eric HARRIS and Dylan KLEBOLD were not at school.

DYKEMAN told KASTLE that they had to be up to something, as they were never gone together in the past.

KASTLE described himself as being a friend of Dylan KLEBOLD's. He stated that he had talked to him the previous evening and were talking about some trades involving their fantasy baseball teams. He recalled that KLEBOLD talked about working a trade with Adam SANDS for player Roger Clemons. KASTLE characterized the conversation as being very normal, as was KLEBOLD's mood and demeanor.

KASTLE stated that he has known Dylan KLEBOLD for approximately three years, through school and their joint interest in fantasy baseball. KASTLE stated that he has had KLEBOLD in at least one class each semester since his second semester at Columbine High School.

KASTLE advised that there is a group of individuals who participate in the fantasy baseball league, and utilize a website belonging to Chad LAUGHLIN. KASTLE advised that the Internet address for the website is HTTP://members.AOL.com/orgasmo007. KASTLE stated that he only recently got an E-mail account, and has never received any E-mail on it. He advised that his screen name is "saltysquirts99", and his password is "wackit".

KASTLE stated that the "team owners" of the fantasy baseball teams included himself, Dylan KLEBOLD, Adam SANDS, Chad LAUGHLIN, Cliff ANDREWS, Ben HANSON, Dan PALMENTER, Jason SANDS, Jason FRASIER, Justin PALMENTER, Chris HOWELL, and Dan HALSEY.

KASTLE stated that he talked to KLEBOLD on a daily basis and currently had a class with him in fourth hour. They are both involved in video production. KASTLE stated that he has heard media accounts about videos that KLEBOLD allegedly made which depicted events similar to what occurred at CHS on 04/20/99. KASTLE stated that he never saw any such video.

KASTLE stated that he is not a member of the group which has come to be known as the "Trenchcoat Mafia", but has another friend who is named Nate DYKEMAN. KASTLE stated that DYKEMAN worked with Eric HARRIS and KLEBOLD at Blackjack Pizza, and that DYKEMAN was KLEBOLD's best friend until DYKEMAN became involved with Kristi EPPLING.

Date of transcription 05/06/99

Benjamin Wade SMITH was interviewed at his residence, 9742 W. Brandt Place, Littleton, Colorado, phone (303) 932-1265 on April 30, 1999 at approximately 1:40 PM. He was advised of the personal and professional identity of the writer, and the purpose of the interview.

SMITH confirmed that he was present in the cafeteria on April 20, 1999, prior to the incident which ultimately occurred there, and that he had left his black Jansport backpack in the cafeteria. SMITH viewed a map of the cafeteria, and indicated that he believed he had been sitting at what is identified as table "Y". SMITH believed that five other students had been sitting with him. He identified these as being Joey LNU, Matt ZAGO, Brad BOOTSMA, Kevin LNU and Chad SHARPLEY.

SMITH advised that he had entered the cafeteria at just after 1110 AM and obtained his food from the cafeteria serving line. He estimated that he was in line for approximately three minutes before getting his food and sitting at the table. While walking through the cafeteria and to his table he did not observe any unusual objects or duffel bags.

SMITH stated that he was seated facing in a southwesterly direction, toward the windows on the west side of the cafeteria. He suddenly heard the sound of a number of chairs moving, and thought that a fight may have broken out. SMITH then observed Mr. Sanders and a janitor telling everyone to get under the tables. A short time later, Mr. Sanders told everyone to get out of the cafeteria.

SMITH fled the cafeteria and went into a classroom on the lower level, which he believed was room FL-3. SMITH hid under a desk in the classroom, and estimated that approximately 25 to 30 others also hid in the room. He recalled seeing two female adults in the room who he believed were teachers, but did not know either of them. After approximately two to three minutes he ran outside through a door on the south side, and through the student parking lot on the south side of the school. SMITH stated that he continued to run until he came to a Mormon seminary house in the area of Polk Street.

SMITH stated that while he was hiding in the classroom he had heard two loud explosions. He indicated that he felt that the sound had come from upstairs, possibly the area of the library.

SMITH stated that he did not see either of the suspects or any shooting. He was not acquainted with either, although had seen Dylan KLEBOLD around school and knew who he was. He had seen individuals on campus wearing black trench coats and had heard the name "Trench Coat Mafia", but did not know anything about the group.

Ryan Benjamin HASTEN, date of birth: 03/20/84, was interviewed at his residence, 7842 S. Lamar Street, Littleton, Colorado on April 27, 1999. He was advised of the personal and professional identity of the writer and the purpose of the interview. HASTEN's mother, Terry HASTEN, was present for the interview.

HASTEN advised that he is a freshman at Columbine High School, and did in fact leave his blue Nike backpack in the cafeteria at the high school on April 20, 1999, following the incident there. HASTEN stated that he is on "A" lunch schedule, and had entered the cafeteria at approximately 11:25 AM. HASTEN bought lunch in the cafeteria, and took a seat in the main cafeteria area. HASTEN was shown a map of the cafeteria by the writer, and advised that he believed he had been sitting at table QQ on that map.

HASTEN stated that he was sitting with Kyle MICHELSON, Chris CARLSTEDT and John STOCKING, fellow freshman. HASTEN pointed out what he recalled to be their seating location on that date.

HASTEN stated that he had just sat down to eat when he heard a noise outside, which he described as a bang which sounded similar to a firecracker going off. HASTEN saw teacher Dave SANDERS exit out the west door by the faculty lounge to the area outside the cafeteria. HASTEN stated that as he was going out, he heard SANDERS telling everyone to get under their tables.

Within ten to fifteen seconds Mr. SANDERS came back into the cafeteria through the same door, and was yelling for everyone to run. HASTEN did not think that Mr. SANDERS appeared to be injured at that time.

HASTEN stated that he ran up the stairs on the east side of the cafeteria and into the hallway above. An unknown teacher was telling people to go into the auditorium, and HASTEN went inside. Not feeling comfortable there, HASTEN continued to run through the cafeteria, down the main hallway past the administrative offices and out into the faculty parking lot on the south side of the school. He then began running north toward

Clement Park. He saw a marked police unit driving south through the park toward the high school, and as he approached it the deputy driving it told him to keep running.

HASTEN advised that as he ran out the main entry doors, he saw that several of the doors and windows were broken out. He also stated that he heard several bangs while running through the building, which were not too loud. He did not know if the bangs were coming from within or outside of the building.

HASTEN stated that he did not see the suspects at any time during the incident. He also did not see any duffel bags or other suspicious objects while in the cafeteria.

HASTEN stated that he did not know Eric HARRIS or Dylan KLEBOLD. He saw their pictures in the newspaper, and did not think he had ever met either of them. HASTEN stated that he had seen some individuals in the past wearing dark trench coats on campus, and had heard that they were known as the Trench Coat Mafia. HASTEN did not know anything else about the group, and was not acquainted with anyone who belonged to it.

HASTEN stated that he had been wearing a white and green plaid button-up shirt and green shorts on that date.

A copy of the cafeteria map depicting HASTEN's seating location is attached to this FD-302.

On May 03, 1999, the writer left a phone message at the GREGORY residence requesting that someone call the CBI office to arrange for a brief interview. Having not received a return call, the writer telephoned on several additional occasions but did not leave additional messages.

On May 06, 1999, the writer called the GREGORY number, (303) 933-6897, and spoke with Scott. Scott GREGORY acknowledged that he was a student at Columbine High School, but stated that he had not seen anything on April 20 and saw no point in being interviewed.

The writer advised that the interview would be brief and needed to be done in person so that GREGORY could view a map of the cafeteria to identify where he was sitting. GREGORY stated that he had not been sitting in the cafeteria, and was outside during his lunch period, which is "A" lunch. GREGORY stated that he was eating his lunch outside on a grass area between the math and science rooms.

GREGORY stated that he entered the cafeteria around 11:10 AM, and purchased lunch inside the cafeteria. He then went outside and sat with Scott BEAVER. GREGORY stated that other students ran by them saying that someone was shooting, and the two then ran east across Pierce Street to Leawood Park. GREGORY stated that he heard two or three "pop" sounds before they began running, but never saw anything unusual.

GREGORY stated that he had seen KLEBOLD and HARRIS around but did not know them personally. He also advised that he was not into computers or electronic-mail.

The writer has attempted to contact GREGORY's parents, without success at the time of this report.

Date of transcription 05/10/99

Quinn Allison BOORTZ, date of birth 12/18/83, was interviewed at her residence, 6139 S. Fenton Ct., Littleton, Colorado on May 04, 1999 at approximately 7:30 PM. BOORTZ' mother was present for the interview. They were advised of the personal and professional identity of the writer, and the purpose of the interview.

BOORTZ advised that she is a freshman at Columbine High School and was present in the cafeteria on April 20, 1999, during the shooting which occurred at the high school. BOORTZ stated that she has "A" lunch, and entered the cafeteria at approximately 11:15 AM. She bought lunch at the Rebel Corner, which is the student store. She sat at a table in the area adjacent to the cafeteria just outside of the Rebel Store. BOORTZ stated that she sat with Megan MULVANEY, Kate REBROVIC, Laura FARBER and Travis JONES.

BOORTZ stated that she began eating her lunch when people began running by their table. BOORTZ overheard someone saying something about someone getting shot. She went out the south doors and began moving in a northwesterly direction along the cafeteria windows. As she did so, she observed two bodies down on the ground, so she turned around and went back into the cafeteria through the door she had exited through.

When BOORTZ entered the cafeteria, some janitors were telling people to get under the tables. She got under a nearby table, where she stayed for approximately 30 to 40 seconds. She noticed that everyone was running out, and she then ran back out the south door once again. She ran across the south parking lot, then south on Pierce Street to Polk Avenue. She stopped at a house on the corner and knocked on the door but did not receive a response. She and several other students then knocked on a door four houses down, where they were allowed to enter. BOORTZ recalled that some of the students in the house with her included Brooke ALLISON, B.J. SECORD, Megan MULVANEY, Laura FARBER, Amy STALEY, Mike FOSTER and Colleen SCHWARZOTT.

BOORTZ stated that she did not see any duffel bags or anything else unusual while in the cafeteria. She advised that

she had been wearing a blue short sleeve shirt with a white collar and blue jeans.

BOORTZ advised that she had Eric HARRIS in gym class last semester, and thought he seemed like a "wannabe jock". She had only seen him once in a trench coat. She did not know any other members or associates of the Trench Coat Mafia.

While at the BOORTZ' residence, Quinn's father Gary BOORTZ advised the writer that his daughter Erin's white 1992 Chevrolet Blazer, Colorado license HJP050, had sustained several bullet holes while parked in the school lot. Gary BOORTZ stated that the vehicle was released to him on Friday, April 30 by a trooper from the Colorado State Patrol. BOORTZ pointed out the bullet holes and damage to the trooper. The trooper told BOORTZ that the vehicle had probably been processed, but took photographs. BOORTZ stated that he entered the vehicle and found a relatively intact bullet inside, which he provided to the trooper.

BOORTZ stated that after returning home he began to clean up the interior vehicle, which contained a lot of broken glass. While doing so, BOORTZ found a small piece of what he believed might be a bullet. The writer examined the object, which does appear to be a piece of copper-jacketing from a bullet. BOORTZ advised that he recovered the bullet material from the floor area below the steering wheel. BOORTZ stated that he was told that Sgt. Chris Tomford of the Jefferson County Sheriff's Department would be calling him to pick the object up, but had not received a call.

The writer agreed to take possession of the bullet material and provide it to the Jefferson County Sheriff's Department. The writer contacted Sgt. Tomford, who advised that she had not been told about the bullet. The writer will be booking the bullet into Jefferson County Sheriff's evidence.

Date of transcription 05/11/99

Nicole Marie BOUDREAU, date of birth 07/02/83, was interviewed at her residence, 6843 S. Zephyr St., Littleton, Colorado, on May 06, 1999 at approximately 1100 hours. Her mother was present during the interview, and her sister Michelle was present during a portion of the interview. They were advised of the personal and professional identity of the reporting agent and the purpose for the interview.

BOUDREAU advised that she is a freshman at Columbine High School and has "A" lunch. On April 20, 1999, she entered the cafeteria at approximately 11:20 AM. She had first stopped off at her locker, and checked for a friend in the library who was not there.

BOUDREAU stated that she had brought her lunch, and took a seat at what she believed was table "O" on the map shown to her by the writer. Seated with her at the table were Katherine CARLSTON, Candace HEYWOOD, Elena SCHULTZ, Lacey ILONE, Jennifer BARNES and Michelle LNU.

BOUDREAU heard someone shouting for everyone to get down, and thought that someone was playing a senior prank. She saw others getting under tables, and was then pushed under her table by someone.

Other students in the cafeteria then began to run east towards the stairs, and BOUDREAU did the same. She ran up the stairs and toward the math and science building, exiting the east door which faces towards Pierce Street. She then ran across Pierce Street to Leawood Park, and ultimately into a nearby house. She stated that the house belonged to the parents of Eric and Christine LONG, fellow student's at Columbine High School. BOUDREAU advised that there were a large number of students present at the house. She could not estimate how many but later heard that there were approximately 100 to 150.

BOUDREAU stated that she did not see any unusual bags or objects within the cafeteria area. While still in the cafeteria, BOUDREAU heard several low "boom" sounds, and a lot of screaming. She could not tell where the sounds came from. She did not see the suspects at any time.

BOUDREAU advised that she had spoken to Dylan KLEBOLD before, having worked together on the production of the school play of Frankenstein. KLEBOLD worked sound while BOUDREAU was responsible for pyrotechnics. She advised that they engaged in small talk on less than five occasions, never discussing anything relevant or which would provide insight with regard to this investigation. BOUDREAU stated that the pyrotechnics used were flashpots, which were carefully controlled and kept at her home, with her parent's knowledge (her mother acknowledged this to the writer). BOUDREAU stated that she and KLEBOLD never had any discussions about pyrotechnics.

BOUDREAU advised that she knew a number of the "Trench Coat Mafia" members, primarily from the previous school year. She stated that she had little contact with them this year. She identified the subjects she knew as Alex MARSH (a female), Thaddeus "Tad" BOLES, Charles "Chuckie" PHILLIPS, Pauline LNU and Chris CORDOVA. BOUDREAU stated that she knew several of these individuals from classes, and knew Pauline and Alex from Art Club. BOUDREAU stated that she never heard any of these individuals talk about violence, guns, or pipe bombs.

BOUDREAU advised that she has access to the Internet through America Online. Her screen name is WOMBAT5899. She was not aware of the Eric Harris Website and did not access it at any time.

BOUDREAU did not hear or see any school announcements on the date of the shootings. She later heard that the thought of the day was, "You don't want to be here today".

FD-302 (Rev. 10-6-95)

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 5/20/99

Michelle Ann BOUDREAU, DOB 03/07/80, was interviewed at her residence 6843 S. Zephyr Street, Littleton, Colorado on May 6, 1999 at approximately 1140 AM. She was advised of the personal and professional identity of the writer. Michelle BOUDREAU is the sister of Columbine High School student Nicole BOUDREAU, and was present at the residence while the writer interviewed Nicole BOUDREAU. During that interview, which took place on the same date, Michelle BOUDREAU advised the writer that she had previously dated Trench Coat Mafia member Chris MORRIS.

Michelle BOUDREAU advised that she was a former student of Columbine High School and became acquainted with Chris MORRIS shortly prior to the 1997 Homecoming in the fall of 1997. MORRIS occasionally hung out at the table she sat at during lunch. MORRIS was a sophomore while BOUDREAU was a junior.

BOUDREAU and MORRIS began to date, but after about a month she felt he was obsessive and very possessive. He would follow her around, and show up outside the door to her classroom frequently. He frequently walked her home, even though he lived in the opposite direction. BOUDREAU stated that MORRIS began to talk about hunting a lot, which caused her to further lose interest in him as she does not like hunting.

BOUDREAU stated that on the day she broke up with MORRIS, he pulled a knife on Eric DUTROW. BOUDREAU was not present, but heard that the police had been called, and that MORRIS had told the police that BOUDREAU had told him to pull the knife on DUTROW.

BOUDREAU advised that the following school year MORRIS and other Trench Coat Mafia members hung out in the area of the table she sat at in the cafeteria, and in the area outside the choir room door. She overheard them on occasion talking about Nazi history, the incident at Waco, Texas and cults. BOUDREAU stated that they all seemed to have knowledge about guns, particularly Charles PHILLIPS. He was apparently an avid hunter, and occasionally brought gun catalogs to school.

BOUDREAU also heard Chris MORRIS and Charles PHILLIPS talking about the Anarchist Cookbook, and occasionally brought a

copy of it to school. She never saw any pipe bombs or other devices, and did not know if they had made any.

BOUDREAU stated that she had seen a news segment on Channel 7 about a video made at the school which ended with a scene where the school was blown up. BOUDREAU stated that she was involved in the production of that video, which she described as being a parody of the movie "Independence Day". BOUDREAU advised that others involved with the production were Scott FUSELLIER, John WEIRS, Karl BROMAN, and Sean LNU.

BOUDREAU stated that the video included scenes involving armed individuals wearing trench coats, carrying guns similar to those described as being subsequently used in the shootings at Columbine High School. One scene in the video involved a shootout in the parking lot of the school.

BOUDREAU advised that she did not have a copy of the video, but heard that Brooks BROWN had provided a copy to the producers of Inside Edition.

BOUDREAU stated that she had some contact with Dylan KLEBOLD during the 1998 school year, when he ran sound for a talent show. BOUDREAU also worked sound, and had some conversations with KLEBOLD. She stated that these were all regarding their tasks, and that she had not unusual conversations with him.

BOUDREAU advised that she is currently a student at University of Northern Colorado at Greeley where she is living in a dorm, but would soon be returning home and could best be reached at the residence in Littleton, Colorado.

FD-302 (Rev. 10-6-95)

Date of transcription 5/25/99

David Michael MESCH, DOB 7/24/83 was interviewed at his residence, 6970 S. Lee Way, Littleton, Colorado on May 11, 1999 at approximately 8:30 AM. MESCH was advised of the personal and professional identity of the writer and the purpose for the interview. David's parents Darlene and Michael MESCH were present during the interview.

MESCH advised that he is a sophomore at Columbine High School, and has "A" lunch period. On April 20, 1999, MESCH recalled entering the cafeteria at approximately 11:10 AM. He waited in line to buy his lunch for approximately 1 ½ minutes, and then took a seat at a table in the cafeteria. MESCH viewed a diagram of the cafeteria, and indicated that he believed the table that he sat at was "MM". He sat facing toward the west and the windows on that side of the cafeteria. MESCH stated that there were approximately ten other students seated at the table, but he could only recall one, Zach RAUZI.

MESCH stated that he finished eating his lunch and got back into the service line to buy a cookie. While waiting in the line MESCH saw a student running by, and heard what sounded like fireworks exploding. MESCH ducked down in the line briefly, then ran into the kitchen area. He spent approximately 30 seconds in the kitchen, then ran out and eastbound through the cafeteria. He entered the auditorium through the back doors, ran through the auditorium and down the main hall. MESCH stated that Sarah BROWN and Renee PAAUILAINEN ran with him. He then turned north into the hall by the counseling offices and out the north side of the building. He ran through the smoking pit, jumped the fence and ran north into Clement Park, to a parking lot usually used by sophomores. MESCH then got into Zach RAUZI's car with him, and they drove to MESCH's house.

MESCH stated that he never saw the gunmen, or any duffel bags or other unusual objects in the cafeteria. He stated that he had been wearing a green short sleeve "T" shirt and khaki-colored shorts.

MESCH advised that he did not know Eric HARRIS or Dylan KLEBOLD, or any other members of the Trench Coat Mafia. He stated that he had seen the group around, occasionally wearing

dark trench coats. He had heard the name Trench Coat Mafia used before, but did not have any specific information about the group or its members.

MESCH stated that he did not recall hearing or seeing any announcements at the school on that date.

During the interview of David MESCH, the writer was informed by his mother, Darlene MESCH, that she is an employee of Columbine High School and was present at the school at the time of the shooting. Darlene MESCH's statement is contained on a separate FD-302.

FD-302 (Rev. 10-6-95)

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 5/25/99

Darlene Rae MESCH, DOB 9/30/57 was interviewed at her residence, 6970 S. Lee Way, Littleton, Colorado on May 11, 1999. She was advised of the personal and professional identity of the writer. The writer was present at the residence interviewing her son David MESCH, a student at Columbine High School and was informed that Mrs. MESCH was also present at the school on April 20, 1999. Mrs. MESCH advised that she is employed as a Financial Aide at Columbine High School, and was working in the finance office at the school, which is located in the administration area in the northeast portion of the school.

MESCH stated that she was in the Financial Aid office standing by a safe counting money with the blinds to the office drawn when she heard approximately five pops. She shut the safe and spun the combination dial, and ran into the adjacent business office. She continued past the Principal's office to the Art Department, where she looked out a window which faces east toward the faculty parking lot. MESCH advised that she did not see anyone in the lot, which did not seem right to her. She then ran to the band room, out the hallway and out the north doors which lead to the area of the tennis courts.

MESCH saw a lot of students standing by the fence line near the tennis courts. She heard a man's voice shouting that someone was shooting outside of the building, and the students began jumping the fence and running north into Clement Park. MESCH stated that she remained in the area of the park, and was picked up there by her husband approximately 1 ½ hours later.

MESCH advised that she never saw the gunmen, or anything else unusual during the time period described. She stated that she had some contact with Eric HARRIS and Dylan KLEBOLD in the finance office in the past, but never had problems with either student.

MESCH stated that she had heard that someone had seen four subjects carrying bags on their backs on the day of the shooting. MESCH heard this from her supervisor, Mona MADDEN, who stated that the party who supposedly made this observation was student Matt KATZEMEYER.

FD-302 (Rev. 10-6-95)

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 5/26/99

Sarah Jean CAIN, DOB 12/17/82 was interviewed at her residence, 6253 W. Caley Ave., Littleton, Colorado, on May 11, 1999 ata approximately 10:00 AM. She was advised of the personal and professional identity of the writer and the purpose of the interview. CAIN advised that she had spoken with her parents at the writer's request regarding the interview, but that they were not at the residence and would be arriving shortly. CAIN advised that it was all right with her parents if the interview was begun before they were present.

CAIN stated that she is a sophomore at Columbine High School and has "A" lunch period. On April 20, 1999, she entered the cafeteria after coming from science class. She brought her lunch on that day and sat at a table in the cafeteria. CAIN was shown a copy of the cafeteria diagram, and identified the table she sat at as being "LL" on the diagram. She advised that there were approximately five other students sitting at the table with her. She specifically recalled the following being present: Sarah HOLTON, AnnMarie PATRICCA, Christina ROWER, and Laura VANDERHAM.

CAIN stated that a short time after she sat down she saw a number of students suddenly stand up. CAIN initially thought a fight was breaking out, but then saw that a number of students started climbing under their tables.

CAIN looked in the direction of the windows on the west side of the cafeteria, and observed what appeared to be a white puff of smoke. At the same time she heard someone shouting for people to run, and something about someone having a gun. CAIN thought that the voice sounded like that of a male faculty member, and speculated that it might have been Mr. Sanders. She also saw custodians running back and forth.

CAIN heard several popping sounds which she described as sounding like firecrackers exploding. CAIN ran from the cafeteria up the stairs to the upper level and then east down the hallway adjacent to the math wing. She exitted the building via the east door by the math wing, and ran across Pierce Street to Leawood Park.

174A-DN-57419 / 99-7625 (Jeffco)

CAIN stated that a female faculty member she was not familiar with was at the park, and told everyone to hide behind trees. CAIN stated that she was at Leawood Park for about 5 to 10 minutes before she went home.

CAIN stated that she never saw the gunman, nor any other unusual objects while in the cafeteria or running through the school. She did not recall hearing any announcements at the school that morning.

CAIN advised that she did not know Eric HARRIS or Dylan KLEBOLD. She had seen individuals wearing dark trench coats on campus in the past, but had not heard the name "Trench Coat Mafia" until after the shooting at CHS.

CAIN's parents did not return prior to completion of the brief interview. CAIN's mother called and spoke with Sarah CAIN, who advised her that the interview had been completed. The writer requested that Sarah CAIN ask her if she had any questions for the writer. CAIN asked her mother and advised that she did not.

FD-302 (Rev. 10-6-95)

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 5/27/99

Kent Thomas FONCANNON was interviewed at his residence, 5153 S. Cody Street, Littleton, Colorado on May 12, 1999 at approximately 8:45 AM. He was advised of the personal and professional identity of the writer and the purpose for the interview. FONCANNON's parents, Thomas and Barbara FONCANNON were present during the interview.

FONCANNON advised that he is a freshman at Columbine High School and has "A" lunch. FONCANNON stated that on April 20, 1999 he entered the cafeteria at approximately 11:15 AM, coming from math class. FONCANNON sat at a table along the west wall of the cafeteria. He viewed a diagram of the cafeteria provided by the writer and stated that he believed he had been sitting at table "TT". FONCANNON sat at the table for what he estimated to be approximately fifteen minutes before getting into the cafeteria serving line to buy lunch. FONCANNON estimated that the time was approximately 11:30 AM when he got into the line.

While standing in the line FONCANNON observed student Chris MARKHAM running through the cafeteria from west to east yelling, "Get out of here!" FONCANNON heard what he believed to be several shots, perhaps two or three, outside the west windows of the cafeteria. He described the sounds as being like firecrackers going off.

FONCANNON then saw Mr. SANDERS run by from east to west, and go out the west door near the faculty lounge. As he did he told everyone to get down. FONCANNON stated that he did not know what was going on and crouched down where he was.

FONCANNON advised that everyone suddenly began running eastbound toward the stairs. He remained in the cafeteria by the kitchen for approximately two to three minutes, then ran to the doors on the south side of the cafeteria. FONCANNON heard what he believed to be five or six additional shots, and ran back into the back of the kitchen area. FONCANNON advised that he heard a lot of additional shots or explosions, and at one point felt that he felt some type of shock wave.

Investigation on 5/12/99 at Littleton, Colorado

File # 174A-DN-57419 / 99-7625 (Jeffco) Date dictated 5/27/99

by Agent Frank R. Vanecek, CBI

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency; it and its contents are not to be distributed outside your agency.

FONCANNON went into a storeroom next to the kitchen bathroom, where he stayed for approximately two hours. He stated that he heard shots during that time. He and the others were ultimately escorted from the building by the SWAT team. FONCANNON believed that he heard shots during this time. FONCANNON estimated that there were 18 individuals in the storage room and that he did not know any of them. He believed that three were cafeteria employees, one was a janitor, one a male faculty member, and the rest, students.

FONCANNON stated that the SWAT team led them up the stairs on the west side of the cafeteria, and behind a fire truck which escorted them away from the building. FONCANNON was then driven in a marked police unit to the student parking lot located in Clement Park.

FONCANNON stated that he never saw the gunman, nor any unusual items or objects within the cafeteria. FONCANNON stated that he did remember that the school announcement said something to the effect of "You shouldn't be here".

FONCANNON advised that he did not know Eric HARRIS or Dylan KLEBOLD. He had heard of the Trench Coat Mafia, and believed there were approximately ten students who wore dark trench coats to school on occasion. FONCANNON stated that he did not know anything else about the group, or any of its members.

FONCANNON advised that he has access to the Internet via America On Line. His screen name is KFT43. He was not aware of the Eric HARRIS or Trench Coat Mafia-related websites until after the incident.

FONCANNON stated that on April 20, 1999, he wore a white baseball cap, a grey "T" shirt under a green long sleeve shirt, and blue jeans. FONCANNON stated that he left the green shirt behind in the storage room.

ACTION TAKEN:
On June 1, 1999 at 3:30 p.m. the Reporting Agent, Linda R. HOLLOWAY obtained information on the whereabouts of Jennifer CHRISTENSEN on April 20, 1999. She drove herself to Columbine High School on that morning arriving just prior to her first period class which is Spanish. After 4th period, she went to the cafeteria where she met with a friend, Kristin DOHERTY (unknown spelling). She could not recall where she was seated. She did not see anything suspicious, such as large duffel bag or anyone carrying large bags into the cafeteria. She normally has B lunch, however, she ate while she was in the cafeteria and went upstairs to her 5th period mathematics class.

She was in math when she heard the fire alarms. A teacher instructed her and the other students in the class to run from the building. She was unaware at the time that she ran out a side door and across Pierce street to a play area that there had been shots fired. She was under the impression when she left the school that it was just a fire alarm.

She does not know any of the Trench Coat Mafia associates and would not recognize them. The only rumor that she has heard from friends is that there was a third period involved. She heard that Dylan and Eric yelled the name "JOE" during the incident. She associated that with Joe STAIR who is known as a TCM member.

She did not have any other significant information to share.

ACTION TAKEN:

On June 3, 1999 at 3:30 p.m. the Reporting Agent, LINDA R. HOLLOWAY, conducted a telephonic interview with KELLY M. DICKSON, a graduating senior at Columbine High School. She was asked to relate what she did on April 20, 1999.

Kelly stated that she drove herself to school, parking in the senior's parking lot. She went straight to her first period class, mathematics. During second period, she went with classmates to the commons area for "Senate" class. She was there from approximately 8:20 to 9:20 a.m. The group met in the area of the Rebel Corner store and she stood by the cabinets that lead to the foreign Language hall. She did not see anything suspicious in the cafeteria at that time.

She then went to her 3rd period physics class. She has 4th period off and went to the cafeteria. She sat at the table closest to the stair (KK) with a friends MEGAN KOTTER, ANNIE FORD and JESSIE BOYER. After 4th period was over, she left the building and got into her vehicle and went to the "Juice Shop" for lunch. The incident occurred while she was out of the school

She knows Dylan KLEBOLD from Governor's Ranch elementary school which they both attended. She had no classes with either of the defendants. She knows none of the TCM members.

ACTION TAKEN:

On June 1, 1999 the Reporting Agent, Linda R. HOLLOWAY, and CBI Agent Jerry MEANS meet with JONATHAN COLE and his parents at Columbine High School. I had spoken briefly with Jonathan to schedule a meeting and learned that he believed that he saw three males involved in shooting guns and throwing bombs at Columbine High School on April 20, 1999.

He was asked to relay the events, as he remembered them, of that day. Jonathan walked to school, arriving at about 7:15 a.m. He was with friends, Jake ABODACA and CHRIS WISHER. (Refer to control numbers 1102, 2124 and 3138). After arriving at school, he went to his first period gym class where he played dodge-ball. Fellow student BROOKS BROWN is in his gym class and was present on April 20th. He talked with BROWN during class and recalled that he was wearing brown or black boots, black pants and a brown shirt.

He then went to his second period business class. Mr. SANDERS was his teacher and he (SANDERS) talked about his family during the class. COLE then attended Mrs. WHITE's science class during third period.

Between third and fourth period, he saw BROOKS BROWN. He talked with him briefly and saw him walk out the front door, next to the office, on the east side of the building. On his way to

COLE's 4th period class, he passed by BROOKS BROWN's 4th period class and observed that BROWN was not seated at his usual desk next to the door.

During a walk through the school, BROWN's fourth period class is in room SS2. Jonathan showed us his route through the halls from his locker and passed room SS2 that he takes every school day on his way to his fourth period class in room LA 13. It was observed that BROOKS BROWN's desk can be readily seen through the 3' X 3' window in the door. His desk is the closest desk to the door. Not all of the classroom is visible to someone walking by and casually looking through the window or through an opened door. The only other significant information that he shared about BROOKS BROWN is that he smokes Camel cigarettes.

COLE finished his fourth period class and walked out of the school via the doors located on the upper level just north of the library on the west side. He meet up with JACK ABODACA and CHRIS WISHER when he noticed two males in trench coats. One was wearing a ski make with one large hole in it. Both were tall and believed that they had just come through the same doors that he had exited from. He did not recall them wearing hats, however, it was his perception that one had a white shirt on under his trench coat and one was wearing a black shirt and black or dark pants or jeans.. He recalled that one had brown "puffy" hair. The two males walked to the corner of the building and stood off of the sidewalk looking down the steps that lead to the cafeteria and senior parking lot. He recalled seeing a third male who was wearing a white tee-shirt that had either short sleeves or no sleeves, blue jeans exit the building behind the two trenched males. He next remembered that the male in the white shirt yelled at the other two males in trench coats to **"GO!! GO!!"**

He then observed the two males with trench coats draw weapons. One pulled a shotgun and one pulled a large semi-automatic gun. They began shooting at student below. He recalled hearing kids scream and one student fall to the ground. He began to run in a westerly direction. He recalled looking back and seeing the male in the white shirt throw what he believed were bombs on the roof area of the library. He thought that he threw four or five bombs and that some exploded.

He and his two friends were shot at by the gunmen. They dropped to the grass at one point and then got up and ran as fast as they could away from the school. He believed that they were near a fence when he heard bullets whiz by his head. They ran to the safety of a near by residence.

JONATHAN COLE related that he when he went to pick up his backpack and other belongings that he had left at the school with his mother today, that he saw a male that reminded him of the male in the white shirt who was throwing the bombs. His male was described as 5'10", wearing black glasses and having collar length blondish/brown hair. He did not know that student's name.

He was shown twelve photographic line-up that had been prepared by the Task Force. He was not able to identify the person that he saw dressed in the white tee-shirt and throwing bombs on April 20th. He was not close enough to observed facial details of the males wearing the trench coats. A drawing was made from information supplied by Jonathan of the area and approximate distances where he saw the gunman. He was about 73' to 75' away from the gunmen as they walked from the west doors to the position where they drew guns and began firing. (See enclosed drawing). Photographs were taken of this area and Jonathan's view from where he was standing when he observed the gunmen.

Various comments were noted on the twelve photographic line-ups that Jonathan said as he looked at the pictures. He noted people that he thought he had seen associating with the TCM. He pointed to KLEBOLD and HARRIS's pictures and stated that he had seen them in the A lunch period. He pointed to photograph 1 of Line-up H stating that he knows this male as "SARG" and that he believes that he is the leader of the TCM. In that same photo line-up (H), he pointed to photograph #2 and said that he was a "tall fat kid" that may have a double pierced eyebrow and has been seen sporting pick head and wears chains and needles in this shoes. He believes that this same kid smokes. The twelve line-up will also be included with this report.

JONATHAN COLE gave the telephone numbers of JAKE ABODACA as (303) 904-2358 and CHRIS WISHER as (303) 730-2530. Both of reports of their interviews were reviewed and both indicate that they saw only one gunman with a trenchcoat and black shirt and one male with a white shirt who was throwing bombs onto the roof. These reports are included also.

JONATHAN COLE had attended Columbine High School for only two months prior to the incident. He had been home-school prior to and since the shooting.

1102

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 04/28/1999

On April 27, 1999, Christopher Howard Wisher, date of birth March 19, 1983, of 6572 West Calhoun Place, Littleton, Colorado, telephone number (303)730-2530, was interviewed at his residence in the presence of his father, Howard E. Wisher, date of birth April 12, 1949. After advisement of the identity of the interviewing agent and the nature of the interview, he provided the following information:

Wisher is a sophomore at Columbine High School. He normally eats lunch during fourth period, which he has free, and at the end of the period at 11:10, he and his friends normally go outside. On April 20, 1999, just prior to the 11:15 bell, he and his friends, Jake Abodaca, Josh Chavez and John [Last Name Unknown] were sitting at a table inside the cafeteria near the south window, which faces a parking lot.

Wisher saw Dylan Klebold walk into the southwest entrance to the cafeteria from the parking lot. He was dressed all in black, with black trousers, black shirt, black boots, a black trenchcoat and a black Colorado Avalanche hat worn backwards, which had a Boston Red Sox emblem sewn on it. Wisher does not recall Klebold carrying anything, and saw him walk over to the vending machines in the cafeteria.

According to Wisher, during lunch, Klebold and Eric Harris would normally sit in Klebold's BMW in the parking lot on the south side of the cafeteria and watch people. Wisher only knows Klebold and Harris by sight.

After the 11:15 bell, Wisher and his friends walked out of the southwest exit of the cafeteria, towards the soccer field. He heard a sound which sounded like fireworks, similar to a string of Blackcat firecrackers going off. [Wisher indicated that prior to April 20, 1999, he had never heard gunfire]. About 50 yards away, outside on the west side of the cafeteria, he saw a tall white male, dressed all in black, with a black trenchcoat, and what he thinks was a black hat and dark sunglasses. At the time, he did not recognize this person, but thought it might be Chris Morris, a member of the Trenchcoat Mafia who is about the same height and build.

Investigation on 04/27/1999 at Littleton, Colorado

File # 174A-DN-57419 Date dictated 04/28/1999

by SA Matthew S. Harris

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency;

Wisher saw this person shoot at three students near the southwest corner of the cafeteria with what he thinks was a shotgun, based upon the loud noise and the slower rate of fire. This shooter then pointed the shotgun at Wisher and his friends and fired four or five shots at them. Wisher and his friends fell to the ground and covered their heads. When Wisher looked up, he saw the gunman walking towards the southwest cafeteria entrance.

Wisher also saw a white male dressed in a white short-sleeved tee shirt and blue jeans, kneeling with his back to him near the northwest corner of the cafeteria. He did not recognize this person, and since his back was to him, could only tell he had either light brown or blond hair. This person had no weapon nor other gear visible.

Wisher saw this person throw an object one-handed on top of the cafeteria/library roof. It appeared metallic with sunlight glinting off of it, and one to two seconds after landing it exploded with a loud bang, a flash of fire and a pall of smoke.

While he observed the person in the black trenchcoat shooting outside and the person in the white tee shirt throwing the explosive device, he also heard very rapid gunfire coming from somewhere within the school. Wisher was unable to see who was doing this shooting or tell exactly from where in the school it was coming from.

After this person threw the bomb, Wisher and his friends got up and ran to a nearby house on Teller Court, where Wisher called his father to let him know he was safe. Howard Wisher indicated he noted the time of the call as 11:20 a.m.

Wisher knows two members of the Trenchcoat mafia, Joe Stair, a former Columbine student who graduated last year, and Chris Morris.

He spoke with Morris once about the sport of paint ball, which they both play. Wisher indicated Morris normally sits by himself at a table on the south side of the cafeteria near the window, but cannot recall if he saw him in the cafeteria on April 20, 1999.

174A-DN-57419

Continuation of FD-302 of Christopher Howard Wisher, On 04/27/1999, Page 3

Attached in a 1A envelope is a diagram of the school indicating where Wisher was located and where he saw the shooter in the black trenchcoat and the person in the white tee shirt who threw the explosive device.

FD-302 (Rev. 10-6-95)

#2124

FEDERAL BUREAU OF INVESTIGATION

Date of transcription 04/28/1999

On April 27, 1999, Jacob Anthony Abodaca, date of birth October 4, 1982, of 7472 South Vance Street, Littleton, Colorado, telephone number (303)904-2358, was interviewed at 6572 West Calhoun Place, Littleton, Colorado, in the presence of Howard E. Wisher, date of birth April 12, 1949, with the permission of his mother, Vicki Abodaca. After advisement of the identity of the interviewing agent and the nature of the interview, he provided the following information:

Abodaca is a sophomore at Columbine High School. On April 20, 1999 at 11:10 a.m., which is the end of fourth period, he went to the cafeteria to meet his friends, Chris Wisher, Josh Chavez and John {Last Name Unknown]. Just prior to the 11:15 bell, while sitting at a table near the south window in the cafeteria, he saw Dylan Klebold walk into the cafeteria through the southwest entrance. He was dressed all in black, black boots, black trousers, black shirt, a black trenchcoat, and was wearing a backwards hat with a Boston Red Sox emblem.

Abodaca knew Klebold only by sight and indicated that during lunch, he normally sat in his BMW in the parking lot on the south side of the cafeteria.

Abodaca and his friends walked out of the southwest exit of the cafeteria towards the soccer field. He heard what sounded like a string of firecrackers going off, and turned towards the school and saw two white males crouching along the northwest corner of the cafeteria.

One person was dressed in a white short-sleeved tee shirt and blue jeans, with no weapon visible. The other person was dressed all in black, black trousers, black shirt, black trenchcoat, a black beret, and was wearing what appeared to be a black mask. He did not recognize either of these individuals since one had on a mask and the person in the white tee shirt because was crouched down with his back to him.

Abodaca saw the person in the white tee shirt throw an object about the size of a soda can on top of the library. This object appeared metallic, since it looked silver in the sunlight. One or two seconds after landing on the roof, it exploded with a

Investigation on 04/27/1999 at Littleton, Colorado

File # 174A-DN-57419 Date dictated 04/28/1999

by SA Matthew S. Harris

This document contains neither recommendations nor conclusions of the FBI. It is the property of the FBI and is loaned to your agency;

loud boom, a flash of fire and puff of smoke. He then threw a second object on the roof which also exploded.

After the second device exploded, the person dressed in the black trenchcoat walked west from the northwest side of the cafeteria, and shot at three students near the southwest corner of the cafeteria, with what Abodaca believes was a shotgun.

After shooting at these three people, the shooter fired four or five times at Abodaca and his friends, who were about 40 to 50 yards away. They fell to the ground, and after the shooter entered the school through the southwest cafeteria entrance, they got up and ran to a nearby house on Teller Court.

Abodaca knew who Eric Harris was, but never talked with him. He knows two other members of the Trenchcoat Mafia, Joe Stair [who graduated from Columbine High School last year] and Chris Morris. During lunch, Morris usually sits by himself at a table on the south side of the cafeteria, but he cannot recall if he saw Morris there on April 20, 1999.

According to Abodaca, the audiovisual class transmits a "Phrase of the Day" over the school television system each day at the end of second period. Abodaca recalls the Phrase of the Day on April 20, 1999, which was broadcast on televisions in each classroom, appeared to be written in German. He later heard from other friends this Phrase of the Day was transmitted by Trenchcoat Mafia members in the audiovisual class, and was translated to mean "Today is the day you wish you weren't here."

MARK

HERE ARE COPIES OF SUPPLEMENTS THAT I'VE COMPLETED THUS FAR ON THE COLUMBINE INCIDENT

LINDA

Agent Linda R. HOLLOWAY, Colorado Bureau of Investigations

Denver, Colorado 80209
(303) 239-4218
pager (303) 207-6596

ACTION TAKEN:

On April 20, 1999 all Investigative Agents with the Colorado Bureau of Investigations, Denver office were advised over the radio to respond to Columbine High School to assist on a shooting. The Reporting Agent, Linda R. HOLLOWAY (R.A.) arrived on scene at 1:20 p.m. Numerous emergency personnel were already on scene and a command post had already been set up by the Jefferson County Sheriff's Office.

The R.A. contacted several of the students as they were being shuttled from the High School to the area near the Command Post. The students that I contacted are listed below. An attempt was made to contact a parent or family member by cell phone and the children were turned over to counselors or victim advocates

Gaucim ARACELI
DOB 06/16/82
ADDRESS: 6979 South Reed Court
Littleton, Colorado
(303) 436-3400
parent: Rose CAUCIM

Tasha OLSON
DOB 1/07/83
ADDRESS: 7191 West Glasgow Place
Littleton, Colorado 80128
(303) 972-4235
parents: Georgette and Ronald OLSON

Adam KYLER
(interviewed by Agent Scott MUNDINE of CBI)
Parents: Sue or Mike KYLER
(303) 973-6907
Adam's parents were contacted by the R.A. and informed that Adam was safe, however he had Received a rib injury and would be transported by ambulance to a nearby hospital

Laura Elizabeth HORNBAKER
ADDRESS: 7459 South Depew Street
Littleton, Colorado 80128
(303) 978-9293
parents: Gordon and Susan HORNBAKER

Jonathan VANDEMARK
DOB 02/20/83
6888 South Yukon Court
Littleton, Colorado 80128
(303) 979-4878
parents Frank TRICAMO and Lenore VANDEMARK

Jonathan VANDEMARK related that he had seen one of the armed gunmen. He described him as being short, having blond spiked hair and carrying an ooze with a black strap attached. He further stated that the gunmen belong to the Trench Coat Mafia. He further related that he had seen three or four bodies on stairs as he ran from the building at approximately 1445 to 1450 hours.

Kristine KOELLNER of CBI related that she had located information from the Internet on this group of people who identified themselves as the Trench Coat Mafia. Information that she had located was relayed to the R.A. at the High School and I relayed it to the Command Post. One page of the information was a message from a person identifying himself as LANG SILAS. He related in his message that he was the leader of the Trench Coat Mafia and that he would die on April 20, 1999.

At 2045 hours on April 20, 1999, Barrie GOETZ of the Colorado Bureau of Investigation, Pueblo office related to me that he had noticed a carving in a picnic table in the park to the north of the High School. A canopy covers a picnic area were laboratory personnel were gathered and being briefed on the scene. The carvings were the numbers "4:20" and on the opposite side of the same wooden table were the numbers "187". Both carving appeared that they had been freshly cut through the painted surface of the tables. This information was related to Chief Investigation Kate BATTON.

On April 21, 1999 the R.A. assisted in the identification of the vehicles in the parking lots adjacent to the High School. Lists of registration information were relayed between CBI and the Command Post that were obtained through the Colorado Department of Motor Vehicles. Each vehicle in the parking lots had a piece of tape attached to a window and the names of the registered owners were written on the tape.

The Bomb Squad searched several cars to identify suspicious items that could be seen or that had any potential association with the shootings. The following lists of vehicles were searched by the Bomb Squad during the time period I was involved with the vehicle identification:

5B33910	Idaho, blue Ford
GBB 5573	- blue Precis
RCT 578	
94957 RS	Black Chevrolet Pickup Truck
RCT 578	Dodge Caravan
GBY 7690	blue Toyota Corolla
H1I 5730	owner – Marcy JOHNSON – provided keys and authorized search

After marking numerous vehicles in the north student parking lot, the R.A. assisted inside the High School with Evidence Team #5 in the collection of evidence in the main hallway of the building.

SUMMARY: Linda HOLLOWAY of CBI arrived on the scene at 1:20 p.m. I contacted several students who were being shuttled from the High School, search them and debriefed them for any pertinent information. Their parents were contacted and they were turned over to victim advocates or school counselors. I also assisted in identifying and marking vehicles located in adjacent parking lots and kept track of some of the vehicles that were searched by the Bomb Squad. I later assisted Team 5 with evidence collection inside the school

Agent Linda R. HOLLOWAY

INITIAL REPORT – UNKNOWN CONTROL NUMBER

Linda R. HOLLOWAY
CBI
690 Kipling
Denver, Colorado 80215
(303) 239-4218

WITNESS INTERVIEWED:

ALEXANDREA MARSH
Student at Columbine High School
Address: 9015 West Cross Drive
Building 16. Apt #102
(303) 948-1923
Mother – Carmen MARSH
Work number mom (303) 719-8823

On April 21, 1999 at 1405 hours Agent HOLLOWAY and Agent Jerry MEANS of the CBI interviewed Alexandria MARSH. Sgt. Christen TOMFORD had assigned us to interview this witness prior to Rapid Start being set up to assist in tracking leads and interviews.

Alexandria was at her residence with her mother, Carmen MARSH, and other siblings. She stated that she was in the Commons Area (cafeteria) at the time she realized what was happening. Her first alert was when she saw Dylan KLEBOLD with a shotgun walking outside the cafeteria windows. Alexandria was assigned the first lunch period which began at 11:15 a.m. She had just arrived and was sitting at a table with Nicole MARKAM and Krista HANLEY. MARKAM and HANLEY had just left the table to get in the lunch line when she saw Dylan KLEBOLD walk past the window where she was seated. She was certain that the time would have been between 11:15 and 11:20 a.m. It was later learned that she and the other two girls were at table DD, which was very close to tables PP and QQ where the bombs were later located. Personal property from all three girl was recovered from table DD after the incident.

She was asked to describe what Dylan KLEBOLD was wearing and doing when she first noticed him. She stated that he was dressed in his "duster" and jeans. She is taller that Eric HARRIS (a.k.a. REB). She first saw KLEBOLD walk up the hill outside the window and then back down the hill carrying a canister in his hand. She then saw KLEBOLD ~~though~~ threw the canister into the senior's parking lot. She was fairly certain that the time was 11:20 a.m. when that occurred.. She never mentioned seeing Eric HARRIS that morning.

Alexandria MARSH then got up from her seat and went across the cafeteria to the bathroom area. A person she referred to as the young Mr. Lee ANDRES opened the door to the auditorium and told Alexandria (Alex) and approximately 20 other children to get into the auditorium.

She then went through the hallway and outside.

Alexandria MARSH stated that she was a past member of the Trench Coat Mafia. Last year she was involved with the "gang" and she still socializes with several of the kids involved with the "gang". She characterized the gang as wearing trench coats, using drugs and having short tempers that lead them into getting into fights. They were often brought in and questioned whenever something happened. They had been brought in for questioning and accused of drinking in the parking lot last year.

Alex MARSH related that members of the "gang" had talked about "blowing up the school" in the past, however, she was under the impression that none of them were serious about the threat. When asked what was said about blowing up the school, she related that it was mentioned that some "would get guns and meet and blow up the school." When asked who else was involved in the gang beside Eric HARRIS and Dylan KLEBOLD, she gave the names of:

Chris MORRIS – he frequently "hung out" with KLEBOLD and HARRIS. Described as
being very involved with the gang.
Nicole MARKAM – home number (303) 904-3538. – Described as being very involved
with the gang
Christine THEIBALT – she thought she may have been dating Dylan KLEBOLD.
Joe STAIR - graduated last year from Columbia High School. He would wear a duster. She did not see him at the school on the day of the incident. The last time she saw him was in September 1998.

Krista HANLEY
Eric Jackson – dating Krista HANLEY

Alex MARSH further related that Dylan and "REB" (Eric HARRIS) had access to guns. She knew that the two had made bombs and had blown things up in a field.

She further related that Chris MORRIS was very proficient in computers. He is a senior and may have known about the plan before. She did not know if Chris MORRIS or the two suspects used the Internet or had their own web page. She has not access to the Internet

Alex MARSH stated that both KLEBOLD and HARRIS were capable of doing what they did. They were very smart and felt very alienated. They would listen to hard rock and acid rock. She felt that the gang was forced "into a little box" by the rest of the school and labeled . "They" wanted this to be the bloodiest and gorious that it could possibly be. They wanted to kill as many as they could. They might spare someone that liked or recognized. "They" were aware that the "cops" used profiling and they would used motion sensitive devices to blow up the "cops". She denied that the gang believed in the white supremacy movement or were neo-nazi.

The interview ended at 1700 hours (5:00 p.m.)

ACTION TAKEN:

On April 27, 1999 I was given an Information Control sheet requesting contact with TERRI LYNNE SCHORZMAN. She was contacted by telephone. She related that on Tuesday April 13, 1999, one week before the incident that she and her small children attended a base ball game at Columbine High School. She arrived at the school at between 4:45 p.m. and 5 p.m. She drove into a lot on the west side of the school and parked her car. She observed a dark van, a red Ford Explorer and a Honda in the lot also. There were some people throwing a shot put and some males in work clothes in the area. One worker was skinny and had blond hair.

At about 5:30 p.m. she returned to her vehicle to find that the gate had been locked and she was unable to get her vehicle out of the parking lot. She contacted a Hispanic male janitor in the school who also thought it was unusual that the gate had been locked. The Honda was not in the lot when she left.

PHONE INTERVIEW:

ACTION TAKEN:

On April 30. 1999 Agent Linda R. HOLLOWAY made telephonic contact with Gregory Allan SHEPHARD. He stated that he is suffering from a disease called Huningston Korea. He was having difficulty remembering why he had called to pass on information. He also had difficulty remembering his address and the spelling of his middle name.

Mr. SHEPHARD then began quoting from the Bible. He had heard through the media that there was a third person involved in the shooting who had escaped with a backpack. He referred to the book of Kings which talked about a subject by the name of Elijah who was tormented. He feared that if the third shooter followed the bible that he may return.

He had NO significant information and had no association with Columbine High School.

Telephone Interview on May 3, 1999

Student of Columbine High School

ACTION TAKEN:

On May 3, 1999 I was asked to do an interview with Jacob SCHRECK, student at Columbine High. I contacted him shortly after 8 a.m. and spoke with his father who stated that Jacob was home sick with strep throat. He had a doctor's appointment an would call me later.

At 1:45 p.m. on May 3, 1999 Jacob SCHRECK call me back and we talked over the phone due to his illness. He related that he got to the High School on April 20, 1999 at between 7 and 7:05 a.m. He takes the bus to school and was with his friend, Isiash (SCHOLES) (sp), a black student, who rides the same bus when they went to the Commons (cafeteria) upon arrival at the school.

They set with Brad MILLER and talked until 7:25 when then left for first hour class. They were sitting about in the middle of the cafeteria, near a trash can.

After gym class, he returned to the cafeteria where he purchased a bottle of water from the school store and left without sitting down. He did not see anything suspicious while in the cafeteria that morning.

Jacob SCHRECK then attended math class, American Government class, Spanish Class and was in the auditorium taking guitar lesson with teacher Lee ANDRES when some kids came into the auditorium and announced that someone was in the Commons area with a gun. He peeked into the cafeteria and saw that the kids had ducked under the tables and that a janitor was in the corner instructing the kids to get down.

He remembered seeing a gun outside throw something into the senior parking lot. He described him as being tall, having some sort of mask and wearing a black trench coat. He was carrying a shotgun.

Jacob immediately retreated to the auditorium. He was going to ran with other students down a hallway toward the front of the building when he was aware that a gunman was shooting down the hallway. He did not see this gunman. The group of kids he was with then ran out the upper left doors of the auditorium and into the parking lot and to safety.

He left his backpack, his guitar and music in the auditorium on the stage. He was wearing jeans, a green sweater and "Duck Martin" shoes (black dress shoes).

When asked if he used the Internet, he replied that he would occasionally look something up and the last time he used a chat line was a year ago.

When asked if he knew anyone with a double pierced eyebrow, he stated that Brendon RISBECK, a senior and a single pierced brown hole that has a last horse-shoe in it. RISBECK is a varsity football player for the school.

I spoke briefly with Jacob's father who related that Jacob called him from the nearby library at 1:39 a.m. on that morning to tell them that he was safe. He also stated that he has recently adopted Jacob and is in the process of changing his name from Jacob VARELA or Jacob SCHRECK.

The interview ended at 1400 (2 p.m.).

WHERE INTERVIEWED:
Residence: 7662 S. Gray Street, Littleton, Colorado 80128

WHEN INTERVIEWED
May 3, 1999

ACTION TAKEN:

On May 3, 1999 Agent Linda R. HOLLOWAY of CBI was given a last sheet, control number 2465 requesting that an interview be done with Columbine Student Carrie PREZIOSI. It was believed that Carrie was in the cafeteria around 7 a.m. on April 20, 1999.

I contacted Carrie PREZIOSI by telephone and obtained directions to her residence in Littleton. She was at home and available for an interview.

At 0940 hours (9:40 a.m.) I interviewed Carrie at her home. Her older brother was present upon my arrival and left shortly after we began the interview.

Carrie PREZIOSI related that her mother took her to school as usual. Her mother is a teacher at another school. She got to school at 6:55 a.m. and went to the commons area (cafeteria) There she met up with friends Jeremy ORBAN(sp), Steve BRODEN. Brandi WISEMAN, and Chris (unknown last name). A diagram of the cafeteria was shown to Carrie at this time and she was fairly certain that they sat at Table Y.

The group remained at Table Y until 7:35 a.m. when she went to Language class. She returned back to the cafeteria during second hour at about 8:25 a.m. and sat at either Table II or V. She sat with Aaron BROWN, Keil ASHTEN, Evan McLAUGHERTY (sp), Justin HENDERSON and Justin BAER during this break. She did not notice any suspicious duffel bags or remember anyone in the area where the duffel bags were placed. She was shown photographs of the duffle bags and did not recognize them.

She was in the science room, Biology class with teacher Mr. JOHNSON, taking a test when a teacher came into the room and told the students to get down. There were 25 to 30 students in the class at that time. They got up against a wall and waited.

Two or three children who had been in the cafeteria ran into their room and joined the group. She could hear loud bangs and people screaming. The explosions were so forceful that she could feel them through the floor.

She then noticed that Mr. SANDERS came into the room. He had been shot and was bleeding from the mouth and had also suffered a chest wound. He fell onto the floor. Two students, Erin HANCEY and Kevin STARKEY helped Mr. SANDERS. They attempted to stop the bleeding and a sign was placed in the window that she thought related that there was a wounded victim in that room.

An adjacent room of children joined them. There were about 60 kids in total in the classroom. A teacher left and locked some of the doors. Mr. FRIESEN and Mr. JOHNSON were the teachers in the classroom with the kids. Something was thrown threw the glass portion of a window to the room where they were that caught fire. It was quickly extinguished by a fire extinguisher. She assumed it was one of the gunmen that threw the device.

She was in the room with the other student and Mr. SANDERS from 11:15 a.m. until 3:15 p.m. when the SWAT team entered the room. They watched the television to learn what was going on on the outside and they had telephone contact with people on the outside.

The shooting had stopped for about two hours before the rescue. The fire alarms were going off. Mr. SANDERS was still alive and showing students the photographs of his family and telling students to tell his wife and daughters that he loved them. Mr. SANDERS did not feel like he was going to live. He was choking up blood. When the SWAT team removed the children, they were told to leave Mr. SANDERS.

She left the school by going through the cafeteria, passing next to the serving area and out a door. The cafeteria had several inches of water on the floor from the sprinkler system. Their were two dead bodies of students outside the building that she passed. One was at the top of the stairs and one at the bottom.

Carrie did remember that after the announcements that are shown in each room with a television that there is a " thought for the day" or "phrase for the day.". She recalled that the message for that day was something to the effect of "YOU DON'T WANT TO BE

HERE TODAY. 4/20/99.

When Carrie was asked about knowledge of the Trench Coat Mafia she related that a girl by the name of Shantel DOWNS or Shantel BERRY (sp) hangs around a heavy set male that she believes belongs to the TCM. This male is further described as have short straight thin brown hair and a small mustache.

She further stated that members of the TCM usually still in the corner of the cafeteria near the table WW. She also gave the name of Krista WEINER who may know the heavy set male who hangs around with the TCM. She believes that Krista WEINER is in Boulder getting an abortion. The only other information she had on the TCM was that she believed that they hung around a red house on Engles Street a couple of blocks from her residence.

Carrie left her black backpack in the Science Room. It is brand "Out brook". She was wearing a green shirt, a kacki colored skirt and sandals on that day. When asked about the Internet, she related that she does use the E-Mail occasionally and has used a "chat line" twice to talk with her grandparents.

The interview ended at 10:20 a.m.

CONTROL NUMBER #1899

REPORT TAKEN BY:

Agent Linda R. HOLLOWAY
CBI
690 Kipling
Denver, Colorado 80215
(303) 239-4218

WITNESS:

WILLIAM FREDERICK BECK
DOB: 06/16/83
5579 West Maplewood Place
Littleton, Colorado 80123
(303) 738-0815
Mother: Carol BECK
Father: Robert BECK

WHEN INTERVIEWED:

Phone interview: April 30, 1999 and May 4, 1999
Duplicate Control Number DN2406 – interviewed in person April 28, 199 by Jim BURKHALTER - Jeffco DA

ACTION TAKEN:

On April 29, 1999 Agent Linda R. HOLLOWAY of CBI was assigned lead 1899 requesting contact with Will BECK, a student at Columbine High School. He was not listed on the Rapid Start system at that time. A message was left on an answering machine, phone number (303) 738-0815 on April 30, 1999.

On April 30, 1999 and again on May 4, 1999 I spoke on the phone with William BECK. He related that he was on the steps outside of the cafeteria at the time of the shooting. He first realized that there was a problem when he heard gunshots and saw student running and being shot at. He saw one gunman, that he described as tall, wearing a dark trench coat and having longer hair. He had a gun with a longer barrel and having circular holes. He left his backpack and fled into the cafeteria. He spoke with teacher, Mr. SANDERS, and hid in a restroom.

Shortly thereafter, he went through the auditorium and then ran out of the building to safety through the front doors. He had been in the cafeteria prior to school starting at around 7:20 a.m.. He was with other another student, Dan MAUSER (sp) but saw nothing suspicious.

He further related that he had learned from another student on the Thursday, April 15, before the shooting, while he was in weight class, that he was on some sort of death list. He does not recall the name of the student nor did he know who created the death list and why he was on it. He would attempt to identify that student for additional information.

It was learned that he had been personally interviewed by District Attorney investigator Jim BURKHALTER on April 28, 1999 about the shooting.

BECK was concerned about his backpack and receiving the contents of his school locker and athletic locker.

There is no need for another "in person" interview of this witness.

WHEN INTERVIWED:

May 5, 1999 at 10:45 a.m.

WHERE INTERVIEWED:

Residence: 6606 West David Place, Littleton, Colorado

ACTION TAKEN:

On May 5, 1999 Agent Linda R. HOLLOWAY of CBI conducted a personal interview at the residence of Columbine student Jesse MADDOX. He is a freshman this school year.

He related the events of April 20, 1999: His mother, Cheryl transported Jesse to school as she does every day. He arrived at the High School at between 7:20 and 7:25 a.m. His first class is Science Class with teacher Mr. WILL. He went straight to the classroom. After the morning classes were finished, he went to his regularly scheduled A lunch and went to the cafeteria. Since the last class before lunch got out about a minute early (11:09 a.m.) he was one of the first person in the lunch line. He got his meal and sat down at table DD. He was shown a sketch of the tables and pointed to tables SS and DD as where he remembered sitting. Other person he remembered sitting with are: Bartholomew FOSTER (a.k.a. BEAR) Justin BRYANT, Sean HOOKER and David LOCKWOOD.

Jesse was wearing jeans, a gray shirt and a white hat with the writing "Notre Dame" written on it. He is a short, heavyset child with short hair.

The incident that first brought is attention to the incident was when a teach yelled "get down". He got down for a short time and then heard a teacher tell them to get out. He crawled for a distance and then ran up the stairs to the first landing. He heard gunshots that he thought were coming from up the stairs.

He then ran back down the stairs and through the lower level halls where the Language Department is housed. He was in a language room for a short time and ran out one of the adjacent door to the "Seminary House" located hear the school. He stayed there until about 4 p.m.

He never saw any of the gunmen or saw any of the dead or wounded students. He does not know any of the TCM, nor would he recognize them. He did not remember see the duffel bags in the cafeteria or anyone place anything suspicious in the area where he was sitting (which was close to where the devices were located).

DATE INTERVIEWED:
May 5, 1999, 2030 hours (8:30 p.m.)

PLACE INTERVIEWED:
Residence: 7545 S. Yukon Court, Littleton, Colorado 80128

ACTION TAKEN:

On May 4, 1999 the Reporting Agent, Linda R. HOLLOWAY, called Brian MAJCEN by telephone to schedule an interview with his brother, Matthew MAJCEN. Matthew's name was on the list of student's who had possibly been in the cafeteria at the time the shootings began. Matthew informed me that his brother, Brian, is a special needs student and that a family member would need to be present to help with the interview of Brian. Matthew furthered report that he was also a student at Columbine High School and was in the school on April 20. An appointment was scheduled for the evening of May 5, 1999 for an interview with both boys at their residence in Littleton.

On May 5, 1999 at 8:30 p.m. I meet with the MAJCEN family at their home. Both parents, Tom and Gloria MAJCENE were present during the interview. Brian had another previously scheduled appointment so he was interviewed first.

Brian was taken to Columbine High School by his father on the morning of April 20, 1999 at about 6:50 a.m. He arrives early to lift weighs as he is on the football team. He attended classes as usual in the morning. He is scheduled to take B Lunch and was in Math class when the fire alarm went off. His teacher instructed the student to get out of the building. He was unaware as he began moving that there were gunmen in the building. He took the long way out of that wing, but left out of an exit in the math wing and went to the park across the street.

He had heard later that there was a gunman on the roof, however, he never saw any gunmen or witnessed any shooting. Mr. MOORE, a history teacher, told him that someone was shooting at him (Mr. MOORE). He eventually was taken home.

An interview was then conducted with Matthew. He is a sophomore in the special needs class. He appears to be relatively low functioning and was unable to give spontaneous responses to my questions without the assistance of his family members.

He was picked up by a friend, Brad BOLLERUD and taken to school that morning. He attended first hour American Government class and then was in Special Ed class second, third and fourth hours. He then went to A Lunch where he (per the cafeteria roster) sat at table C. He was with Jeff BARRETT during lunch. He had walked toward the windows to talk with a friend, David HOLMES or David HOLMAN when he heard shots. Mr. SANDERS told students to get down,, so he got down under a table.

The next thing he remembered was getting up and running. He ran with Nicole ZACCARDI (from table KK). He ran through the Foreign Language Hall and he and other student hit under a desk for approximately 30 minutes. He than ran out of the parking lot and over the hill to the Morman House. He did not see any gunman or see anyone shoot.

He left behind his green Jansport backpack in the cafeteria. He does not have a regular student locker, however he does have a gym locker and it contains his gym shorts and shoes. He does not recall what he was wearing that day and neither do his parents.

The only other information that could be recalled was that a person by the name of Leigh KAMENS "took control" of the room where he hid under the desk in the Foreign Language hall. She may be a student.

WHEN INTERVIEWED:
MAY 6, 1999 1800 (6 P.M.)

WHERE INTERVIEWED
RESIDENCE – 9124 W. PROGRESS AVE
LITTLETON, COLORADO 80123

ACTION TAKEN:

On May 6, 1999 at 1800 (6 p.m.) the Reporting Agent Linda R. HOLLOWAY went to the Larson residence in Littleton to interview Eric LARSON. He gave the following accounts of the events of April 20, 1999:

Eric was picked up at his residence by Nichele DUNN at 7:05 a.m. They drove to school and parked in the Clement parking lot off Pierce Street at 7:25 a.m. He went to his locker and then straight to his first hour computer class in the business area of the school. He then went to the cafeteria at 7:30 a.m. because he found out that there was a substitute teacher. He remained in the cafeteria with Daniel YAEGER until first hour was over at 8:25 a.m. He sat near tables PP and QQ however he did not notice anything unusual, like duffel bags, while he was there.

LARSON then left the cafeteria and attended his second period science class, his third period algebra class and fourth period language class. He went outside and down the west stairs into the cafeteria. He sat at table UU which is close to the door he had just entered. He was with Mike LAVAN, Brendon TRUJILLO and Dan REICKS who are also all sophomores. He sat and talked, not eating lunch because he had forgotten to bring any money for food

Eric LARSON looked out the windows and first noticed another student bleeding. He next recalled that a female teacher came in and told them to get down. He got down for a short period of time and then crawled toward the stairwell that leads to the second floor.

He got up and ran the rest of the way up the stairs. He heard what he thought were six gunshots and an explosion when he got to the landing and he ran down the hall to the front door (that open toward Pierce street). He marked on the provided maps his route out of the building. Once across the street he went to a friend's residence and called his mother.

The only other significant information that he could recall was that he noticed a "kid", probably male, running from the school just before he notice the student that was bleeding. He was wearing a light gray or white shirt. He was running past the baseball fields when he saw him. He did not know if he was running because he may have heard gunshots or if it was before the shooting started.

He did not see any of the shooters-or have any other significant information to share.

May 6, 1999 AT 1900 HOURS (7 p.m.)

WHERE INTERVIEWED:
RESIDENCE: 8861 WEST PROGRESS PLACE, LITTLETON, CO

WITNESS INERVIEWED:

Lindsay SWANSON
DOB 09/23/82
ADDRESS: 9123 WEST PROGRESS AVENUE
LITTLETON, COLORADO 80123
(303) 978-1045

WHEN INTERVIEWED:
MAY 6, 1999 at 2000 hours by telephone
ACTION TAKEN:

On May 6, 1999 the Reporting Agent Linda R. HOLLOWAY went to the residence of Columbine Student Andrea LAUNER, arriving at 7 p.m. Present during the interview were her parents, Deb and Russ LAUNER and her sister, Amanda (13 yoa). She related what she did on April 20, 1999:

Andrea's father took her to school and dropped her of in the teacher' parking lot before school started. She went to her locker and met with friends on the east side of the High School (inside) prior to first period. During 4th hour, she has no classes so she went to the commons (cafeteria), arriving at between 10:20 a.m. and 10:25 a.m. She sat at table DDD with friends Katie VLCEK, Nikki LAWSON, Lindsay SWANSON and Lindsey PORTINCASO. Lindsay SWANSON and Lindsey PORTINCASO were there only through 4th period, not the A Lunch period.

Andrea escorted Lindsay SWANSON outside the northwest door of the cafeteria was she took a roll of film for a class project. This would have been just prior to the A Lunch period beginning (10 to 20 minutes). She was photographing her friends and other unknown objects. Lindsay SWANSON'S home phone number was given as (303) 978-1045. She was contacted a shortly after the interview with LAUNER was finished by me and it was learned that the roll of film was taken out of her SOR Pentax camera and put inside a small black or clear film case and placed in the front pocket of her backpack. Her backpack is a green Eddie Bauer pack that was left in Mr. JOHNSON'S science room in the science wing of the building. This information was passed on in the form of an Information Control entry and given to Chris ANDRIST of the Jefferson County Sheriff's Department who was in charge of the crime scene at that time. He later reported that the roll of film had been located and was in the process of being developed.

Andrea then named the people who were at her table NN during A Lunch. They are: Nikki LAWSON, Lara KENNEY, Lauren BONIN, Katie SULLIVAN, Becca GOODWIN, Kristin SHEFFIELD and Sarah DOODRILL.

Andrea related that she had gone through the food line about 5 minutes before the lunch period began and got her meal. She recalled having breadsticks and cookies. She was sitting at the table, facing the stairs when she saw Mr. SANDERS coming into the cafeteria and telling everyone to "get down". She thought he may have come from the teacher's lounge area. She got under her table and waited a short while.

She and other then ran to the elevator and got in and began ascending to the floor where the library is located when she heard three gunshots. She estimated that there were 15 children in the elevator at that time.

Upon hearing the gunshots the elevator was sent back down to the lower level and she and the other children ran into the auditorium. Someone locked the auditorium door and she laid on the cement floor. She was with Katie SULLIVAN, Dan RIECKS, Jeff BARRETT and Andy ANDERSON while she was in the auditorium. She recalls hearing "bangs and explosions"

The next thing she remembers is Mr. ANDRES SR. or JR. coming into the auditorium and told the children to run through the door by the cafeteria downstairs and through the Foreign Language halls and eventually to the outside. She ran to Kara KENNEY'S residence and called her mother. It as about 11:30 when her mother received the call from Andrea.

Andrea left her backpack, a blue Jansport, in the cafeteria. Also in the school in her locker are other books and school material. Her lacrosse items are in Mr. Eric FRIESEN's room. She was wearing a gray lacrosse polo jersey with the big number "22" in it. She also had on blue jean shorts and white tennis shoes.

When asked about knowing any of the members of the TCM she stated that she knows who Brooks BROWN is. When asked if she know anyone who has a double pierced eyebrow, she stated that Brie PESQUALLI may have one.

She uses the Internet and her name of the computer is "DAHLILA 7 @aol.com.

When asked if she recalled the phrase of the day given after the announcements on April 20, she remembered it was something like "THIS IS GOING TO BE A BAD DAY."

She did not remember anything else of significance in this case. The interview ended at 2000 hours.

Where interviewed: 9309 West Lake Drive, Littleton, Colorado

When interviewed: April 22, 1999 1500 hours

Source of information: Sgt, Christen TOMFORD, Jefferson County Sheriff's Dept.

ACTION TAKEN:

On April 22, 1999 Agent Linda R. HOLLOWAY of CBI was asked to contact Evan TODD, a victim of the Columbine High School shootings. The information given at the time of the assignment was that Mr. TODD was a victim and had received some injuries that were treated at a local hospital and that he had been released. I contacted Evan TODD at his residence and made arrangements to meet him on April 22.

On April 2, 1999 at 1500 hours (3 p.m.) I interviewed both Evan TODD and his older brother, Adam TODD. It was learned that both brother attend Columbine High School and had information.

Evan TODD related that he was in the library when the shooting started. He was with his friend, Ryan BARRETT, when he heard an explosion. He remembered hearing kids running and a teacher related that there were kids with guns. He stuck his head out of the library and saw Eric HARRIS with a shotgun. HARRIS shot the shotgun at Evan TODD, but missed. Evan TODD ran for cover and hid under the copy machine and then under a library desk.

The two gunmen entered the library. They were shooting. He remembered a gunman saying :STOP NIGER" and then they shot the black student ISAIAH. He recalled hearing a girl praying and then heard gun shots and he could not hear her anymore. He believed that they killed her.

He recalled them saying "ALL JOCKS STAND UP - NOW IS THE TIME FOR REVENGE FOR MAKING US OUTCASTS".

The gunmen then discovered him hiding. Dyland KLEBOLD held a shotgun to his head and he was called a "FAT FART". He was asked why they should not shoot him. He told them that he never had any problems with them and his life was spared.

Evan TODD further recalled that Eric HARRIS had blood coming from his nose. He stated that the two gunmen stuck very close together as if protecting each other's back. They were not talking on hand held radios however he did remember hearing bombs going off in other areas of the building while HARRIS and KLEBOLD were in the library.

Evan TODD received minor injuries which included shrapnel in the eye and in his shoulder. He was treated and released from the hospital.

Adam TODD then related that he had a class with Eric HARRIS and they were in the same senior class. Adam was sick that day and did not attend school. Adam further informed me that the blue Madza that was parked closest to the door in the Senior parking lot belonged to Zach HECKLER who he believed was a close associate of HARRIS and KLEBOLD. He showed me a recent news paper article dated April 21 that showed officers taking cover behind the Blue Mazda during the shootings. Adams and Evan supplied me with two large senior photographs depicting the 1999 Senior class. Both photographs contained the same people, however, one depicted the students taking a traditional class photograph and the other allowed students to do whatever they felt like.
They pointed out HARRIS and KLEBOLD in the upper left of the pictures and stated that the student around them were their friends and associated with Trench Coat Mafia. Sitting immediately in front of the two shooter they identified Zach HECKLER and Brook BROWN.

In the humorous photographs, the group in the upper left hand corner appear to be holding their hands as if to be pointing a gun at the camera. These photographs were taken for copying purposes and will be returned.

This concluded the interview

WHEN INTERVIEWED:
MAY 6, 1999 2120 HOURS (9:20 p.m.)

WHERE INTERVIEWED:
RESIDENCE = 7539 WEST FROST DRIVE, LITTLETON, CO

ACTION TAKEN:

On May 6, 1999 the Reporting Agent Linda R. HOLLOWAY interviewed student Michael Edward KISH at his residence in Littleton. He was asked to relate what he did on April 20, 1999. He stated that he was picked up at his home by Mark RADTKE at 7:05 a.m. an arrived at the school between 7:15 and 7:20 a.m.

He went to the library where he played the game "blackjack" with Mark RADTKE, David SMITH, Kevin HANEY, Greg BARNES and Joel GOULD. He then went to his first trough fourth period classes as usual.

He went to the lunchroom at 11:13 a.m. and sat at table WW next to the northwest door. During lunch he sat with Jeremy MULLEN, Mark RADTKE, Tanya WORLOCK, Sean NASHMAN (sp) and possible Matt WILSON (he was not sure if WILSON was there or not). He was talking and reading a magazine when he heard gunshots outside the cafeteria. He looked outside the window and saw a student shot (perhaps Shawn GRAVES). He stepped about 6 inches outside of the door, intending to help the shot student when he heard a loud explosion. He got up against the inside cafeteria wall next to the door. He heard other gunshots and ran into the kitchen area and then into the bathroom adjacent to the kitchen. He observed several other students starting to run up the stairs as he ran into the kitchen.

Once inside the small bathroom, he and the other students turned off the light and put their feet against the locked door. Other students in restroom at that time were: Jeremy MULLEN, Bret KASTAALNIK (sp.), Dustin (unknown last name), Fletcher (unknown last name) and another male and female who he couldn't identify.

They sat in the bathroom for about 2 hours. After they have been in there for about ½ hour, a fire started in the kitchen and the sprinklers started going off. He could tell that there were kids in the adjacent room. When they felt all was clear, they ran out of the bathroom and back through the kitchen and out the cafeteria door (northwest door) and to where the police were waiting. He was interviewed by CBI Agent Larry Brown once he was outside of the school.

He does not remember seeing anything suspicious like large duffel bags or anyone carrying anything like the large duffel bag inside the cafeteria while he was there. He also stated that he knows by sight the two shooters (KLEBOLD and HARRIS) however, he does not remember seeing them anywhere in the school that day.

When asked what he left behind that day, he stated that he left a purple Xerox brand expandable file under table WW, on the floor. He was wearing a gray corduroy shorts, a white tee shirt with Stanley Cup Champs written on the front and a Bronco orange baseball cap. He did not have a backpack that day.

He had heard from student Joel BOULD that when he was running from the school, he saw three kids hop in a jeep by the front entrance, near the teacher's parking lot.

When asked about his knowledge of the Internet, he stated that he uses the Internet at school and at friend's homes. His screen name is "BLADE" or "CASH". He has not ICQ number. He does not know anyone with a double pierced eyebrow.

When asked if he remembered seeing or hearing the Thought of the Day, he recalled that he may have been "TODAY IS NOT A GOOD DAY TO BE HERE – 4-20."

The only other comment he had was that he felt that the "jocks" pick on other people at the school. He did not remember anything else of significance.

WHEN INTERVIEWED:
MAY 14, 1999 10:30 a.m.
Telephone interview

ACTION TAKEN:

On May 14, 1999 the Reporting Agent Linda R. HOLLOWAY contacted Jason HENSLEY by telephone after speaking with his mother the evening before. Jason was asked to relate the events, as he could recall, of what he did and saw on April 20, 1999. He stated that his mother, Linda, arriving just before 1st period, drove him to school. His first class was gym, followed by English in the Language Arts wing, mathematics for the 3rd period and Spanish for 4th period.

He then went to A Lunch in the cafeteria. He sat near the Rebel store (around Table B) with Ben JOHNSON, David SCHULTE, and MATT FRIEND. There were two tables of his friends in that area. He left his backpack on the ledge when he exited the cafeteria after the incident started. The first thing unusual that he remembers is when Matt FRIEND got up. He at first thought that a fight had broken out when he heard someone say that there was someone with a gun.

Jason HENSLEY got under a table when instructed by a janitor. He was under the table for only a very short time when he and Ben JOHNSON ran out the door by the Rebel store and into the parking lot. He stated that it was not the senior parking lot that they ran through, but the lot adjacent to the senior's lot. He ran to a near house.

He never saw the two large duffel bags or anyone carrying them into the cafeteria.

He does not know any of the members of the TCM nor would he recognize them. He left behind his blue backpack on the west ledge which contained his math, Spanish vocabulary and assignment books, a calculator and various folders.

He was wearing blue jeans and a blue sweater that day. Other items owned by him and left at Columbine High School in his gym locker are white Adidas tennis shoes and gym clothing. He has a school locker that has a science book among other miscellaneous school items.

He does have access to the Internet and his screen name is "Credso2". He didn't know what an ICQ account is.

He didn't recall seeing or hearing any unusual announcements prior to the shooting, nor did he remember the "thought for the day".

He doesn't know anyone with a "double pierced eyebrow."

He didn't see any gunmen nor see anyone shot. There was no other significant information gleamed from the interview.

WHEN INTERVIEWED: MAY 7, 1999 0945 HOURS

WHERE INTERVIEWED: RESIDENCE – 8072 SOUTH VANCE STREET, LITTLETON

ACTION TAKEN:

On May 7, 1999 the Reporting Agent Linda R. HOLLOWAY contacted twin brothers Adam and Jason SANDS at their residence in Littleton. Both of the boy's natural parents were present during the interviews.

It was learned that the two boys drove themselves to school on April 20, 1999. Adam stated that they arrived at the school at 7:15 a.m. and parked in the parking lot at Clement Park. He walked to his locker, past the cafeteria and to his first period class in the Language room in the lower level of the school. After 4th period, he went to the cafeteria, arriving at between 11:13 and 11:14 a.m. He didn't recall seeing any duffel bags in the cafeteria or seeing anyone carrying anything unusual into that area.

He had already gone through the lunch line and purchased his lunch before the lunch period began for the rest of the students. He sat at table XX with several other friends. He was shown a map to verify where he was at in the cafeteria.

Other students at his table were: ERIN BROWN, DAVID JOHN SMITH, DAN PALMETER, MATT DEPEW, ERIC LARSON, JACOB BAUER, MARTY LAYTON, MIKE LAVAN, DAN REICKS AND BRENDON TRUJILLO.

His first knowledge of the incident was when he observed other students rush toward the windows. He heard two loud gunshots. He recalled seeing a kid up on the hill and run and jump over the fence (approximately 7 ½ feet tall). This kid was described as being thin, athletic, having short hair and wearing dark clothing.

He got down and began crawling. He the got up and ran up the stairs and out the math doors. He drew on a map his movements through the school. He ran across Pierce Street and into Leeward Park. He was with Melissa PORTER, who also ran from the cafeteria.

He remembered hearing two "shots" when he was under the table and two shoots when he was on the landing on his way up the stairs. He did not see the gunmen or any students who were shot.

He knows both Dylan KLEBOLD and Eric HARRIS. He talked to Dylan in the hall on the previous Tuesday. He thinks that Dylan has A Lunch also and maybe Eric HARRIS has the same lunchtime.

He is involved with what he referred to as "Fantasy Baseball" on the computer where kids interact over the Internet. Dylan KLEBOLD is involved with this same Fantasy Baseball game and he has chatted with him on "chat lines" in the past about Fantasy Baseball. His screen name is "AD232323". This is the only communication he has had with KLEBOLD. Another person involved with this game is Chad LAUGHLIN who may be the "leader".

When asked what he was wearing that day he stated that he was wearing kacki shorts, and old dark blue or green shirt and a white baseball cap. He left behind his maroon Coleman backpack in the cafeteria which contained books and binders and a TI 83 calculator.

When asked what he had heard about the shooting, he sated that a friend, David EAGLE, told him that their was a third gunmen who and blond streaks in his hair. He heard that there were three more people involved who were outside the school and ran.

He also heard that other kids in Deb Williams's science room heard one of the shooters talking on a cell phone and using the name "JOE".

He heard from Nelson EAGLE that the manager of Clement Park, John SPALINGER, saw three people run from the school, who may be gunmen. He showed me briefly on his computer the Fantasy Baseball game.

When asked if he remembered the "Thought for the Day" he thought it was "I bet you wish you weren't here today 4:20, 4:20".

He doesn't know anyone with a double pierced eyebrow.

I then spoke with his brother, JASON SAMUEL SANDS. He went to school with Adam and meet friends in the math hall before going to 1st period Spanish class. He has B Lunch and was in math class when the incident started.

He first heard kids screaming and "bangs". The fire alarm went off and he went out the front doors to the math pod and across Pierce Street. He was out of the school within 5 minutes of the beginning of the incident.

He heard from teacher Mrs. MULLINS that shots had been fired across the street toward the kids in Leeward Park. He did not personally witness anything.

The interview ended at 10:50 a.m.

FATHER – DAVID (303) 979-8398

ACTION TAKEN:

On May 7, 1999 the Report Agent, Linda R. HOLLOWAY, interviewed Brian Eugene SODERBURG at his residence. The Information Control sheet #3043 was for Brian's sister, Lindsay, who is 17 yoa and also a student at Columbine High School. Brian SODERBURG, however, informed me that his sister was at lunch when the incident began and remained off campus for the entire event. His backpack was located in the cafeteria which contained information from his sister.

His mother, Nancy, who was present during the interview, dropped off Brian at school. Upon his arrival at 7:15 a.m. he went to is locker which is located near the Auditorium. From there he went to the cafeteria and sat, at what was determined from showing him a map of the cafeteria, at table BBB. This particular table is immediately adjacent to tables where the bombs were later located. He remained at that table until the first period bell rang. Also seated with him were the following student: DAVID SMITH, CYRUS MASE (a.k.a. JAKE), AARON BROWN, TONYA WORLOCK AND SEAN (unknown last name). He did not see anything suspicious, like the duffel bags, while he was in the cafeteria area prior to school beginning.

Brian then attended his normal 2nd, 3rd and 4th period classes. He went to his locker and dropped off his book. He picked up what he needed for his afternoon classes and his lunch and went outside the west doors, down the stairs and into the cafeteria. He sat at Table UU which is very near the northwest door that he entered.

Also seated with him during A Lunch were BRENDON TRUJILLO, DAN (unknown last name), ERIC LARSON, MIKE LAVEN, and LOGAN (unknown last name).

The first he known of the incident was when he saw a student outside the door grab his leg and fall to the ground. A teacher (perhaps Mr. SANDERS) or a janitor came in to the cafeteria and told the students "Get down, there's a gun". Brian got up against an adjacent wall. A short while later he ran up the stairs, down the upper hallway and across the street (Pierce) to an adjacent part. He went to a private residence and called his parents. He indicated on two maps his route of travel out of the school and where he was sitting both before first period and at lunch.

When asked if he saw the shooters prior to the incident, he stated that he may have seen ERIC HARRIS between first and second periods. He was wearing arm pants, a black shirt and sun glasses (he was not sure of this).

Brian was wearing dark blue nylon seat pants, a gray tee shirt and a white hat with an orange "F" on it. The backpack he left behind in the cafeteria was a yellow and black Lands End brand one. It contained two white folders, pens and pencils and a calculator.

He does use the Internet and his screen name is "REDFLT". Of the members of the TCM, he knows Joe STAIR from a woodshop classes he took with him. He was not in school that he saw.

He does not know anyone who has a double pierced eyebrow and he didn't remember hearing the announcement on that day or know the thought of the day. His mother did not have any further information either.

WITNESS:

CHRISTINA ROWER
DOB 12/04/82
ADDRESS: 6644 WEST ROXBURY PLACE
LITTLETON, COLORADO
(303) 904-3342

MOTHER: GAIL ROWER (303) 982-4625
FATHER: STEVE ROWER (303) 971-5558

ACTION TAKEN:

On May 7, 1999 the Reporting Agent, Linda R. HOLLOWAY, interviewed Christina ROWER at her residence. Present at the interview was another Columbine student, Ann Marie PATRICCA. She was with Christina ROWER in the cafeteria at the time the incident began. She had not been contacted for an interview, so I interviewed her after I completed the interview with ROWER.

Christina ROWER rode her bicycle to school of April 20, 1999, arriving at 7:15 a.m. She went to her locker and then to her computer class located near the cafeteria. She went to A Lunch after her morning class and when shown a map of the cafeteria identified table KK where she was seated. (Her backpack was located at table LL). Seated at the table KK with her were the following student: ANN MARIE PATRICCA, SARAH CAIN, SARAH HOLTON, CAROLYN LENNING AND LAURA VANDERHAMM (sp).

Her first knowledge of the incident was she heard someone yell "get down". She was seated very near to the stairwell. She recalled seeing Mr. SANDERS and a janitor running around. She was under the table for about one minute when she ran up the stairs and out the school to the east, crossing Pierce. She never saw any of the gunmen. She recalled seeing fire and smoke as she ran from the cafeteria and up the stairs.

She left behind her green East Pack backpack in the cafeteria which contained her glasses, an inhaler, lip gloss, papers, notebooks and pens, her wallet with her drivers license and other identification. Located in her locker are other books and her bike helmet.

She was wearing a white tee shirt, a gray flannel vest, jeans and blue tennis shoes.

She uses the Internet some but only to get "instant messages". She does not use chat lines.

She does not remember hearing the announcements that day, nor does she remember the "thought for the day". She does not know anyone who has a double pierced eyebrow.

She does not know any of the members of the TCM. The only rumor she has heard about the incident is that Joe STAIR is the leader and that he may be involved.

ANN MARIE PATRICCA
DOB 11/01/82
ADDRESS: 8320 WEST CALHOUN DRIVE, LITTLETON, COLO 80123
PHONE: (303) 933-8479

ACTION TAKEN:

On May 7 at 11:50 a.m. the Reporting Agent, Linda R. HOLLOWAY, interviewed ANN MARIE PATRICCA while at the residence of CHRISTINA ROWER. I had initially been asked to interview Ms. ROWER, and learned that Ann Marie was with Christina in the cafeteria at the school at the time the incident began. Ann Marie had not been interviewed. It was learned that RICK WRIGHT had been assigned Control Number 2835, but had not contacted her yet. Ms. PATRICCA stated that it would be difficult for anyone to locate her because of a phone number change or some other recent status change.

Ann Marie PATRICCA stated that she drove herself to school on that day, parking in the Clement Park parking lot. She went straight to her first period class. After fourth period, she went back to her car and then to the cafeteria. She was wearing a white dress shirt with a tie, khaki pants and sandals. She sat at table KK (her backpack was at table LL). With CHRISTINA ROWER, SARAH CAIN, SARAH HOLTON, CAROLYN LANNING AND LAURA VANDERHAMM. This is very close to the stairs that lead to the second floor.

Her first knowledge of the incident was when some one yell "get down". She saw Mr. SANDERS and a janitor running around. She was under a table for less than a minute when she and CHRISTINA ROWER ran up the stairs, down the upper hallway and out the east doors. They ran across Pierce and into a nearby park. Neither girl knows any of the TCM, nor did they see any of the members on that or the day before. They do not know anyone with a double pierced eyebrow.

She also did not remember hearing or reading the announcements or the thought for the day. She only used the Internet to get "instant messages". She does not use the chat lines.

There was no significant information gleamed from this interview.

She assisted in drawing maps of where she was seated and how she exited the building.

WHEN INTERVIEWED: MAY 7, 1999 0945 HOURS

WHERE INTERVIEWED: RESIDENCE – 8072 SOUTH VANCE STREET, LITTLETON

ACTION TAKEN:

On May 7, 1999 the Reporting Agent Linda R. HOLLOWAY contacted twin brothers Adam and Jason SANDS at their residence in Littleton. Both of the boy's natural parents were present during the interviews.

It was learned that the two boys drove themselves to school on April 20, 1999. Adam stated that they arrived at the school at 7:15 a.m. and parked in the parking lot at Clement Park. He walked to his locker, past the cafeteria and to his first period class in the Language room in the lower level of the school. After 4th period, he went to the cafeteria, arriving at between 11:13 and 11:14 a.m. He didn't recall seeing any duffel bags in the cafeteria or seeing anyone carrying anything unusual into that area.

He had already gone through the lunch line and purchased his lunch before the lunch period began for the rest of the students. He sat at table XX with several other friends. He was shown a map to verify where he was at in the cafeteria.

Other students at his table were: ERIN BROWN, DAVID JOHN SMITH, DAN PALMETER, MATT DEPEW, ERIC LARSON, JACOB BAUER, MARTY LAYTON, MIKE LAVAN, DAN REICKS AND BRENDON TRUJILLO.

His first knowledge of the incident was when he observed other students rush toward the windows. He heard two loud gunshots. He recalled seeing a kid up on the hill and run and jump over the fence (approximately 7 ½ feet tall). This kid was described as being thin, athletic, having short hair and wearing dark clothing.

He got down and began crawling. He the got up and ran up the stairs and out the math doors. He drew on a map his movements through the school. He ran across Pierce Street and into Leeward Park. He was with Melissa PORTER, who also ran from the cafeteria.

He remembered hearing two "shots" when he was under the table and two shoots when he was on the landing on his way up the stairs. He did not see the gunmen or any students who were shot.

He knows both Dylan KLEBOLD and Eric HARRIS. He talked to Dylan in the hall on the previous Tuesday. He thinks that Dylan has A Lunch also and maybe Eric HARRIS has the same lunchtime.

He is involved with what he referred to as "Fantasy Baseball" on the computer where kids interact over the Internet. Dylan KLEBOLD is involved with this same Fantasy Baseball game and he has chatted with him on "chat lines" in the past about Fantasy Baseball. His screen name is "AD232323". This is the only communication he has had with KLEBOLD. Another person involved with this game is Chad LAUGHLIN who may be the "leader".

When asked what he was wearing that day he stated that he was wearing kacki shorts, and old dark blue or green shirt and a white baseball cap. He left behind his maroon Coleman backpack in the cafeteria which contained books and binders and a TI 83 calculator.

When asked what he had heard about the shooting, he sated that a friend, David EAGLE, told him that their was a third gunmen who and blond streaks in his hair. He heard that there were three more people involved who were outside the school and ran.

He also heard that other kids in Deb Williams's science room heard one of the shooters talking on a cell phone and using the name "JOE".

He heard from Nelson EAGLE that the manager of Clement Park, John SPALINGER, saw three people run from the school, who may be gunmen. He showed me briefly on his computer the Fantasy Baseball game.

When asked if he remembered the "Thought for the Day" he thought it was "I bet you wish you weren't here today 4:20, 4:20".

He doesn't know anyone with a double pierced eyebrow.

I then spoke with his brother, JASON SAMUEL SANDS. He went to school with Adam and meet friends in the math hall before going to 1st period Spanish class. He has B Lunch and was in math class when the incident started.

He first heard kids screaming and "bangs". The fire alarm went off and he went out the front doors to the math pod and across Pierce Street. He was out of the school within 5 minutes of the beginning of the incident.

He heard from teacher Mrs. MULLINS that shots had been fired across the street toward the kids in Leeward Park. He did not personally witness anything.

The interview ended at 10:50 a.m.

WHERE INTERVIEWED: 6537 WEST NOVA DRIVE, LITTLETON, COLORADO 80128

WHEN INTERVIEWED: MAY 19, 1999 2 P.M.

ACTION TAKEN:

On May 19, 1999 the Reporting Agent, Linda R. HOLLOWAY, of CBI contacted Stefanie ARGERSINGER first by telephone and then in person at her address in Littleton, Co. Stefanie lives with her mother and boyfriend, Ryan SCHUMER. Ryan is a senior at Columbine High School and was also interviewed by me. (see Information Control No. 3753.)

Stefanie related that she drove to school on April 20th with her boyfriend, Ryan SCHUMER, and parked in their customary parking spot next to Defendants KLEBOLD and HARRIS parking spots. She does not have first period, thus she guessed that they arrived at the school at between 7:30 to 8:10 p.m. She attended her normal 2nd, 3rd and 4th period classes. Her 4th period class was released early, so she left the school at about 10:45 p.m. with Ryan SCHUMER. She did not observe KLEBOLD and HARRIS's vehicles in the parking lot when she either arrived or departed school that day.

They left to go home for lunch and was not allowed back into the area of the school after lunch because the shootings had already begun. She stated that her and Ryan customarily leave the school grounds for lunch as did KLEBOLD and HARRIS.

STEFANIE walked pass the cafeteria between 3rd and 4th period, however, she did not go into the cafeteria nor did she see anything suspicious. She believes that she spoke briefly to both KLEBOLD and HARRIS on the previous Monday, April 19,1999 while at their vehicles.

Stefanie was wearing dark blue jeans and a light blue shirt on that day. She does not know anyone with a double pierced eyebrow. She does use the Internet and she screen name is "STEFSWIN". She does not know what an ICQ account is.

She does not remember what the thought of the day was on April 20th. The only other pertinent information she had was that another member of the Trench Coat Mafia may be PAULENE COLBY.

WHERE INTERVIEWED:

RESIDENCE: 6537 WEST NOVA DRIVE, LITTLETON

WHEN INTERVIEWED: MAY 20, 1999 1215 HOURS

ACTION TAKEN:

On May 19, 1999 the Reporting Agent, Linda R. HOLLOWAY, contacted RYAN SHUMER by telephone. A personal interview was also conducted on the following day, May 20, 1999.

Ryan lives with his girlfriend, Stefanie ANGERSINGER at her residence. His parents are Katherine and Edmond KINNEY who live on South Webster Street in Littleton.

He has assigned parking next to KLEBOLD and HARRIS. They drive a black BMW and a black Honda. He recalled that both were at school on the previous Monday, April 19, 1999. Neither of the defendant's vehicles was at school when he and Stefanie arrived between 0800 and 0810 hours.

When he got to school he went immediately to the band room for concert band. He went into the cafeteria at about 0945 hours and sat by the vending machines. When shown a diagram of the commons, he pointed to table FFF as the one he sat at. He did not see anything suspicious such as someone carrying in large duffel bags or the duffel bags lying around the cafeteria floor. He and Stephanie left for lunch off campus at 1025 hours as per usual. They go home for lunch. They were running late as they returned from the one half-hour lunch period. They were returning at about 1150 or 1155 to the school when they were stopped and not allowed back into the school

Ryan stated that he had a Video Production class with DYLAN KLEBOLD. He considered himself friends with the two defendants. He talked briefly about the video class when KLEBOLD did a simulation of blowing up the school with computer graphics. He did not think that their videos were inappropriate and the media had exaggerated their significance. He did not have any of the videos in his possession.

Ryan claimed that he was aware that the defendants made pipe bombs one and one half years ago. He has been to ERIC HARRIS and CHRIS MORRIS's residence in the past. He feels that CHRIS MORRIS knew about what was going to happen, although he could not give any reasons why he felt that way. He did not have any clue that the incident was going to happen.

He stated that he is having a difficult time because he was a friend of the defendants and bowled and drank with the two.

Ryan could not remember what he was wearing on April 20th. He does use the Internet and his screen name is RYST 52469. He does not pay any attention to the daily announcements as he is in band during that period. He also was not aware of the "thought for the day". He does not know anyone with a double pierced eyebrow.

Other friends of the defendants who may not have been contacted yet are CHRISTY EPLING, JASON THOMPSON and ALYSSA SECHLER.

No other significant information was gleamed from the interview.

HOW INTERVIEWED: TELEPHONE

ACTION TAKEN:

On May 21, 1999 at 1100 hours the Reporting Agent, Linda R. HOLLOWAY did a telephonic interview with student JOSHUA ANDERSON. He related what he did on April 20, 1999. He drove to the school and parked in Clement Park at about 8:15 a.m. He does not have a first hour class. He walked to this second hour class and then went to 3rd and 4th periods as normal. After his 4th hour social studies class, he walked to his car at about 11:10 a.m. by way of the east doors and left the school. He did not see anything suspicious. He does not know the defendants.

Josh uses the Internet and his screen name is JOSH 572.

He does not know anyone with a double pierced eyebrow.

He was wearing black pants and a red hockey jersey on that day. He was never in the cafeteria. He left nothing behind in the school, including anything in a locker.

Nothing of significance was learned from the interview. It was deemed that a personal interview was not necessary at this time.

ACTION TAKEN:

On May 19, 1999 at 1700 hours the Report Agent, Linda R. HOLLOWAY, contacted Ana AYALA by telephone. She is an exchange student and will be leaving the country soon. She is a senior at Columbine High School.

When asked to relate her actions on April 20, 1999, she stated that she went to school, arriving at 7:20 a.m. She went straight to her American History class and then to her other morning classes. She then left after her 4th period class and went with friends to the mall for lunch. MARY GLASS and KAREN HENRY, both seniors, and HILLARY SNIDER, a junior accompanied her.

She does not have any classes with the two defendants and does not know them.

She was wearing a yellow sweater and jeans on that day. The only thing she left behind at the school were books and 4 or 5 CD's in her locker.

She does occasionally use the Internet and her screen name is WAYALA 49088.

She will leave on June 14, 1999 to return to her home country of Equator.

WHEN INTERVIEWED: MAY 25, 1999

HOW INTERVIEWED: TELEPHONE

ACTION TAKEN: On May 24 and May 25, 1999 the Reporting Agent, Linda R. Holloway contacted Renee CAMPBELL, Jacqueline CAMPBELL'S mother, and Jamie KAISER, her sister by telephone. Jacqueline was a senior at Columbine High School and recently graduated. She was not available for an interview, however, questions were given and answered thru her mother and sister.

Jacqueline was not at school on April 20, 1999. She attends dental hygiene classes outside of Columbine in the mornings and attends classes at Columbine in the afternoon. She was on her way to school when she learned about the incident.

Jacqueline had one class last year with Eric HARRIS. She knows no other members of the Trench Coat Mafia. She told her mother that Eric had changed since she had class with him in that he used to dress "preppie" and dresses differently now.

She had no information on the incident. She uses the E-mail in the Internet, but has no screen name. She left nothing behind in the school.

INCIDENT LOG OF EVENTS FROM VIDEOS

Taken from observations of Q4 (Jefferson County # 4528)

11:14:55-65 - last frame before shut down

Taken from observation of Q1 (Jefferson County # 4527)

11:22:21-37 - tape starts inside of cafeteria

11:22:23-00 - incident starts, students notice something happening outside on camera 3

11:22:27-12 - camera #4 shows the best angle for looking for devices under the tables

11:24:07-57 - teacher who is killed is seen running up the stairs

11:24:14-61 - mass exodus of kids from cafeteria observed on camera 4

11:26:39-93 - flash observed, perhaps coming from outside

11:27:15-84 - flash observed

11:27:29-87 - BIG flash observed on camera 4, an adult male is observed flying through the air and hitting a chair on his descent. Debris is observed being propelled though the air.

11:27:30-48 - big explosion again with flying debris

between 11:27 and 11:34 numerous flashes are observed, unknown origin

11:29:55-71 - flash coming from outside

11:34:53-50 - a male student comes down the stairs in camera one. He is dressed in a dark sweatshirt with a white logo and blue jeans.

11:36:27-66 - flash – device on stairs

11:36:39-82 - BIG flash, explosion near camera #1 which obscures the camera

11:37:24-74 - Big explosion

11:44:18-65 - Suspect in white tee-shirt (Eric Harris) comes down stairs for first time. He takes a position on the landing of the stairs and points a long gun toward the cafeteria.

Dylan Klebold in the black shirt comes down shortly after And walks through the cafeteria toward the area where The devices were later found.

11:45:00-10 - Eric Harris has a backpack in his right hand and a long gun in his left hand as he is seen walking down the stairs.

Both suspects walk area the area where the devices Were later found

11:45:37-89 - Dyland throws something that ignites and burns shortly after he leaves the cafeteria.

11:46:09-13 - VERY BIG fire starts in front of camera 4 as a result of device that Dylan throws.

11:46:28-69 - Eric Harris (wht) leaves the cafeteria carrying a white cup he was drinking from in his right hand and his gun under his left arm. A strap of something is hanging from his left side.

11:47:51-25 - A large fire spreads through the cafeteria in the area where Dylan had thrown something.

11:57:06-83 - Both suspects are seen coming back down the stairs and into the cafeteria. Dylan has the Tech 9 in his hand.

11:57:36-87 - Both suspects walk through the cafeteria toward the elevator. They disappear and are believed to be in the kitchen area and are not seen for two minutes.

11:59:46-84 - Both suspects come out of kitchen area

12:00:03-01 - Both suspects ascend the stairs and are last seen in camera 1 quad photo.

01:24:18-08 - someone (possibly in black) in seen passing by kitchen opening.

01:33:07-49 - SWAT team enters cafeteria

02:15:33-63 - Tape ends

01:09:35-78 - Date 04/07/99 – same tape, but switches dates. An individual is observed walking though the cafeteria a 1:09 a.m.

WITNESS: PAULINE M. COLBY, DOB: August 23, 1982, POB: Santa Maria, CA, SSAN: 522-59-7952, 5'1" in height, 150 lbs., brown hair, brown eyes, Home address: 6593 South Salsbury Court, Littleton, CO 80123, Home Phone: 303-972-1604, Occupation: Student at Columbine High School, associate of Trench Coat Mafia.

INTERVIEWERS: Agent RICHARD K. GRIFFITH and Agent RICKEY S. MUNDINE, Colorado Bureau of Investigation, 690 Kipling Street, Suite 4000, Denver, CO 80215, phone: 303-239-4211.

OTHERS PRESENT: RAYMOND COLBY (father)

DATE/TIME OF INTERVIEW: April 21, 1999, 1:30 p.m.

PLACE of INTERVIEW: 6593 South Salsbury Court, Littleton, CO 80123

With the permission of COLBY's father, RAYMOND COLBY, a witness interview was conducted concerning COLBY's knowledge of the shooting and bombing incident at Columbine High School on April 20, 1999 at approximately 11:15 a.m. COLBY advised on April 20, 1999, she was not feeling well and had an earache. She telephoned her father and he came to the school and drove her to their residence. According to COLBY, her father signed her out of the school at 11:11 a.m.. She did not hear of the incident until later in the day.

COLBY's association with the Trench Coat Mafia (TCM) was only as an associate in that she knew most of the females that associated with the group. She first met NICOLE MARKHAM in Junior High School while they were attending Ken Caryl Middle School. She advised MARKHAM was CRIS MORRIS's girlfriend. COLBY advised she first met KRISTEN THEIBAULT approximately two years ago when they were freshman at Columbine High School. She advised she met other members of the TCM through MARKHAM and THEIBAULT and stated the group was already formed and had been for approximately two years before she met them. She advised MORRIS was the leader of the TCM. She also had met ERIC HARRIS and DYLAN KLEBOLD in the past, but rarely talked with them. She said she had not talked with either of them for the past one and a half years. However, COLBY stated she talked with the girls who associated with the TCM everyday at school and rarely talked with the males in the group. No one had ever mentioned an event like this occurring or had COLBY ever heard a member or associate of the TCM planning this type of action.

In the past, COLBY had seen MORRIS at school with a hunting knife in his possession. She had never seen firearms in the possession of any TCM member to include HARRIS or KLEBOLD. However, she stated the male members of the group would spare with each other using bamboo martial arts sticks. COLBY never heard HARRIS; KLEBOLD or any other members of the TCM discussing the manufacturing of pipe bombs.

COLBY advised the group was allegedly formed by a group of friends because the athletes in the school and others would harass members of the group and this way they could stick together. The group did not like the athletes because in their opinion the "jocks ruled the school." The athletes and other would tease the group because of their dress and customs. COLBY never heard HARRIS or KLEBOLD using racial slurs nor were they into the neo-Nazi movement to the best of her knowledge. She did stated that sometimes HARRIS and KLEBOLD would speak German to each other, which was their way of making the other students pay attention to them.

COLBY advised she does have access to a computer at her residence, but she never communicated with the group over the computer (not on-line), she only used the computer for schoolwork or to play games.

Earlier today COLBY had spoken with MARKHAM and she advised that MORRIS was in hiding from the police and new media. MARKHAM stated he was hiding due to the harassment from the police and media.

Control Number________

COLBY stated she never imagined anything like this happening and did not think any student was capable of doing this. She believes that occurred due to the constant harassment and teasing the group was receiving from other students in the school. COLBY could provide no further information relevant to this investigation.

COLBY's father was provided with a means of re-contacting the interviewers if his daughter remembers any additional information at a later date. The interview was terminated at 2:30 p.m., April 21, 1999.

CONTROL NUMBER: ______________

WITNESS: **ALI ROBERT BOUKHALFA,** DOB: 6/1/82, STUDENT, 7941 S. Marshal, Ct., Littleton, Co., 80123, 303-933-0880

INTERVIEWER: Agent SCOTT MUNDINE, Colorado Bureau of Investigation, 690 Kipling, Denver, Co., 303-239-4211

DATE: 4/20/99

PLACE OF INTERVIEW: Student parking lot North of Columbine High School

The Reporting Agent (RA) was one of numerous Law Enforcement personnel assigned to interview students being brought out of the school in DPD patrol cars. BOUKHALFA was interviewed and stated the following; that while he was in the cafeteria, he saw a white male wearing a black trench coat and a black hat pull a shot gun from under his coat and shoot it at the ground. He also saw the man throw a grey tube with wires attached into the student parking lot. He heard it explode and saw a lot of smoke. BOUKHALFA then ran upstairs and while doing so, heard two more shots being fired.

22A	902	One fired Federal 12 gauge shot shell.
22B	902	One fired Federal 12 gauge shot shell, 00 buck, 2 ¾ inch.
23	903	One 9 mm Luger caliber Intra-Tec, Model TEC-DC9, semi-automatic pistol, serial # D076305
24	989	One single stack magazine
25	1066	Three green canvas ammunition pouches, empty and one fired 9 mm Luger caliber cartridge case with headstamp of WIN.
26	1067	Twelve live rounds of 12 gauge Winchester Super-X, 00 buck, 15 pellet, 3 inch shot shells, plus 5 ammunition pouches.

CBI Item #	Jefferson Co. S.D. #	Description
27	1110	Thirteen aluminum color, high brass Federal premium 00 buck, 2 ¾ inches 12 gauge shot shells; one brass color Federal 00 buck, 2 ¾ inch, 12 gauge shot shell; one black nylon ammunition belt; and one black nylon snap buckle.
28	1102	One tan color canvas pouch marked "Nikon" with dark brown trim with the name "Klebold" written on the back.
29	1273	Five live rounds of Federal premium 00 buck, 2 ¾ inch, 12 gauge shot shells and two Extra-Lite/Trap, 2 ¾ inch, #8 12 gauge shot shells.
30	1859	One broken magazine and frame.
31	1877	One single stack, 9 mm magazine.
32	1879	One single stack, 9 mm magazine
33	1099	Ten live rounds of Federal premium, 00 buck, 2 ¾ inch, 12 gauge shot shells.
34	1093	One 9 mm magazine and three live rounds of 9 mm Luger caliber ammunition.
35	1094	One live round of Federal premium, 00 buck, 2 ¾ inch, 12 gauge shot shell.
36	1095	One fired 12 gauge Winchester Super-X, 00 buck, 15 pellet shot shell.
37	1096	One live round with the headstamp of WIN 9 mm Luger, full metal jacketed bullet ammunition.
38	1097	Two 9 mm single stack magazines and 18 live rounds of 9 mm Luger caliber ammunition.
40	10126	One .45 auto caliber Glock, model 21, semi-automatic pistol, serial #APC868.

CBI Item #	Jefferson Co. S.D. #	Description
41	10127	One Glock 45 caliber magazine and 9 live rounds of 45 auto caliber ammunition.
42	10128	One 9 mm Luger caliber Glock, model 17, semi-automatic pistol, serial #LN453.
43	10129	One Glock magazine containing 12 live rounds of 9 mm Luger caliber ammunition.
44	10130	One Glock magazine containing 17 live rounds of 9 mm Luger caliber ammunition plus one live round of 9 mm Luger caliber ammunition.
45	10131	One Colt, 223 caliber, 30 round magazine.
46	10132	One Colt, 223 caliber, model #AR-15A3, semi-automatic carbine, serial #LBD004810.
47	10133	One 45 auto caliber SIG SAUER, model P220, semi-automatic pistol, serial #G17138.
48	10134	One magazine containing six 45 auto caliber live rounds of of ammunition.
49	10135	One empty SIG SAUER 45 auto caliber magazine.
50		Box of 45 auto ammunition for test fire.
51	2100	One fired Speer, 9 mm Luger caliber cartridge case.
52	2101	One fired 9 mm Luger caliber cartridge case with the headstamp R-P.
53	2102	One fired Winchester 9 mm Luger caliber cartridge case.
54	2103	One fired 9 mm Luger caliber cartridge case.

CBI Item #	Jefferson Co. S.D. #	Description
55	2104	One fired Speer, 9 mm Luger caliber cartridge case.
56	2105	One fired WCC 88 9 mm Luger caliber cartridge case.
57	2106	One fired PMC 9 mm Luger caliber cartridge case.
58	2107	One fired 9 mm Luger caliber cartridge case with the initials FC on the headstamp.
59	2108	One fired WIN 9 mm Luger caliber cartridge case.
60	2109	One live round of 9 mm Luger caliber FMJ bullet ammunition
61	2110	One fired Federal 12 gauge #8 size shot, shot shell with the letters Extra-Lite/Trap.
62	2111	One fired R-P 9 mm Luger caliber cartridge case.
63	2112	One fired copper jacketed bullet.
64	2113	One fired 9 mm Luger caliber Speer cartridge case.
65	2114	One fired FC 223 REM caliber cartridge case.
66	2115	One fired FC 223 REM caliber cartridge case.
67	2116	One fired FC 223 REM caliber cartridge case.
68	2117	One fired FC 223 REM caliber cartridge case.
69	2118	One live round of R-P 9 mm Luger caliber ammunition.
70	2119	One fired Speer 9 mm Luger caliber cartridge case.
71	2120	One fired Speer 9 mm Luger +P caliber cartridge case.
72	2121	One fired Speer 9 mm Luger +P caliber cartridge case.
73	2126	One fired Federal Extra-Lite/Trap 12 gauge shot shell.

CBI Item #	Jefferson Co. S.D. #	Description
74	2127	One fired WIN 9 mm Luger caliber cartridge case.
75	2128	One fired PMC 9 mm Luger caliber cartridge case.
76	2129	One fired WIN 9 mm Luger caliber cartridge case.
77	2130	One fired WCC 86 9 mm Luger caliber cartridge case.
78	2131	One fired WIN 9 mm Luger caliber cartridge case.
79	2132	One fired FC 87 9 mm Luger caliber cartridge case.
80	2133	One fired PMC 9 mm Luger caliber cartridge case.
81	2134	One fired PMC 9 mm Luger caliber cartridge case.
82	2135	One fired 9 mm Luger caliber cartridge case.
83	2136	One fired Speer 9 mm Luger + P caliber cartridge case.
84	2137	One 9 mm Luger caliber single stack, black magazine.
85	2138	One fired WPC 9 mm Luger caliber cartridge case.
86	2139	One fired 9 mm Luger caliber cartridge case.
87	2140	One fired 9 mm Luger caliber cartridge case.
88	2141	One fired Speer 9 mm Luger +P caliber cartridge case.
89	2142	One fired R-P 9 mm Luger caliber cartridge case.
90	2143	One fired R-P 9 mm Luger caliber cartridge case.
91	2144	One fired R-P 9 mm Luger caliber cartridge case.
92	2145	One fired WIN 9 mm Luger caliber cartridge case.
93	2146	One fired Speer 9 mm Luger caliber cartridge case.
94	2147	One fired WIN 9 mm Luger caliber cartridge case.

CBI Item #	Jefferson Co. S.D. #	Description
95	2148	One fired WIN 9 mm Luger caliber cartridge case.
96	2149	One fired Speer 9 mm Luger +P caliber cartridge case.
97	2150	One fired R-P 9 mm Luger caliber cartridge case.
98	2151	One fired R-P 9 mm Luger caliber cartridge case.
99	2155	One fired R-P 9 mm Luger caliber cartridge case.
100	2153	One fired R-P 9 mm Luger caliber cartridge case.
101	2154	One fired R-P 9 mm Luger caliber cartridge case.
102	2155	One black metal 9 mm Luger caliber single stack magazine.
103	2156	One fired R-P 9 mm Luger caliber cartridge case.
104	2157	One fired R-P 9 mm Luger caliber cartridge case.
105	2158	One fired WPC 95 9 mm Luger caliber cartridge case.
106	2159	One fired WIN 9 mm Luger caliber cartridge case.
107	2160	One fired WIN 9 mm Luger caliber cartridge case.
108	2161	One fired Speer 9 mm Luger +P caliber cartridge case.
109	2162	One fired Speer 9 mm Luger +P caliber cartridge case.
110	2163	One 9 mm Luger caliber, single stack, black metal magazine.
111	2165	One fired Speer 9 mm Luger +P caliber cartridge case.
112	2166	One fired Speer 9 mm Luger +P caliber cartridge case.
113	2167	One fired Speer 9 mm Luger +P caliber cartridge case.

CBI Item #	Jefferson Co. S.D. #	Description
114	2168	One fired Speer 9 mm Luger +P caliber cartridge case.
115	2169	One fired Speer 9 mm Luger +P caliber cartridge case.
116	2170	One fired 9 mm Luger +P caliber cartridge case.

202	2257	One gray and copper color metallic fragment.
203	2264	One flattened metallic fragment.
204	2265	One fired 9 mm Luger caliber cartridge case.
205	2266	One fired R-P 9 mm Luger caliber cartridge case.
206	2267	One copper and gray color metallic fragment.
207	2350	One fired FC 223 REM caliber cartridge case.
208	2351	One fired TZZ 84, 45 auto caliber cartridge case.
209	2352	One fired Speer 45 auto caliber cartridge case.
210	2353	One fired WCC 84 45 auto caliber cartridge case.
211	2354	One fired copper bullet jacket fragment.
212	2355	One fired FC 233 REM caliber cartridge case.

CBI Item #	Jefferson Co. S.D. #	Description
213	2358	One large, double stacked, metal magazine, 50 round capacity plus 40 live rounds of 9 mm Luger caliber ammunition.
214	2359	One live round of 9 mm Luger caliber FMJ bullet ammunition
215	2362	One fired 9 mm Luger caliber cartridge case.
216	2363	One fired 9 mm Luger caliber cartridge case.
217	2364	One fired Speer 9 mm Luger caliber cartridge case.
218	2365	One fired Speer 9 mm Luger caliber cartridge case.
219	2366	One fired Speer 9 mm Luger +P caliber cartridge case
220	2367	One fired Speer 9 mm Luger +P caliber cartridge case
221	2369	One fired FC 223 REM caliber cartridge case.
222	2370	One fired FC 223 REM caliber cartridge case.
223	2373	One fired FC 9 mm Luger caliber cartridge case.
224	2374	One fired copper jacketed bullet.
225	2376	One fired Federal 12 gauge shot shell.
226	2709	One fired copper jacketed bullet.
227	2712	Two 12 gauge fiber shot wads.
228	2720	Eight fired Speer 45 auto caliber cartridge cases.
229	2721	One gray color metallic fragment.
230A,B,C	2722	Three gray color metallic fragments.
231	2726	One fired copper jacketed bullet.

CBI Item #	Jefferson Co. S.D. #	Description
232	2727	One copper color metallic fragment.
233A,B	2730	Two copper bullet jacket fragments.
234	2732	One white plastic shot cup.
235	2736	Six fired Speer 45 auto +P caliber cartridge cases.
236	2742	Twenty-four fired FC 223 REM caliber cartridge cases.
237	8501	One fired copper jacketed bullet.
238	8502	One copper wash pellet.
239A	8513	One fired copper jacketed bullet.
239B	8513	One fired copper jacketed bullet.
239C	8513	Two gray metallic fragments
239D	8513	One copper color shot pellet.
239E	8513	One fired copper jacketed bullet.
239F	8513	One small, white and yellow fragment.
240	8519	One plastic shot shell wadding and one black pellet.
241	8530	Five lead pellets.
242	8539	One gray metallic fragment.
243	8556	One fired copper jacketed bullet.
244	8557	One fired copper jacketed bullet.
245	8588	One shot shell slug and plastic wadding.
246	8615	One shotgun slug.

CBI Item #	Jefferson Co. S.D. #	Description
247	8616	One plastic shot shell wadding.
248	8617	One gray metal fragment.
249	8634	One gray metal fragment.
250	8635	One copper jacketed bullet fragment.
251	8645	Shot shell plastic fragment and metal fragment.
252	8649	One plastic shot shell wad.
253	8660	One copper color pellet.
254	8661	One copper gilded shot pellet.
255	8662	One gray metallic fragment.
256	8663	One plastic shot cup – damaged.
257	8664	One copper color shot pellet.
258	8665	Eight gray metallic fragments.
259	8740	Four gray metal fragments.
260	8757	One fired copper jacketed bullet.
261	8680	One live round of WIN 9 mm Luger caliber full metal jacketed bullet ammunition.
265	0600	One fired 9 mm Luger caliber cartridge case.
266	0602	One fired R-P 9 mm Luger caliber cartridge case.
267	0603	One fired R-P 9 mm Luger caliber cartridge case.
268	0607	One fired Federal 12 gauge shot shell.
269	0608	One fired 9 mm Luger cartridge case.

CBI Item #	Jefferson Co. S.D. #	Description
270	0622	One fired R-P 9 mm Luger caliber cartridge case.
271	0623	One fired R-P 9 mm Luger caliber cartridge case.
272	0624	One fired 9 mm Luger caliber cartridge case.
273	0624	One fired R-P 9 mm Luger caliber cartridge case.
274	0626	One fired Federal 12 gauge shot shell.
275	0627	One fired R-P 9 mm Luger caliber cartridge case.
276	0628	One fired R-P 9 mm Luger caliber cartridge case.
277	0638	One fired Federal 12 gauge shot shell.
278	239	One fired Federal 12 gauge shot shell.
279	0641	One fired R-P 9 mm Luger caliber cartridge case.
280	0642	One fired Federal 12 gauge shot shell.
281	649	One fired R-P 9 mm Luger caliber cartridge case.
282	0658	One fired Federal 12 gauge shot shell.
283	0659	One fired 12 gauge shot shell.
284	0647	One fired R-P 9 mm Luger caliber cartridge case.
285	0661	One live round of PMC 9 mm Luger caliber FMJ bullet ammunition
286	0666	One fired R-P 9 mm Luger caliber cartridge case.
287	0667	One fired R-P 9 mm Luger caliber cartridge case.
289	0671	One fired 3-D 9 mm Luger caliber cartridge case.
290	0672	One fired GFL 9 mm Luger caliber cartridge case.

CBI Item #	Jefferson Co. S.D. #	Description
291	0674	One single stack 9 mm magazine
292	0675	One fired WIN 9 mm Luger caliber cartridge case.
293	0679	One fired Federal 12 gauge shot shell.
294	0688	One fired R-P 9 mm Luger caliber cartridge case.
295	0691	One live round of Win 9 mm Luger caliber FMJ bullet ammunition
296	0720	One fired Winchester 12 gauge shot shell.
297	0742	One fired R-P 9 mm Luger caliber cartridge case.
298	0789	One fired R-P 9 mm Luger caliber cartridge case.
299	0905	One fired Federal 12 gauge shot shell.
300	7625	One fired Federal 12 gauge shot shell.
301	911	One fired FC 9 mm Luger caliber cartridge case.
302	913	One fired 12 gauge shot shell and plastic wad.
303	915	One spent Federal 12 gauge shot shell.
304	916	One fired Federal 12 gauge shot shell.
305	917	One fired PMC 9 mm Luger caliber cartridge case.
306	7625	One fired Federal 12 gauge shot shell.
307	920	One fired Federal 12 gauge shot shell.
308	924	One live round of WCC 87 9 mm caliber ammunition.
309	925	One fired Federal 12 gauge shot shell.

CBI Item #	Jefferson Co. S.D. #	Description
310	926	One fired Federal 12 gauge shot shell.
311	927	One fired Federal 12 gauge shot shell.
312	928	One fired Federal 12 gauge shot shell.
313	930	One fired Federal 12 gauge shot shell.
314	935	One live round of 12 gauge Federal premium, 00 buck, 2 ¾ inch shot shell.
315	940	One fired 45 caliber bullet.
316	946	One live round of R-P 9 mm Luger caliber FMJ bullet ammunition
317	952	One fired WIN 9 mm Luger caliber cartridge case.
318	953	One fired WIN 9 mm Luger caliber cartridge case.
319	954	One fired WIN 9 mm Luger caliber cartridge case.
320	955	One fired WIN 9 mm Luger caliber cartridge case.
321	956	One fired 9 mm Luger caliber cartridge case.
322	957	One fired WIN 9 mm Luger caliber cartridge case.
323	958	One fired WIN 9 mm Luger caliber cartridge case.
324	961	One fired R-P 9 mm Luger caliber cartridge case.
325	965	One fired WIN 9 mm Luger caliber cartridge case.
326	966	One fired WIN 9 mm Luger caliber cartridge case.
327	967	One fired 9 mm Luger caliber cartridge case.
328	968	One fired A-MERC 9 mm Luger caliber cartridge case.

CBI Item #	Jefferson Co. S.D. #	Description
329	969	One fired WCC 87 9 mm Luger caliber cartridge case.
330	971	One fired Federal 12 gauge shot shell.
331	972	One fired Federal 12 gauge shot shell.
332	973	One fired Federal 12 gauge shot shell.
333	974	One fired R-P 9 mm Luger caliber cartridge case.
334	975	One live round of R-P 9 mm Luger caliber FMJ bullet ammunition
335	976	One fired Federal 12 gauge shot shell.
337	1026	One fired R-P 9 mm Luger caliber cartridge case.
338	1029	One fired 9 mm Luger caliber cartridge case.
339	1031	One fired 9 mm Luger caliber cartridge case.
347	1105	One fired WIN 9 mm Luger caliber cartridge case.
349	604	Five small bullet jacket fragments.
350	605	Two gray color metallic fragments and one small copper jacket fragment.
351	606	One small bullet jacket fragment.
352	609	One lead shot pellet.
353	610	One white plastic shot wad.
354	611	One plastic shot pellet.
355	612	One 12 gauge plastic shot wads.
356	613	One bullet jacket and bullet core.

CBI Item #	Jefferson Co. S.D. #	Description
357	614	One fired copper jacket bullet.
358	615	One plastic shot cup.
359	616	One copper wash shot pellet.
360	618	One copper wash shot pellet.
361	619	One plastic shot wad.
362	620	One lead shot pellet.
363	621	One copper was shot pellet.
364	629	One lead shot pellet.
365	630	One copper wash shot pellet.
366	631	One lead shot pellet.
367	633	One lead shot pellet.
368	634	One lead shot pellet and two lead fragments.
369	635	One lead shot pellet.
370	636	One lead fragment.
371	637	One lead shot pellet.
372	640	One bullet jacket fragment.
373	643	One white plastic shot wad.
374	644	One fired copper bullet jacket fragment.
375	645	One metallic fragment.
376	646	One fired copper jacketed bullet.

CBI Item #	Jefferson Co. S.D. #	Description
377	648	One fired copper bullet jacket fragment.
378	650	One lead bullet core metallic fragment.
379	651	One fiber 12 gauge shot wad and one small bullet jacket fragment.
380	652	One lead shot pellet.
381	653	One lead bullet core fragment.
382A	654	One fired bullet with core.
382B	654	One fired bullet jacket fragment.
383	655	One lead shot pellet.
384	656	Two lead shot pellets.
385	657	One fired copper jacketed bullet.
386	660	One plastic shot cup and one plastic shot wad and foil from chewing gum wrapper.
387	662	One lead fragment.
388	663	One fiber shot wad.
390	665	One lead shot pellet.
391	668	One lead shot pellet.
392	669	One lead shot pellet.
393	673	One fired copper jacketed bullet.
394	676	One lead shot pellet.
395	677	One lead shot pellet.

CBI Item #	Jefferson Co. S.D. #	Description
396	678	One lead shot pellet.
397	680	One piece of bullet core material.
398	681	One small copper bullet jacket fragment.
399	682	One small bullet jacket fragment and two small silver metallic fragments.
400	683	One white plastic shot wad.
401	684	One white plastic shot wad.
402	685	One lead shot pellet.
403	686	One gray metallic fragment.
404	687	One lead shot pellet.
405	689	One lead shot pellet.
406	690	One fired copper jacketed bullet.
407	692	One lead shot pellet.
408	693	One white plastic shot cup.
409	694	One white plastic shot wad.
410	695	One fiber shot wad.
411	696	One lead shot pellet.
412	697	One fiber shot wad.
413	698	One copper wash lead shot pellet.
414	699	One silver metallic fragment.
415	700	One gray metallic fragment.

CBI Item #	Jefferson Co. S.D. #	Description
416	701	One fiber shot wad.
417	719	One gray metallic fragment.
418	732	One copper wash lead bullet.
419	733	One gray metallic fragment.
420	734	One gray metallic fragment.
421	735	One ream of paper containing two lead shot pellets.
422	739	One gray metallic fragment.
423	740	One gray metallic fragment plus a wood fragment.
424	741	One fired copper jacketed bullet.
425	743	One gray metallic fragment.
426	744	One piece of lead bullet core material.
427	745	One bullet jacket fragment.
428	746	One fired copper jacketed bullet.
429	747	One fired copper jacket bullet fragment.
430	748	One copper bullet jacket fragment.
431	749	One small silver gray metallic fragment.
432	750	One copper and silver metallic fragment.
433	752	One gray metallic fragment.
434	753	One small, steel fragment.
435	754	One gray metallic fragment.

CBI Item #	Jefferson Co. S.D. #	Description
436	755	One fired jacketed hollow-point bullet.
437	757	One fired copper jacketed bullet.
438	758	One fired copper jacketed hollow-point bullet.
439	759	Three copper metallic fragments and one gray metallic fragment.
440	760	Three small, metallic fragments.
441	761	One small metallic fragment.
442	762	One piece of lead bullet core material.
443	763	One fired copper jacketed bullet.
444	764	One fired copper jacketed bullet.
445	765	One small metallic fragment.
446	766	One fired copper jacketed bullet fragment.
447A	767	One fired, deformed copper bullet jacket material.
447B	767	One fired, deformed copper jacketed bullet fragment.
448	768	One fired copper bullet jacket fragment.
449	773	One copper wash shot pellet.
450	774	One copper plated lead fragment.
451	777	One piece of plastic.
452	778	Two pieces of copper and gray color metal.
453	779	One copper color and one gray color metallic fragments.

CBI Item #	Jefferson Co. S.D. #	Description
454	781	One gray metallic sphere.
455	784	One small gray metallic fragment.
456	785	One copper plated lead sphere.
457	788	One small, silver gray metallic fragment.
458	790	One small, copper metallic fragment.
459	791	One small, copper jacket fragment and one small, silver gray metallic fragment.
460	792	One small, silver gray metallic fragment.
461	793	One piece of lead shot material.
462	794	One copper plated lead fragment.
463	795	One copper wash shot pellet.
464	796	One copper wash shot pellet.
465	797	One copper wash shot pellet.
466	798	One copper plated lead fragment.
467	799	One copper wash pellet.
468	800	One copper plated lead fragment.
469	801	One fired copper bullet jacket fragment.
470	802	One silver gray metallic fragment.
471	803	One copper wash shot pellet.
472	804	One copper jacket bullet fragment.
473	904	One fired copper jacketed bullet.

CBI Item #	Jefferson Co. S.D. #	Description
474	0906	One copper color metallic fragment.
475	0907	One gray metallic fragment.
476-01	912	One copper jacket fragment.
476-02	912	One partial copper bullet jacket fragment.
477	0914	One plastic fragment.
478	0922	One plastic shot shell pellet.
479	0931	One shotgun shell slug.
480	0932	One plastic shot shell wad.
481	0933	One shot shell slug fragment.
482	0936	One plastic shot shell wad.
483	0937	One gray metallic fragment.
484	0938	One copper jacketed bullet fragment.
485	0939	One plastic shot shell wad.
486	941	One fired copper bullet jacket fragment.
487	943	One copper jacket fragment.
488	944	One silver gray metallic fragment.
489	945	One gray metallic fragment.
490	947	One copper color metallic fragment.
491	0949	One plastic shot shell column.
492	950	One fired copper jacketed bullet.

CBI Item #	Jefferson Co. S.D. #	Description
493	0951	One plastic shot shell wad.
494	959	One shot shell column.
495	970	One fiber shot shell wad.
498	979	One gray metallic fragment.
499	980	One gray metallic fragment.
500	981	One gray metallic fragment.
501	983	One plastic shot shell wad.
502	0988	One plastic shot shell wad.
503	990	One plastic shot shell wad.
504	992	One plastic shot shell column.
505	993	One gray metallic fragment.
506	995	One gray metallic fragment.
507	996	One plastic shot shell wad.
508	998	One fired copper jacketed bullet.
509	999	Two gray metallic fragments.
510	1002	One gray metallic fragment.
511	1003	One gray metallic fragment.
512	1004	One gray metallic fragment.
513	1005	One gray metallic fragment.
514	1006	One gray metallic fragment.

CBI Item #	Jefferson Co. S.D. #	Description
515	1008	One gray metallic fragment.
516	1009	One gray metallic fragment.
517	1011	One small, copper color metallic fragment and one gray metallic fragment.
518	1013	One copper color metallic fragment.
519	1014	One copper color metallic fragment.
520	1015	One plastic fragment.
521	1016	One gray metallic fragment.
522	1017	One gray metallic fragment.
523	1018	One plastic shot shell column.
524	1019	One copper color metallic fragment.
525	1021	One copper color metallic fragment.
526	1023	One gray metallic fragment.
527	1024	One gray metallic fragment.
528	1027	One gray metallic fragment.
529	1028	One gray metallic fragment.
530	1030	One gray metallic fragment.
531	1032	One copper color coated gray metallic fragment.
532	1035	One gray metallic fragment.
533	1037	One gray metallic fragment.

CBI Item #	Jefferson Co. S.D. #	Description
534	1038	One gray metallic fragment.
535	1041	One gray metallic fragment.
536	1044	One gray metallic fragment.
537	1045	One gray metallic fragment.
538	1046	One gray metallic fragment.
539	1048	One small, copper color metallic fragment.
540	1049	One small, gray metallic fragment.
541	1050	One gray metallic fragment.
542	1051	One small, copper color metallic fragment.
543	1052	One copper color metallic fragment.
544	1053	One gray metallic fragment.
545	1054	One small, copper color metallic fragment.
546	1055	One copper plated lead fragment.
547	1056	One small, copper color metallic fragment.
548	1057	One gray metallic fragment.
549	1062	One gray metallic fragment.
550	1068	One small, gray metallic fragment.
551	1069	One small, gray metallic fragment.
552	1070	One gray metallic fragment.
553	1071	One plastic shot shell wad.

CBI Item #	Jefferson Co. S.D. #	Description
554	1072	One gray metallic fragment and one copper color metallic fragment.
555	1073	Three small, silver gray metallic fragments.
556	1075	Two small, gray metallic fragments.
557	1081	One small, copper color metallic fragment.
558	1082	Five small, metallic fragments.
559	1083	One gray metallic fragment.
560	1084	One gray metallic fragment.
561	1085	One gray metallic fragment.
562	1086	One small, silver gray metallic fragment.
563	1088	One gray metallic fragment.
564	1080	One gray metallic fragment.
565	1090	One gray metallic fragment.
566	1091	One small, copper color metallic fragment.
567	1092	One flat, silver gray metallic fragment.
568	1103	One fired copper jacketed bullet.
569A	1104	One gray metallic fragment.
569B	1104	One gray metallic fragment.
569C	1104	One gray metallic fragment.
569D	1104	One gray metallic fragment.
570	1107	One gray metallic fragment.

CBI Item #	Jefferson Co. S.D. #	Description
571	1108	One fired copper jacketed bullet.
572	1118	One gray metallic fragment.
573	1120	One plastic shot shell wad.
574	1121	One gray metallic fragment.
575	1122	One buckshot pellet.
576	1123	One small, copper jacket bullet fragment.
577	1124	One large lead fragment.
578	1126	One gray metallic fragment.
579	1127	One copper color metallic fragment.
580	1128	One small, gray metallic fragment.
581	1129	One small, gray metallic fragment.
582	1131	The evidence envelope was marked "Copper color fragment" . When received, this envelope was empty.
583	1132	One gray metallic fragment.
584	1133	One copper color metallic fragment.
585	1135	One pellet and one deformed gray metal fragment.
586	1136	One spherical metallic fragment.
587	1137	One gray metallic fragment.
588	1138	The evidence envelope was marked "2 gray metallic fragments". When received, this envelope was empty.
589	1139	Three pellets.

CBI Item #	Jefferson Co. S.D. #	Description
590	1140	One gray metallic fragment.
591	1130	One small, gray metallic fragment.
592	1141	Shot pellet and one piece of irregularly shaped gray metal.
593	1142	Two spherical shaped copper plated lead fragments.
594	1143	One plastic shot wad and one lead slug.
595	1144	One plastic shot shell wad.
596	1145	One copper color and gray metal metallic fragment.
597	1147	One gray metallic fragment.
598	1147	One copper plated lead fragment.
599	1148	One copper jacketed bullet fragment.
600	1149	One small, copper jacketed bullet fragment.
601	1150	One small, copper color metallic disk.
602	1151	One plastic shot shell column.
603	1152	Metallic fragments.
604A,B	1153	Two silver color metallic fragments
604C	1153	One copper color, deformed, disk-shaped metallic fragment.
604D	1153	One small, deformed, copper color metallic fragment.
605	1154	Two silver gray metallic fragments.
606	1155	One deformed shot pellet.
607	1156	One deformed, gray metallic shot pellet.

CBI Item #	Jefferson Co. S.D. #	Description
608	1157	One gray metallic shot pellet.
609	1158	One gray metallic fragment.
610	1159	Two dark gray metallic fragments.
611	1160	One silver metallic fragment and one copper color metallic fragment.
612	1161	One gray metallic fragment.
613	1162	One silver gray metallic fragment.
614	1163	Four irregularly-shaped, silver gray metallic fragments.
615	1164	One small, silver gray metallic fragment.
616	1165	One small, copper color metallic fragment.
617	1166	Ten small, copper color metallic fragments and one gray metallic fragment.
618A	1168	One silver gray metallic fragment.
618B	1168	One small, gray metallic fragment.
619	1172	One small, deformed copper color metallic fragment.
620	1173	One fired copper bullet jacket fragment.
621	1174	One flat silver gray metallic fragment.
622	1175	One small, copper color metallic fragment
623	1176	One piece of fired copper bullet jacket material.
624A	1124	One fired copper jacketed bullet fragment.
624B	1124	One fired copper jacketed bullet fragment.

CBI Item #	Jefferson Co. S.D. #	Description
624C	1124A	Three small, copper color metallic fragments and one gray color metallic fragment.
664	1945	Copper jacket bullet fragment.
668	1221	One fired R-P 9 mm Luger caliber cartridge case.
669	1222	One fired R-P 9 mm Luger caliber cartridge case.
670	1224	One fired R-P 9 mm Luger caliber cartridge case.
671	1225	One fired R-P 9 mm Luger caliber cartridge case.
672	1227	One fired R-P 9 mm Luger caliber cartridge case.
673	1228	One fired R-P 9 mm Luger caliber cartridge case.
674	1249	One live round of PMC 9 mm Luger caliber full metal jacketed bullet ammunition.
675	1253	One fired Federal 12 gauge shot shell.
676	1255	One fired Federal 12 gauge shot shell.
677	1285	One fired Federal 12 gauge shot shell.
678	1287	One fired R-P 9 mm Luger caliber cartridge case.
679	1520	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp PMC.
680	1525	One fired Federal 12 gauge shot shell.
681	1526	One fired WIN 9 mm Luger caliber cartridge case.
682	1527	One fired Federal 12 gauge shot shell.
683	1528	One fired 9 mm Luger caliber cartridge case.

CBI Item #	Jefferson Co. S.D. #	Description
684	1529	One fired WIN 9 mm Luger caliber cartridge case.
685	1530	One fired Federal 12 gauge shot shell.
686	1531	One fired Federal 12 gauge shot shell.
687	1533	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of WIN.
688	1534	One fired R-P 9 mm Luger caliber cartridge case.
689	1535	One fired WIN 9 mm Luger caliber cartridge case.
690	1536	One fired WIN 9 mm Luger caliber cartridge case.
691	1547	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of R-P.
692	1549	One fired copper jacketed bullet.
693	1617	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of WIN.
694	1809	Four live rounds of 9 mm Luger caliber full metal jacketed bullet ammunition.
695	1810	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of R-P.
696	1811	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of R-P.
697	1814	One live round of 9 mm Luger caliber full metal jacket bullet ammunition with the headstamp of AMERC.
698A	1846	One fired copper jacketed bullet fragment.
698B-T	1846	Nineteen fired 9 mm Luger caliber cartridge cases.
699	1854	One live 12 gauge Federal #8 Extra-Lite/Trap shot shell.

CBI Item #	Jefferson Co. S.D. #	Description
700	1862	One fired FC 9 mm Luger caliber cartridge case.
701	1865	One fired R-P 9 mm Luger caliber cartridge case.
702	1866	One fired FC 9 mm Luger caliber cartridge case.
703	1867	One single column 9 mm caliber magazine.
704	1868	One fired 9 mm Luger caliber cartridge case with the headstamp of WCC 88+.
705	1871	One fired FC 9 mm Luger caliber cartridge case.
706	1872	One fired FC 9 mm Luger caliber cartridge case.
707	1873	One fired WIN 9 mm Luger caliber cartridge case.
708	1874	One fired R-P 9 mm Luger caliber cartridge case.
709	1875	One fired WIN 9 mm Luger caliber cartridge case.
710	1876	One brass color clasp from a necklace or bracelet.
711	1878	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition.
712	1880	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition.
713	1881	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of WIN.
714	1882	One live round of Federal premium 12 gauge, 00 buck, 2 ¾ inch shot shell.
715	1885	One fired 9 mm Luger caliber cartridge case.
716	1886	One live round of 12 gauge Federal #8 shot, Extra-Lite/Trap shot shell.

CBI Item #	Jefferson Co. S.D. #	Description
717	1919	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of R-P.
718	1920	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of Midway.
719	1921	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of PMC.
720	1922	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of R-P.
721	1202	One fired copper jacketed bullet fragment.
722	1205	One gray metallic fragment.
723	1215	One gray metallic fragment and one plastic piece.
724	1229	One plastic shot shell wad and debris.
725	1262	Metallic fragment.
726	1264	One copper jacketed bullet fragment.
727	1286	Metallic fragment.
728	1242-A1	One gray and black non-metallic fragment.
729	1500	One gray metallic fragment.
730	1504	One copper jacketed bullet fragment.
731	1515	One small, lead fragment.
732	1543	One fired copper jacketed bullet.
733	1548	One small, gray metallic fragment.
734	1550	Five small, silver gray metallic fragments and five small, copper color metallic fragments.

CBI Item #	Jefferson Co. S.D. #	Description
735	1551	One fired copper jacketed bullet fragment.
736	1552	One copper color bullet jacket fragment.
737	1553	One fired copper jacketed bullet.
738	1563	One gray metallic fragment.
739	1564	One gray metallic copper wash fragment.
740	1565	One copper wash lead metallic fragment.
741	1566	One small, copper wash and lead fragment.
742	1567	One copper wash shot pellet.
743	1518	One white plastic shot cup.
744	1569	One plastic shot cup.
745	1570	One copper wash lead fragment.
746	1571	One copper wash lead fragment.
747	1572	One plastic shotgun wad.
748	1573	One copper wash lead fragment.
749	1574	One copper wash lead fragment.
750	1575	One copper wash lead fragment.
751	1576	One copper wash lead fragment.
752	1577	One small, lead fragment.
753	1578	One copper wash lead fragment.

CBI Item #	Jefferson Co. S.D. #	Description
754	1579	One plastic wad.
755	1580	Key chain with bead.
756	1581	One copper wash lead fragment.
757	1582	One copper wash lead fragment.
758	1583	Two very small, copper wash lead fragments.
759	1584	One copper wash lead fragment.
760	1585	One copper wash lead fragment.
761	1586	One small, copper wash lead fragment.
762	1589	One copper wash lead fragment.
763	1590	One copper wash lead fragment.
764	1593	One piece of bullet core material.
765	1595	One copper wash lead fragment.
766	1596	One copper wash lead fragment.
767	1597	One plastic shot cup.
768	1598	One very small, copper wash lead fragment.
769	1599	One small, copper wash lead fragment.
770	1600	Two small, bullet jacket fragments.
771	1601	Two small, copper wash lead fragments.
772	1602	One small, copper wash lead fragment.
773	1604	One copper wash lead fragment.

CBI Item #	Jefferson Co. S.D. #	Description
774	1605	Two small, copper wash lead fragments.
775	1606	One small, lead fragment.
776	1607	Two small, flat lead fragments.
777	1608	One small, lead fragment.
778	1609	One shot wad.
779	1610	One shot wad.
780	1611	Two copper wash lead fragments.
781	1612	Three small, copper wash lead fragments.
782	1613	One copper wash lead fragment.
783	1614	One lead fragment.
784	1615	One fired copper jacketed bullet.
785	1616	One lead fragment.
786	1618	One fired copper jacketed bullet.
787	1619	One piece of lead bullet core material.
788	1622	One fired copper jacketed bullet.
789	1800	One fired copper jacketed bullet.
790	1801	One fired copper jacketed bullet.
791	1802	One piece of fired copper bullet jacket material.
792	1803	One fired copper jacketed bullet fragment.

CBI Item #	Jefferson Co. S.D. #	Description
793	1805	One fired copper jacketed bullet.
794	1806	One fired copper jacketed bullet.
795	1807	One fired copper jacketed bullet fragment.
796	1808	One piece of fired bullet core material.
797	1813	One fired copper jacketed bullet.
798	1815	One fired copper jacketed bullet.
799	1819	One fired copper color metal bullet jacket fragment.
800	1821	One 12 gauge plastic shot wad.
801	1822	One fired copper bullet jacket fragment.
802	1823	One fired copper bullet jacket fragment.
803	1824	One gray metallic fragment.
804	1826	Two pieces of dried soil (mud).
805	1827	One fired copper jacketed bullet.
806	1828	One metallic fragment.
807	1831	One fired copper bullet jacket fragment.
808	1832	One fired copper jacketed bullet.
809	1833	One fired copper jacketed bullet.
810	1834	One piece of bullet core material.
811	1836	One gray metallic fragment.
812	1837	One fired copper bullet jacket fragment.

CBI Item #	Jefferson Co. S.D. #	Description
813	1838	One gray metallic fragment with copper color metal attached.
814	1839	One piece of bullet core material.
815	1840	One fired copper bullet jacket fragment.
816	1841	One gray metallic fragment.
817	1842	One fired bullet jacket fragment and several very small pieces of bullet jacket material.
818	1843	One small, gray metallic fragment and one small, copper bullet jacket fragment.
819	1844	One fired copper jacketed bullet fragment.
820	1848	One fired copper jacketed bullet fragment.
821	1849	One gray metallic fragment.
822	1850	Two gray metallic fragments.
823	1851	One gray metallic fragment.
824	1852	One fired copper jacketed bullet fragment.
825	1853	One fired copper jacketed bullet fragment.
826	1855	One fired copper jacketed bullet fragment.
827	1856	One fired copper jacketed bullet fragment.
828	1861	One gray metallic fragment.
829	1863	One gray metallic fragment.
830	1864	One fired bullet fragment.

CBI Item #	Jefferson Co. S.D. #	Description
831	1870	One irregularly-shaped gray metallic fragment.
832	1883	One fired copper jacketed bullet fragment.
833	1887A-1	Three copper bullet jacketed fragments and 19 silver gray metallic fragments.
834A	1887B-2	One fired copper jacketed bullet fragment.
834B	1887B-2	One fired copper jacketed bullet.
834C	1887B-2	One fired copper jacketed bullet fragment.
834D	1887B-2	One fired copper jacketed bullet fragment.
834E	1887B-2	One fired copper jacketed bullet fragment.
834F	1887B-2	One fired copper bullet jacket fragment.
834G	1887B-2	One fired copper bullet jacket fragment.
834H	1887B-2	One fired copper bullet jacket fragment.
834I	1887B-2	Fired bullet jacket fragment.
834J	1887B-2	One fired copper jacketed bullet fragment.
835	1887C-2	Four fired bullet jacket fragments and five silver gray metallic fragments.
836	1887	One fired copper bullet jacket fragment.
836B	1887	One fired copper bullet jacket fragment.
836C	1887	One fired copper bullet jacket fragment.
836D	1887	One copper metallic fragment.
836E	1887	One copper jacket bullet fragment.

CBI Item #	Jefferson Co. S.D. #	Description
837	1887E-1	Two bullet jacket fragments and 16 very small, metallic fragments.
838A	1887F-2	One fired copper bullet jacket fragment.
838B	1887F-2	One fired copper bullet jacket fragment.
839	1889	One piece of bullet core material.
840	1890	One fired copper bullet jacket fragment.
841	1891	One fired copper bullet jacket fragment.
842	1892	One small, fired piece of copper bullet jacket material plus numerous small, gray metallic and copper color metallic fragments.
843	1893	One fired copper bullet jacket fragment.
844	1894	One fired copper bullet jacket fragment.
845	1895	One small piece of fired copper bullet jacket material.
846A	1896	One small piece of fired copper bullet jacket material.
846B	1896	One small piece of fired copper jacket bullet material.
847	1897	One piece of bullet core material.
848	1898	One fired copper jacketed bullet.
849	1899	Three pieces of fired copper bullet jacket material plus numerous small, silver color and copper color metallic fragments.
850	1900	One fired copper jacketed bullet.
851	1901	Two metallic fragments; one appears to be a piece of copper bullet jacket material, the other is a white painted metallic fragment.

CBI Item #	Jefferson Co. S.D. #	Description
852	1902	One fired copper bullet jacket fragment.
853	1903	One small piece of bullet jacket material.
854	1904	One fired cooper jacketed bullet fragment.
855	1905	One fired copper jacketed bullet.
856	1906	One fired copper jacketed bullet.
857	1907	One fired copper jacket bullet fragment.
858	1908	Copper and lead color fragment.
859	1909	One fired copper bullet jacket fragment.
860	1910	One small piece of copper bullet jacket material.
861(1-4)	1911	Five copper bullet jacket fragments.
862	1912	One piece of bullet core material.
863	1913	One fired copper jacketed bullet fragment.
864	1914	One fired copper jacketed bullet fragment.
865	1915	One fired copper jacketed bullet fragment.
866	1916	One fired copper jacketed bullet.
867	1917	One large gray metallic fragment.
868	1918	One fired copper jacketed bullet fragment.
869-1	1923	One fired copper jacketed bullet.
869-2	1923	One fired copper jacketed bullet.

CBI Item #	Jefferson Co. S.D. #	Description
870	1924	One fired copper jacketed bullet.
871	1923	One fired copper jacketed bullet.
872	1926	One piece of copper bullet jacketed material and one piece of gray metal bullet core material.
873	1927	Three small metallic fragments; one of which is copper color and is a piece of fired bullet jacket material.
874	1929	One gray metallic fragment.
875	1930	One gray metallic fragment.
876	1931	One irregularly-shaped gray color metallic fragment.
877	1932	One piece of copper bullet jacket material and six to eight very small, metallic fragments.
878	1933	One piece of bullet core material and one piece of copper jacket bullet material.
879	1934	Eight to 10 metallic fragments; one of which is a piece of copper color bullet material which can be used for comparison.
880	1935	One fired copper jacketed bullet fragment.
881	1936	One fired copper bullet jacket fragment.
882	1937	Two metallic fragments; one gray in color and one copper in color.
883	1938	Three pieces of copper bullet jacket material plus other very small metallic fragments.
884	1939	One fired copper jacketed bullet fragment and several very small metallic fragments.
885	1940	One fired copper jacketed bullet.

CBI Item #	Jefferson Co. S.D. #	Description
898	978	One gray metallic fragment.
899	977	One gray metallic fragment.
900	1845	One fired R-P 9 mm Luger caliber cartridge case.
904	10220	Test fired bullets and cartridge cases from Denver Police Department, 223 caliber, Colt AR15A-2 firearm, serial # LGC010987.
905	10220	Test fired bullets and cartridge cases submitted by the Denver Police Department from a 223 caliber, Colt AR15A-2 firearm, serial #LGC008584.
906	10220	Test fired bullets and cartridge cases submitted by the Denver Police Department from a 223 caliber, Steyr Mannlicher firearm, serial #132130.
907	10220	Test fired bullets and cartridge cases submitted by the Denver Police Department from a 9 mm H&K, MP-5 firearm, serial #325873.
908	10220	Test fired bullets and cartridge cases submitted by the Denver Police Department from a 9 mm caliber H&K MP-5 firearm, serial #62350336.
909	10220	Test fired bullets and cartridge cases submitted by the Denver Police Department from a 45 auto caliber Glock pistol, serial #APC868.
910	10220	Test fired bullets and cartridge cases submitted by the Denver Police Department from a 45 auto caliber Smith & Wesson Model 4567, semi-automatic pistol, serial # TFN9037.
913	2403	One fired 9 mm Luger caliber cartridge case.
914	2404	One fired FC 9 mm Luger caliber cartridge case.

CBI Item #	Jefferson Co. S.D. #	Description
915	2405	One fired 9 mm Luger caliber cartridge case.
916	2406	One fired R-P 9 mm Luger caliber cartridge case.
917	2407	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of SPEER.
918	2410	One fired 9 mm Luger caliber cartridge case.
919	2411	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of FC.
920	2412	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of TZ85.
921	2413	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of FC.
922	2414	One single column, 9 mm caliber magazine.
923	2415	One fired R-P 9 mm Luger caliber cartridge case.
924	2416	One fired R-P 9 mm Luger caliber cartridge case.
925	2417	One fired 9 mm Luger caliber cartridge case.
926	2418	One single column, 9 mm Luger caliber magazine.
927	2419	One fired WIN 9 mm Luger caliber cartridge case.
928	2420	One live round of 9 mm Luger caliber full metal jacketed ammunition with the headstamp of WIN.
929	2421	One fired FC 9 mm Luger caliber cartridge case.
930	2423	One fired R-P 9 mm Luger caliber cartridge case.
931	2424	One fired WCC 92 9 mm Luger caliber cartridge case.

CBI Item #	Jefferson Co. S.D. #	Description
932	2425	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of WIN.
933	2426	One fired 9 mm Luger caliber cartridge case with the headstamp of R-P.
934	2428	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition with the headstamp of WIN.
935	2501	One fired R-P 9 mm Luger caliber cartridge case.
936	2505	One fired R-P 9 mm Luger caliber cartridge case.
937	2512	One fired Winchester 12 gauge shot shell.
938	2408	One metallic fragment.
939	2409	One metallic fragment.
940	2422	One fired copper bullet jacket fragment.
941	2427	Three fired copper jacket bullet fragments.
942	2432	Metallic fragments.
943	2433	One lead fragment.
944	2434	One copper jacketed bullet fragment.
945	2437	One fired copper jacketed bullet fragment.
946	2438	One lead fragment.
947A,B,C	2441	Three copper bullet jacket fragments.
948	2461	One fired copper bullet jacket fragment.

CBI Item #	Jefferson Co. S.D. #	Description
949	2506	One fired copper jacketed bullet fragment.
950	2511	One fired copper jacketed bullet.
951	2515	One piece of bullet core material.
954	8778	One fiber shot shell wad.
970	3000	One fired copper jacketed bullet fragment.
971	6062	One plastic shot shell wad.
972	4088	One fired copper bullet jacket fragment.
973	4090	One fired copper jacketed bullet.
974	4463	One fired copper jacket bullet fragment.
975	4516	One fired copper bullet jacket fragment.
976	4534	One fired copper jacketed bullet.
977	4554	One fired copper jacketed bullet fragment.
978	4587	One fired copper jacketed bullet fragment.
979	4061	Six fired, 9 mm Luger caliber cartridge cases.
980	4065	One fired R-P 9 mm Luger caliber cartridge case.
981	4379	Three fired 9 mm Luger caliber cartridge cases.
982A	4380	One fired 9 mm Luger caliber cartridge case.
982B	4380	One fired copper bullet jacket fragment.
983	4515	One fired 9 mm Luger caliber cartridge case.
984	4549	One fired copper jacketed bullet.

CBI Item #	Jefferson Co. S.D. #	Description
985	4522	One fired copper jacketed bullet.
986	4611	One blank 223 caliber cartridge.
987	4619	One live 12 gauge slug load shot shell, brand name Federal, 2 ¾ inch, maximum high shok slug.
988	6001	Two live rounds of 9 mm Luger caliber full metal jacketed bullet ammunition.
989	6002	One live round of Speer 9 mm Luger caliber full metal jacketed bullet ammunition.
990	6003	One live round of 9 mm Luger caliber full metal jacketed bullet ammunition.
991	6004	One double column magazine with 34 live rounds of 9 mm Luger caliber ammunition.
992	6020	Two live rounds of 9 mm Luger caliber full metal jacketed bullet ammunition.
993	6040	One live round of R-P 9 mm Luger full metal jacketed bullet ammunition.
994	4095	Two fired 12 gauge Fiocchi shot shells.
995	4469	One fired copper jacketed bullet fragment.
996	4538	One metallic fragment.
997	4539	One metallic fragment.
998	4540	One copper jacketed bullet fragment.
1002	10250	One gray metal pellet.
1003	10249	One plastic shot shell wad.

CBI Item #	Jefferson Co. S.D. #	Description
1004	10248	One white Hard Rock Café t-shirt.
1005	10251	One section of a white t-shirt.
1006	10027	One gray metal fragment.
1007	10028	One metallic fragment.
1008	10029	One watch.
1009A	10089	Thirty-eight small, gray metal spheres.
1009B	10089	Thirty small, gray metal spheres.
1010	10090	One silver gray shot pellet.
1011	10091	One piece of lead shot.
1012	10092	One piece of bullet core material.
1013	10097	One fired copper jacketed bullet.
1014 A,B	10222	Two gray metal pellets.
1015 A,B	10223	Two copper color pellets.
1042	0909	One piece of deformed fired copper bullet jacket material and three flattened gray metallic fragments.
1043	1243	One small copper bullet jacket fragment.
1044A	2268	One fired copper jacket bullet fragment.
1044B	2268	One small silver and copper color metallic fragment
1044C	2268	Five small metallic fragments.
1044D	2268	Six 2” long finishing nails.

CBI Item #	Jefferson Co. S.D. #	Description
1045A	2356	One damaged/deformed fired copper bullet jacket fragment.
1045B	2366	One fired copper bullet jacket fragment.
1045C	2366	One small piece of gray color tape with three small shot pellets adhering to the piece of tape.
1045D	2366	Three small copper jacket bullet fragments and one small gray metallic fragment.
1045E	2366	Four 2" finishing nails, one small self-taping screw and one small wire ring.
1046	2752	One gray metallic fragment.
1047	4414	One piece of fired copper bullet jacket material and one ferrous metal fragment.
1048	10283	One fired copper jacketed bullet.
1049	0414	One cut off length of 12 gauge double barrel shot gun barrel approximately 14 7/8" long.

Conclusions

Mechanical function checks on the firearms in items #20, 21, 22, 23, 40, 42, 46 and 47 disclosed that they are functional firearms capable of producing serious injury or death; deadly weapons as defined by Colorado statutes.

During the mechanical function check on item #20 (Savage Springfield 12 gauge shotgun), it was noted that the barrel length was 14" long and the overall length is 25".

On item #22 (Stevens double barrel 12 gauge shotgun), the barrel length was measured at 12 and 15/16 inches and the overall length was 21 3/16 inches. The measurements of the barrels and overall length of the shotguns in items #20 and 22 are below the legal limits of 18 inches of barrel length and overall length of 26 inches.

Item #21 (Hi-Point 9 mm carbine) was test fired using three rounds of the ammunition from item #38 with the magazine in item #38. The firearm did function as designed during the test firing.

Item #23 (IntraTec 9 mm Luger caliber pistol) was test fired using the magazine from item #34 with laboratory ammunition and this pistol was also test fired using the magazine from item #213 and test firing three of the live rounds from item #213. This firearm did function as designed during the test firings.

Item #20 (Savage/Springfield 12 gauge shotgun), was test fired using two of the live rounds of ammunition from item #26.

Item #22 (Stevens double barrel 12 gauge shotgun) was test fired using two of the live rounds from item #27.

The firearms in items #40, 46 and 47 were test fired using the ammunition and/or magazines found in items #41, 42, 43, 44, 45, 48, 49 and 50.

Laboratory examinations of item #30 disclosed the following: a magazine tube and spring. This magazine is missing a foreplate and a follower. In this condition, it is not a functional magazine, however this magazine does fit into the IntraTec pistol (item #23). The magazine in item #991 does fit and function in the item #23 IntraTec pistol.

The magazines in items #24, 31, 32, 38, 84, 102, 110, 291, 703, 922 and 926 fit and function in the item #21 Hi-Point 9 mm Luger caliber carbine.

Macro and microscopic comparisons of the cut end of the double barrel shotgun (item #22) with the cut end of the double shotgun barrel in item #1049 disclosed significant individual characteristics to conclude that these items (#22 and 1049) once formed a single unit.

The fired shot shells in items #36, 268, 274, 277, 278, 280, 282, 283, 293, 296, 299, 300, 303, 304, 309, 310, 313, 330, 331, 332, 335, 677, 680, 682 and 937 were microscopically identified as having been fired in the item #20, 12 gauge Savage Springfield pump action shotgun.

The fired shot shells in items #22a, 22b, 61, 73, 306, 307, 311, 312, 675, 676, 685 and 686 were microscopically identified as having been fired in the item #22, 12 gauge Stevens Savage double barrel shotgun.

The fired cartridge cases in items #25, 52, 53, 54, 55, 56, 57, 58, 59, 74 through 82, 85, 86, 87, 89, 90, 91, 92, 93, 94, 95, 97, 98, 99, 100, 101, 103, 104, 105, 106, 107, 175, 177, 179, 180, 181, 182, 183, 204, 289, 290, 292, 301, 305, 317, 318, 319, 320, 321, 322, 323, 325, 326, 327, 328, 329, 337, 338, 339, 347, 681, 683, 684, 689, 690, 700, 701, 702, 704, 705, 706, 707, 708, 709, 715, 913, 914, 915, 918, 923, 925, 927, 929, 930, 931, 933, 979, 981, 982-A and 983 were all microscopically identified as having been fired in the item #21 (9 mm Luger Hi-Point carbine).

The fired bullet jacket fragment in item #525 was microscopically identified as having been fired from the item #21 (9 mm Luger caliber Hi-Point carbine).

The fired bullets and bullet fragments in items #63, 166, 185, 197, 224, 231, 233-A, 243, 244, 260, 393, 406, 484, 487, 490, 624-A, 624-B, 664, 692, 721, 730, 732, 735, 736, 770, 786, 791, 801, 802, 805, 832, 834-A, 834-B, 834-C, 835-B,C, 836-C, 837-B, 844, 845, 846-A, 856, 880, 881, 882, 883, 885, 945, 947, 948, 970, 973, 974, 975, 976, 982-B, 985, 1045-B and 1048 were found to be consistent with the test fired bullets fired from the item #21 Hi-Point carbine. However, due to a lack of significant individual characteristics, they could not be positively identified. It should be noted that these items were not consistent with any of the other firearms submitted in this case.

The fired bullets in items #239-A, 239-B, 239-E, 237 and 949 were microscopically identified as having been fired from the item #23 (IntraTec 9 mm Luger caliber pistol).

The fired cartridge cases in items #62, 173, 205, 265, 266, 267, 269, 270, 271, 273, 276, 279, 281, 294, 297, 324, 333, 668, 670, 672, 916, 924, 935, and 936 were microscopically identified as having been fired in item #23 (IntraTec 9 mm Luger caliber pistol).

The fired cartridge cases in items #187, 272, 275, 284, 286, 298, 669, 671, 673, 678, 688, 698B-T, 900 and 980 were found to have consistent class characteristics with the test fired cartridge cases fired in item #23. However, due to a lack of significant individual characteristics, they cannot be positively identified.

The fired bullets and bullet fragments in items #200, 349, 351, 356, 357, 372, 374, 376, 377, 382-A, B, 385, 424, 427, 448, 492, 571, 734, 737, 784, 788, 792, 793, 794, 797, 798, 846-B, 868, 869-1, 870, 871, 941, 950, 972, and 1013 were found to be consistent with test fired bullets fired from item #23. However, due to a lack of significant individual characteristics, they could not be positively identified. It should be noted that these items were not consistent with any of the other firearms submitted in this case.

The following items, #40, 42, 46, 47 and 904 through 910 are law enforcement firearms and were submitted for comparison/elimination in this case.

The fired cartridge cases in items #208, 209, and 210 were microscopically identified as having been fired in the item #40 Glock 45 auto caliber pistol.

The fired cartridge cases in items #206, 216, 217 and 218 were microscopically identified as having been fired in item #42 (Glock 9 mm pistol).

The fired cartridge cases in items #188, 189 and 190 were microscopically identified as having been fired in item #46 (Colt 223 caliber semi-automatic carbine).

The fired bullets in items #184, 315, 428, and 508 and the fired cartridge case in item #228 were all microscopically identified as having been fired by item #47 (Sig Sauer 45 auto caliber semi-automatic pistol).

The fired cartridge cases, items #65, 66, 67 and 68 were microscopically identified with the test fired cartridge cases in item #904.

The fired cartridge cases in items #221 and 222 were microscopically identified with the test fired cartridge cases in item #905.

The fired cartridge cases in items #207, 212, and 236 were microscopically identified with the test fired cartridge cases in item #906.

The fired cartridge cases in items #119, 121, 122, 123, 124, 125, 126, 127, 130, 133, 136, 139, 143, 145, 146, 147, 148, 153, 155, 156, 157, 158, 159, 160, 163, 172, 174, 191 and 192 were microscopically identified with the test fired cartridge cases in item #907.

The fired bullets and bullet fragments in items #723, 807, 833, 834-F, 841, 848, 849, 861-2, 861-5, 863, 866, 877 and 1044-A were all microscopically identified with the test fired bullets in item #907.

The fired cartridge cases in items #51, 64, 70, 71, 72, 83, 88, 96, 108, 109, 111, 112, 113, 114, 115, 116, 117, 118, 128, 129, 131, 132, 134, 137, 138, 140, 141, 142, 144, 149, 150, 151, 152, 154, 161, 162, 164, 165, 167, 168, 169, 170, 171, 176, 194, 195, 196, 199, 215, 219, and 220 were all microscopically identified with the test fired cartridge cases in item #908.

The fired cartridge case (item #235) was microscopically identified with the test fired cartridge cases in item #910.

The class characteristics of the fired bullets and bullet fragments in items #120, 178, 226, 233-B, 429, 430, 436, 437, 438, 439, 443, 444, 446, 447-A,B, 472, 473, 476-01, 476-02, 519, 568, 620, 698-A, 789, 790, 808, 809, 815, 817, 818, 819, 820, 824, 825, 826, 827, 830, 834-D, 834-E, 834-G, 834-H, 835-A, 835-D, 836-B, 836-D, 836-E, 837-A, 837-C, 838-B, 840, 842, 850, 852, 853, 854, 855, 857, 858, 859, 860, 861-1, 861-3, 861-4, 864, 873, 878, 879, 884, 977, 984, 995, 998, and 1042 were found to be consistent with the test fire bullets from the law enforcement firearms. However, they lack significant individual characteristics and could not be positively identified. These bullets and fragments were not consistent with the suspect's firearms.

One of the live rounds of 12 gauge Winchester Super-X shot shell ammunition from item #26 was disassembled into its component parts. They consist of 15 lead, 00 buck shot pellets, white granulated buffer material, two thick fiber wads, tan in color, and one thin cup over the powder wad.

One of the 12 gauge Federal premium 00 buck shot shells from item #27 was disassembled into its component parts which consisted of 9 copper wash, 00 buck pellets with granulated buffer material, a white plastic shot cup with a flat base and an over the powder white plastic shot wad.

The specimens in items #246, 479, 481, and 867 are consistent with 12 gauge shot slugs.

Examination of item #245 disclosed one shot cup consistent in size with 12 gauge and one slug that was consistent in size also, with 12 gauge.

Examination of item #594 disclosed one white plastic shot shell wad that is similar in diameter and appearance to the shot shell wads found in the Federal 12 gauge slug loads. Also in this item are two gray metallic fragments. The largest fragment has a portion of the base resembling a rifle shot shell slug. The smaller fragment is of no comparative value.

Items #227, 379, 388, 410, 412, 416, 495, and 954 consist of fiber shot shell wads consistent in size with 12 gauge and similar in appearance to the fiber shot wads found in the disassembled shot shell from item #26.

The plastic shot wad/cup and fragments in items #240, 252, 256, 302, 353, 354, 355, 358, 361, 373, 386, 400, 401, 408, 409, 451, 477, 478, 485, 491, 493, 494, 501, 502, 503, 504, 507, 520, 523, 595, 602, 724, 743, 744, 747, 754, 767, 778, and 779 are consistent in size and appearance to the plastic shot wad/cups found in the disassembled Federal 12 gauge, 00 buck shot shell from item #27.

The plastic shot wads in items #247, 480, 482, 553, 573, 800, and 1003 are consistent in size and appearance to the shot wads found in Federal 12 gauge slug loads.

Examination of item #971 disclosed a light brown, plastic shot shell column. It appears to have a heavier plastic than found in a normal shot shell column and has 8 longitudinal grooves along the exterior of the column. This item is consistent with 12 gauge diameter shot shell columns, but is not consistent with the suspects' Federal or Winchester ammunition in this case.

Examination of item #234 disclosed a white, plastic shot cup. This shot cup is not consistent with the shot cups found in the disassembled shot shells of items #26 and 27. The shot cup in this item is shorter and has smaller indents on the interior surface. These smaller indents suggest that perhaps a smaller size shot was contained within this cup, such as shot size 5 to perhaps 9.

The shot pellets found in items #585, 589, 592, 603, 1009-A,B and 1045-C are consistent in size with #8 to 8 ½ shot.

Examinations of item #251 disclosed the following: seven copper color, flattened, gray metal fragments. These metal fragments, although flattened, do have areas of apparent spherical shape. The average weight of these fragments is consistent with that of 00 buck. The other item is a white, translucent, plastic piece of shot shell wadding. This wadding is of the pedestal type, which is consistent with the wadding in the disassembled Federal shot shell from item #27.

The pieces of shot in items #232, 238, 239-C, D, 241, 242, 253, 254, 255, 257, 258, 352, 359, 360, 362, 363, 364, 365, 366, 367, 368, 369, 370, 371, 380, 383, 384, 387, 390, 391, 392, 394, 395, 396, 402, 403, 404, 405, 407, 411, 413, 414, 418, 421, 422, 431, 449, 450, 454, 456, 461, 462, 463, 464, 465, 466, 467, 468, 470, 471, 474, 475, 498, 499, 505, 506, 510, 511, 512, 513, 514, 515, 516, 517, 526, 530, 531, 533, 534, 536, 546, 552, 558, 561, 563, 565, 569-A, 569-B, 569-D, 570, 572, 574, 575, 583, 586, 590, 593, 596, 598, 606, 607, 608, 609, 610, 612, 613, 618A,B, 740, 742, 745, 746, 748, 749, 750, 751, 753, 757, 759, 760, 762, 763, 765, 766, 769, 773, 781, 782, 898, 899, 1002, 1006, 1010, 1011, 1014, and 1015 are consistent in size and appearance with 00 buck size shot.

The metallic fragments in the following items, #135, 186, 193, 198, 201, 202, 203, 211, 229, 230-A,B,C, 248, 249, 259, 350, 375, 378, 381, 397, 398, 399, 415, 417, 419, 420, 423, 425, 426, 432, 433, 434, 435, 440, 441, 442, 445, 452, 453, 455, 457, 458, 459, 460, 469, 483, 486, 488, 489, 500, 509, 518, 521, 522, 524, 527, 528, 529, 532, 535, 537, 538, 539, 540, 541, 542, 543, 544, 545, 547, 548, 549, 550, 551, 554, 555, 556, 557, 559, 560, 562, 564, 566, 567, 569-C, 576, 577, 578, 579, 580, 581, 584, 587, 591, 597, 599, 600, 604-A,B,C,D, 605, 611, 614, 615, 616, 617, 619, 621, 622, 623, 624-C, 722, 726, 727, 729, 731, 733, 738, 739, 741, 752, 756, 758, 761, 764, 768, 771, 772, 774, 775, 776, 777, 780, 783, 785, 787, 795, 796, 799, 803, 806, 810, 811, 812, 813, 814, 816, 821, 822, 823, 828, 829, 831, 834-I, 834-J, 835-E, 836-A, 837-D, 839, 843, 847, 851, 862, 865, 869-2, 872, 874, 875, 876, 938, 939, 940, 942, 943, 944, 946, 951, 978, 996, 997, 1012, 1043, 1044-B,C, 1045-A, 1045-D, 1046, and 1047 are of no comparative value.

Macro and microscopic examinations of items #250 and 601 disclosed that they are flat, copper color disks. The diameters of these disks are similar in size to the base of a 223 caliber boat-tail bullet.

Item #223 is a fired, FC 9 mm Luger cartridge case. Microscopic comparisons of this cartridge case with the test fired cartridge cases from the suspect firearms in this case and from the law enforcement firearms resulted in no identifications.

Examination of item #239-F disclosed a very small, white and yellow color fragment. This fragment is non-magnetic and non-metallic and is not consistent with fired bullet material.

Examination of item #710 disclosed a brass color clasp, possibly from a necklace or bracelet. This item is not consistent with fired bullet material.

Examinations of item #725 disclosed three, 2 inch long finishing nails, a piece of apparent gray duct tape, one hexagonal machine screw nut, and one approximately 1/8 inch diameter ball of white, gray and red fibers. These items are not consistent with fired bullet material.

Examination of item #728 disclosed a gray and black non-metallic fragment. This fragment is not consistent with fired bullet material.

Examination of item #994 disclosed two fired, Fiocchi master key 12 gauge shot shells, one small section of apparent duct tape and one white, plastic shot wad. Microscopic comparison of the two fired shot shells in item #994 disclosed that they were fired from the same shotgun. However, they were not fired in the shotguns submitted in this case. Examination of the white plastic shot wad disclosed that it is consistent with an over the powder type of shot wad.

Examinations of items #104 and 105 disclosed that they are of no value for muzzle-to-target distance determinations.

Images of the test fired cartridge cases from items 20, 21, 22 and 23 were entered into the Mid-America Drugfire database. A search of the database to see of these firearms could be linked to any other criminal activity resulted in no hits.

The test fired cartridge cases and bullets fired by these firearms should be retained by your department for possible future comparisons as a result of entry in the Mid-America Drugfire database.

Also Submitted

Items #25 (three green ammo pouches on a belt), 28, 29, 33, 35, 37, 60, 69, 214, 225, 261, 285, 287, 295, 308, 314, 316, 334, 386, 674, 679, 687, 691, 693, 694, 695, 696, 697, 699, 711, 712, 713, 714, 716, 717, 718, 719, 720, 755, 804, 917, 919, 920, 921, 928, 932, 934, 986, 987, 988, 989, 990, 992, 993, 1008, 1044-D, 1045-E.

CBI Case #D99-1333 Section: Firearms

Examined by: Ted A. Ritter, Laboratory Agent/Criminalist

Date Completed: May 16, 2000

Date of Submission: 082799

CBI Item #	Jefferson Co. S.D. #	Description
0	--	Test-fired bullets and cartridge cases from firearm Item #'s 40, 42, 46 and 47.
1048	10283	One fired copper jacketed bullet.
1065	10285	One fired R-P 9 mm Luger caliber cartridge case.
1066	20288	Two copper wash shot pellets.
1067	10311	One fired copper and lead bullet fragment.
1068	10312	One small piece of fired copper bullet jacket material and one small silver color metallic fragment.
1069	10313	One small piece of fired copper bullet jacket material and one small silver color metallic fragment.
1070	10314	One silver and copper color metallic fragment.
1071	10315	One silver metallic fragment.
1072	10309	One fired deformed copper jacketed bullet.
1073	10317	One large metallic fragment.
1074	10318	One copper and silver color metallic fragment.
1075	10319	One fired copper and gray color metallic fragment.
1076	10320	One fired Fiocchi 12 gauge shot shell.
1077	10321	One fired Fiocchi 12 gauge shot shell.

CBI Item #	Jefferson Co. S.D. #	Description
1078	10322	One small shot pellet.
1079	10323	One fired copper jacketed/ core bullet fragment.
1080	10324	One deformed piece of copper color fired bullet jacket material.
1081	10325	One fired, deformed copper jacketed bullet.
1082	--	One 12 gauge Remington model WP870 pump action shotgun, serial #W329083M.

Examinations

Please note item #1048 was reported on previously in the original Firearms Report dated June 16, 1999/July 15, 1999. See page #54 of 58.

Mechanical function checks on the Item #1082 Remington shotgun discloses that it is a functional firearm, capable of inflicting serious injury or death, a deadly weapon as defined by Colorado statutes. This shotgun was test-fired with ammunition selected from laboratory stock and it did function as designed.

The fired shot shells of Items 1076 and 1077 were microscopically identified as having been fired in the Item #1082 Remington shotgun.

The class characteristics observed on the breech face area of the fired cartridge case in Item #1065 were found to be consistent with those observed on images made of the test-fired cartridge cases fired in the Item #21 Hi Point carbine. However, since the test-fired cartridges from Item #21 were not re-submitted for comparison, no stronger conclusion can be rendered at this time.

Microscopic comparisons of the fired bullets and bullet fragments in Items 1067, 1068, 1072, 1074, 1079, 1080, and 1081 with the test-fired bullets from Item #0 resulted in the following conclusion: Items #1067, 1068, 1072, 1079, 1080 and 1081 were not fired from the firearms of Items #40, 42, 46 or 47 (submitted as Item #0).

The copper color shot pellets in Item #1066 are consistent in size with 00 buck size shot.

The small shot pellet in Item #1078 is consistent in size with #7 ½ and #8 size shot.

The fired bullet fragments of Items #1069, 1070 and 1075 are not suitable for comparison with test-fired bullets.

The silver color metallic fragments in Items #1071 and 1073 are devoid of rifling characteristics and therefore, are of not comparative value with test-fired bullets.

The barrel bore patch from Item #1082 will be returned with Item #1082. The test-fired cartridge cases fired in Item #1082 will be packaged and returned with Item #0.

27 LK

Case #D99-1333 Add **May 16, 2000** **DOS 8-~~2~~-99**

ITEM CBI #	Jeffco S.D.#	**DESCRIPTION**
0	-------	Test-fired bullets and cartridge cases from firearm Item #'s 40, 42, 46, & 47.
1048	10283	One fired copper jacketed bullet.
1065	10285	One fired R-P 9mm Luger caliber cartridge case.
1066	20288	Two copper wash shot pellets.
1067	10311	One fired copper and lead bullet fragment.
1068	10312	One small piece of fired copper bullet jacket material and one small silver color metallic fragment.
1069	10313	One small piece of fired copper bullet jacket material and one small silver color metallic fragment.
1070	10314	One silver and copper color metallic fragment.
1071	10315	One silver metallic fragment.
1072	10309	One fired deformed copper jacketed bullet.
1073	10317	One large metallic fragment.
1074	10318	One copper and silver color metallic fragment.
1075	10319	One fired copper & gray color metallic fragment.
1076	10320	One fired Fiocchi 12 gauge shot shell.
1077	10321	One fired Fiocchi 12 gauge shot shell.
1078	10322	One small shot pellet.
1079	10323	One fired copper jacketed/core bullet fragment.

I

4/47 A

1080	10324	One deformed piece of copper color fired bullet jacket material.
1081	10325	One fired, deformed copper jacketed bullet.
1082	-----	One 12 gauge Remington model WP870 pump action shotgun, serial # W329083M.

EXAMINATIONS:

Please note Item #1048 was reported on in the original firearms report dated June 16, 1999/July15, 1999. See page #54 of 58.

Mechanical function checks on the Item #1082 Remington shotgun discloses that it is a functional firearm, capable of inflicting serious injury or death, a deadly weapon as defined by Colorado Statutes. This shotgun was test-fired with ammunition selected from lab. stock and it did function as designed.

The fired shot shells of Items 1076 & 1077 were microscopically identified as having been fired in the Item # 1082 Remington shotgun.

The class characteristics observed on the breech face area of the fired cartridge case in Item # 1065 were found to be consistent with those observed on images made of the test-fired cartridge cases fired in the Item #21 Hi Point carbine. However since the test-fired cartridges from Item #21 were not re-submitted for comparison no stronger conclusion can be rendered at this time.

Microscopic comparisons of the fired bullets & bullet fragments in Items 1067, 1068, 1072, 1074, 1079, 1080, and 1081 with the test-fired bullets from Item #0 resulted in the following conclusion: Items 1067, 1068, 1072, 1079, 1080 and 1081 were not fired from the firearms of Items 40, 42, 46 or 47 (submitted as Item O).

The copper color shot pellets in Item #1066 are consistent in size with 00 Buck size shot.

The small shot pellet in Item # 1078 is consistent in size with #7 ½ and #8 size shot.

The fired bullet fragments of Items 1069, 1070 and 1075 are not suitable for comparison with test-fired bullets.

The silver color metallic fragments in Items 1071 and 1073 are devoid of rifling characteristics and therefore are of no comparative value with test-fired bullets.

5147 a

The barrel bore patch from Item #1082 will be returned with Item #1082. The test-fired cartridge cases fired in Item 1082 will be packaged and returned with Item #0.

EXAMINED BY/ TED A. RITTER, LABORATORY AGENT/CRIMINALIST

DATE COMPLETED/MAY 17, 2000

ITEM	JEFFCO S.D.#	DESCRIPTION
#20	900	12 GAUGE SAVAGE/SPRINGFIELD PUMP ACTION SHOTGUN, MODEL 67H, SERIAL #A232432. NOTE: THE STOCK HAS BEEN CUT OFF; THERE IS ONLY A PISTOL GRIP. THE BARREL HAS ALSO BEEN CUT DOWN.
#1090	10310	TWO (2) FLATTENED SILVER COLOR METALLIC FRAGMENTS.
#1091	10347	ONE (1) FOURTEEN INCH LENGTH OF SAWED OFF SHOTGUN BARREL.

EXAMINATIONS:

LABORATORY EXAMINATIONS OF ITEM #1090 DISCLOSED TWO (2) FLATTENED LEAD METALLIC FRAGMENTS, DEVOID OF RIFLING CHARACTERISTICS. THESE FRAGMENTS ARE OF NO VALUE FOR COMPARISON WITH TEST-FIRED BULLETS.

MACROSCOPIC AND MICROSCOPIC COMPARISONS OF THE CUT END OF THE BARREL IN ITEM #1091 WITH THE CUT END OF THE BARREL ON THE ITEM #20 SHOTGUN DISCLOSED CONSISTENCY IN SIZE, SHAPE AND CONTOUR. HOWEVER DUE TO A LACK OF MATCHING INDIVIDUAL CHARACTERISTICS IT CANNOT BE DETERMINED IF THE BARRELS IN ITEMS #20 AND 1091 WERE ORIGINALLY JOINED TO FORM ONE (1) COMPLETE UNIT.

Revised 3/2000

These

value for comparison with test-fired bullets.

Macro and microscopic comparisons of the cut end of the barrel in Item #1091 with the cut end of the barrel on the Item #20 shotgun disclosed consistency in size, shape and contour. However due to a lack of matching individual characteristics it cannot be determined if the barrels in Item's 20 and 1091 were originally joined to form one complete unit.

LABORATORY WORK SHEET

Item # 1091 (10347) Lab. Case # D99-1333 Add

Item: 1- 14" length of sawed off ~~st~~ 12 ga. Shotgun Barrel

Source: Jeffco SO ~~#~~ 11/18/99 (Wendy 5/8/00)

Description of Package: #4 M Plastic Bag

Description of Markings as Received: 99-7625 (10347) Shotgun barrel from item # 251 (heat seals marked 8/31/99 KWB

Laboratory Marks: D99-733 Add # 1091 on Barrel Extension engraved

Laboratory Examination:

Barrel Gauge applied to muzzle end of Barrel indicates 12 gauge Full Choke. Note Front Bead sight is missing from this Barrel

Macro & Micro of cut end disclose that it appears to have cut by a saw Blade.

ID Diameter @ cut end = .730"

Barrel thickness .070" ~~[illegible]~~ .073"

ID Diameter @ muzzle end .707"
This measurement indicates a Improved Modified Choke.

Macro & Micro Comparison of the cut end of the barrel in item # 1091 with the cut end of the barrel on the item # 20 shotgun disclosed consistency in size, shape & contour. However, due to a lack of matching individual characteristics it can not be determined if ~~item~~ the barrels in item's 20 & 1091 were originally joined as one complete unit.

Ted A. Ritter

EXAMINED BY/ TED A. RITTER, LABORATORY AGENT/CRIMINALIST

DATE COMPLETED/NOVEMBER 3, 2000

ITEM	JEFFCO SD #	DESCRIPTION
#1092	8751	ONE (1) PAIR OF POLO BLUE JEANS SIZE 31/30.
#1093	8752	ONE (1) GREEN "T" SHIRT WITH SONY LOGO.

EXAMINATIONS:

MACRO AND MICROSCOPIC EXAMINATIONS OF THE POLO BLUE JEANS IN ITEM #1092(8751) DISCLOSED A HOLE IN THE LOWER LEFT FRONT LEG AND A HOLE IN THE BACK OF THE LOWER LEFT LEG. ACCORDING TO THE AUTOPSY REPORT THE HOLE IN THE LEFT FRONT LEG WOULD BE MORE CONSISTENT WITH A BULLET HOLE OF ENTRY. MICROSCOPIC EXAMINATIONS OF THE OUTSIDE SURFACE AREA AROUND THE HOLE IN THE LEFT FRONT LEG FAILED TO DISCLOSE ANY PHYSICAL FORMS OF GUNPOWDER. THE OUTSIDE SURFACE AREA AROUND THE HOLE IN THE LEFT FRONT LEG WAS PROCESSED CHEMICALLY FOR THE PRESENCE OF A GUNPOWDER PATTERN AND LEAD RESIDUES AND NONE WERE DEVELOPED. THE ABSENCE OF A GUNPOWDER PATTERN PRECLUDES THE POSSIBILITY OF DETERMINING A MUZZLE-TO-GARMENT DISTANCE.

MACRO AND MICROSCOPIC EXAMINATIONS OF THE GREEN "T" SHIRT, ITEM #1093(8752), DISCLOSED TWO (2) HOLES IN THE FRONT, ONE (1) LOCATED IN LEFT FRONT SHIRT SLEEVE AND ONE (1) IN THE LOWER LEFT FRONT ABDOMEN AREA. ACCORDING TO THE AUTOPSY REPORT THESE HOLES WOULD BE CONSISTENT WITH BULLET HOLES OF ENTRY. THE OUTSIDE SURFACE AREAS AROUND THESE HOLES WERE EXAMINED MICROSCOPICALLY AND PROCESSED CHEMICALLY FOR THE PRESENCE OF GUNPOWDER PATTERNS AND NONE WERE OBSERVED OR DEVELOPED. THE ABSENCE OF A GUNPOWDER PATTERN PRECLUDES THE POSSIBILITY OF DETERMINING A MUZZLE-TO-GARMENT DISTANCE. POSITIVE REACTIONS FOR LEAD AND COPPER RESIDUE WERE FOUND AROUND THE OUTSIDE SURFACE OF THE PERIPHERY OF THESE HOLES.

TAR:EH 11/6/00
D99-1333

Case #D99-1333 **November 3, 2000** **DOS 7-31-00**

CBI ITEM#	Jeffco SD #	DESCRIPTION
1092	8751	One pair of Polo blue jeans size 31/30.
1093	8752	One green "T" shirt with Sony logo.

EXAMINATIONS:

Macro and microscopic examinations of the Polo blue jeans in Item #1092(8751) disclosed a hole in the lower left front leg and a hole in the back of the lower left leg. According to the autopsy report the hole in the left front leg would be more consistent with a bullet hole of entry. Microscopic examinations of the outside surface area around the hole in the left front leg failed to disclose any physical forms of gunpowder. The outside surface area around the hole in left front leg was processed chemically for the presence of a gun powder pattern and lead residues and none were developed. The absence of a gunpowder pattern precludes the possibility of determining a muzzle-to-garment distance.

Macro and microscopic examinations of the green "T" shirt, Item 1093(8752), disclosed two holes in the front, one located in left front shirt sleeve and one in the lower left front abdomen area. According to the autopsy report these holes would be consistent with bullet holes of entry. The outside surface areas around these holes were examined microscopically and processed chemically for the presence of gunpowder patterns and none were observed or developed. The absence of a gunpowder pattern precludes the possibility of determining a muzzle-to-garment distance. Positive reactions for lead and copper residue were found around the outside surface of the periphery of these holes.

EXAMS BY: Ted A. Ritter:

LABORATORY WORK SHEET

Item # 1092 (8751) Lab. Case # D99-1333 Add

Item: Polo Jean Company Ralph Lauren Size 31/30

Source: Jeff Co SO (Wendy 9/27/00

Description of Package: ① Heat sealed plastic bag ② T, S + m Brown Paper bag

Description of Markings as Received: ① CBI Evd Tag D99-1333 Jeff Co SO 1092 + 1093 7/31/00 ② Blue Jeans Daniel Rohrbaugh

Laboratory Marks: Inside Top Back Blue ink D99-1333 # 1092

Laboratory Examination:

11/2/00 R Greiss Test - tested a corner of test papers w/ Nitrite solution + all tested proper. - test corners placed w/ test paper

The Greiss (GRP) test was conducted on the outside surface of the Lower Left Leg ~~around~~ around the hole - and no Gun powder pattern was developed. The absence of a Gun powder pattern precludes the possibility of determining a muzzle to target distance.

Micro Exam of the outside surface area around the holes in the Left Leg Failed to disclose any physical Forms of Gun powder

Na Rho test. 1st std test w/ Known Pb Sample (+)

Na Rho test in outside surface of periphery of hole in Lower Left Left resulted in no reaction

Item # 240 Lab. Case # D99-1333

Item: plastic shotshell wadding, 1 ~~gray~~ black pellet

Source: Jefferson Co S.O.

Description of Package: marked/evidence taped paper bag

Description of Markings as Received: 99000007625 8519 shotgun shot cap, wad, pellet 6201 Pierre st victim #2

Laboratory Marks: D991333 E240

Laboratory Examination:
Items are white translucent plastic shotshell base wad w/ pedestal, separate shot column and one (1) small ~~gray metal~~ black sphere. Also w/ items are black + gray fibers + apparent white plastic shotshell granulated filler.

Shot column has 609 cast in bottom exterior + is the same diameter, appearance as shot column of #27 live (disassembled shotshell) Federal 12gauge ~~00Buck~~

Shotshell base w/ pedestal same diameter + appearance as #27 base -

The small ~~gray~~ black sphere appears to be plastic w/ a hole thru center; sphere diameter ≈ 0.120". Not consistent w/ ammunition component - possibly jewelry component -

LABORATORY WORK SHEET

Item # 245 Lab. Case # D99-1333

Item: shotshell slug and plastic wadding

Source: Jefferson Co S.O.

Description of Package: marked/ evidence taped envelope w/ inner envelope.

Description of Markings as Received: 99000007625 8588 lead slug plastic wadding DGH Morgue Mathew Kechter

Laboratory Marks: D991333 E245 KSH

Laboratory Examination:

Items are (1) white translucent plastic shotshell wad component and (1) large shotgun shell slug. The wad component has a 1 cast into nose of the accordian style spacer connecting to an over the powder type base. Diameter of wad = ~.700"-.803" - consistent w/ 12 gauge size. This wadding also similar to wad of #247.

The slug has a diameter of ~0.764" with a weight of ~425.7gr / 27.59gm / 0.973 oz. Slug has the appearance / weight of an 12 gauge shotgun slug - Black fibers embedded in slug nose.

Apparent dried blood on items; cleaned, 10% bleached -

051899-KSH - This plastic wad appears same as wad used in Federal 12gauge 2 3/4" slug load -

Item: plastic shotshell wadding.

Source: Jefferson Co S.O.

Description of Package: marked heat sealed clear plastic bag w/ plastic film container

Description of Markings as Received: 9100007625 8616 shotgun wadding Victim #7 #16 6201 S Pierce st [illegible] coman Hosp

Laboratory Marks: D991333E247 1SA

Laboratory Examination(s)

Item is two(2) white translucent plastic shotgun shell components that are of the approximate width of a 12 gauge component diameter. these items appear to have been originall joined together as 1 unit and consist of a ~~basest~~ over the powder wad w/ "accordian" ~~stylest~~ style spacer wad w/ 10 column petals. Most outer or forward portion of column has an 4 cast in plastic & has a partially flat ~~base~~ surface, possibly for slug load.

Apparent dried blood on wadding - cleaned & 10% bleached -

This wadding similar in size & ~~appearance~~ to #245 wadding. Appears same as Federal 12 gauge 2 3/4" wads used in slug loading.

BULLET WORKSHEET

Item # 250 Case # D99-1333

Item: copper jacket fragment

Received from: Jefferson Co S.O. Date Received: 050599

Description of Package: marked heat sealed clear plastic bag w/ inner envelope

Markings as Received 990000076258635 bullet jacket fragment from front of blue t-shirt

Trace evidence: apparent dried blood - 10% bleached -

Weight: 1.3 grs. 0.09 gms. Diameter: *see below #L&G: N/N TWT.Dir. N/N

Cannelure: # 0 Distance(s) from base: N/A

Nose style: N/A Base style: flat, jacketed, Cu

Bullet finish: copper jacket

Base Impressions: N/A

Nose Impressions: N/A

Condition of bullet: copper jacket fragment, possible base

Land measurements: N/N

Groove measurements: N/N

Possible firearms:

Remarks

Nearly round Bullet Jacket - no land or groove impressions
approx. 0.20" in diameter

051999-KSH- noted similar size to base of 223 boat-tail bullet -

Lab Marks: D991333E250KSH Examiner: KSHammond

Repackaging: As Received Date: 050599

LABORATORY WORK SHEET

Item # 251 Lab. Case # D99-1333

Item: shotgun shell plastic fragments & metal fragments.

Source: Jefferson Co S.O.

Description of Package: marked/evidence taped envelope w/ inner envelope

Description of Markings as Received: 99000007625 8645 4-22-99 wadding & shot frags DGH-Morgue Cassie Bernal Watson & Quinlan

Laboratory Marks: D991333 E251 KsH

Laboratory Examination:

Items are seven (7) copper color washed flattened gray metal fragments w/ four (4) white translucent plastic pieces of shotshell wadding. ~~Apparent~~ dried blood on items, cleaned & 10% bleached.

wadding is pedestal type base w/ separate shotcolumn w/ petals -
Diameter ~0.775" (~12 gauge size). Compared these items to wadding of disassembled #27 federal 2 3/4" 12 gauge
00 Buck wadding & noted similar size & construction -

Metal fragments although flattened do have areas of apparent spherical shape. These fragments vary in size of ~3/8" to ~5/8", total wt = 245.8gr/15.93gm.
Total of best three frags = 137.9gr/8.93gm; these average out to ~~~[illegible]~~ ~45.96 gr/29.76 gm - these weights are nearly that of 00 Buck -

Repackaging: As Received

LABORATORY WORK SHEET

Item # 252 Lab. Case # D99-1333

Item: plastic shotshell wad

Source: Jefferson Co. S.O.

Description of Package: marked/ evidence taped envelope w/ inner envelope

Description of Markings as Received: 990000076258649 shotgun wadding DGH Morgue Homicide Cassie Bernat W Dawson / wadding from hair

Laboratory Marks: D991333E252 KSH

Laboratory Examination:

Item is white translucent plastic shotshell column base w/ most of petals missing. Base has the # 646 cast into plastic; base diameter ≈ 0.716-0.722".

Apparent dried blood is visible on base.

Also note plastic filler impressions on pellet side of base.

This plastic column base appears to be the same diameter & construction to the plastic shot column base of the Federal 00 Buck 12gauge shell of Item #27 (Jeffco #1101).
